## **CURRENCY CONVENTIONS, CURRENCY OF PRESENTATION, USE OF FINANCIAL INFORMATION, INDUSTRY AND MARKET DATA**

### **Certain Conventions**

All references in this Red Herring Prospectus to “India” are to the Republic of India and its territories and possessions and all references herein to the “Government”, “Indian Government”, “GOI”, “Central Government” or the “State Government” are to the Government of India, central or state, as applicable. All references to the “U.S.”, “US”, “U.S.A” or “United States” are to the United States of America and its territories and possessions.

Unless otherwise specified, any time mentioned in this Red Herring Prospectus is in Indian Standard Time (“IST”). Unless indicated otherwise, all references to a year in this Red Herring Prospectus are to a calendar year.

Unless the context requires otherwise, all references to page numbers in this Red Herring Prospectus are to the page numbers of this Red Herring Prospectus.

### **Financial Data**

Unless otherwise stated or context requires otherwise, the financial information and financial ratios included in this Red Herring Prospectus have been derived from our Restated Financial Statements as at and for the Fiscals 2023, 2022 and 2021, prepared in accordance with Ind AS.

The restated financial statements of the Company and in the periods applicable, comprising the restated balance sheet as at March 31, 2023, March 31, 2022 and March 31, 2021, the restated statement of profit and loss (including other comprehensive income), the restated statement of changes in equity and the restated statement of cash flows for the years ended March 31, 2023, March 31, 2022 and March 31, 2021, and the statement of significant accounting policies, and other explanatory information relating to such financial periods (“Restated Financial Statements”) prepared in accordance with Ind AS specified under Section 133 of the Companies Act 2013, the Company has adopted Indian Accounting Standards (Ind AS) with effect from April 01, 2021, with a transition date of April 01, 2020, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and restated in accordance with the SEBI ICDR Regulations and the Guidance Note on Reports in Company Prospectuses (Revised 2019), issued by the ICAI. For further information, see “*Financial Information*” beginning on page 249 of this RHP.

Our Company’s Financial Year commences on April 01st and ends on March 31st of the next year. Accordingly, all references in this Red Herring Prospectus to a particular Financial Year, Fiscal or Fiscal Year, unless stated otherwise, are to the 12 months period ended on March 31st of that particular year.

### **Non-GAAP Measures**

There are significant differences between Ind AS, Indian GAAP, US GAAP and IFRS. Our Company does not provide reconciliation of its financial information to IFRS or US GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our Company’s financial data. Accordingly, the degree to which the financial information included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting policies and practices, the Companies Act, Ind AS, the Indian GAAP and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Red Herring Prospectus should, accordingly, be limited. For risks relating to

significant differences between Ind AS, Indian GAAP and other accounting principles, see Risk Factor No. 70 “*Significant differences exist between Ind AS and other accounting principles, such as Indian GAAP, U.S. GAAP and IFRS, which investors may be more familiar with and may consider material to their assessment of our financial condition.*” beginning on page 69 of this RHP.

Unless the context requires otherwise, any percentage amounts (excluding certain operational metrics), as set forth in “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on pages 32, 188 and 318 respectively, and elsewhere in this Red Herring Prospectus have been calculated on the basis of the Restated Financial Information.

In this Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures in decimals have been rounded off to the second decimal and all percentage figures have been rounded off to two decimal places. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row.

### **Currency and Units of Presentation**

All references to “Rupees” or “₹” or “INR” or “Rs.” are to Indian Rupee, the official currency of the Republic of India; and “USD” or “US\$” are to United States Dollar, the official currency of the United States. Except otherwise specified, our Company has presented certain numerical information in this Red Herring Prospectus in “million” units. In this regard, please note: (a) One million is equal to 1,000,000/10 lakhs; and (b) 10 million is equal to 10,000,000/100 lakhs/ one crore (c) 1 billion is equal to 1,000,000,000/ 100 crore.

However, where any figures that may have been sourced from third-party industry sources are expressed in denominations other than million, such figures appear in this Red Herring Prospectus in such denominations as provided in the respective sources.

In this Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures in decimals, including percentage figures, have been rounded off to the second decimal.

### **Exchange Rates**

This Red Herring Prospectus contains conversion of certain other currency amounts into Indian Rupees that have been presented solely to comply with the SEBI ICDR Regulations. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate or at all.

The following table sets forth, for the periods indicated, information with respect to the exchange rate between the Rupee and the US\$:

Currency	As on March 31, 2023	As on March 31, 2022	As on March 31, 2021	(in ₹)
US\$*	82.36	75.81	73.50	

\*Source: [www.rbi.org.in](http://www.rbi.org.in) and [www.fbil.org.in](http://www.fbil.org.in)

In case the RBI reference rate is not available on a particular date due to a public holiday, exchange rates of the previous working day have been considered.

### **Industry and Market Data**

Unless stated otherwise, industry and market data used in this Red Herring Prospectus has been obtained or derived from publicly available information as well as various industry publications and sources. These publications typically state that the information contained therein has been obtained from sources believed to be reliable but their accuracy and completeness are not guaranteed and their reliability cannot be assured. Accordingly, no investment decisions should be made based on such information. The data used in these sources may have been reclassified by us for the purposes of presentation. Data from these sources may also not be comparable.

Certain information in the sections entitled “Summary of the Offer Document”, “Industry Overview” and “Our Business” on pages 26, 144 and 189, respectively of this Red Herring Prospectus has been obtained and exclusively commissioned and paid for by us in connection with the Offer, the report titled “Stainless Steel Sheets, Washers, Sheet Metal Components and Pipes & Tubes” dated August, 2023 prepared by Dun & Bradstreet which has issued the following disclaimer:

*This study has been undertaken through extensive primary and secondary research, which involves compiling inputs from publicly available sources, including official publications and research reports. Estimates provided by Dun & Bradstreet (“Dun & Bradstreet”) and its assumptions are based on varying levels of quantitative and qualitative analyses, including industry journals, company reports and information in the public domain.*

*Dun & Bradstreet has prepared this study in an independent and objective manner, and it has taken all reasonable care to ensure its accuracy and completeness. This study presents a true and fair view of the industry within the limitations of, among others, secondary statistics, and research, and it does not purport to be exhaustive. The results that can be or are derived from these findings are based on certain assumptions and parameters/conditions. As such, a blanket, generic use of the derived results or the methodology is not encouraged.*

*Forecasts, estimates, predictions, and other forward-looking statements contained in this report are inherently uncertain because of changes in factors underlying their assumptions, or events or combinations of events that cannot be reasonably foreseen. Actual results and future events could differ materially from such forecasts, estimates, predictions, or such statements.*

*The recipient should conduct its own investigation and analysis of all facts and information contained in this report is a part and the recipient must rely on its own examination and the terms of the transaction, as and when discussed. The recipients should not construe any of the contents in this report as advice relating to business, financial, legal, taxation or investment matters and are advised to consult their own business, financial, legal, taxation, and other advisors concerning the transaction.*

The extent to which the market and industry data used in this RHP is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business and methodologies, and assumptions may vary widely among different industry sources.

Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors including those discussed in chapter titled “*Risk Factors*” on page 32 of this Red Herring Prospectus. Accordingly, investment decisions should not be based solely on such information.

In accordance with the SEBI Regulations, we have included in the chapter “*Basis for Offer Price*” on page 128, information pertaining to the peer company of our Company. Such information has been derived from publicly available data of the peer company. Accordingly, no investment decision should be made solely on the basis of such information. Such industry sources and publications are

also prepared based on information as at specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base this information on estimates and assumptions that may prove to be incorrect. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those disclosed in “*Risk Factors*” beginning on page 32 of this Red Herring Prospectus.

## **FORWARD LOOKING STATEMENTS**

This Red Herring Prospectus contains certain “forward-looking statements”. These forward-looking statements generally can be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “propose”, “project”, “will”, “will continue”, “will pursue” or other words or phrases of similar import. Similarly, statements that describe our Company’s strategies, objectives, plans or goals are also forward-looking statements.

All forward-looking statements are subject to risks, uncertainties, expectations and assumptions about us that may vary, some or all of which could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. All statements in this RHP that are not statements of historical fact are ‘forward – looking statements’.

Actual results may differ materially from those suggested by forward-looking statements due to risks or uncertainties associated with expectations relating to and including, regulatory changes pertaining to the industries in India in which we operate and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on its business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes and changes in competition in the industries in which we operate.

Certain important factors that could cause actual results to differ materially from our Company’s expectations and assumptions include, but are not limited to, the following:

1. General economic and business conditions in the markets in which we operate and in the local, regional and national economies;
2. Uncertainty of the continuing impact of the COVID-19 pandemic on our business and operations;
3. Engagement in a highly competitive business and a failure to effectively compete;
4. Inability to identify or effectively respond to evolving preferences, expectations or trends in a timely manner, and a failure to derive the desired benefits from our product development efforts;
5. Changes in technology and our ability to manage any disruption or failure of our technology systems;
6. Our ability to attract and retain qualified personnel;
7. Changes in political and social conditions in India, the monetary and interest rate policies, inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
8. The performance of the financial markets in India and globally;
9. Market fluctuations and industry dynamics beyond our control;
10. Changes in foreign exchange rates or other rates or prices;
11. Inability to collect our dues and receivables from, or invoice our unbilled services to, our customers, our results of operations;
12. Changes in domestic and foreign laws, regulations and taxes and changes in competition in our industry;
13. Termination of clients/ works contracts without cause and with little or no notice or penalty;
14. Inability to obtain, maintain or renew requisite statutory and regulatory permits and approvals or non-compliance with and changes in, safety, health and environmental laws and other applicable regulations, may adversely affect our business, financial condition, results of operations and prospects.

For details regarding factors that could cause the actual results to differ from the expectations, please refer to the chapter titled “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on pages 32, 188 and 318 respectively of

this Red Herring Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated.

We cannot assure Bidders that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, Bidders are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of future performance.

Forward-looking statements reflect the current views of our Company as of the date of this RHP and are not a guarantee of future performance. These statements are based on the management's beliefs and assumptions, which in turn are based on currently available information. Although the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Our Company, our Directors, the Promoter Selling Shareholder, members of the Syndicate or any of their respective affiliates or advisors do not have any obligation to, and do not intend to, update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

In accordance with SEBI ICDR Regulations, our Company and the BRLM will ensure that investors in India are informed of material developments from the date of the Red Herring Prospectus until the time of the grant of listing and trading permission by the Stock Exchanges for the Offer.

In accordance with requirements of SEBI and as prescribed under applicable law, the Promoter Selling Shareholder shall ensure that the Bidders in India are informed of material developments, in relation to statements and undertakings specifically undertaken or confirmed by them in relation to themselves and the Offered Shares in this RHP until the time of the grant of listing and trading permission by the Stock Exchanges. Only statements and undertakings which are specifically confirmed or undertaken by each of the Promoter Selling Shareholder in this RHP shall be deemed to be statements and undertakings made by the Promoter Selling Shareholder.

## OFFER DOCUMENT SUMMARY

The following is a general summary of the terms of the Offer. This summary should be read in conjunction with, and is qualified in its entirety by, the more detailed information appearing elsewhere in this Red Herring Prospectus, including “Risk Factors”, “Objects of the Offer”, “Our Business”, “Industry Overview”, “Financial Information”, “Outstanding Litigation and Material Developments”, “Main Provisions of Articles of Association” and “Offer Procedure” beginning on pages 32, 118, 188, 144, 249, 341, 407 and 381, respectively.

### **Primary business of our Company**

Ratnaveer Precision Engineering Limited is a stainless steel (“SS”) product manufacturer focused on producing finished sheets, washers, solar roofing hooks, pipes and tubes. Stainless steel is a value-added product with high corrosion resistant properties. Higher levels of chromium and additions of other alloy elements enhance the corrosion resistance. Compared to traditional steel, stainless-steel has higher resistance to corrosion, superior aesthetic finish and higher life span. These features have helped in increasing the popularity of stainless-steel across the world.

### **Industry in which our Company operates**

Since 2000, steel production in the country has seen a phenomenal increase as the sector witnessed high investments in capacity addition as well as technology up-gradation. According to World Steel Association (WSA), India produced 118.13 Mn tons of crude steel in CY 2021 and accounted for 6.1% share in global crude steel production. According to WSA’s September 2022 update, India produced approximately 93.3 Mn tons of steel during January – September 2022 period, which nearly 6.4% higher than same period previous year. Unless there are no major disruptions, Indian steel industry would end the year with approximately 124 Mn tons of crude steel. In 2021, India’s crude steel production registered a robust y-o-y growth of 18% against 10% contraction in the previous year while it grew at a CAGR of 4% between 2017-21. Presence of such a vast primary steel manufacturing infrastructure coupled with the low-cost worker has also helped in the growth of secondary and finished steel products. On consumption side, India is also the second largest consumer of finished steel. The emergence of a middle-class consumer segment has altered the consumption landscape in India.

The amounts mentioned above may be subject to additional interest/ penalties being levied by the concerned authorities which have not been included above as not being ascertainable as on date of this Red Herring Prospectus. For further details regarding these legal proceedings, please refer to chapter titled “Outstanding Litigations and Material Developments” on page 341 of this Red Herring Prospectus.

### Risk Factors

An investment in Equity Shares involves a high degree of financial risk. You should carefully consider all information in this Red Herring Prospectus, including the risks described below, before making an investment in our Equity Shares. The risk factors set forth below do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. The section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. For further details, please refer to chapter titled “Risk Factors” on page 32 of this Red Herring Prospectus.

### Contingent Liabilities

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non- occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arise from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

As at March 31, 2023, our Company had the following contingent liabilities:

I. Contingent Liabilities

Sr. No.	Particulars	(₹ in Million)
		As at March 31, 2023
1.	Income tax	100.02

## **SECTION II – RISK FACTORS**

*An investment in equity shares involves a high degree of risk. Prospective investors should carefully consider all the information in this Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in the Equity Shares. The risks and uncertainties described below are not the only ones relevant to us or our Equity Shares, the industry in which we operate or to India. Additional risks and uncertainties, not currently known to us or that we currently do not deem material may also adversely affect our business, results of operations, cash flows and financial condition. If any of the following risks, or other risks that are not currently known or are not currently deemed material, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the price of our Equity Shares could decline, and investors may lose all or part of their investment. In order to obtain a complete understanding of our Company and our business, prospective investors should read this section in conjunction with “Our Business”, “Industry Overview”, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Restated Financial Statements” beginning on pages 189, 144, 318, and 249, respectively, of this Red Herring Prospectus, as well as the other financial and statistical and other information contained in this Red Herring Prospectus. In making an investment decision, prospective investors must rely on their own examination of our Company and our business and the terms of the Offer including the merits and risks involved.*

*Prospective investors should consult their tax, financial and legal advisors about the particular consequences of investing in the Offer. Unless specified or quantified in the relevant risk factors below, we are unable to quantify the financial or other impact of any of the risks described in this section. Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment, which may differ in certain respects from that of other countries.*

*This Red Herring Prospectus also contains certain forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Red Herring Prospectus. For further information, see “Forward-Looking Statements” on page 24 of this Red Herring Prospectus.*

*Unless otherwise indicated or the context otherwise requires, the financial information included herein is based on or derived from our Restated Financial Statements included in this Red Herring Prospectus. For further information, see “Restated Financial Statements” beginning on page 249 of this Red Herring Prospectus. Unless the context otherwise requires, in this section, references to “we”, “us”, “our”, “our Company”, or “the Company” refers to Ratnaveer Precision Engineering Limited.*

*Unless otherwise indicated, industry and market data used in this section has been derived from the report titled “Report on Stainless Steel Sheets, Washers, Sheet Metal Components and Pipes & Tubes” dated August 2023 (the “D&B Report”) prepared and issued by Dun & Bradstreet commissioned by us. Unless otherwise indicated, all financial, operational, industry and other related information derived from the D&B Report and included herein with respect to any particular year refers to such information for the relevant calendar year.*

### **RISKS RELATING TO OUR BUSINESS**

- 1. We do not have long-term agreements with our suppliers for raw materials and an inability to procure the desired quality, quantity of our raw materials in a timely manner and at reasonable costs, or at all, may have a negative impact on our business, results of operations, financial condition and cash flows.**

Our purchases of raw materials are concentrated from a few suppliers. The details of this concentration are provided in the following table:

(₹ in million, except the percentages)

Types of Suppliers	FY 2023		FY 2022		FY 2021	
	Amount of purchases of raw materials	% of total purchases of raw materials	Amount of purchases of raw materials	% of total purchases of raw materials	Amount of purchases of raw materials	% of total purchases of raw materials
Top 10 suppliers	3,663.98	85.64%	2,890.74	68.80%	2,644.30	70.87%
Top 3 domestic suppliers	2,688.65	62.84%	2,389.89	58.24%	1,890.64	52.23%
Top 3 foreign suppliers	559.63	13.08%	282.08	6.71%	459.37	12.31%

However, there is no direct/ indirect relationship between such entities and our Company, our Promoter, Directors and Promoter Group members. Our ability to remain competitive, maintain costs and profitability depend, in part, on our ability to source and maintain a stable and sufficient supply of raw materials at acceptable prices. Our major raw materials include Stainless Steel Sheets, Stainless Steel Coils, Stainless Steel wire and Stainless Steel Scrap. For further information, see “*Our Business – Procurement of Raw Materials*” on page 203 of this Red Herring Prospectus. We depend on external suppliers for all the raw materials required and typically purchase raw materials on a purchase order basis and place such orders with them in advance based on our projected requirements. As a result, the success of our business is significantly dependent on maintaining good relationships with our raw material suppliers. The absence of long-term supply contracts subjects us to risks such as price volatility caused by various factors viz. commodity market fluctuations, currency fluctuations, climatic and environmental conditions, transportation cost, changes in domestic as well as international government policies, regulatory changes and trade sanctions. Some part of our raw materials and consumables are also imported. The USA, Singapore, Malaysia, Hong Kong and UAE constituted the top 5 countries from which the raw materials were imported during the last three financial years. As a result, we continue to remain susceptible to the risks arising out of foreign exchange rate fluctuations as well as import duties, which could result in a decline in our operating margins. If we cannot fully offset the increase in raw material prices with increase in the prices for our products, we will experience lower profit margins, which in turn may have a material adverse effect on our results of operations, financial condition and ultimately lead to a liquidity crunch. In the absence of such contracts, we are also exposed to the risk of unavailability of raw materials in desired quantities and qualities, in a timely manner.

Although we have not faced significant disruptions in the procurement of raw materials in the past, COVID-19 pandemic temporarily affected our ability to source raw materials from certain vendors who were unable to transport raw materials to us. There can thus, be no assurance that in future we will be able to procure the required quantities and quality of raw materials commensurate with our requirements. In Fiscals 2021, 2022 and 2023, the cost of raw materials and components consumed amounts to ₹ 3,224.55 million, ₹ 3,735.22 million, and ₹ 4,189.58 million representing 89.65%, 87.49% and 87.32% respectively, of our revenue from operations. There can also be no assurance that a particular supplier will continue to supply us with raw materials in the future. Any delay in supplying finished products to customers in accordance with the terms and conditions of the purchase orders, such as delivery within a specified time, as a result of delayed raw material supply, could result in the customer refusing to accept our products, which may have an adverse effect on our business and reputation. Further, we cannot assure you of our ability to enter into fresh agreements with suppliers on terms acceptable to us, which could have an adverse effect on our ability to source raw materials in a commercially viable and timely manner as well as the commitments to our customers, which may impact our business and profitability.

Further, as we generally receive purchase orders for supply of our products to customers, we rely on historical trends and other indicators to purchase the required quantities of raw materials. We, therefore, run the risk of purchasing more raw materials than necessary, which could expose us to risks associated with prolonged storage of some of these materials, and materially affect our results of operations. Conversely, if our customers place orders for greater quantities of products compared to their historical requirements, we may not be able to adequately source the necessary raw materials in a timely manner and may not have the required manufacturing capacity to meet such demand. In addition, if all or a significant number of our suppliers for any particular raw material are unable or unwilling to meet our requirements or if our estimates fall short of the demand, we could suffer shortages or significant cost increases. Continued supply disruptions could exert pressure on our costs, and we cannot assure you that all or part of any increased costs can be passed along to our customers in a timely manner or at all, which could negatively affect our business, overall profitability and financial performance.

- 2. *The pricing in the steel industry is subject to market demand, volatility and economic conditions. Fluctuations in steel prices may have a material adverse impact on our business, results of operations, prospects and financial conditions.***

Steel prices fluctuate based on a number of factors, such as, the availability and cost of raw material inputs, fluctuations in domestic and international demand and supply of steel and steel products, international production and capacity, fluctuation in the volume of steel imports, transportation costs, protective trade measures and various social and political factors, in the economies in which the steel producers sell their products and are sensitive to the trends of particular industries, such as, the construction and machinery industries. When downturns occur in these economies or sectors, it may lead to a decrease in steel and steel product prices. Low steel prices adversely affect the businesses and results of operations of steel product producers generally, including ours, resulting in lower revenue and margins and write-downs of products and raw material inventories. Further, substantial decreases in steel and steel product prices during periods of economic weakness have not always been balanced by commensurate price increases during periods of economic strength. Any sustained price recovery shall require a broad economic recovery, in order to underpin an increase in real demand for steel and steel products by end users. In addition, the volatility, length and nature of business cycles affecting the steel and steel products industry may become increasingly unpredictable, and the recurrence of another major downturn in the industry may have a material adverse impact on our business, results of operations, financial condition and prospects.

- 3. *We are dependent on a few customers for a major part of our revenues. Further we do not enter into long-term arrangements with our customers and any failure to continue our existing arrangements could adversely affect our business and results of operations.***

Our sales are concentrated to a few customers and our revenue from operations from our top 10 customers as in Fiscal 2023, Fiscal 2022 and Fiscal 2021 is set out below:

Particulars	Fiscal 2023		Fiscal 2022		Fiscal 2021	
	Revenue from Operations (₹ in million)	% of Revenue from Operations	Revenue from Operations (₹ in million)	% of Revenue from Operations	Revenue from Operations (₹ in million)	% of Revenue from Operations
<b>Customer 1</b>	869.51	18.12	739.29	15.06	457.28	10.98
<b>Customer 2</b>	529.18	11.03	292.46	5.96	236.51	5.68
<b>Customer 3</b>	335.09	6.98	207.41	4.22	181.50	4.36
<b>Customer 4</b>	111.34	2.32	125.33	2.55	112.37	2.70
<b>Customer 5</b>	106.36	2.22	123.87	2.52	109.82	2.64

<b>Customer 6</b>	90.37	1.88	113.62	2.31	107.61	2.58
<b>Customer 7</b>	86.56	1.80	99.61	2.03	95.83	2.30
<b>Customer 8</b>	86.37	1.80	85.38	1.74	71.79	1.72
<b>Customer 9</b>	86.32	1.80	65.03	1.32	58.77	1.41
<b>Customer 10</b>	79.51	1.66	54.95	1.13	40.51	0.98
<b>Total</b>	<b>2,380.61</b>	<b>49.62</b>	<b>1,906.95</b>	<b>38.84</b>	<b>1,471.99</b>	<b>35.35</b>

However, there is no direct/ indirect relationship between such entities and our Company, our Promoter, Directors and Promoter Group members. We presently do not have any long-term or exclusive arrangements with any of our customers and we cannot assure you that we will be able to sell the quantities we have historically supplied to such customers. In the event our competitors' products offer better margins to such customers or otherwise incentivize them, there can be no assurance that our customers will continue to place orders with us. Most of our transactions with our customers are typically on a purchase order basis without any commitment for a fixed volume of business. There can also be no assurance that our customers will place their orders with us on current or similar terms, or at all. Further, our customers could change their business practices or seek to modify the terms that we have customarily followed with them, including in relation to their payment terms. While we negotiate product prices and payment terms with our customers, in the event our customers alter their requirements, it could have a material adverse effect on our business growth and prospects, financial condition, results of operations and cash flows. In addition, our customers may also cancel purchase orders at short notice or without notice, which could have an impact on our inventory management. In the event of frequent cancellations of purchase orders, the same could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Although our Company maintains long-term relationship with our major customers, there can be no assurance that we will continue to maintain such relationship with our customers. Further, in the event our customers experience any delays in placing orders with us, or if they prefer to buy the products of our competitors, it could have a material adverse effect on our business growth and prospects, financial condition, results of operations and cash flows. Our inability to maintain our existing customer network could have a negative impact on our sales, business growth prospects, result in slowdown of operation, financial conditions and cash flows. Further, the performance of our customers, their sales network and their ability to expand their businesses are crucial to the future growth of our business and directly affect our sales volume and profitability. If any of the customers fails to sell our products to the end customers, or if our relationships with our customers are affected, our profitability could be significantly affected.

**4. A significant portion of our domestic sales are derived from the western and north zone and any adverse developments in this market could adversely affect our business.**

Set forth below is certain information on our geography-wise domestic revenue from operations for the periods indicated:

Zone	Break-up of total domestic revenue from operations (%)		
	FY 2023	FY 2022	FY 2021
<b>West<sup>(1)</sup></b>	69.16%	68.36%	71.53%
<b>North<sup>(2)</sup></b>	11.63%	12.06%	13.09%
<b>South<sup>(3)</sup></b>	Negligible		
<b>East</b>	Nil		
<b>Total</b>	<b>80.79%</b>	<b>80.42%</b>	<b>84.62%</b>

<sup>(1)</sup> West includes state of Maharashtra, Gujarat and Rajasthan

<sup>(2)</sup> North includes state of Delhi and Haryana

<sup>(3)</sup> South includes Tamil Nadu and Karnataka

We have historically derived a significant portion of our revenue from sales in the western and north zone. Our revenue from domestic sales for the Fiscals 2023, 2022 and 2021 was ₹ 3,875.39 million, ₹ 3,431.72 million and ₹ 3,041.76 million respectively which was 80.79%, 80.42% and 84.62% of revenue from operations respectively. In Financial year ended March 31, 2023 the revenue generated from sales in western and northern zone represented 69.16% and 11.63% respectively of our revenue from domestic sales.

Accordingly, any materially adverse social, political or economic development, natural calamities, civil disruptions, regulatory developments or changes in the policies of the state or local government in these regions could adversely affect our manufacturing and distribution activities, result in modification of our business strategy or require us to incur significant capital expenditure, which will in turn have a material adverse effect on our business, financial condition, results of operations, and cash flows. Further, our sales from these regions may decline as a result of increased competition, regulatory action, pricing pressures, fluctuations in the demand for or supply of our products or services, or the outbreak of an infectious disease such as COVID-19. Our failure to effectively react to these situations or to successfully introduce new products or services in these markets could adversely affect our business, prospects, results of operations, financial condition, and cash flows. The occurrence of, or our inability to effectively respond to, any such events or effectively manage the competition in the region, could have an adverse effect on our business, results of operations, financial condition, cash flows and future business prospects.

**5. *Our business is working capital intensive. If we experience insufficient cash flows from our operations or are unable to borrow to meet our working capital requirements, it may materially and adversely affect our business and results of operations.***

Our business requires significant amount of working capital primarily as a considerable amount of time passes between purchase of raw materials and collection of receivables post sales to customers. As a result, we are required to maintain sufficient stock at all times in order to meet manufacturing requirements as well as extend credit period to customers as per the industry practice, thus increasing our storage and working capital requirements. Consequently, there could be situations where the total funds available may not be sufficient to fulfil our commitments and hence we may need to incur additional indebtedness in the future or utilize internal accruals to satisfy our working capital needs. Our future success depends on our ability to continue to secure and successfully manage sufficient amounts of working capital. Our working capital turnover ratio for the Fiscals 2023, 2022 and 2021 was 5.80, 8.35 and 8.69, respectively. Further, the average credit period given to the customers by our Company is 75 days and average credit period offered to our Company by the Suppliers is 30 days. Moreover, our ability to arrange financing and the costs of capital of such financing are dependent on numerous factors, including general economic and capital market conditions and the effect of events such as the pandemics, outbreak of wars, credit availability from banks, investor confidence, the continued success of our operations and other laws that are conducive to our raising capital in this manner.

As we pursue our growth plan, we may be required to raise additional funds by incurring further indebtedness or issuing additional equity to meet our capital expenditures in the future. If we experience insufficient cash flows or are unable to borrow funds on a timely basis, or, at all, to meet our working capital and other requirements, or to pay our debts, it could materially and adversely affect our business and results of operations. Management of our working capital requirements involves the timely payment of, or rolling over of, our short-term indebtedness and securing new and additional loans on acceptable terms, or re-negotiation of our payment terms for our trade payables, collection of trade receivables and preparing and following accurate and feasible budgets for our business operations. If we are unable to manage our working capital requirements, our business, results of operations, financial condition and cash flows could be materially and adversely affected. There can be no assurance that we will be able to effectively manage our working capital. Should we fail to effectively implement sufficient internal control procedures and management systems to

manage our working capital and other sources of financing, we may have insufficient capital to maintain and grow our business and we may breach the terms of our financing agreements with banks, face claims under cross-default provisions and be unable to obtain new financing, any of which would have a material adverse effect on our business, results of operations, financial condition and cash flows. For further information on the working capital facilities currently availed of by us, please see “Restatement Financial Statements” and “*Financial Indebtedness*” on page 249 and 337 of this Red Herring Prospectus.

- 6. *Our business is a high volume-low margin business. Due to this nature of our business, sudden changes with respect to price movements in goods being traded or sudden ad hoc anomalies in business or operations could substantially affect our net bottom lines and hence, adversely affect our results of operations and financial conditions.***

Our business is a high-volume low margin business. Our inability to regularly grow our turnover and effectively execute our key business processes could lead to lower profitability and hence adversely affect our operating results, debt service capabilities and financial conditions. Due to the nature of the products we manufacture, sell and due to high competition, we may not be able to charge higher margins on our products. Hence, our business model is heavily reliant on our ability to effectively grow our turnover and manage our key processes including but not limited to procurement of raw material and timely sales / order execution.

For the financial year 2023, 2022 and 2021, our revenue from operations was ₹ 4,797.48 millions, ₹ 4,269.38 millions and ₹ 3,596.63 millions, respectively. Our profit before tax and profit after tax margin was ranging between 2% to 7%.

The table below gives details of our Profit Before Tax (PBT) and Profit After Tax (PAT) margins based on restated financials.

Particulars	FY2023	FY 2022	FY 2021
<b><i>Return Based</i></b>			
ROE	29.12%	15.46%	10.15%
ROCE	12.62%	9.67%	10.33%
<b><i>Margin Based</i></b>			
EBIDTA	9.80%	6.81%	6.76%
PBT	6.38%	3.15%	2.67%
PAT	5.22%	2.22%	1.52%

As part of our growth strategy, we aim to improve our functional efficiency and expand our business operations. Our growth strategy is subject to and involves risks and difficulties, many of which are beyond our control and, accordingly, there can be no assurance that we will be able to implement our strategy or growth plans or complete them within the timelines. Further, we operate in a dynamic industry, and on account of changes in market conditions, industry dynamics, technological improvements or changes and any other relevant factors, our growth strategy and plans may undergo changes or modifications, and such changes or modifications may be substantial, and may even include limiting or foregoing growth opportunities if the situation so demands. Due to the nature of our business involving low profit margins, sudden changes with respect to price movements in goods being traded or sudden *ad hoc* anomalies in business or operations could substantially affect our net bottom lines and hence, adversely affect our results of operations and financial conditions.

For further details regarding the discussions and explanations for our past results, please refer to the chapter titled “*Management’s Discussions and Analysis of Financial Condition and Results of Operations*” beginning on page 318 of this Red Herring Prospectus.

**7. We have experienced negative cash flows in relation to our operating, investing and financing activities in the last three financial years. Any negative cash flows in the future would adversely affect our results of operations and financial condition.**

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet its capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flow, it may adversely affect our business and financial operations. We experienced negative cash flows in the following periods as indicated in the table below:

Particulars	FY 2023	FY 2022	FY 2021	<i>(₹ in million)</i>
Net cash used/ generated from operating activities	(143.36)	(155.09)	129.30	
Net cash used/ generated from investing activities	(170.17)	(116.10)	(111.50)	
Net cash used/ generated from financing activities	420.32	280.44	(9.98)	
Net increase/ (decrease) in cash and cash equivalent	106.79	9.26	7.82	

There can be no assurance that our net cash flows shall be positive in the future. Any negative cash flows in the future over extended periods, or significant negative cash flows in the short term, could materially impact our ability to operate our business and implement our growth plans. As a result, our cash flows, business, future financial performance and results of operations could be materially and adversely affected. For further details, see “*Financial Statements*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on pages 249 and 318, respectively.

**8. We operate in a highly competitive and fragmented industry with low barriers to entry and may be unable to compete successfully against existing or new competitors, the organized and unorganized.**

We operate in an industry which is highly competitive and fragmented and we compete with a range of organized and unorganized players, both at the national and regional level. Further, while we have an expanding portfolio of products, our competitors may have the advantage of focusing on concentrated products. Further, we compete against established players also, which may have greater access to financial, technical and marketing resources and expertise available to them than us in the products and services in which we compete against them.

Further, industry consolidation may affect competition by creating larger, more homogeneous and potentially stronger competitors in the markets in which we compete. Our competitors may further affect our business by entering into exclusive arrangements with our existing or potential clients. There can be no assurance that we will be able to compete successfully against such competitors or that we will not lose our key core employees, associates or clients to such competitors. Additionally, our ability to compete also depends in part on factors outside our control, such as the availability of skilled resources, pricing pressures in the staffing industry and the extent of our competitors’ responsiveness to their client’s needs. Our business may also be affected should our present or prospective clients choose to utilise their internal workforce or rely on independent contractors or local recruitment agencies in the organised segment for meeting their manpower requirements. Our continued success depends on our ability to compete effectively against our existing and future competitors. With the potential entry of new competitors, given the low entry barriers in the industry where we operate, our ability to retain our existing clients and to attract new clients is critical to our

continued success. As a result, there can be no assurance that we will not encounter increased competition in the future nor can there be any assurance that we will, in light of competitive pressures, be able to effectively compete with our competition in the various product and service segments we operate in, whether on the basis of pricing, quality or range of services or otherwise, which could have a material adverse effect on our business, results of operations and financial condition.

**9. We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.**

We have in the past entered into transactions with certain our related parties. While all such transactions have been conducted on an arm's length basis and are in compliance with the provisions of Companies Act, 2013 for the financial reporting period, we cannot assure you that we could not have obtained more favourable terms had such transactions been entered into with unrelated parties.

Further, it is likely that we may enter into additional related party transactions in the future. Such related party transactions may potentially involve conflicts of interest. We cannot assure you that any such future transactions, individually or in the aggregate, will always be in the best interests of our minority shareholders and will not have an adverse effect on our business, results of operations, cash flows and financial condition.

Related party transactions with our Promoter, some of our Directors, their entities and relatives and our promoter group primarily relate to remuneration, loan and sales. Below table describes the related party transactions:

<sup>(1)</sup> Rent is being paid by our Company in respect of (i) Unit II, (ii) Bungalow Nos. 20 & 21, Vijay Society No. 1, New Khanderao Road, Vadodara, Gujarat; and (iii) Bungalow No.2, Solace Park, Manjusar, Vadodara, Gujarat.

The above-mentioned related-party transactions have been done on arm's length basis and are in compliance with the provisions of Companies Act, 2013 for the financial reporting period. For further information on our related party transactions, please see "Note 44 – Related Party Transactions" in the chapter titled "Restated Financial Statements" on page 310.

**10. Most of our Directors do not have any prior experience of being a director in any other listed company in India.**

Our current Board comprises of six directors which includes Chairman and Managing Director, one Whole-time Director, three non-executive independent directors and one non-executive non-independent director. Most of our board of directors do have any prior experience of being a director in any other listed company in India. While our Board members are qualified and have relevant experience in their respective field, not having any prior experience as being a director in any other listed company in India may present some potential challenges to our Company in effectively meeting with good corporate governance norms and practices. Additionally, having lack of such experience amongst the board of directors may impact our Company's credibility and reputation among the investors and other stakeholders. For further details, please see chapter titled "Our Management" on page no. 223 of this Red Herring Prospectus.

**11. Under-utilization of our production capacities could have an adverse effect on our business, future prospects and future financial performance.**

As of March 31, 2023, we are operating out of four units in Vadodara and Ahmedabad, Gujarat with an aggregate estimated installed production capacity of 6,000 metric ton per annum for stainless steel washers, 18,500 metric ton per annum for stainless steel finishing sheets, 2,000 metric ton per annum for pipes & tube. Our ability to maintain our profitability depends on our ability to optimize the product mix to support high-margin products and products with consistent long-term demand and the demand-supply balance of our products in the principal and target markets. In particular, the level of our capacity utilization can impact our operating results. Capacity utilization is also affected by our product mix and the demand and supply balance. The following table sets forth certain information relating to capacity utilization of our Units calculated on the basis of total installed production capacity and actual production as of/ for the periods indicated below:

Fiscal	Units	Finishing Sheets	Washers & Solar hook	Tubes & Pipes	(Units In MT)
2022-23	Capacity	18,500	6,000	2,000	
	Production	15,830	2,091	1,109	
	Utilization	85.56%	34.85%	55.45%	
2021-22	Capacity	18,500	5,500	2,000	
	Production	14,906	3,707	1,134	
	Utilization	80.57%	67.40%	56.70%	
2020-21	Capacity	16,500	4,800	2,000	
	Production	15,919	2,408	1,385	
	Utilization	96.48%	50.17%	69.25%	

As certified by Upendra Nath Mahto, Independent Chartered Engineer vide his certificate dated July 13, 2023

For further information, see “*Our Business – Capacity and Capacity Utilization*” on page 203 of this Red Herring Prospectus. These percentage are not indicative of future capacity utilization, which are dependent on various factors, including demand for our products, availability of raw materials, shipping cost, our ability to manage our inventory and improving operational efficiency. Under-utilization of our production capacities over extended periods or significant under-utilization in the short-term could materially and adversely impact our business, growth prospects and future financial performance.

Our capacity utilization levels are dependent on our ability to carry out uninterrupted operations at units, the availability of raw materials, industry/ market conditions, as well as by the product requirements of, and procurement practice followed by our customers. In the event we face prolonged disruptions at our facilities including due to interruptions in the supply of electricity, water or as a result of labour unrest, or are unable to procure sufficient raw materials, we would not be able to achieve full capacity utilization of our current Units, resulting in operational inefficiencies which could have a materially adverse effect on our business and financial condition.

**12. *We have not received necessary approval from the competent authority for construction of a portion of our factory premises at Unit-I admeasuring about 1,300 square meters.***

Our factory premises which are located at Plot E/77, Savli Industrial Estate, Gujarat (Unit-I) admeasuring about 7,005.25 sq. mtrs. have been constructed in accordance with the plans sanctioned by the competent authority i.e. Executive Engineer, GIDC. Subsequently, our Company has constructed additional area of about 1,300 sq. mtrs. at Unit-I which area is being used to undertake production of SS finishing sheets. As per terms of the lease deed dated October 30, 2002 executed by GIDC in our favour, any alteration or addition to any building or construction on Unit-I requires prior written approval from Executive Engineer, GIDC which approval has not been obtained by us in respect of the aforesaid additional constructed area. Our Company has on January 13, 2023 applied to GIDC for seeking such approval from Executive Engineer, GIDC which approval is still pending.

There can be no assurance that the relevant authority (i.e. Executive Engineer, GIDC) will approve/ authorize the construction of the aforesaid additional area carried out by us. Further, there is no assurance that the relevant authorities will not initiate penal action against us, restrain our operations, impose fines/ penalties, initiate legal proceedings or suspend or terminate the lease granted to us for our inability to obtain the prior approval for the additional construction. Non-receipt of such approval / authorization could adversely affect our operations relating to SS finishing sheets business. Our revenues from finishing line business were INR 3,057.33 Million, INR 2,713.04 Million and INR 2,389.23 Million which constitutes 63.73%, 63.55% and 66.43% of our total revenues for the Fiscals 2023, 2022 and 2021, respectively. Further, there is no assurance that the relevant authorities will not initiate penal action against us, restrain our operations, impose fines/ penalties, initiate legal proceedings or suspend or terminate the lease granted to us for our inability to obtain the prior approval for the additional construction. Such approval, if granted, may also be subject to numerous conditions some of which may be onerous or may require further compliances to be undertaken by us.

We cannot assure you that such non-compliances will not occur in the future or that we may not be subject to any penalties in relation to such non-compliances which may affect our profitability, business, financial conditions and results of operations. If there is any failure by us to obtain the aforesaid approval from Executive Engineer, GIDC, we may have to incur increased costs, be subject to penalties, suffer a disruption in our operations or might result in revocation of some of our approvals and permits, any of which would adversely affect our business, financial conditions, results of operations and cash flows.

**13. Our inability to collect receivables from our customers or default in payment by them could result in the reduction of our profits and affect our cash flows.**

Our operations involve extending credit for extended periods of time to our customers in respect of our products and consequently, we face the risk of non-receipt of these outstanding amounts in a timely manner or at all, particularly in the absence of long-term arrangements with our customers. While we have not adopted any credit policy, we typically operate on pre-sanctioned credit limits with customers and cannot guarantee that our customers will not default on their payments. While we generally monitor the ability of our customers to pay these open credit arrangements and limit the credit, we extend to what is reasonable and based on an evaluation of each customer's financial condition and payment history, we may still experience losses because of a customer being unable to pay. As a result, while we maintain a reasonable allowance for doubtful receivables for potential credit losses based upon our historical trends and other available information, there is a risk that our estimates may not be accurate. As majority of our customers operate from foreign jurisdictions, pursuing legal remedies to collect the trade receivables may involve paying higher legal fees and other expenses. Our inability to collect receivables from our customers in a timely manner or at all in future, could adversely affect our working capital cycle and cash flows. In Fiscals 2023, 2022 and 2021, our trade receivables were ₹ 633.72 Million, 402.89 Million and ₹ 332.50 Million respectively, which represented 13.21% 9.44% and 9.24% of our revenues from operations for such periods, respectively. Macroeconomic conditions could also result in financial difficulties, including insolvency or bankruptcy of our customers and as a result could cause customers to delay payments to us, request modifications to their payment arrangements, that could increase our receivables or affect our working capital requirements or default on their payment obligations to us. During the Fiscals 2023, 2022 and 2021, our bad debts were Nil, Nil and Nil, respectively. An increase in bad debts or in defaults by our customers may compel us to utilize greater amounts of our operating working capital and result in increased financing costs, thereby adversely affecting our results of operations and cash flows.

**14. We have incurred borrowings from commercial banks and financial institutions and our inability to comply with repayment and other covenants in our financing agreements could adversely affect our business and financial condition.**

We have entered into agreements with banks for short-term and long-term borrowings. These borrowings include secured fund based and non-fund based facilities. As of March 31, 2023, we had Total Borrowings (consisting of borrowings under non-current liabilities, current maturities of long-term debts and borrowings under current liabilities) of ₹ 2,299.89 Million, which comprises of secured loans from banks and financial institutions. Our ability to meet our debt service obligations and repay our outstanding borrowings shall depend primarily on the cash generated by our business. The financing agreements that we have entered into for availing the secured loans contain negative covenants, including for availing fresh credit facility, giving fresh loans and advances, issuing corporate guarantee, etc. Any failure to service such indebtedness, or otherwise perform any obligations under such financing agreements may lead to termination of one or more of our credit facilities or incur penalties and acceleration of payments under such credit facilities, foreclosure on our assets, trigger cross-default provisions under certain of our other financing agreements which may adversely affect our financial condition and our ability to conduct and implement our business plans. The financing agreements that we have entered into for availing the secured loans contain negative covenants, including for availing fresh credit facility, giving fresh loans and advances, issuing corporate guarantee, etc. Any failure to service such indebtedness, or otherwise perform any obligations under such financing agreements may lead to termination of one or more of our credit facilities or incur penalties and acceleration of payments under such credit facilities, foreclosure on our assets, trigger cross-default provisions under certain of our other financing agreements which may adversely affect our financial condition and our ability to conduct and implement our business plans. Although we have received consents/NOC from our lenders for undertaking the Offer, these restrictive covenants may affect some of the rights of our Shareholders.

Further, we are required to, amongst other obligations, comply with certain financial covenants including maintaining the prescribed inventory margins, insurance covers on the hypothecated properties and lien creation. Our hypothecated assets comprise of our stock of raw materials, semi-finished and finished goods, consumable stores and spares and such other movable current assets including book debts, bills whether documentary or clean, outstanding monies, receivables, both present and future. We have also mortgaged our immovable assets in favour of the bank to secure the aforesaid facilities. There can be no assurance that we will be able to comply with these financial or other covenants or that we will be able to obtain consents necessary to take the actions that are required to operate and grow our business. In the event we breach any financial or other covenants contained in any of our financing arrangements, we may be required to immediately repay our borrowings either in whole or in part, together with any related costs.

We have breached certain terms of loans in past. For instance, we have given loan of ₹ 38.67 million to a third party without seeking permission from the lenders. Loans have been repaid by the Company to Promoter without prior approval from lenders. There has not been any action taken by our lenders for such breach. However, there can be no assurance that no action shall be taken by our lenders.

Further, any fluctuations in the interest rates may directly impact the interest costs of such loans and affect our business, financial condition, results of operations and prospects. Our ability to make repayments and refinance our indebtedness will depend on our continued ability to generate cash from our future operations. We may not be able to generate enough cash flow from operations or obtain enough capital to service our debt. For further information, please see “*Financial Indebtedness*” beginning on page 337 of this Red Herring Prospectus.

**15. All our production units are located in one geographic area and therefore, any localized social unrest, natural disaster or breakdown of services or any other natural disaster in and around Vadodara and Ahmedabad, Gujarat or any disruption in production at, or shutdown of, our production units could have material adverse effect on our business and financial condition.**

As on the date of this Red Herring Prospectus, our production units are located within the state of Gujarat, India at a distance of approximately one hundred kilometres from each other and are thus, concentrated in one geographic area.

Our manufacturing operations and consequently our business is dependent upon our ability to manage the units, which are subject to operating risks, including those beyond our control. In the event of any disruptions at our units, due to natural or man-made disasters, workforce disruptions, delay in regulatory approvals, fire, failure of machinery, lack of continued access to assured supply of electrical power and water at reasonable costs, changes in the policies of the states or local government or authorities or any significant social, political or economic disturbances or civil disruptions in and around Vadodara and Ahmedabad, Gujarat our ability to manufacture our products may be adversely affected.

Disruptions in and around our units could delay production or require us to shut down the units. Any contravention of or non-compliance with the terms of various regulatory approvals applicable to the units may also require us to cease or limit production until such non-compliance is remedied to the satisfaction of relevant regulatory authorities. We cannot assure you that we will not experience work disruptions in the future resulting from any dispute with our employees or other problems associated with our employees and the labour involved in our units, which may hinder our regular operating activities and lead to disruptions in our operations, which could adversely affect our business, prospects, financial condition, cash flows and results of operations.

Further, any materially adverse social, political or economic development, civil disruptions, or changes in the policies of the state government or state or local governments in this region could adversely affect our manufacturing operations, and require a modification of our business strategy, or require us to incur significant capital expenditure or suspend our operations. Any such adverse

development affecting continuous operations at our manufacturing facilities could result in significant loss due to an inability to meet customer contracts and production schedules, which could materially affect our business reputation within the industry. The occurrence of or our inability to effectively respond to, any such events or effectively manage the competition in the region, could have an adverse effect on our business, results of operations, financial condition, cash flows and future business prospects. Further, continuous addition of industries in and around our units without commensurate growth of its infrastructural facilities may put pressure on the existing infrastructure therein, which may adversely affect our business. Further, the spiralling cost of living around our manufacturing facilities may push our manpower costs higher, which may reduce our margin and cost competitiveness.

***16. Our Promoter has provided personal guarantee for loans availed by us. In the event of default of the debt obligations, the personal guarantees may be invoked thereby adversely affecting our Promoter's ability to manage the affairs of our Company and our Company's profitability and consequently this may impact our business, prospects, financial condition and results of operations.***

Our Company has availed loans in business. Our Promoter has provided personal guarantee in relation to certain loans availed by our Company, for details please see "Financial Indebtedness" on page 337. In the event of default in repayment of the loans by the Company, the personal guarantee extended by our Promoter may be invoked by our lenders thereby adversely affecting our Promoter's ability to manage the affairs of our Company and this, in turn, could adversely affect our business, prospects, financial condition and results of operations.

***17. Our inability to effectively manage our growth or to successfully implement our business plan and growth strategy could have an adverse effect on our business, results of operations, financial condition and cash flows.***

While we have experienced significant growth and have expanded our operations over in the last three Fiscals and anticipate that we will continue to potentially grow and take advantage of market opportunities. For the Fiscal 2023, Fiscal 2022 and Fiscal 2021, our revenue from operations were ₹ 4,797.48 million, ₹ 4,269.38 million and ₹ 3,596.63 million, respectively, registering a CAGR of 9.64% in last 3 years. Similarly, our profit after tax has grown from INR 54.59 million in Fiscal 2021 to INR 250.44 million in Fiscal 2023, registering a CAGR of 65.65% in last 3 years. We cannot assure you that our growth strategy will continue to be successful or that we will be able to continue to expand further or at the same rate. The success of our business will depend greatly on our ability to effectively implement our business and growth strategy. Our growth strategy includes growing our product portfolio, strengthening our brand, deepening our penetration in existing markets and expanding our presence in select new territories and expanding our manufacturing capacities. For further information, see "Our Business – Strategies" on page 194 of this Red Herring Prospectus.

Our ability to sustain growth depends primarily upon our ability to manage key issues such as our ability to sustain existing relationships with our clients, ability to obtain raw materials at better prices, ability to compete effectively, ability to scaling up our operations, adhering to high quality and execution standards, our ability to expand our manufacturing capabilities and our presence in India as well as globally, the effectiveness of our marketing initiatives, selecting and retaining skilled personnel. Sustained growth also puts pressure on our ability to effectively manage and control historical and emerging risks. Our inability to effectively manage any of these issues may adversely affect our business growth and, as a result, impact our business, financial condition, results of operations and prospects. Our success in implementing our growth strategies may be affected by our ability to identify new market opportunities, develop products, increase our existing network of customers and ability to adapt to changes in the Indian or international regulatory environment applicable to us. Many of these factors are beyond our control and there can be no assurance that we will succeed in implementing our strategy. Any change in government policies and regulations including any ban imposed on a particular product by the respective governments, or any duties, pre-

conditions or ban imposed by countries from where we source certain raw materials may have an adverse impact on our operations. In addition, there may be delays in the anticipated timing of activities related to such growth initiatives, strategies and operating plans; increased difficulty and cost in implementing these efforts; and the incurrence of other unexpected costs associated with operating the business. Any of these factors could adversely impact our results of operations. If, for any reason, the benefits we realize are less than our estimates or the implementation of these growth initiatives, strategies and operating plans adversely affect our operations or cost more or take longer to effectuate than we expect, or if our assumptions prove inaccurate, our results of operations may be materially adversely affected.

- 18. Our backward integration processes are set-up at units which are taken on leave and license basis. If we are not able to renew these leave and license agreements, we may have to suspend or outsource the backward integration processes which may have an adverse impact on our business, results of operations, cash flows and profitability.**

We carry out backward integration processes of melting and rolling stainless steel scrap at our Units III and IV, respectively situated at Plot no. 548/549, G.I.D.C., Waghodia, Vadodara – 390019, Gujarat and Plot no. 1901, Phase IV, G.I.D.C. Vatva, Ahmedabad – 382440, Gujarat which have been given on leave and license basis to us for a period of one year, subject to option to renew the same. The backward integration provides us an edge over our competitors. If we are not able to renew these licenses or if the terms of renewal are not favourable to our Company, we may have to suspend or outsource these backward integration processes. While we have not faced such disruption in the past however, in the event that we are not able to find alternate sources to carry out these processes for us or if the costs incurred in such outsourcing are higher than our current operating costs for these units, it may have an adverse effect on the profitability of our Company. For instance, if the entire melting work and rolling work is required to be outsourced by our Company then an additional cost of approx. ₹ 8.40 million (for production of 8,400 MT) and approx. ₹ 7.80 million (the production of 7,800 MT) is estimated. This may also lead to disruption of budgeting and planning of the management which could have an adverse impact on the financial results of our Company. Further, it may also interrupt the operations thus compelling us to halt the manufacturing activities of our Company.

- 19. A major portion of our public shareholding is held by Shareholders who are extended family members of our Promoter. After the successful completion of the Offer, these Shareholders shall have the ability to influence the outcome of matters that are submitted to public shareholders for their approval.**

As on date of this Red Herring Prospectus, some of our public shareholders who are the extended family members of our Promoter hold 2,592,000 Equity Shares representing 7.48% of the pre-Offer, subscribed and paid-up Equity Share capital of our Company. After successful completion of this Offer, these Shareholders shall continue to hold significant public shareholding in our Company. As a result, these Shareholders shall have the ability to exercise significant influence on the outcome of matters submitted to public shareholders for their approval. These Shareholders may take or block actions with respect to our business, which may conflict with our interests or the interests of other minority shareholders. If these Shareholders sell a substantial number of the Equity Shares in the public market, or if there is a perception that such sale or distribution could occur, the market price of the Equity Shares could be adversely affected. No assurance can be given that such Equity Shares that are held by these Shareholders shall not be sold any time after the Offer, which could cause the price of the Equity Shares to decline.

- 20. The Offer Price of our Equity Shares, our market capitalization to revenue from operations, market capitalization to total income, market capitalization to tangible assets and our Enterprise Value to EBITDA ratio may not be indicative of the market price of our Equity Shares after the Offer**

While our market capitalization is subject to the determination of the Offer Price, which will be determined by our Company and the Promoter Selling Shareholder in consultation with the BRLM

through the Book Building Process, certain ratios vis-à-vis market capitalization to revenue from operations, market capitalization to total income, market capitalization to tangible assets and our Enterprise Value to EBITDA ratio for the Financial Year 2023 are set out below:

Ratio in relation to Price band of ₹ [●] to ₹ [●] per Equity Share

Particulars	At the lower end of the price band (no. of times) *	At the higher end of the price band (no. of times) *
a) Market capitalization/ Revenue from operations	[●]	[●]
b) Market capitalization/ Total Revenue	[●]	[●]
c) Market capitalization/ Tangible Assets	[●]	[●]
d) EV/ EBITDA	[●]	[●]

\* To be updated at Prospectus stage.

The Offer Price of our Equity Shares will be determined by our Company and the Promoter Selling Shareholder in consultation with the BRLM, and through the Book Building Process. This price is based on numerous factors, as described herein above and under “Basis for Offer Price” and may not be indicative of the market price for our Equity Shares after the Offer. Further, our Offer Price and the multiples and ratios specified above may not be comparable to the market price, market capitalization and price-to-earnings ratios of our peers and be dependent on the various factors included under chapter “Basis of Offer Price” on page 128.

Accordingly, any valuation exercise undertaken for the purposes of the Offer by our Company and the Promoter Selling Shareholder, in consultation with the BRLM, would not be based on a benchmark with our industry peers. The relevant financial parameters on the basis of which Price Band will be determined, have been disclosed under “Basis for Offer Price” and shall be disclosed in the Price Band advertisement.

The following table sets forth certain ratios vis-à-vis our total revenue, tangible assets and EBITDA for the Financial Year 2023 of our Company compared to our listed peers:

### Peers Ratio

Based on the peer company information (excluding our Company) given below in this section:

Particulars	Market capitalization/ Revenue from Operations	Market capitalizati on/ Total revenue	Market capitaliz ation/ Tangible Assets	EV/ EBITDA
M.M. Forgings Limited	1.82	1.78	3.61	11.76
Menon Bearings Limited	3.48	3.43	5.51	14.43
Venus Pipes & Tubes Limited	4.98	4.95	8.50	39.71

Notes:

- a) *Market capitalization/ Revenue from operations is computed company's stock price on BSE as on August 8, 2023, and the number of outstanding shares divided by Revenue from operations of the company for the period.*

- b) Market capitalization/Total Revenue is computed company's stock price on BSE as on August 8, 2023, and the number of outstanding shares divided by Total revenue of the company for the period.
- c) Market capitalization/ Tangible assets is computed company's stock price on BSE as on August 8, 2023, and the number of outstanding shares divided by tangible assets which include all assets less intangible assets and total liabilities (except deferred tax liabilities).
- d) EV/EBITDA ratio is computed as the market capitalization of the peer group on BSE as on August 8, 2023, plus the total debt of the respective peer groups on March 31, 2023, divided by the EBITDA for Fiscal 2023

**21. Our Company, its Promoter and our Directors are party to certain legal proceedings. Any adverse outcome in such proceedings may have an adverse impact on our reputation, business, financial condition, results of operations and cash flows.**

Our Company, Promoter and some of our Directors are currently involved in certain legal proceedings. These legal proceedings are pending at different levels of adjudication before various courts, tribunals and other authorities. In the event of any adverse rulings in these proceedings or the consequent levying of penalties, we may need to make payments or make provisions for future payments, which may increase our expenses and current or contingent liabilities.

The summary of outstanding litigation involving our Company, Promoter and Directors as on the date of this Red Herring Prospectus have been provided below in accordance with the materiality policy adopted by our Board. As of the date of this Red Herring Prospectus, there are no outstanding litigation proceedings involving our Group Companies, the outcome of which could have a material impact on our Company. For details, please see “*Outstanding Litigation and Material Developments*” on page 341.

The amounts mentioned above may be subject to additional interest/ penalties being levied by the concerned authorities which have not been included above as not being ascertainable as on date of this Red Herring Prospectus. We cannot assure you that these proceedings will be decided in favour of our Company, Promoter or our Directors, as the case may be. Any adverse decision in such proceedings may render us liable to penalties and may have a material adverse effect on our reputation, business and financial condition. Additionally, during the course of our business we are subject to risk

of litigation in relation to contractual obligations, employment and labour laws, personal injury and property damage, etc.

Furthermore, if we get involved in disputes with third-parties in the course of our operations such as suppliers, customers and sub- contractors, the same may lead to legal or other proceedings and may result in substantial costs, delays in our development and operation schedule, and the diversion of resources and management's attention, regardless of the outcome. We may also have disagreements with regulatory authorities in the course of our operations, which may subject us to legal proceedings and unfavourable decisions that may result in penalties or delay or disrupt our development and operations.

**22. *We are required to obtain consents under certain environmental laws, which are critical for operating our units. We have in the past been non-compliant with the requirements under environmental law for our operations and there is no assurance that in the future we would be able to obtain such consent in a timely manner or at all.***

We require certain material environmental consents under the Air (Prevention and Control of Pollution) Act, 1981 (“Air Act”), Water (Prevention and Control of Pollution) Act, 1974 (“Water Act”) and Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (“Hazardous Waste Management Rules”) in the form of (i) Consent to Establish (“CTE”) to establish our Manufacturing Facility and (ii) a Consolidated Consent and Approval (“CCA”) to commence our manufacturing operations, from the Gujarat Pollution Control Board (“GPCB”) for our units.

In past, our production capacity has been in excess of the capacity of 6,240 MT p.a. granted to us by GPCB on November 30, 2017 under CCA for SS washers/ SS Metal Products / SS Finish. Therefore, we have been in contravention of the Air Act, Water Act, and the Hazardous Waste Management Rules (“Environmental Laws”) for operating our Manufacturing Facility at Unit-I over and above the authorised capacity of 6,240 MT p.a. as per the CCA granted by GPCB. The penalty for contravention of these sections and rules as per the Air Act, Water Act and Hazardous Waste Management Rules includes imprisonment and monetary penalty. Our Company has filed an application dated April 18, 2023 with the GPCB for seeking modification/amendment to CCA for Unit I.

As per section 25 read with section 44 of the Water Act and section 21 read with section 37 of the Air Act, contravention of the aforesaid violation can attract penalty under each of the aforesaid enactments of imprisonment for a term which shall be not less than eighteen months but may extend upto six years and with fine on every person who at the time of commission of the offence was in charge of, and was responsible for the conduct of the business of the Company, as well as the Company, shall be deemed to be guilty of the offence. While no further actions have been taken in relation to such violations mentioned above, we may, in the future, be subjected to regulatory actions for such violations including closure of our units, imposition of penalties and other penal actions against our Company and key personnel, which may have a negative impact on our business, reputation, results of operations and cash flows. Further, any failure to comply with environmental laws and/or the terms and conditions of approvals issued under such environmental laws and regulations could also impact our ability to obtain or renew the approvals with respect to our units in a timely manner or at all and may also adversely affect our ability to operate our units and consequently affect our results of operations.

**23. *Our Restated Financial Statements disclose certain contingent liabilities which if materialize, may adversely affect our business, financial condition, cash flows and results of operation.***

As of March 31, 2023, our contingent liabilities as per Ind AS 37 - Provisions, Contingent Liabilities and Contingent Assets, were as follows:

### **Contingent Liabilities**

Sr. No.	Particulars	As at March 31, 2023 (₹ in Millions)
1.	Income tax	100.02
2.	Sales Tax	26.07
3.	CESTAT	17.05
4.	Civil	1.28
	<b>Capital Commitments</b>	
5.	Estimated amount of contracts remaining to be executed on capital account and not provided for (net of capital advances)	18.54
	<b>Total</b>	<b>162.96</b>

If a significant portion of these liabilities materialize, it could have an adverse effect on our business, financial condition, results of operations and cash flows. For further information on our contingent liabilities as per Ind AS 37, see “*Restated Financial Statements – Note 36 – Contingent Liabilities and Capital Commitments*” on page 293 of this Red Herring Prospectus.

**24. The average cost of acquisition of Equity Shares by our Promoter Selling Shareholder is lower than the Floor Price.**

The average cost of acquisition of Equity Shares by Vijay Ramanlal Sanghavi, the Promoter Selling Shareholder being Nil, is lower than the Floor Price. For further details regarding the average cost of acquisition of Equity Shares by the Promoter Selling Shareholder in our Company, please see “Summary of the Offer Document – Average Cost of Acquisition” on page 31 of the RHP.

**25. We have experienced high attrition rate in respect of our Directors and Key Managerial Personnel. We may not be able to retain such persons in future which could adversely affect our business, results of operations, financial condition and cash flows.**

We are dependent on our Promoter, Directors and key managerial personnel for setting our strategic business direction and managing our business. Our Directors and key managerial personnel have extensive experience in their areas of expertise. Our ability to meet continued success and future business challenges depends on our ability to attract, recruit and retain experienced, talented and skilled professionals. Without a sufficient number of skilled employees, our operations and manufacturing quality could suffer. Two (2) of our Key Managerial Personnel resigned during the financial year 2022-23 and with respect to our Directors, one (1) of our directors has resigned during the financial year 2022-23. The reason for such high attrition rate of our Key Managerial Personnel and Directors in the recent period was for better prospects. We may experience similar attrition rates in the future which may decrease our operating efficiency and productivity and lead to a decline in the profitability of our Company. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting and retaining suitable employees. The loss of the services of our key personnel or our inability to recruit or train a sufficient number of experienced personnel or our inability to manage the attrition levels of key personnel may have an adverse effect on our financial results and business prospects.

**26. Our Company has not paid dividend accrued on the Preference Shares.**

Our Company had in the year 2008 issued 1,850,000 9% Redeemable Non-Cumulative Preference Shares (RPS) of face value ₹ 10/- each. The Preference shares were allotted for a tenure upto 20 years with a right to the Company to redeem the Preference shares before expiry of tenure at its own or at the request of Preference Shareholders. Our Company has however not paid dividend/coupon on preference shares on the respective due dates to its Preference Shareholder. As per the provisions of Section 47 of the Companies Act, where the dividend in respect of a class of preference shares has not

been paid for a period of two years or more, such class of preference shareholders shall have a right to vote on all the resolutions placed before the members of the Company. Vijay Sanghavi has been holding 100% of our Preference Shares since 2010 and has pursuant to the Waiver Letters issued, from time to time, waived his right to claim the dividend / coupon under the RPS. Further, pursuant to receipt of written consent from Vijay Sanghavi vide letter dated December 24, 2022, the terms of the 9% Redeemable Non-Cumulative Preference Shares have been varied to 0% Redeemable Non-Cumulative Preference Shares. Furthermore, our Promoter has vide his letter dated December 24, 2022 irrevocably and unconditionally waived and relinquished all voting rights, if any, exercisable by him at the general body meetings with respect to the said Redeemable Non-Cumulative Preference Shares.

**27. *Our inability to accurately forecast demand or price for our products and manage our inventory may adversely affect our business, results of operations, financial condition and cash flows.***

Our business depends on our estimate of the demand for our products from customers. We estimate demand for our products based on past sales and advance purchase order. If we overestimate demand, we may purchase more raw materials and manufacture more products than required. If we underestimate demand, we may manufacture fewer quantities of products than required, which could result in delayed or non-fulfilment of purchase orders resulting in loss of customers, goodwill and business. Our Inventory turnover ratio for the Fiscals 2023 2022 and 2021 was 2.08, 2.31 and 2.44, respectively. Our Storage and handling expenses for the Fiscals 2023, 2022 and 2021 was Nil, Nil and Nil and ₹ 72.92 million, ₹ 45.61 million and ₹ 30.89 million, respectively. In addition, if our products do not achieve widespread acceptance or our customers, change their procurement preferences, we may be required to incur significant inventory markdowns or may not be able to sell the products at all, which would affect our business, results of operations and financial condition. As such, our inability to accurately forecast demand for our products and manage our inventory may have an adverse effect on our business, results of operations, cash flows and financial condition.

**28. *There have been some instances of delayed filing/ incorrect filings with the Registrar of Companies and other non-compliances under the Companies Act in the past which may attract penalties.***

There have been some instances of delayed filing/ incorrect filing, non-filing of prescribed forms in the past with the Registrar of Companies including Form 2, DIR-12, Form MGT-14, DPT-3, Form 5, Form PAS-6 which may attract penalties. For instance, there are errors in the Form 2 filed by our Company with the ROC in relation to allotment dated April 12, 2010, Form DIR-12 for regularization of the appointment of our Director, Babulal Chaplot has not been filed with the RoC, our Company has not filed Form MGT-14 during the fiscal 2021 for availing financial facility form Auriolus Finvest Private Limited as per the requirements of section 117 of the Company Act, 2013, there has been delay in filing Forms DPT-3 for the period One time return, March 31, 2019 and March 31, 2020, there has been delay in filing Forms 5 for increase in authorized capital from Rs. 70 million to 80 million, there has been delay in filing Forms PAS-6 in respect of preference shares for the period 01-04-2019 to 30-09-2019, 01-10-2019 to 31-03-2020, 01-04-2020 to 30-09-2020 and Forms PAS-6 in respect of equity shares for the period 01-04-2019 to 30-09-2019. We have filed adjudication application(s) u/s. 454 of the Act with the ROC in respect of the aforesaid forms. Furthermore, the term of the Managing Director had, in the past, ended on June 1, 2021 and he was re-appointed as our Managing Director with effect from June 1, 2022. Consequently, he continued to act as our Managing Director for the period June 1, 2021 till May 30, 2022 without requisite approval. We have filed adjudication application u/s. 454 of the Act with the ROC in respect of the aforesaid non-compliance. Our Company has, in the past, not complied with the requirements of section 314 of the Companies Act, 1956 wherein approval our shareholders and the Central Government was required in the case of appointment of relatives of the Directors in officer or place of profit. Our Company has received a refund of the entire amount paid to the relative of the Director as office of profit. Further, (i) we have not appointed Company Secretary in accordance with the provisions of the Companies Act, 1956 during the period from November 2003 to December 2018; (ii) our Board was not properly constituted in accordance with the provisions of section 149 of the Companies Act with respect to the requirement

of appointing Independent Directors for the period October 2018 to May 2022 onwards; (iii) necessary committees namely, Audit Committee and Nomination and Remuneration Committees were not duly constituted by us during the period October 2018 to May 2022. We have filed adjudication applications u/s. 454 of the Act with the ROC in respect of the aforesaid non-compliances. Furthermore, Ankita Dineshbhai Soni, our Independent Director appointed on November 30, 2018, did not have Independent Director Database (IDD) registration till July 2022. We have applied for adjudication of this offence *vide* application dated December 24, 2022.

Although, no regulatory action or penalty has been taken/ levied on the Company for such delays/ defaults, however, it cannot be assured that no such regulatory action or penalty will be taken/ levied in the future. Further, we cannot assure you that such non-compliances will not occur in the future. Therefore, if the concerned authorities impose monetary penalties on us or take certain punitive actions against our Company or its directors/ officers in relation to the same, our business and financial condition could be adversely affected.

**29. We are required to obtain, renew or maintain certain statutory and regulatory permits and approvals required to operate our business and if we fail to do so in a timely manner or at all and our business, financial conditions, results of operations, and cash flows may be adversely affected.**

Our operations are subject to government and statutory regulations and we are required to obtain and maintain several permits, consents and regulations and approvals under central, state and local government rules for operating our business generally for our manufacturing facility and depots. While we have obtained the necessary and material approvals, licenses, registrations and permits from the relevant authorities, there could be instances where we may not have applied, obtained or applied with a delay for certain requisite approvals applicable to us. We also need to apply for renewal, from time to time, of some of such approvals, licenses, registrations and permits, which expire or seek fresh approvals, as and when required, in the ordinary course of our business. While we generally apply for the renewal of approvals in a timely manner, we cannot assure that such approvals will be issued or granted to us in a timely manner, or at all. If we do not receive such approvals or are not able to renew the approvals in a timely manner, our business and operations may be adversely affected. For instance, we have not taken consent and registration as required under the Contract Labour (Regulation and Abolition) Act, 1970. We cannot assure you that non-compliances will not occur in the future or that we may not be subject to any penalties in relation to such non-compliances which may affect our profitability, business, financial condition and results of operations. There can be no assurance that the relevant authority will issue an approval or renew expired approvals within the applicable time period or at all. Any delay in receipt or non-receipt of such approvals, licenses, registrations and permits could adversely affect our related operations. Further, under such circumstances, the relevant authorities may initiate penal action against us, restrain our operations, impose fines/penalties or initiate legal proceedings for our inability to renew/obtain approvals in a timely manner or at all. For further details regarding the pending material licenses, please see “Government and other Approvals - Approvals applied for but not yet received/ Renewals made in the usual course of business” on page 352 of the RHP.

The approvals required by us are also subject to numerous conditions including, among others, quantum of raw materials to be used, fire and safety measures, etc. We cannot assure you that the approvals, licenses, registrations and permits issued to us will not be suspended or cancelled or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. If there is any failure by us to comply with the applicable regulations or if the regulations governing our business are amended, we may incur increased costs, be subject to penalties, have our approvals and permits revoked or suffer a disruption in our operations, any of which could adversely affect our business, financial conditions, results of operations, and cashflows.

**30. Information relating to the installed production capacity and capacity utilization of our production units included in this Red Herring Prospectus are based on various assumptions and estimates and future production and capacity may vary.**

We have availed the services of an independent third-party chartered engineer, Upendra Nath Mahto, to prepare a Chartered Engineer certificate dated July 13, 2023 for purposes of inclusion of such information in this Red Herring Prospectus. Information relating to the installed production capacity and capacity utilization of our units included in this Red Herring Prospectus are based on various assumptions and estimates of our management that have been considered by an independent chartered engineer while calculating the installed production capacity of, and actual production volumes at, our units. The assumptions and estimates include the standard capacity calculation practices of the stainless steel industry after examining the period during which the units were operational during the year, the expected operations, availability of raw materials, downtime resulting from scheduled maintenance activities, unscheduled breakdowns, as well as expected operational efficiencies, and taking into account the number of working days in a year, number of days in a month, number of shifts in a day and average number of batches per day. Actual production capacity, production levels and utilization rates may therefore vary from the information of our units included in this Red Herring Prospectus or from the historical installed production capacity information of our units depending on the product type. Accordingly, undue reliance should not be placed on our historical installed capacity information for our existing facilities included in this Red Herring Prospectus.

**31. We do not own any registered trade names or trademarks and we may therefore not be able to adequately protect our intellectual property. Furthermore, we may be subject to claims alleging breach of third party intellectual property rights. Any litigation related to our intellectual property could be time consuming and costly.**

We do not own any registered copyright, trademark, trade name or other intellectual property right in or to the names or logos trade names or trademarks with the Trade Mark Registry. We sell our products

under the label “**RATNAVEER**”. We have applied for registration of the aforesaid trademark in India and may apply for further registrations in the future. We, therefore, do not enjoy the statutory protections accorded to a registered trademark. The registration of intellectual property including trademarks is a time-consuming process and there can be no assurance that any registration application we may pursue will be successful and that such registration will be granted to us. If we fail to register the appropriate intellectual property or our efforts to protect relevant intellectual property prove to be inadequate, the value attached to our brand could deteriorate, which could have a material adverse effect on our business growth and prospects, reputation and goodwill. Furthermore, it is possible that we are not aware of misuse of our trademarks, and this could potentially cause loss of our reputation, which could impact our business and may even affect our goodwill. The use of a deceptively similar or identical third-party mark may result in a loss/injury to us. Such an action may also become a lengthy and costly exercise for us and may not always be in our favor.

We cannot assure you that our efforts to protect our intellectual property will be adequate, which may lead to erosion of our business value and which could adversely affect our operations. We may need to litigate in order to determine the validity of such claims and the scope of the proprietary rights of others. Any such litigation could be time consuming and costly and the outcome cannot be guaranteed. We may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect the intellectual property.

**32. We have a high debt equity ratio.**

Our business activities are working capital intensive in nature. Our debt to equity ratio has been 2.17%, 2.89% and 2.67% for the fiscal 2023, 2022 and 2021, respectively. Our capacity to service these debts depends on our continued profitability and availability of liquidity. In case we are unable to achieve

the desired growth, due to internal constraints or external factors like adverse developments in the industry, we may find it difficult to service the debt and this may affect our credit rating, profitability and growth adversely.

**33. *We are dependent on third-party transportation providers for the supply of raw materials and delivery of our finished products.***

Our success depends on the supply and transport of the various raw materials required for our units and of our finished products from our units to our customers, which are subject to various uncertainties and risks. We rely on third-party freight and transportation providers for the delivery of our products to customers with whom we have no formal arrangement, to provide rail, road and other transportation facilities. There is no direct/ indirect relationship between third party transportation and our Company, our Promoter, Group Companies and its Directors, Directors, Key Managerial Personnel and Promoter Group members. We also depend on sea borne freight in respect of import and export operations. Such transportation providers are arranged on an as-needed basis. We maintain marine cargo open insurance policy to cover any damage to our products during domestic transit. Transportation strikes, if any, could have an adverse effect on supplies and deliveries to and from our customers and suppliers. In addition, we undertake our import and export facilities majorly from Mundra and Hazira ports situated in Gujarat and are therefore, heavily dependent on the smooth functioning of the said ports for our export activities. Also, we are situated away from the port which increases the transportation cost and time required to complete any order. Further to the transportation cost, it also increases the insurance cost and the risk faced in conveyance to and from the ports to our Units.

Raw materials and finished products may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be a delay in delivery of raw materials and products which may also affect our business and results of operations negatively. Our average stock of finished goods for the Fiscals 2023, 2022 and 2021 was ₹ 188.36 Million, ₹ 378.09 Million and ₹ 236.14 Million, respectively which was 3.92%, 8.85% and 6.56% of revenue from operations, respectively and raw material and consumables for the Fiscals 2023, 2022 and 2021 was ₹ 4,189.58 Million, ₹ 3,735.22 Million and ₹ 3,224.54 Million respectively which was 89.65%, 87.49% and 87.32% of revenue from operations respectively. In the event we fail to maintain a sufficient volume of raw materials and delivery of such materials to us is delayed, we may be unable to meet customer orders in a timely manner or at all. Any such inability may result in loss of sales opportunities that our competitors may capitalize on, thereby adversely affecting our business, financial condition, results of operations and cash flows. Any compensation received from insurers or third-party transportation providers may be insufficient to cover the cost of any delays and will not repair damage to our relationships with our affected customers and the goodwill of the Company in the market. The current war between Ukraine and Russia has resulted in various global sanctions being levied on Russia which is a major exporter of fossil fuels and natural gas, these sanctions have corresponded in an economic slowdown and an increase in fuel costs throughout the world. We may also be affected by an increase in fuel costs, as it will have a corresponding impact on freight charges levied by our third- party transportation providers. Our freight and forwarding charges were ₹ 72.92 Million, ₹ 75.63 Million and ₹ 16.83 Million in Fiscal 2023, 2022 and 2021, respectively. A continued rise in the cost of fuels could require us to expend considerable resources in addressing our distribution requirements, including by way of absorbing these excess freight charges to maintain our selling price, which could adversely affect our results of operations or passing these charges on to our customers, which could adversely affect demand for our products.

**34. *We may not be able to identify or effectively respond to evolving preferences, expectations or trends in a timely manner and a failure to derive the desired benefits from our product development efforts may impact our competitiveness and profitability.***

The success of our business depends in part on our ability to anticipate, identify and respond promptly to evolving trends in demographics and preferences, customer requisitions, and develop new products to meet these requirements. Our success is dependent on our ability to identify and respond to the

economic, technological, and other developments that affect demographic and end-customer preferences in the variety of our product categories.

We cannot assure you that our future product development initiatives will be successful or be completed within the anticipated period or budget, or that our newly developed or improvised products will achieve wide market acceptance from our customers. Even if these products have been successfully developed, there is no guarantee that they will be accepted by our customers and achieve anticipated sales targets in a profitable manner, which may affect our ability to grow our network of customers and gain market share. In addition, there can be no guarantee that the time and effort that we spend in developing these products would be beneficial to our Company. This could also adversely affect our ability to pursue our growth strategy of continuing to develop niche and products to grow our market share. Further, we cannot assure you that our existing or potential competitors will not develop products that are similar or superior to our products. It is often difficult to estimate the time to market new products and there is a substantial risk that we may have to abandon a potential product that is no longer commercially viable, even after we have invested significant resources in the development of such product. If we fail in our product launching efforts, our business, prospects, financial condition, results of operations and cash flows may be materially and adversely affected.

Further, as we continue to grow our business by expanding our products, offerings and our geographic reach, maintaining quality and consistency may be more difficult and there can be no assurance that the customers' confidence in our products will not diminish. Failure or any delay on our part to identify such trends, to align our business successfully and maintain quality could negatively affect our image, our relationship with our customers, the rate of growth of our business, our market share and our prospects.

We must, on a regular basis, keep pace with the preferences and quality requirements of our consumers, invest continuously in new technology and processes to provide products having the desired qualities and characteristics, and continually monitor and adapt to the changing market demand. An unanticipated change in consumer demand and any sudden change in Government regulations may adversely affect our liquidity and financial condition.

***35. Our production units and office premises are located on leasehold / leave and license basis. If these leasehold /license agreements are terminated or not renewed on terms acceptable to us, it could have a material adverse effect on our business, financial condition, results of operations and cash flows.***

We are holding our manufacturing units and registered office premises on leave and licence / leasehold basis. Our Unit I and Registered Office located at Plot no. E-77, G.I.D.C., Savli (Manjusar), Vadodara– 391 775, Gujarat, India has been taken on long term lease basis on 99 years by us from G.I.D.C. Our other Unit (Unit II) is located at Plot no. E-120, G.I.D.C., Savli (Manjusar), Vadodara – 391 775, Gujarat, India which has been taken on sub-lease basis on 7 years by us from our promoter group concern, M/s. Ratnaveer Industries. Our Unit III is located at Plot no. 548/549, G.I.D.C., Waghodia, Vadodara – 390019, Gujarat, India has been taken by us on leave and license for a period of 11 months from Jagdish Enterprise Private Limited. Our Unit IV is located at Plot no. 1901, Phase IV, G.I.D.C. Vatva, Ahmedabad – 382440, Gujarat, India has been taken by us on leave and license for a period of 11 months from one Prabhulal Badrilal Kabra. Save as disclosed above, there is no direct/ indirect relationship between the lessor and our Company, our Promoter, Group Companies and its Directors, Directors, Key Managerial Personnel and Promoter Group members.

Our licenses/ leases may expire in the ordinary course. We cannot assure you that we shall continue to be able to operate out of our existing premises or renew our existing licenses / leases at favourable terms or at all. Any such event may adversely impact our operations and cash flows and may divert management attention from our business operations. In case of any deficiency in the title of the licensors/ owners from whose premises we operate, breach of the contractual terms of any lease, or if any of the owners of these premises do not renew the agreements under which we occupy the premises,

or if they seek to renew such agreements on terms and conditions unfavourable to us, or if they terminate our agreements, we may suffer a disruption in our operations and shall have to look for alternate premises.

Given that our business operations are conducted on premises leased, any encumbrance or adverse impact, or deficiency in, the title, ownership rights or development rights of the owners from whose premises we operate, breach of the contractual terms of any lease or leave and license agreements, or any inability to renew such agreements on acceptable terms or at all may adversely affect our business operations. In the event of relocation, we may be required to obtain fresh regulatory licenses and approvals. Until we receive these, we may suffer disruptions in our operations and our business which may adversely affect our financial condition.

***36. There have been some instances of delay/ default in payment of statutory dues by our Company in the past.***

There have been some instances of delay/ default in payment of statutory dues by our Company in the past which were not material in nature and the same were regularised subsequently. For the last three Fiscals, our Company has generally been regular in depositing undisputed statutory dues such as Provident Fund, Employee State Insurance, Tax deducted at source, Income Tax, Good and Service Tax etc. and other statutory dues applicable to it (except delay of less than ten days in depositing of contribution to Employees' Provident Fund for last 3 Fiscals). As at on March 31, 2023, March 31, 2022 and March 31, 2021, there were no outstanding amounts of such undisputed statutory dues for a period exceeding six months from the date they became due for payment.

There can be no assurance that delays or default with respect to payment of statutory dues will not occur in the future or that our audit reports for any future financial years will not contain any qualifications, matters of emphasis or other observations on account of such delay/default which in turn may affect our reputation and financial results.

***37. We may be subject to significant risks and hazards when operating and maintaining our units, for which our insurance coverage might not be adequate.***

Our total insurance cover includes property, plant and equipment and inventory, as of March 31, 2023, March 31, 2022 and March 31, 2021 was ₹ 1,851.91 Million, ₹ 1,740.90 Million and ₹ 1,490.90 Million, respectively, which was 69.97%, 80.69% and 88.39%, respectively of our net block of property, plant and equipment, and inventory. As of March 31, 2023, we operate from four units situated in the state of Gujarat. We generally perform scheduled and unscheduled maintenance and operating and other asset management services. We also sub-contract certain maintenance services to third-parties who may not perform their services adequately. Manufacturing stainless steel products involves handling of certain risky material which, if not handled properly, can be dangerous. In addition to natural risks such as earthquake, flood, lightning, cyclones and wind, other hazards, such as fire, structural collapse and machinery failure are inherent risks in our operations. They can cause significant personal injury or loss of life, severe damage to and destruction of property, plant and equipment and may result in the suspension of operations. The occurrence of any one of these events may result in our being named as a defendant in lawsuits asserting claims for substantial damages, including for cleanup costs, personal injury and property damage and fines and/ or penalties.

We maintain an amount of insurance protection that we consider adequate including insurance policy covering fire, damage to buildings, plant and machinery, stocks (raw materials and finished goods), vehicles and policy covering damage to goods in domestic transit. We may not have identified every risk and further may not be insured against every risk because such risks are either uninsurable or not insurable on commercially acceptable terms, including operational risk that may occur and the occurrence of an event that causes losses in excess of the limits specified in our policies, or losses arising from events or risks not covered by insurance policies such as COVID-19 and other pandemics, or due to the same being inadequate, could materially harm our cash flows, financial condition and

future results of operations. However, we cannot provide any assurance that our insurance will be sufficient or effective under all circumstances and against all hazards or liabilities to which we may be subject. In addition, our insurance coverage expires from time to time. We apply for the renewal of our insurance coverage in the normal course of our business but we cannot assure you that such renewals will be granted in a timely manner, at acceptable cost or at all. To the extent that we suffer loss or damage, or successful assertion of one or more large claims against us for events for which we are not insured, or which exceeds our insurance coverage, or where our insurance claims are rejected, the loss would have to be borne by us and our results of operations, financial performance and cash flows could be adversely affected. For further information on our insurance arrangements, see "*Our Business – Insurance*" on page 208 of this Red Herring Prospectus.

**38. Reliance has been placed on declarations furnished by one of our senior management, for details of his profile included in this Red Herring Prospectus.**

Our Senior Management Personnel, Nanubhai Panchal has been unable to trace copies of certain documents pertaining to his educational qualifications. While he has taken the requisite steps to obtain the relevant supporting documentation, he has been unsuccessful in procuring the relevant supporting documentation.

Accordingly, the BRLM and we have placed reliance on declarations, undertakings and affidavits furnished by our Senior Management Personnel to disclose details of his educational qualifications in this Red Herring Prospectus and we have not been able to independently verify these details in the absence of primary documentary evidence. Further, there can be no assurances that our Senior Management Personnel will be able to trace the relevant documents pertaining to his educational qualifications in the future, or at all. Therefore, we cannot assure you that all or any of the information relating to his educational qualifications included in "*Our Management*" on page 223 are complete, true and accurate.

**39. Inability to protect, strengthen and enhance our existing reputation could adversely affect our business prospects and financial performance.**

Our business reputation is critical to the success of our business. While we have been making consistent efforts to strengthen our image, various factors, some of which are beyond our control, are critical for maintaining and enhancing our reputation and if not managed properly, may negatively affect our brand and reputation. These include our ability to effectively manage the quality of our products, increase brand awareness among existing and potential customers, adapt our advertising and promotion efforts to emerging industry standards.

Our success in marketing our existing and new products depends on our ability to adapt to a rapidly changing marketing and media environment, including our increasing reliance on direct promotional initiatives. There can be no assurance that our marketing efforts will be successful in maintaining our reputation and its perception with customers and/ or result in increased sales in the future. Also, we may not necessarily increase or maintain our sales promotion spending in proportion to our growth in the future, which may result in limited marketing initiatives. Our inability to adapt to evolving marketing trends at the same pace as our competitors may adversely affect our ability to effectively compete in terms of our image value.

Our reputation could also be negatively impacted if we fail to maintain our established standards of service, or if our products fail to meet the expectation of our customers. Any allegations of deterioration in product quality even when false or unfounded, could tarnish our image and may cause our customers to choose other competing products. Any negative publicity regarding us, our reputation, our products or the stainless steel industry generally could adversely affect our business and our results of operations. Other risks associated with our industry include improper disclosure of proprietary information, negative comments about our brands or standard of service, exposure of personally identifiable information, fraud, hoaxes or malicious exposure of false information. The

inappropriate use of social media by our customers, employees, suppliers or other third parties could also harm our reputation thereby increasing our costs, lead to litigation or result in negative publicity that could damage our reputation and adversely affect our business, results of operations and financial condition. In addition, counterfeit products, product defects and ineffective promotional activities are all potential threats to the image and potency of our brand. Our failure to develop, maintain and enhance our brand may result in decreased revenue and loss of customers and in turn adversely affect our reputation, business, financial condition, results of operations and cash flows.

**40. Any unscheduled or prolonged disruption of our manufacturing operations could materially and adversely affect our business, financial condition, results of operations and cash flows.**

Any unscheduled or prolonged disruption of our manufacturing operations, including power failure, fire and unexpected mechanical failure of equipment, obsolescence, labour disputes, strikes, lock-outs, earthquakes and other natural disasters, industrial accidents or any significant social, political or economic disturbances, outbreak of wars or infectious disease outbreaks such as the COVID-19 pandemic, could reduce our ability to manufacture our products and adversely affect our revenues from operations in such period. While there have not been any material disruptions in the last three Financial Years having impact on our business operations and financials, any such disruption may interrupt our operations, which may interfere with the manufacturing process, requiring us to either stop our operations or repeat activities that may involve additional time and costs. Our customers rely on the timely delivery of our products and our ability to provide an uninterrupted supply of our products is critical to our business. Although we take precautions to minimize the risk of any significant operational problems at our units, our customer relationships, business, financial condition, results of operations and cash flows may be adversely affected by any disruption of operations at our units, including due to any of the factors mentioned above.

Disruptions in our operations could delay production or require us to temporarily cease operations at our units. We may be subject to manufacturing disruptions due to contraventions by us of any of the conditions of our regulatory approvals, which may require our units to cease, or limit, production until the disputes concerning such approvals are resolved. As regulatory approvals are site specific, we may be unable to transfer production activities to another location immediately. Similarly, there is no assurance that those of our units unaffected by an interruption will have the capacity to increase their output to manufacture products for the affected units, to the extent that all outstanding orders will be fulfilled in a timely manner. In the event of prolonged interruptions in the operations of our units, we may have to make alternate arrangements for supplies and products in order to meet our production requirements, which could affect our profitability.

**41. Our ability to grow our business depends on our relationships with our customers and any adverse changes in these relationships, or our inability to enter into new relationships and thereby expand our customer network, could negatively affect our business and results of operations.**

Our business is dependent on the decisions and actions of our customers which is determined by our ability to maintain and strengthen our relationships and arrangements with existing customers. Our relationship with our customers is dependent to a large extent on our ability to regularly meet their requirements, including by introducing products with greater marketability, price competitiveness, efficient and timely product deliveries and consistent product quality. In the event we are unable to meet such requirements in the future, it may result in decrease in orders or cessation of business from affected customers. There are also a number of factors relating to our customers beyond our control that might result in the termination of our arrangement or the loss of a customer relationship, including change in preferences of our customers as well as a demand for price reductions. Further, the deterioration of the financial condition or business prospects of these customers could affect their ability to maintain inventory and thus reduce demand for our products and could result in a significant decline in the revenues we derive from such customers. Adverse changes in our relationships with our customers or the inability to develop new products for existing customers or to successfully establish

relationships with new customers, could therefore limit our business prospects, which could adversely affect our financial performance.

We may also face disruptions in the delivery of our products for various reasons beyond our control, including poor freight forwarding of our products, transportation bottlenecks, natural disasters, infectious disease outbreaks such as the pandemics, acts of war and labour issues, which could lead to deliveries being delayed or lost, resulting in insufficient inventories with our customers. If we fail to deliver products to our customers in a timely manner our business and results of operations may be adversely affected.

***42. Stringent environmental, health and safety laws and regulations or stringent enforcement of existing environmental, health and safety laws and regulations may result in increased liabilities and increased capital expenditures.***

Our operations are subject to environmental, health and safety and other regulatory and statutory requirements in the jurisdictions in which we operate. We are subject to various national, state, municipal and local laws and regulations concerning environmental protection in India. Non-compliance with these laws and regulations could expose us to civil penalties, criminal sanctions and revocation of key business licenses. Environmental laws and regulations in India are becoming more stringent and the scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted with any certainty. In case of any change in environmental or pollution regulations, we may be required to invest in, among other things, environmental monitoring, pollution control equipment and emissions management.

As a consequence of unanticipated regulatory or other developments, future environmental and regulatory related expenditures may vary substantially from those currently anticipated. We cannot assure you that our costs of complying with current and future environmental laws and other regulations will not adversely affect our business, results of operations, financial condition or cash flows. In addition, we could incur substantial costs, our products could be restricted from entering certain markets and we could face other sanctions, if we were to violate or become liable under environmental laws or if our products become non-compliant with applicable regulations. Our potential exposure includes fines and civil or criminal sanctions, third-party property damage or personal injury claims and clean-up costs. The amount and timing of costs under environmental laws are difficult to predict.

***43. Certain agreements may be inadequately stamped or may not have been registered or may not have necessary disclosure as a result of which our operations may be adversely affected.***

A few of our agreements such as those relating to immovable properties, may not be stamped adequately or registered or may not have the necessary disclosures. The following agreements entered into by our Company in relation to its immovable properties are found to be inadequately stamped:

- a. Leave and License Agreement dated May 8, 2022 entered between our Company and Prabhulal Badrilal Kabra for our Unit IV
- b. Lease Agreement dated July 21, 2020 entered between our Company and the Lessor for our Corporate Office
- c. Lease Extension Agreement dated December 9, 2022 entered between our Company and the Lessor for our Corporate Office
- d. Supplementary Deed dated April 05, 2019 entered between our Company and the Lessor for our Unit II
- e. Lease Deed dated December 24, 2022 entered between our Company and the Lessor for our Unit II
- f. Leave and License Agreement dated June 08, 2021 entered between our Company and the Lessor for Bungalow no.2, Solace Park, Manjusar, Vodadara, Gujarat.

- g. Leave and License Agreement dated June 08, 2021 entered between our Company and the Lessor for Bungalow no.20, Vijay Society no.1, New Khanderao Road, Vadodara, Gujarat.
- h. Leave and License Agreement dated June 08, 2021 entered between our Company and the Lessor for Bungalow no.21, Vijay Society no.1, New Khanderao Road, Vadodara, Gujarat.

Our Company has on April 05, 2023, adjudication applications before the Office of Deputy Collector, Stamp Duty Valuation Org Vibhag -1, Vadodara under Section 39 of the Gujarat Stamp Act, 1958, for adjudication of the deficiency in stamp duty payable in respect eight instruments to which the Company is a party for an aggregate deficient stamp duty of approx. ₹ 0.90 million. As per Section 40 of the Gujarat Stamp Act, 1958, a penalty not exceeding ten times the amount of the proper duty or of the deficient portion thereon can be directed, in addition to the deficient stamp duty amount. The said adjudication applications are currently pending before the stamp duty authorities.

The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. Our Company has submitted the aforesaid documents in for adjudication with the Registration and Stamp Department to pay the differential stamp duty with/without penalty, as may be determined. The matter is still pending before the department. The effect of non-registration of documents required to be registered, is that such document will not have any effect on the property or be eligible to be received as evidence in legal proceedings. Any potential dispute due to non-compliance of local laws relating to stamp duty and registration may adversely impact the operations of our Company.

**44. *Our manufacturing activities are dependent on the delivery of adequate and uninterrupted supply of electrical power at a reasonable cost. Any shortage or any prolonged interruption or increase in the cost of power could adversely affect our business, result of operations, financial conditions and cash flows.***

Adequate and cost effective supply of electrical power is critical to our operations. We have our production units in Vadodara and Ahmedabad, Gujarat, which depend on the delivery of an adequate supply of electrical power. We rely upon diesel generator sets to ensure continuity of operations in case of power outage. There have been no major instances of power failure in the last three years. There can however be no assurance that electricity supplied to our existing units will be sufficient to meet our requirements or that we will be able to procure adequate and uninterrupted power supply in the future at a reasonable cost. If the per unit cost of electricity is increased by the state electricity board our power cost will increase. An interruption in or limited supply of electricity may result in suspension of our manufacturing operations. A prolonged suspension in production could materially and adversely affect our business, financial condition, results of operations or cash flows.

**45. *We appoint contract labour for carrying out some of our operations and we may be held responsible for paying the wages of such workers, if the independent contractors through whom such workers are hired default on their obligations, and such obligations could have an adverse effect on our results of operations, cash flows and financial condition.***

We engage independent contractors through whom we engage contract labourers for performance of certain functions at our units. Although we do not engage these labourers directly, we are responsible for any wage and statutory payments to be made to such labourers in the event of default by such independent contractors. Any requirement to fund their wage requirements may have an adverse impact on our results of operations and our financial conditions. In addition, we may be liable for or exposed to litigations, sanctions, penalties or losses arising from accidents or damages caused by our workers or contractors.

**46. We may be subject to unionization, work stoppages or increased labour costs, which could adversely affect our business and results of operations.**

Our industry is labour intensive. The success of our operations depends on availability of labour and maintaining a good relationship with our workforce. As of June 30, 2023, we employed about 151 employees across our production units and corporate office. We do not have any trade union registered under the Trade Unions Act, 1926. In the past three years, we have not experienced any labour dispute. We do not have any formal policy for redressal of labour disputes. Although we have not experienced any major interruption to our operations as a result of labour disputes in the recent past, there can be no assurance that we will not experience any such disruption in the future as a result of disputes or disagreements with our work force, which may adversely affect our ability to continue our business operations. We may also have to incur additional expense to train and retain skilled labour. We are also subject to a number of stringent labour laws that protect the interests of workers, including legislation that imposes financial obligations on employers upon retrenchment. There can be no assurance that we will not experience labour unrest in the future, which may delay or disrupt our operations. Any labour unrest including labour disputes, strikes and lockouts, industrial accidents, experienced by us could directly or indirectly prevent or hinder our normal operating activities and, if not resolved in a timely manner, could lead to disruptions in our operations. In the event of any prolonged delay or disruption of our business, results of operations and financial condition could be materially and adversely affected.

**47. Fluctuations in the average selling prices of stainless steel could adversely affect our business, financial condition, results of operations and cash flows.**

The average selling prices of our products may be subject to fluctuations depending on the market conditions. The average selling prices of our products are affected by the general market conditions, such as pricing by competition and raw material costs, which could have an impact on the businesses of our customers and, in turn, their demand for our products. While, we have not experienced any material fluctuation in our average selling prices, we cannot assure you that we will not experience declining average selling prices for our products or that our average selling prices can remain at the same level in the future. A decline in the average selling prices for our products could adversely affect our business and financial condition, operating results and cash flows.

**48. We are dependent on our Promoter, Directors and a number of key managerial personnel and the loss of, or our inability to attract or retain such persons could adversely affect our business, results of operations, financial condition and cash flows.**

We are dependent on our Promoter, Directors and key managerial personnel for setting our strategic business direction and managing our business. Our Promoter, being Managing Director and Chief Financial Officer of our Company and several of our key managerial personnel have extensive experience in the stainless steel sector. Our ability to meet continued success and future business challenges depends on our ability to attract, recruit and retain experienced, talented and skilled professionals. Without a sufficient number of skilled employees, our operations and manufacturing quality could suffer. Two (2) of our Key Managerial Personnel resigned during the financial year 2022-23 and in respect of our Directors, one (1) director has resigned during the financial year 2022-23. The reason for such attrition rate for our Key Managerial Personnel and Directors was for better prospects. The attrition rate in respect of our employees was 19.35%, 21.52% and 14.04% and in respect of labour was Nil, Nil and Nil for the Fiscals 2023, 2022 and 2021, respectively. We may experience similar attrition rates in the future. A significant increase in the attrition rate among skilled employees could decrease our operating efficiency and productivity and could lead to a decline in the profitability of our Company. Competition for qualified technical personnel and operators is intense, both in retaining our existing employees and when replacing or finding additional suitable employees. If we cannot hire additional qualified personnel or retain them, our ability to expand our business will be impacted.

We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting and retaining suitable employees. The loss of the services of our key personnel or our inability to recruit or train a sufficient number of experienced personnel or our inability to manage the attrition levels in different employee categories may have an adverse effect on our financial results and business prospects.

**49. Any downgrading of our credit rating by a domestic or international credit rating agency may increase interest rates for our future borrowings, which would increase our cost of borrowings, and adversely affect our ability to borrow on a competitive basis.**

Infometrics Valuation and Rating Private Limited has on June 13, 2023 assigned IVR BBB/Positive Outlook rating for the long-term bank facilities and IVRA3 rating for the short-term bank facilities of our Company.

We have been assigned the following credit ratings in the last three fiscals:

Particulars	13-June-23		02-August-22		21-January-21	
	Long Term Instruments	Short Term Instruments	Long Term Instruments	Short Term Instruments	Long Term Instruments	Short Term Instruments
<b>Rating</b>	IVR BBB/Positive Outlook	IVRA3	BWR BBB/Stable	BWRA3	BWR BBB/Stable	BWRA3
<b>Rating Agency</b>	Infometrics Valuation and Rating Private Limited		Brickworks Ratings India Private Limited			

Our credit rating may be downgraded in the future due to various factors, including factors which may be beyond our control. Any future downgrade of our credit ratings may increase interest rates for refinancing our borrowings, which would increase our cost of borrowings, and may have an adverse effect on our future issuances of debt and our ability to borrow on a competitive basis. Further, any downgrade in our credit ratings may also trigger an event of default or acceleration of repayment of certain of our borrowings. If any of these risks materialise, it could have a material adverse effect on our business, reputation, results of operations and financial condition.

**50. An inability to renew quality accreditations in a timely manner or at all, or any deficiencies in the quality of our products may give rise to product liability claims and negatively affect our business prospects and financial performance.**

We obtain and maintain quality certifications and accreditations from independent certification entities and also comply with prescribed specifications and standards of quality approved by certification issuing agencies. If we fail to comply with applicable quality standards or if we are otherwise unable to obtain such quality accreditations in the future in a timely manner or at all, our business prospects and financial performance may be negatively affected.

Further, if our products are alleged or found to be defective, we may be subject to product liability claims. While there have been no instances during the last three financial years (Fiscal 2021 to Fiscal 2023) where we have faced issues in product liability claims. There could be instances in which our products do not meet the specifications. We have, at some times, encountered certain claims with respect to the quality of our products and we may be subject to product liability claims and litigation for compensation in the future also which could result in substantial and unexpected expenditure and could materially affect our cash flow and operating results. Further, there can be no assurance that we will be able to successfully defend such claims. If any such claims against us are ultimately successful, we could be required to pay substantial damages, which could materially and adversely affect our business, financial condition, results of operations and cash flows.

**51. The continuing impact of the COVID-19 pandemic on our business and operations is uncertain and it may be significant and continue to have an adverse effect on our business, operations and our future financial performance.**

The World Health Organization declared the novel coronavirus disease (“COVID-19”) outbreak a Public Health Emergency of International Concern on January 30, 2020, and a pandemic on March 11, 2020. The rapid and diffused spread of COVID-19 and global health concerns relating to this pandemic have had a severe negative impact on, among other things, financial markets, liquidity, economic conditions and trade and could continue to do so or could worsen for an unknown period of time, that could in turn continue to have a material adverse impact on our business, cash flows, results of operations and financial condition, including liquidity and growth.

Additionally, we cannot predict the impact that the COVID-19 pandemic will have on our customers, suppliers and other business partners, and each of their financial conditions; however, any material effect on any of these parties could in turn have an adverse impact on us. As a result of these uncertainties, the impact may vary significantly from that estimated by our management from time to time, and any action to contain or mitigate such impact, whether government- mandated or opted by us, may not have the anticipated effect or may fail to achieve its intended purpose altogether. Our existing insurance coverage may not provide protection or coverage for any costs that may arise from all such possible events.

The COVID-19 pandemic may cause us to continue to experience the foregoing challenges in our business in the future and could have other effects on our business, including disrupting our ability to develop new offerings enhance existing offerings, market, and sell our products and conduct business activities generally.

The extent to which the COVID-19 pandemic may impact our business and results of operations will also depend on future developments that are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the disease, the duration and spread of the outbreak, the scope of travel restrictions imposed in geographic areas in which we operate, mandatory or voluntary business closures, the impact on businesses and financial and capital markets and the extent and effectiveness of the development and distribution of vaccines and other actions taken throughout the world to contain the virus or treat its impact. An extended period of global supply chain and economic disruption as a result of the COVID-19 pandemic could have a material negative impact on our business, financial condition, and results of operations.

**52. Restrictions on import of raw materials may impact our business and results of operations.**

In Fiscals 2023, 2022 and 2021, the cost of raw materials and components consumed amounts to ₹ 4,189.58 Million, ₹3,735.22 Million, and ₹ 3,224.55 Million representing 87.32%, 87.49% and 89.65% respectively, of our revenue from operations. We currently import some portion of our raw materials. Raw material imports are regulated by certain specific laws and regulations that permit concerned authorities to stop any import if it is deemed that the goods proposed to be imported may be hazardous. While the raw materials we import may not be hazardous in nature, we cannot assure you that such regulations will not be made applicable to us or that such regulations will not evolve into more stringent regulations, which would place onerous requirements on us and consequently restrict our ability to import raw materials. While we have not in the recent past experienced any challenges in importing such materials, we cannot assure you that we will not experience any such challenges in the future. In light of the COVID-19 pandemic and the current war scenario in Eastern Europe, the import of raw materials could be affected in the future. In the event we are unable to import these materials, there can be no assurance that we will be successful in identifying alternate suppliers for raw materials or we will be able to source the raw materials at favourable terms in a timely manner or at all. Any change in law or applicable governmental policies relating to imports, change in international geo-political situations, restriction on import of raw materials could have an adverse effect on our ability to deliver products to our distributors, business and results of operations.

- 53. We have in this Red Herring Prospectus included certain Non-GAAP Measures and certain other industry measures related to our operations and financial performance. These Non-GAAP Measures and industry measures may vary from any standard methodology that is applicable across the stainless steel industry, and therefore may not be comparable with financial or industry related statistical information of similar nomenclature computed and presented by other companies.**

Certain Non-GAAP Measures and certain other industry measures relating to our operations and financial performance have been included in this Red Herring Prospectus. We compute and disclose such Non-GAAP Measures and such other industry related statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance, and because such measures are frequently used by securities analysts, investors and others to evaluate the operational performance of Indian stainless steel companies, many of which provide such Non-GAAP Measures and other industry related statistical and operational information. Such supplemental financial and operational information is therefore of limited utility as an analytical tool and investors are cautioned against considering such information either in isolation or as a substitute for an analysis of our audited financial statements as reported under applicable accounting standards disclosed elsewhere in this Red Herring Prospectus.

These Non-GAAP Measures and such other industry related statistical and other information relating to our operations and financial performance may not be computed on the basis of any standard methodology that is applicable across the industry and are not measures of operating performance or liquidity defined by generally accepted accounting principles, and therefore may not be comparable to financial measures and industry related statistical information of similar nomenclature that may be computed and presented by other manufacturing companies.

- 54. We are subject to various government regulations and if we fail to obtain, maintain or renew our statutory and regulatory licenses, permits and approvals required to operate our business, our business, results of operations and cash flows may be adversely affected. In addition, we have certain obligations under policies imposed and schemes launched by the government that may not be directly beneficial or profitable to our business.**

Our operations are subject to extensive government regulation and we are required to obtain and maintain a number of statutory and regulatory permits and approvals under central, state and local government rules in India and in respective regions that we have operations, generally for carrying out our business, producing and marketing our Products, for our production units, and corporate office. For details of applicable regulations and approvals relating to our business and operations, see “*Government and Other Approvals*” on page 350.

Failure by us to renew, maintain or obtain the required permits or approvals at the requisite time may result in the interruption of our operations and may have an adverse effect on our business, financial condition and results of operations. While we have obtained key approvals required for our business, we have also applied for, and are awaiting grant/renewal of certain key approvals. Failure to obtain or validly maintain such approvals could materially and adversely affect our business, results of operations and financial condition. For further details, see “*Government and Other Approvals*” on page 350. The approvals required by our Company are subject to numerous conditions and there can be no assurance that these would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. If there is any failure by us to comply with the applicable regulations or if the regulations governing our business are amended, we may incur increased costs, be subject to penalties, have our approvals and permits revoked or suffer a disruption in our operations, any of which could adversely affect our business.

If we fail to comply with applicable statutory or regulatory requirements or fail to complete production of our Products in compliance with applicable standards, there could be a delay in the submission or grant of approval for sale of new products. In many of the international markets where our Products are ultimately sold, the approval process for a new product can be complex, lengthy and expensive. The time taken to obtain regulatory approvals varies by country but generally takes between several weeks and several years from the date of application. If we fail to obtain such approvals, licenses, registrations and permissions, in a timely manner or at all, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, we are required to meet certain requirements and obligations under policies imposed by and schemes launched by the government which may involve substantial amount of cost allocation and may not be in line with the best interest of our business in terms of our endeavour to decrease expenditure and increase profitability.

**55. *Changes in technology may affect our business by making our units or equipment less competitive.***

Our profitability and competitiveness are to a certain extent dependent on our ability to respond to technological advances and emerging industry standards and practices on a cost-effective and timely basis. Changes in technology may make newer generation manufacturing equipment more competitive than ours or may require us to make additional capital expenditures to upgrade our units. Our inability to continue to invest in new and more advanced technologies and equipment, may result in our inability to respond to emerging industry standards and practices in a cost-effective and timely manner that is competitive with other stainless steel products manufacturing companies and other methods of manufacturing. The development and implementation of such technology entails technical and business risks. We cannot assure you that we will be able to successfully implement new technologies or adapt our processing systems to emerging industry standards. If we are unable to adapt in a timely manner to changing market conditions or technological changes, our business and financial performance could be adversely affected.

**56. *Our Company will not receive any proceeds from the Offer for Sale portion, and the Promoter Selling Shareholder shall be entitled to the Offer Proceeds to the extent of the Equity Shares offered by him in the Offer for Sale. Our Promoter is therefore interested in the Offer in connection with the Equity Shares offered by them in the Offer for Sale.***

The Offer includes an offer for sale of such number of Equity Shares aggregating up to 3,040,000 by the Promoter Selling Shareholder, which is the Promoter of our Company. The Promoter is therefore interested in the Offer Proceeds to the extent of the Equity Shares offered by him in the Offer for Sale. The entire proceeds (net of offer expenses) from the Offer for Sale will be paid to the Promoter Selling Shareholder pursuant to the Offer for Sale, and our Company will not receive any such proceeds. Further, except for listing fees of the Offer, which will be borne by our Company, all cost, fees and expenses (including all applicable taxes) in respect of the Offer will be shared amongst our Company and the Promoter Selling Shareholder on a pro-rata basis, in proportion to the Equity Shares issued and allotted by our Company in the Fresh Issue and the Offered Shares sold by the Promoter Selling Shareholder in the Offer for Sale, upon successful completion of the Offer. See “*Capital Structure*” and “*Objects of the Offer*” on pages 96 and 118, respectively of this Red Herring Prospectus.

**57. *We have issued Equity Shares at prices that may be lower than the Offer Price in the last 12 months.***

We have issued and allotted 30,361,660 equity shares, at prices which may be lower than the Offer Price. For further details, please see “*Capital Structure – Notes to the Capital Structure – Equity Share capital history of our Company*” on page 97 of this Red Herring Prospectus.

**58. *Industry information included in this Red Herring Prospectus has been derived from an industry report commissioned and paid by us exclusively in connection with the Offer issued by Dun &***

***Bradstreet for such purpose. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.***

We have availed the services of an independent third-party research agency, Dun & Bradstreet, to prepare an industry report titled “Report on Stainless Steel Sheets, Washers, Sheet Metal Components and Pipes & Tubes” dated August 2023, for purposes of inclusion of such information in this Red Herring Prospectus. This report has been exclusively commissioned and paid by us and issued by D&B for purpose of confirming our understanding of the industry in connection with the Offer. Certain sections of this Red Herring Prospectus include information based on, or derived from, the D&B Report or extracts of the D&B Report. All such information in this Red Herring Prospectus indicates the D&B Report as its source. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions vary widely amongst different industry sources. Furthermore, such assumptions may change based on various factors. We cannot assure that the D&B Report assumptions are correct or will not change and, accordingly, our position in the market may differ from that presented in this Red Herring Prospectus. Furthermore, the commissioned report is not a recommendation to invest or disinvest in our Company and shall not be construed as an expert advice or investment advice. Prospective investors are advised not to unduly rely on the D&B Report or extracts thereof as included in this Red Herring Prospectus, when making their investment decisions.

***59. If we are subject to any frauds, theft, or embezzlement by our employees, suppliers or customers, it could adversely affect our reputation, results of operations, financial condition and cash flows.***

Our operations may be subject to incidents of theft. We may also encounter some inventory loss on account of employee/ supplier/ customer fraud, theft, or embezzlement. Although we have set up various security measures in our office premises and units such as deployment of security guards and operational processes such as periodic stock taking, there can be no assurance that we will not experience any fraud, theft, employee negligence, loss in transit or similar incidents in the future, which could adversely affect our reputation, results of operations, financial condition and cash flows.

***60. Certain statutory filings made by our Company may contain discrepancies/errors with respect to any of the information required therein. We cannot assure you that our Company shall not be subjected to any liability on account of such discrepancies.***

We monitor compliances with applicable laws and regulations by implementing stringent internal checks and controls. Although we have generally been in compliance with applicable laws, there have been certain instances of delayed statutory filings/ discrepancies/ errors. Although, no regulatory action has been taken against us with respect to the aforesaid non-compliances/ errors, there can be no assurance that a regulatory action shall not be taken by the relevant authorities against us in the future. In an event such an action is taken, we may be subject to penalties and other consequences that may adversely impact our business, reputation, and results of operation and there can be no assurance that we shall be able to successfully defend any action/ allegation raised by such regulatory authorities. Our compliance team meticulously follows a detailed compliance calendar providing for compliances under various applicable laws, including but not limited to, Companies Act. As we continue to grow, there can be no assurance that deficiencies in our internal controls shall not arise, or that we shall be able to implement, and continue to maintain, adequate measures to rectify or mitigate any such deficiencies in our internal controls, in a timely manner or at all. There may be recurrences of similar discrepancies/errors in the future that could subject our Company to penal consequences under

applicable laws. Any such action could adversely impact our business, reputation, and results of operation.

***61. We face foreign exchange risks that could adversely affect our results of operations and cash flows.***

We have foreign currency receivables and payables for sale of our products and supply of certain raw materials and equipment and are therefore, exposed to foreign exchange risk between the Indian Rupee and U.S. Dollars and other foreign currencies. However, we have adopted foreign exchange risk mitigation measures like forward exchange contract, there can be no assurance that we will be able to avoid the effect of any adverse fluctuations in the value of the Indian Rupee against other relevant foreign currencies. We have in the past experienced net foreign currency exchange (losses)/gain to the extent of ₹ (2.86)million, ₹ 4.86 million and ₹ 30.89 million respectively, which represents (0.05)%, 0.11% and 0.86%, of our revenues from operations for the Fiscals 2023, 2022 and 2021respectively. There can be no assurance that we shall not be subject to foreign currency exchange losses in the future. Further, volatility in exchange rates would result in an increase in the cost of our products. We may not be able to pass on such increase in costs to our customers. Any significant fluctuation in the value of the Indian Rupee against such currencies may adversely affect our results of operations. Any appreciation of foreign currencies against the Indian Rupee may result in reduction of our margins and consequently have an adverse effect on business and result of operations.

***62. Activities involving our manufacturing process can be dangerous and can cause injury to people or property in certain circumstances. A significant disruption at any of our manufacturing facilities may adversely affect our production schedules, costs, sales and ability to meet customer demand.***

Our business involves complex manufacturing processes that can be dangerous to our employees. Although we employ safety procedures, including providing safety equipment on the shop floor, in the operation of our facilities and maintain, to be adequate insurance, there is a risk that an accident or death may occur in any of our facilities. An accident may result in destruction of property or equipment, environmental damage, manufacturing or delivery delays, or may lead to suspension of our operations and/or imposition of liabilities. Any such accident may result in litigation, the outcome of which is difficult to assess or quantify, and the cost to defend litigation can be significant. As a result, the costs to defend any action or the potential liability resulting from any such accident or death or arising out of any other litigation, and any negative publicity associated therewith, may have a negative effect on our business, financial condition, results of operations and prospects. While we maintain legally mandated insurance policies such as accident and medical insurance policies for our employees and a public liability insurance, we cannot assure you that the coverage under such policies will be sufficient to cover loss sustained or that an affected employee or third party will not additionally seek legal recourse against us.

In particular, if operations at our manufacturing facilities were to be disrupted as a result of any significant workplace accident, equipment failure, natural disaster, power outage, fire, explosion, terrorism, adverse weather conditions, labour dispute, obsolescence or other reasons, our financial performance may be adversely affected as a result of our inability to meet customer demand or committed delivery schedules for our products. While there has not been any such incidence in past, we cannot assure you that such incidents will not occur in future.

Interruptions in production may also increase our costs and reduce our sales and may require us to make substantial capital expenditures to remedy the situation or to defend litigation that we may become involved in as a result, which may negatively affect our profitability, business, financial condition, results of operations and prospects.

***63. Unsecured loans of ₹ 102.32 million taken by our Company from related party can be recalled at any time.***

As on March 31, 2023, we have two outstanding unsecured loan aggregating to ₹102.32 million taken by our Company from our Promoter and Promoter Group member for business purpose. Although, as on date, neither the loan arrangement has been terminated nor the outstanding amounts have been called to be repaid by the said related party. However, there can be no assurance that such party shall not recall the outstanding amount (in part, or in full) at any time. We intend to repay the said loan in due course, however, any failure to service such indebtedness, or discharging any obligations thereunder could have a material adverse effect on our business, financial condition and results of operations. For further details refer to the section entitled “*Financial Indebtedness*” beginning on page 337.

**64. *There is no guarantee that our Equity Shares will be listed on the Stock Exchanges in a timely manner or at all.***

In accordance with Indian law and practice, permission for listing and trading of our Equity Shares will not be granted until after certain actions have been completed in relation to this Offer and until Allotment of Equity Shares pursuant to this Offer.

In accordance with current regulations and circulars issued of SEBI, our Equity Shares are required to be listed on the stock exchanges within such time as mandated under UPI Circulars, subject to any change in the prescribed timeline in this regard. However, we cannot assure you that the trading in our Equity Shares will commence in a timely manner or at all. Any failure or delay in obtaining final listing and trading approvals may restrict your ability to dispose of your Equity Shares.

**65. *Our Promoter, also being the Managing Director and Chief Financial Officer of our Company, holds Equity Shares in our Company and is therefore interested in the Company’s performance in addition to his remuneration and reimbursement of expenses.***

Our Promoter, also being the Managing Director and Chief Financial Officer of our Company, is interested in our Company, in addition to his remuneration or benefits and reimbursement of expenses, to the extent of his shareholding in our Company. Our Promoter shall abide by the provisions of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and protect the interests of the Company. However, in case of any conflict of interest our Promoter shall keep the interests of our Company first over his personal interest, we cannot assure you that he will exercise his rights as shareholder to the benefit and best interest of our Company. Our Promoter may take actions with respect to our business which may conflict with the best interests of our Company or that of minority shareholders. For further information on the interest of our Promoter of our Company, other than reimbursement of expenses incurred or remuneration or benefits, please see the chapters titles “*Our Management*” and “*Our Promoter and Promoter Group*” beginning on pages 223 and 243, respectively, of this Red Herring Prospectus.

**66. *Our ability to pay dividends in the future will depend on our earnings, financial condition, working capital requirements, capital expenditures and restrictive covenants of our financing arrangements.***

We have not declared dividend in the past. For further information, see “*Dividend Policy*” on page 248 of this Red Herring Prospectus. Our ability to pay dividends in the future will depend on our earnings, financial condition, cash flow, working capital requirements, capital expenditure and restrictive covenants of our financing arrangements. The declaration and payment of dividends will be recommended by the Board of Directors and approved by the Shareholders, at their discretion, subject to the provisions of the Articles of Association and applicable law, including the Companies Act. We may retain all future earnings, if any, for use in the operations and expansion of the business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board in accordance with the

dividend distribution policy as may be adopted by our Board from time to time and will depend on factors that our Board deems relevant, including among others, our Company's profitability, capital requirements, financial commitments and requirements, including business and expansions plans, applicable legal restrictions and any other financing arrangements. We cannot assure you that we will be able to pay dividends in the future. Accordingly, realization of a gain on Shareholders' investments will depend on the appreciation of the price of the Equity Shares. There is no guarantee that our Equity Shares will appreciate in value.

## **EXTERNAL RISK FACTORS**

### **RISKS RELATING TO INDIA**

#### ***67. A slowdown in economic growth in India could cause our business to suffer.***

Our performance and the growth of our business are necessarily dependent on the health of the overall Indian economy. Any slowdown or perceived slowdown in the Indian economy or future volatility in global commodity prices could adversely affect our business. Additionally, an increase in trade deficit, a downgrading in India's sovereign debt rating or a decline in India's foreign exchange reserves could negatively affect interest rates and liquidity, which could adversely affect the Indian economy and our business. Global situations such as outbreak of the COVID-19 pandemic, full scale military invasion of Ukraine by Russia have caused a global economic downturn including in India. Any downturn in the macroeconomic environment in India could also adversely affect our business, financial condition, results of operations and prospects.

India's economy could be adversely affected by a general rise in interest rates or inflation, civil unrest, adverse weather conditions affecting agriculture, commodity and energy prices as well as various other factors. A slowdown in the Indian economy could adversely affect the policy of the GoI towards our industry, which may in turn adversely affect our financial performance and our ability to implement our business strategy.

The Indian economy is also influenced by economic and market conditions in other countries, particularly emerging market conditions in Asia. A decline in India's foreign exchange reserves and exchange rate fluctuations may also affect liquidity and interest rates in the Indian economy, which could adversely impact our financial condition. A loss of investor confidence in other emerging market economies or any worldwide financial instability may adversely affect the Indian economy, which could materially and adversely affect our business, financial condition, results of operations and prospects.

Further, other factors which may adversely affect the Indian economy are scarcity of credit or other financing in India, resulting in an adverse impact on economic conditions in India and scarcity of financing of our expansions; volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges; changes in India's tax, trade, fiscal or monetary policies, like application of GST; political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries; occurrence of natural or man-made disasters; infectious disease outbreaks or other serious public health concerns; prevailing regional or global economic conditions, including in India's principal export markets; and other significant regulatory or economic developments in or affecting India or its financial services sectors.

#### ***68. Financial instability in other countries may cause increased volatility in Indian financial markets.***

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial turmoil in Asia, Europe and elsewhere in the world in recent years has adversely affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector

and us. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cash flows. Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy. For example, the full scale military invasion of Russia into Ukraine and the subsequent sanctions placed on Russia by various countries has substantially affected the economic stability of the world and such volatility could impact our Company's growth. In addition, the market price of oil has risen sharply since the commencement of hostilities in Ukraine, which may have an inflationary effect in India and other countries. A prolonged war or a protracted period of hostilities in the Ukraine may lead to global economic disturbances.

In addition, the USA is one of India's major trading partners and any possible slowdown in the American economy could have an adverse impact on the trade relations between the two countries. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term effect of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilizing effects. Any significant financial disruption could have a material adverse effect on our business, financial condition, results of operation, and cash flows. These developments, or the perception that any of them could occur, have had and may continue to have a material adverse effect on global economic conditions and the stability of global financial markets, and may significantly reduce global market liquidity, restrict the ability of key market participants to operate in certain financial markets or restrict our access to capital. This could have a material adverse effect on our business, financial condition, results of operations, and cash flows, and reduce the price of the Equity Shares.

**69. *The occurrence of natural or man-made disasters or outbreak of global pandemics, such as the COVID-19 pandemic, could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.***

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, infectious disease outbreaks such as the COVID-19 pandemic and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war in India or globally, including the ongoing conflict between Russia and Ukraine following Russia's full-scale military invasion of Ukraine in February 2022, volatility in interest rates, volatility in commodity and energy prices, an increase in oil prices, a loss of investor confidence in other emerging market economies and other political and economic development may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

**70. *Significant differences exist between Indian Accounting Standards (Ind AS) and other accounting principles, such as Indian Generally Accepted Accounting Principles (Indian GAAP), United States Generally Accepted Accounting Principles (U.S. GAAP) and International Financial Reporting Standards (IFRS), which investors may be more familiar with and may consider material to their assessment of our financial condition.***

Our Restated Financial Statements as at and for the financial year ended March 31, 2023 have been derived from our audited financial statements as at and for the financial year ended March 31, 2023 prepared in accordance with Ind AS. Our Restated Financial Statements as at and for the financial year ended March 31, 2022 and March 31, 2021 have been derived from our audited financial statements as at and for the year ended March 31, 2022 and March 31, 2021 prepared in accordance with Accounting Standards and restated in accordance with the SEBI ICDR Regulations and the ICAI Guidance Note.

Ind AS differs in certain significant respects from Indian GAAP, IFRS, U.S. GAAP and other accounting principles with which prospective investors may be familiar in other countries. If our Restated Financial Statements were to be prepared in accordance with such other accounting principles, our results of operations, cash flows and financial position may be substantially different. We have not attempted to quantify the impact of US GAAP, IFRS or any other system of accounting principles on the financial data included in this Prospectus, nor do we provide a reconciliation of our financial statements to those of US GAAP, IFRS or any other accounting principles. Prospective investors should review the accounting policies applied in the preparation of our Restated Financial Statements and consult their own professional advisers for an understanding of the differences between these accounting principles and those with which they may be more familiar. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Red Herring Prospectus should be limited accordingly.

***71. If there is any change in laws or regulations, including taxation laws, or their interpretation, such changes may significantly affect our financial statements.***

Any change in Indian tax laws could have an effect on our operations. Any future amendments may affect our benefits such as exemption for income earned by way of dividend from investments in other domestic companies and units of mutual funds, exemption for interest received in respect of tax-free bonds, and long-term capital gains on equity shares if withdrawn by the statute in the future, and the same may no longer be available to us. Any adverse order passed by the appellate authorities/ tribunals/ courts would have an effect on our profitability.

In addition, we are subject to tax related inquiries and claims. We may be particularly affected by claims from tax authorities on account of income tax assessment, service tax, past claims of central excise, state VAT, and GST that combines taxes and levies by the central and state governments into one unified rate of interest with effect from July 1, 2017. For further information on litigations arising out of such claims, see "*Outstanding Litigation and Other Material Developments*" beginning on page 341 of this Red Herring Prospectus.

Further, the Government of India has notified the Finance Act, 2023, which has introduced various amendments ("Finance Act"), wherein a few sections have become effective from April 01, 2023 and the remaining shall come into force as and when may be notified by the Central Government. As such, there is no certainty on the impact that the Finance Act, 2023 may have on our business and operations or on the industry in which we operate. In addition, unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business, operations and group structure could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs relating to compliance with such new requirements, which may also require management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

Furthermore, the GoI has recently introduced (a) the Code on Wages, 2019; (b) the Code on Social Security, 2020; (c) the Occupational Safety, Health and Working Conditions Code, 2020; and (d) the Industrial Relations Code, 2020 which consolidate, subsume and replace numerous existing central labour legislations. The rules for implementation under these codes have been notified, and we are determining the impact of these laws on our business and operations which may restrict our ability to grow our business in the future and increase our expenses. In another example, the GoI has made it mandatory for business establishments with turnover above a certain size to offer digital modes of payment from November 2019, with no charges being levied on the customers or the merchants by banks and payment service providers. Such measures could adversely impact our income streams in the future and adversely affect its financial performance.

We cannot predict whether any new tax laws or regulations impacting our services will be enacted, what the nature and impact of the specific terms of any such laws or regulations will be or whether, if at all, any laws or regulations would have an adverse effect on our business.

**72. Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.**

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain restrictions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then a prior regulatory approval will be required. Further, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/ departments are responsible for granting approval for foreign investment. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities.

In addition, pursuant to the Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT, which has been incorporated as the proviso to Rule 6(a) of the FEMA Rules, investments where the beneficial owner of the Equity Shares is situated in or is a citizen of a country which shares land border with India, can only be made through the Government approval route, as prescribed in the Consolidated FDI Policy dated October 15, 2020 and the FEMA Rules. These investment restrictions shall also apply to subscribers of offshore derivative instruments. We cannot assure you that any required approval from the RBI or any other governmental agency can be obtained with or without any particular terms or conditions or at all.

We cannot assure investors that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or at all. For further information, see "*Restrictions on Foreign Ownership of Indian Securities*" on page 405 of this Red Herring Prospectus.

**73. A downgrade in ratings of India, may affect the trading price of the Equity Shares.**

Our borrowing costs and our access to the debt capital markets depend significantly on the credit ratings of India. Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such financing is available, including raising any overseas additional financing. Going forward, the sovereign ratings outlook will remain dependent on whether the government is able to transition the economy into a high-growth environment, as well as exercise adequate fiscal restraint. A downgrading of India's credit ratings may occur, for example, upon a change of government tax or fiscal policy, which are outside our control. This could have an

adverse effect on our ability to fund our growth on favorable terms or at all, and consequently adversely affect our business and financial performance and the price of the Equity Shares.

**74. *Investors may not be able to enforce a judgment of a foreign court against us, our Directors, the Book Running Lead Manager or any of their directors and executive officers in India respectively, except by way of a law suit in India.***

We are incorporated under the laws of India and all our Directors and Key Managerial Personnel reside in India. All our assets are also located in India. Where investors wish to enforce foreign judgments in India, they may face difficulties in enforcing such judgments. India exercises reciprocal recognition and enforcement of judgments in civil and commercial matters with a limited number of jurisdictions. In order to be enforceable, a judgment obtained in a jurisdiction which India recognises as a reciprocating territory must meet certain requirements of the Civil Procedure Code, 1908 (the “CPC”).

India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. Recognition and enforcement of foreign judgments is provided for under Section 13, 14 and Section 44A of the CPC on a statutory basis. Section 44A of the CPC provides that where a certified copy of a decree of any superior court, within the meaning of that Section, obtained in any country or territory outside India which the government has by notification declared to be in a reciprocating territory, may be enforced in India by proceedings in execution as if the judgment had been rendered by a district court in India. However, Section 44A of the CPC is applicable only to monetary decrees and does not apply to decrees for amounts payable in respect of taxes, other charges of a like nature or in respect of a fine or other penalties and does not apply to arbitration awards (even if such awards are enforceable as a decree or judgment).

A judgment of a court of a country which is not a reciprocating territory may be enforced in India only by a suit upon the judgment under Section 13 of the CPC, and not by proceedings in execution. Section 13 of the CPC provides that foreign judgments shall be conclusive regarding any matter directly adjudicated upon except:

(i) where the judgment has not been pronounced by a court of competent jurisdiction; (ii) where the judgment has not been given on the merits of the case; (iii) where it appears on the face of the proceedings that the judgment is founded on an incorrect view of international law or refusal to recognize the law of India in cases to which such law is applicable; (iv) where the proceedings in which the judgment was obtained were opposed to natural justice; (v) where the judgment has been obtained by fraud; and/or (vi) where the judgment sustains a claim founded on a breach of any law then in force in India. The suit must be brought in India within three years from the date of judgment in the same manner as any other suit filed to enforce a civil liability in India.

It cannot be assured that a court in India would award damages on the same basis as a foreign court if an action is brought in India. Furthermore, it is unlikely that an Indian court would enforce foreign judgments if it views the amount of damages awarded as excessive or inconsistent with Indian practice. A party seeking to enforce a foreign judgment in India is required to obtain prior approval from the RBI to repatriate any amount recovered pursuant to the execution of such foreign judgment.

**75. *If inflation were to rise in India, we might not be able to increase the prices of our products at a proportional rate in order to pass costs on to our clients thereby reducing our margins.***

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of transportation, wages, raw materials and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to adequately pass on to our clients, whether entirely or in part, and may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or entirely offset any increases in costs with increases in prices for our products. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the Government has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

**76. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of our Equity Shares, independent of our operating results.***

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time taken for such conversion may reduce the net dividend to foreign investors.

In addition, any adverse movement in currency exchange rates during a delay in repatriating the proceeds from a sale of Equity Shares outside India may reduce the proceeds received by Shareholders, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares. Another example would be that the exchange rate between the Indian Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the returns on our Equity Shares, independent of our operating results.

**RISKS RELATING TO THE OFFER AND THE EQUITY SHARES**

**77. *Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby may suffer future dilution of their ownership position.***

Under the Companies Act, a company having share capital and incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the pre-emptive rights have been waived by adoption of a special resolution. However, if the laws of the jurisdiction where the investors are located do not permit them to exercise their pre-emptive rights without filing an offering document or registration statement with the applicable authority in such jurisdiction, the investors will be unable to exercise their pre-emptive rights unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for the investor's benefit. The value the custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that the investors are unable to exercise pre-emption rights granted in respect of the Equity Shares held by them, their proportional interest in us would be reduced.

**78. *Rights of shareholders of companies under Indian law may be more limited than under the laws of other jurisdictions.***

Our Articles of Association, composition of our Board, Indian laws governing our corporate affairs, the validity of corporate procedures, directors' fiduciary duties, responsibilities and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights under Indian law may not be as extensive and wide-spread as shareholders' rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as shareholder in an Indian company than as a shareholder of an entity in another jurisdiction.

**79. Any future issuance of Equity Shares may dilute your shareholding and sale of Equity Shares by the Promoter may adversely affect the trading price of the Equity Shares.**

We may be required to finance our growth, whether organic or inorganic, through future equity offerings. Any future equity issuances by us, including a primary offering, may lead to the dilution of investors' shareholdings in our Company. Any future equity issuances by us (including under an employee benefit scheme) or disposal of our Equity Shares by the Promoter or any of our other principal shareholders or any other change in our shareholding structure to comply with minimum public shareholding norms applicable to listed companies in India or any public perception regarding such issuance or sales may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of our Equity Shares or incurring additional debt. There can be no assurance that we will not issue further Equity Shares or that our existing shareholders including our Promoter will not dispose of further Equity Shares after the completion of the Offer (subject to provisions of the applicable laws) or pledge or encumber their Equity Shares. Any future issuances could also dilute the value of shareholder's investment in the Equity Shares and adversely affect the trading price of our Equity Shares. Such securities may also be issued at prices below the Offer Price. We may also issue convertible debt securities to finance our future growth or fund our business activities. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of our Equity Shares.

**80. Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Offer.**

The Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. Investors' book entry, or 'demat' accounts with depository participants in India, are expected to be credited within one working day of the date on which the Basis of Allotment is approved by the Stock Exchanges. The Allotment of Equity Shares in this Offer and the credit of such Equity Shares to the applicant's demat account with depository participant could take approximately five Working Days from the Bid Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges is expected to commence within six Working Days of the Bid Closing Date. There could be a failure or delay in listing of the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise commence trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

**81. Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.**

Under the current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. A securities transaction tax ("STT") is levied both at the time of transfer and acquisition of the equity shares (unless exempted under a prescribed notification) and collected by an Indian stock exchange on which equity shares are sold. Any gain realised on the sale of equity shares held for more than 12 months, which are sold using any other platform other than on a recognised stock exchange and on which no STT has been paid, are subject to long term capital gains tax in India. Such long-term capital gains exceeding ₹ 100,000 arising from the sale of listed equity shares on the stock exchange are subject to tax at the rate of 10% (plus applicable surcharge and cess). Unrealized capital gains earned on listed equity shares up to January 31, 2018 continue to be tax exempt in such cases. Further, STT will be levied on and collected by an Indian stock exchange if the equity shares are sold on a stock exchange. With respect to capital gains arising in an off-market sale, long term capital gains are subject to tax at the rate of 10% (plus applicable surcharge and cess) without the exemption of ₹ 100,000. Short-term capital gains, arising

from the sale of such equity shares on a stock exchange would be subject to tax at the rate of 15% (plus applicable surcharge and cess), while short term capital gains arising in an off-market sale would be subject to tax at a higher rate of 40% (plus applicable surcharge and cess) in the case of foreign companies and 30% (plus applicable surcharge and cess) in the case of other non-resident taxpayers.

The Finance Act, 2019 amended the Indian Stamp Act, 1899 with effect from July 1, 2020 and clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. As such, there is no certainty on the impact that the Finance Act, 2019 may have on our Company's business and operations.

Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. In cases where the seller is a non-resident, capital gains arising from the sale of the equity shares will be partially or wholly exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Additionally, the Finance Act, 2020 does not require dividend distribution tax to be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident. Historically, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the equity shares.

Our Company cannot predict whether any tax laws or other regulations impacting it will be enacted, or predict the nature and impact of any such laws or regulations or whether, if at all, any laws or regulations would have a material adverse effect on our Company's business, financial condition, results of operations and cash flows.

***82. The requirements of being a publicly listed company may strain our resources.***

We are not a publicly listed company and have not, historically, been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the Listing Regulations which will require us to file audited annual and unaudited quarterly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/ or we may not be able to readily determine and accordingly report any changes in our results of operations as promptly as other listed companies. Further, as a publicly listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, our management's attention may be diverted from our business concerns, which may adversely affect our business, prospects, financial condition, results of operations and cash flows. In addition, we may need to hire additional legal and accounting staff with appropriate experience and technical accounting knowledge, but we cannot assure you that we will be able to do so in a timely and efficient manner.

***83. Our Equity Shares have never been publicly traded and may experience price and volume fluctuations following the completion of the Offer, an active trading market for the Equity Shares may not develop, the price of our Equity Shares may be volatile and you may be unable to resell your Equity Shares at or above the Offer Price or at all.***

Prior to the Offer, there has been no public market for our Equity Shares, and an active trading market may not develop or be sustained after the Offer. Listing and quotation does not guarantee that a market for our Equity Shares will develop or, if developed, the liquidity of such market for the Equity Shares. The Offer Price of the Equity Shares is proposed to be determined through a book building process may not necessarily be indicative of the market price of our Equity Shares after the Offer is completed. You may not be able to re-sell your Equity Shares at or above the Offer price and may as a result lose all or part of your investment.

Our Equity Shares are expected to trade on NSE and BSE after the Offer, but there can be no assurance that active trading in our Equity Shares will develop after the Offer, or if such trading develops that it will continue. Investors may not be able to sell our Equity Shares at the quoted price if there is no active trading in our Equity Shares.

There has been significant volatility in the Indian stock markets in the recent past, and the trading price of our Equity Shares after this Offer could fluctuate significantly as a result of market volatility or due to various internal or external risks, including but not limited to those described in this Red Herring Prospectus. The market price of our Equity Shares may be influenced by many factors, some of which are beyond our control, including:

- the failure of security analysts to cover the Equity Shares after this Offer, or changes in the estimates of our performance by analysts;
- the activities of competitors and suppliers;
- future sales of the Equity Shares by us or our shareholders;
- investor perception of us and the industry in which we operate;
- our quarterly or annual earnings or those of our competitors;
- developments affecting fiscal, industrial or environmental regulations;
- the public's reaction to our press releases and adverse media reports; and
- general economic conditions.

A decrease in the market price of our Equity Shares could cause you to lose some or all of your investment.

***84. Future sales of Equity Shares by our Promoter may adversely affect the market price of the Equity Shares.***

After the completion of the Issue, our Promoter will own, directly, more than [●] % of our outstanding Equity Shares. Upon expiry of the lock-in period provided under the SEBI ICDR Regulations, our Promoter will be eligible to sell part or all of the Equity Shares held by it. Future sales of a large number of the Equity Shares by our Promoter, either in one sale or over a series of sales, could adversely affect the market price of the Equity Shares. Similarly, the perception that any such primary or secondary sale may occur could adversely affect the market price of the Equity Shares. No assurance may be given that our Promoter will not dispose of, pledge or encumber their Equity Shares in the future, or that the market price of the Equity Shares will not be adversely affected by any such disposal, pledge or encumbrance of their Equity Shares.

***85. Qualified Institutional Buyers and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid amount) at any stage after submitting a bid, and Retail Individual Investors are not permitted to withdraw their Bids after bid/offer closing date.***

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are required to block the Bid amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of equity shares or the Bid amount) at any stage after submitting a Bid. Similarly,

Retail Individual Investors can revise or withdraw their Bids at any time during the bid/ offer period and until the Bid/ offer closing date, but not thereafter. While we are required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed, including Allotment, within six Working Days from the Bid/ Offer Closing Date or such other period as may be prescribed by the SEBI, events affecting the Investors' decision to invest in the Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or financial condition may arise between the date of submission of the Bid and Allotment. We may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the Investors' ability to sell the Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing. Therefore, QIBs and Non-Institutional Investors will not be able to withdraw or lower their bids following adverse developments in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or otherwise between the dates of submission of their Bids and Allotment.

(2) The Promoter Selling Shareholder have confirmed and approved his participation in the Offer for

*Sale as set out below:*

<b>Sr. No.</b>	<b>Promoter Selling Shareholder</b>	<b>Maximum Shares offered in the Offer for Sale</b>	<b>Date of Board Resolution</b>	<b>Date of consent letter</b>
1.	Vijay Ramanlal Sanghavi	Upto 3,500,000 Equity Shares	November 16, 2022	November 15, 2022

- (3) *Subject to valid Bids being received at or above the Offer Price, undersubscription, if any, in any category, except in the QIB Portion, would be allowed to be met with spill-over from any other category or combination of categories of Bidders at the discretion of our Company and the Promoter Selling Shareholder, in consultation with the Book Running Lead Manager, and the Designated Stock Exchange, subject to applicable laws. In case of under-subscription in the Offer, subject to receipt of minimum subscription for 90% of the Fresh Issue, compliance with Rule 19(2)(b) of the SCRR and allotment of not more than 50% of the Net Offer to QIBs, Equity Shares shall be allocated in the manner specified in the section “Terms of the Offer” beginning on page 369 of this RHP.*

*Allocation to all categories, except Anchor Investors and Retail Individual Bidders shall be made on a proportionate basis. The allocation to each Retail Individual Bidder shall not be less than the minimum Bid Lot, subject to availability of Equity Shares in the Retail Portion and the remaining available Equity Shares, if any, shall be allocated on a proportionate basis.*

- (4) *Our Company and the Promoter Selling Shareholder may, in consultation with the Book Running Lead Manager, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations. The QIB Portion will be accordingly reduced for the Equity Shares allocated to Anchor Investors. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds only, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription or non-Allotment in the Anchor Investor Portion, the remaining Equity Shares shall be added to the Net QIB Portion. 5% of the QIB Portion (excluding Anchor Investor Portion) shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion (excluding Anchor Investor Portion) shall be available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. In the event the aggregate demand from Mutual Funds is less than as specified above, the balance Equity Shares available for Allotment in the Mutual Fund Portion will be added to the QIB Portion and allocated proportionately to the QIB Bidders (other than Anchor Investors) in proportion to their Bids. For details, see “Offer Procedure” beginning on page 381.*

*Allocation to all categories, except the Anchor Investor Portion and the Retail Portion, shall be made on a proportionate basis subject to valid Bids having been received at or above the Offer Price, as applicable. The allocation to each Retail Individual Bidder shall not be less than the minimum Bid Lot, subject to availability of Equity Shares in the Retail Portion and the remaining available Equity Shares, if any, may be allocated on a proportionate basis. For further details, please see “Offer Procedure” on page 381 of this Red Herring Prospectus.*

English national newspaper, All editions of Business Standard (Hindi) the Hindi national newspaper and Ahmedabad editions of Ahmedabad Express, the Gujarati regional newspaper (Gujarati being the regional language of Gujarat where our Registered Office is located), each with wide circulation, at least two working days prior to the Bid/ Offer Opening Date. The Offer Price shall be finalized after the Bid/ Offer Closing Date. The principal parties involved in the Book Building Process are:

All Bidders (except Anchor Investors) shall mandatorily participate in the Offer only through the ASBA process. Pursuant to the UPI Circulars, Retail Individual Bidders may also participate in this Offer through UPI in the ASBA process. In accordance with the SEBI ICDR Regulations, QIBs bidding in the QIB Portion and Non-Institutional Bidders bidding in the Non-Institutional Portion are not allowed to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Retail Individual Bidders can revise their Bids during the Bid/ Offer Period and withdraw their Bids until the Bid/ Offer Closing Date.

Each Bidder by submitting a Bid in Offer, will be deemed to have acknowledged the above restrictions and the terms of the Offer.

Our Company will comply with the SEBI ICDR Regulations and any other directions issued by SEBI in relation to this Offer. In this regard, our Company has appointed the BRLM to manage this Offer and procure Bids for this Offer. The Book Building Process is in accordance with guidelines, rules and regulations prescribed by SEBI and are subject to change from time to time. Bidders are advised to make their own judgement about an investment through this process prior to submitting a Bid.

The process of Book Building is in accordance with the guidelines, rules and regulations prescribed by SEBI under the SEBI ICDR Regulations and the Bidding Processes are subject to change from time to time. Investors are advised to make their own judgment about investment through this process prior to submitting a Bid in this Offer.

Bidders should note that this Offer is also subject to obtaining (i) final approval of the RoC after the Prospectus is filed with the RoC; and (ii) final listing and trading approvals from the Stock Exchanges, which our Company shall apply for after Allotment.

### **Illustration of Book Building Process and the Price Discovery Process**

For an illustration of the Book Building Process and the price discovery process, please refer to the chapter titled “*Offer Procedure*” on page 381 of this Red Herring Prospectus.

### **Withdrawal of the Offer**

Our Company, in consultation with the Book Running Lead Manager, reserves the right not to proceed with the Offer at any time before the Offer Opening Date without assigning any reason thereof.

If our Company withdraws the Offer any time after the Offer Opening Date but before the allotment of Equity Shares, a public notice within two (2) Working Days of the Offer Closing Date, providing reasons for not proceeding with the Offer shall be issued by our Company. The notice of withdrawal will be issued in the same newspapers where the pre- Offer advertisements have appeared and the Stock Exchanges will also be informed promptly.

The BRLM, through the Registrar to the Offer, will instruct the SCSBs to unblock the ASBA Accounts within one (1) Working Day from the day of receipt of such instruction. If our Company withdraws the Offer after the Offer Closing Date and subsequently decides to proceed with an Offer of the Equity Shares, our Company will file a fresh Draft Offer Document with the stock exchanges where the Equity

Shares may be proposed to be listed. Notwithstanding the foregoing, the Offer is subject to obtaining (i) the final listing and trading approvals of the Stock Exchanges with respect to the Equity Shares offered through the Red Herring Prospectus, which our Company will apply for only after Allotment; and (ii) the final ROC approval of the Prospectus.

## **Underwriting**

After the determination of the Offer Price and allocation of Equity Shares, but prior to the filing of the Prospectus with the RoC, our Company and Promoter Selling Shareholder intend to enter into the Underwriting Agreement with the Underwriters for the Equity Shares. Pursuant to the terms of the Underwriting Agreement, the obligations of each of the Underwriters are several and are subject to certain conditions specified therein.

The Underwriting Agreement is dated [●]. The Underwriters have indicated their intention to underwrite the following number of Equity Shares:

<b>Name, Address, Telephone, Fax, and Email of the Underwriters</b>	<b>Indicated number of Equity Shares to be Underwritten</b>	<b>Amount Underwritten **</b>	<b>% of the total Offer size Underwritten</b>
[●]	[●]	[●]	[●]

The above-mentioned is indicative underwriting and will be finalised after determination and finalisation of the Basis of Allotment and subject to the provisions of the SEBI ICDR Regulations.

In the opinion of the Board of Directors, the resources of the above-mentioned Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The abovementioned Underwriters are registered with SEBI under Section 12(1) of the SEBI Act or registered as brokers with the Stock Exchange(s). Our Board of Directors, at its meeting held on [●], has accepted and entered into the Underwriting Agreement on behalf of our Company.

Allocation among the Underwriters may not necessarily be in proportion to their underwriting commitment. Notwithstanding the above table, the Underwriters shall be severally and not jointly responsible for ensuring payment with respect to Equity Shares allocated to investors procured by them. In the event of any default in payment, the respective Underwriter, in addition to other obligations defined in the Underwriting Agreement, will also be required to procure subscribers or subscribe to Equity Shares to the extent of the defaulted amount in accordance with and subject to the terms of the Underwriting Agreement. The underwriting arrangement stated above shall not apply to the applications by the ASBA Bidders in the Offer, except for ASBA Bids procured by any member of the Syndicate.

<sup>(1)</sup> Subject to finalization of basis of allotment

<sup>(2)</sup> The amount does not exceed 25% of the gross Offer Proceeds

The fund requirements, the deployment of funds and the intended use of the Net Proceeds as described herein are based on our current business plan, management estimates, current and valid quotations and other commercial and technical factors. However, such fund requirements and deployment of funds have not been appraised by any bank, or financial institution. We may have to revise our funding requirements and deployment on account of a variety of factors such as our financial and market condition, business and strategy, competition and other external factors such as changes in the business environment and interest or exchange rate fluctuations, which may not be within the control of our management. This may entail rescheduling or revising the planned expenditure and funding requirements, including the expenditure for a particular purpose at the discretion of our management, subject to compliance with applicable laws

In the event that the estimated utilization of the Net Proceeds in a scheduled financial year is not completely met, due to the reasons stated above, the same shall be utilised in the next financial year, as may be determined by our Company, in accordance with applicable laws. Subject to applicable laws, in the event of any increase in the actual utilization of funds earmarked for the purposes set forth above, such additional funds for a particular activity will be met by way of means available to us, including from internal accruals and any additional equity and / or debt arrangements. Further, if the actual utilisation towards any of the objects is lower than the proposed deployment such balance will be used towards general corporate purposes to the extent that the total amount to be utilised towards general corporate purposes will not exceed 25% of the gross Offer Proceeds in accordance with the SEBI ICDR Regulations

### Means of finance

The fund requirements for the objects of the offer are proposed to be entirely funded from the net proceeds. Accordingly, we confirm that there is no requirement for us to make firm arrangements of finance under Regulation 7(1)(e) the SEBI ICDR Regulations through verifiable means towards at least seventy five percent of the stated means of finance, excluding the amount to be raised through the fresh issue or through existing identifiable internal accruals

## **Details of the objects of the fresh issue**

Trade Payables	43.13	39.61	36.61	11.18	9.64

*Note: Pursuant to the certificate dated July 14, 2023, issued by our Statutory Auditors, M/s. Pankaj R. Shah & Associates, Chartered Accountants*

#### Key justifications for holding levels

Key assumptions for working capital projections made by our Company:

Particulars	Assumptions
Inventories	Our inventory days for the year ended FY 2021, FY 2022 and FY 2023, were 149.90, 157.75 and 175.41 respectively. We estimate our inventory days to be 127.85 and 117.39 for the year ended FY 2024 and FY 2025, respectively. We have estimated reduction in our inventory days going forward on account of reducing cost in inventory

Trade receivables	Our trade receivables days for the year ended FY 2021, FY 2022 and FY 2023 were 49.33, 31.44 and 39.43, respectively. We estimate our trade receivables days to be 59.16 and 58.88 for the year ended FY 2024 and FY 2025, respectively. We estimate our trade receivables days to be slightly higher as we intend to provide more credit period to our customer to achieve higher sales growth
Trade payables	Our trade payables days for the year ended FY 2021, FY 2022 and FY 2023 were 43.13, 39.61 and 36.61. We estimate our trade payables days to be 11.18 and 9.64 for the year ended FY 2024 and FY 2025, respectively. We have estimated our trade payables days to be lower as we want to avail best pricing and to maintain relationship with large suppliers

Our Company proposes to utilize ₹ 550 million and ₹ 300 million of the Net Proceeds in financial year 2024 and 2025, respectively, towards our working capital requirements. The balance portion, if any, of our working capital requirement shall be met from internal accruals

## ***2. General corporate purposes***

Our Company proposes to deploy the balance gross Offer Proceeds, aggregating to ₹ [●] million, towards general corporate purposes as approved by our management from time to time, subject to such utilisation not exceeding 25% of the gross Offer Proceeds, in compliance with the SEBI ICDR Regulations. The general corporate purposes for which our Company proposes to utilise net proceeds include, business development initiatives, research and development, meeting any expense including salaries and wages, rent, administration costs, insurance premiums, repairs and maintenance, payment of taxes and duties, and similar other expenses incurred in the ordinary course of our business or towards any exigencies. The quantum of utilisation of funds towards each of the above purposes will be determined by our board, based on the amount actually available under this head and the business requirements of our Company, from time to time, subject to compliance with applicable law

In addition to the above, our Company may utilise the net proceeds towards other purposes considered expedient and as approved periodically by our board, subject to compliance with necessary provisions of the Companies Act. Our Company's management shall have flexibility in utilising surplus amounts, if any. Our management will have the discretion to revise our business plan from time to time and consequently our funding requirement and deployment of funds may change. This may also include rescheduling the proposed utilization of net proceeds. Our management, in accordance with the policies of our Board, will have flexibility in utilizing the proceeds earmarked for general corporate purposes. In the event that we are unable to utilize the entire amount that we have currently estimated for use out of net proceeds in a financial year, we will utilize such unutilized amount in the subsequent financial years

## **Interim use of net proceeds**

The net proceeds pending utilisation for the purposes stated in this section, shall be deposited only with scheduled commercial banks included in the second schedule of the Reserve Bank of India Act, 1934, as amended. In accordance with Section 27 of the Companies Act, our Company confirms that it shall not use the net proceeds for buying, trading or otherwise dealing in equity shares of any other listed company or for any investment in the equity markets

## **Bridge financing facilities**

Our Company has not raised any bridge loans from any bank or financial institution as on the date of this Red Herring Prospectus, which are proposed to be repaid from the Net Proceeds.

## **Offer expenses**

The total offer related expenses are estimated to be approximately ₹ [●] million. The offer related expenses consist of listing fees, fees payable to the BRLM, legal counsel, Registrar to the offer, Banker to the Offer, processing fee to the SCSBs for processing ASBA Forms submitted by ASBA Bidders procured by the Syndicate and submitted to SCSBs, brokerage and selling commission payable to the Syndicate, Registered Brokers, SCSBs, RTAs and CDPs, printing and stationery expenses, advertising and marketing expenses and all other incidental expenses for listing the Equity Shares on the Stock Exchanges. The expenses directly attributable to the portion with regard to the offer for sale shall be borne by the Promoter Selling Shareholder in proportion to the number of Equity Shares sold by him in the offer and will be deducted from the offer proceeds, as appropriate, and only the balance amount will be paid to the Promoter Selling Shareholder, in accordance with Section 28(3) of the Companies Act, 2013. Further, the expenses directly attributable to the portion with regard to the Gross Proceeds shall be borne by us.

It is clarified that, if the offer is withdrawn or not completed for any reason whatsoever, all offer related expenses shall be shared between the Company and the Promoter Selling Shareholder in proportion to the number of Equity Shares offered by the Company through the Fresh Issue and the number of Offered Shares offered by the Promoter Selling Shareholder in the Offer for Sale, in accordance with Applicable Law

The break-up for the estimated Offer expenses are set forth below:

## Annexure-A

### **ANNEXURE TO THE STATEMENT OF POSSIBLE SPECIAL TAX BENEFITS AVAILABLE TO THE COMPANY AND ITS SHAREHOLDERS**

The information provided below sets out the possible special tax benefits available to the Company and the Equity Shareholder under the Income Tax Act 1961 (read with the rules, circulars and notifications issued in connection thereto), as amended by the Finance Act, 2022, applicable for financial year 2022-23 relevant Assessment year 2023-24 presently in force in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in the Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

#### **A. SPECIAL TAX BENEFITS TO THE COMPANY UNDER THE INCOME TAX ACT, 1961 (THE "ACT")**

Except as mentioned herein, there are no possible special tax benefits available to the company under Income Tax Act, 1961 read with the relevant Income Tax Rules, 1962, the Customs Tariff Act, 1975, the Central Goods and Services Tax Act, 2017, the Integrated Goods and Services Tax Act, 2017, the Union Territory Goods and Services Tax Act, 2017, respective State Goods and Services Tax Act, 2017 and Goods and Services Tax (Compensation to States) Act, 2017 read with the relevant Central Goods and Services Tax Rules, 2017, Integrated Goods and Services Tax Rules, 2017, Union Territory Goods and Services Tax Rules, State Goods and Services Tax Rules, 2017 and notifications issued under these Acts and Rules and the foreign trade policy.

##### **1. Lower corporate tax rates on income of domestic companies - Section 115BAA of the Act**

The Taxation Laws (Amendment) Act, 2019 introduced section 115BAA wherein domestic companies are entitled to avail a concessional tax rate of 22% (plus applicable surcharge and cess) on fulfilment of certain conditions. The option to apply this tax rate is available from FY 2019-20 relevant to AY 2020-21 and the option once exercised shall apply to subsequent assessment years. The concessional rate of 22% is subject to the company not availing any of the following specified tax exemptions/incentives under the Act:

- Deduction u/s 32(1)(iiA): Additional Depreciation;

The total income of a company availing the concessional rate of 22% is required to be computed without set-off of any carried forward loss and depreciation attributable to any of the aforesaid deductions/incentives. A company can exercise the option to apply for the concessional tax rate in its return of income filed under section 139(1) of the Act. Further, provisions of Minimum Alternate Tax ('MAT') under section 115JB of the Act shall not be applicable to companies availing this reduced tax rate, thus, any carried forward MAT credit also cannot be claimed.

The provisions do not specify any limitation/condition on account of turnover, nature of business or date of incorporation for opting for the concessional tax rate. Accordingly, all existing as well as new domestic companies are eligible to avail this concessional rate of tax.

Note: The company has opted the lower rate benefit from the financial year 2019-20 relevant to the assessment year 2020-21 as mentioned in the Section 115BAA for which declaration for the same has already been filed with the tax authority.

**B. SPECIAL TAX BENEFITS TO THE SHAREHOLDERS UNDER THE INCOME TAX ACT, 1961 (THE “ACT”)**

There are no special tax benefits available to the Shareholders of the Company.

**C. STATEMENT OF POSSIBLE SPECIAL TAX BENEFITS AVAILABLE TO THE COMPANY AND THE SHAREHOLDERS OF THE COMPANY UNDER THE APPLICABLE INDIRECT TAX LAWS IN INDIA**

A. Special tax benefits available to the company under the Indirect Tax Regulations

1. Benefits under The Foreign Trade (Development and Regulation) Act, 1992 (read with Foreign Trade Policy 2015-20)

**Remission of Duties and Taxes on Exported Products (RoDTEP)**

The Remission of Duties and Taxes on Exported Products (RoDTEP) scheme was announced by Government of India (GOI) on September 14, 2019 to boost exports by allowing reimbursement of taxes and duties, which are not exempted or refunded under any other scheme in accordance with World Trade Organization (WTO) norms.

RoDTEP is a combination of the current Merchandise Export from India Scheme (MEIS) and Rebate of State and Central Taxes and Levies (RoSCTL) and will replace all these schemes once come in operations.

At present, embedded duties and taxes, which are not refunded under any other scheme, range from 1-3%. Under the scheme, rebate of these taxes will be given in the form of duty credit/electronic scrip.

**Export Promotion Capital Goods (EPCG)**

The objective of the EPCG Scheme is to facilitate import of capital goods for producing quality goods and services and enhancing India’s manufacturing competitiveness. EPCG Scheme facilitates import of capital goods for producing quality goods and services at zero customs duty.

Import under EPCG Scheme shall be subject to a specific export obligation equivalent to 6 times of duties, taxes and cess saved on capital goods, to be fulfilled in 6 years reckoned from date of issue of authorization.

EPCG license holder is exempted from payment of whole of Basic Customs Duty, Additional Customs Duty and Special Additional Duty In lieu of Value Added Tax/local taxes (non-GST goods), Integrated Goods and Services Tax and Compensation Cess, wherever applicable, subject to certain conditions.

**2. Benefits of Duty Drawback scheme under Section 74 and 75 of the Customs Act, 1962**

Section 74 of the Act grants duty drawback up to 98% of the import duty paid on goods, if the goods are reexported by the importer. The importer is entitled to drawback subject to the fulfilment of the certain conditions. Presently the rate of Duty Drawback ranges from 0% to 95%.

As per section 75, Central Government is empowered to allow duty drawback on export of goods, where the imported materials are used in the manufacture of such goods. Unlike drawback of a portion of the customs duty paid on imported goods, here the main principle is that the Government fixes a rate per unit of final article to be exported out of the country as the amount of drawback payable on such goods.

**3. Benefits under the Central Goods and Services Act, 2017, respective State Goods and Services Tax Act, 2017, Integrated Goods and Services Tax Act, 2017 (read with relevant Rules prescribed thereunder)**

Under the GST regime, all supplies of goods and services which qualify as export of goods or services are zero-rated, that is, these transactions attract a GST rate of zero per cent.

There are two mechanisms for claiming refund of accumulated ITC against export. Either person can export under Bond/ Letter of Undertaking (LUT) as zero-rated supply and claim refund of accumulated Input Tax Credit or person may export on payment of integrated Goods and Services Tax and claim refund thereof as per the provisions of Section 54 of Central Goods and Services Tax Act, 2017.

Thus, the GST law allows the flexibility to the exporter (which will include the supplier making supplies to SEZ) to claim refund upfront as integrated tax (by making supplies on payment of tax using ITC) or export without payment of tax by executing a Bond/LUT and claim refund of related ITC of taxes paid on inputs and input services used in making zero rated supplies.

Notes:

1. *We have not considered the general tax benefits available to the Company, or shareholders of the Company.*
2. *The above is as per the Tax Laws as on date.*
3. *The above Statement of possible special tax benefits sets out the provisions of Tax Laws in a summary manner only and is not a complete analysis or listing of all the existing and potential tax consequences of the purchase, ownership and disposal of Equity Shares.*
4. *This Statement does not discuss any tax consequences in any country outside India of an investment in the Equity Shares. The subscribers of the Equity Shares in the country other than India are urged to consult their own professional advisers regarding possible income –tax consequences that apply to them.*

#### Global Economic Overview

After a healthy rebound in 2021, the global economy is looking increasingly stagflation, as growth prospects for 2022 have worsened, and inflation remains sticky at record-high levels in the face of aggressive monetary tightening around the world.

Real GDP growth	2021	2022	2023P	2024P
<b>World</b>	<b>6.0%</b>	<b>3.4%</b>	<b>2.9%</b>	<b>3.0%</b>
India	8.7%	6.8%	5.9%	6.3%
China	8.1%	3.0%	5.2%	4.5%
Japan	1.7%	1.1%	1.4%	1.0%
USA	5.7%	2.1%	1.6%	1.1%

Source: International Monetary Fund, April 2023 Outlook

Uncertainty related to food and energy supply emerged as major risk to stable governance, debt sustainability and business continuity across developed and emerging markets. The three economic heavyweights - the US, China, and the EU - continue to grapple with a host of challenges. Consequently, even fundamentally strong, export-oriented developing markets faced weak growth in 2022.

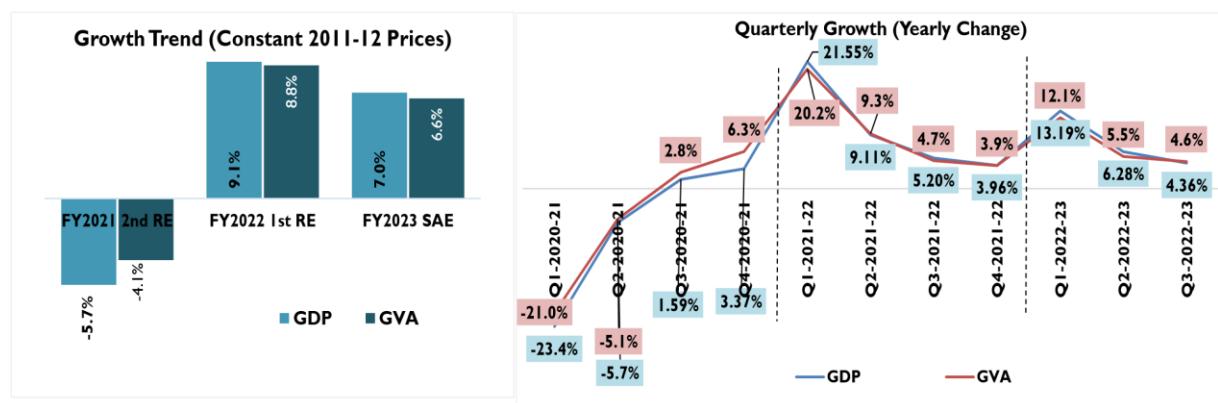

As the global economy continues to slowdown, central bankers are ramping down the pace of interest rate hikes, the policy playbook deployed in the two previous global recessions might not work this time. What complicates the job of central bankers are unusually tight labor markets, which translate into high demand pressures, and the fact that evidence of inflation reduction globally is still quite weak. However, the

consensus points toward the fact that a full blow recession may not be upon us, but a global slowdown has been set in motion and businesses should remain vigilant and resilient.

The first months of 2023 was quite eventful - Croatia joined the Eurozone as its 20th member, Brazil witnessed a mini-insurrection, India overtook China as the world's most populous nation, and the US hit its debt ceiling. Some of the other notable global events that happened during the same period include – Bank of Japan getting a new governor (Mr. Kazuo Ueda, the Bank's first governor from academic background), China's president Xi Jinping was awarded a third five year term. In addition, the Russia – Ukraine conflict which crossed its one-year mark in February 2023 shows no sign of abating. Some of these events may have profound implications over the coming decades, while the others may pose the biggest risk to the global economy in 2023.

Given where inflation levels are currently hovering (and the fact that core pricing pressures have not yet abated), more will have to be done to weather the storm. This is reflected in central bank commentaries. Major central banks like US Fed raised its interest rate in Q1 2023, and its benchmark rate currently stands in the range of 5 – 5.25%, the highest in nearly 16 years. However, the Fed has indicated that there would be a pause in its monetary tightening cycle later this year.

## India's Macro Economic Overview

Source: Ministry of Statistics & Programme Implementation (MOSPI)

India's economy is showing signs of resilience with GDP estimated to grow by approximately 7% in FY 2023<sup>1</sup>. Although this translates into a moderation in demand (compared to FY 2022), the estimated GDP growth in FY 2023 represents a return to pre pandemic era growth path. Despite this moderation in growth, India continues to remain one of the fastest growing economies in the world.

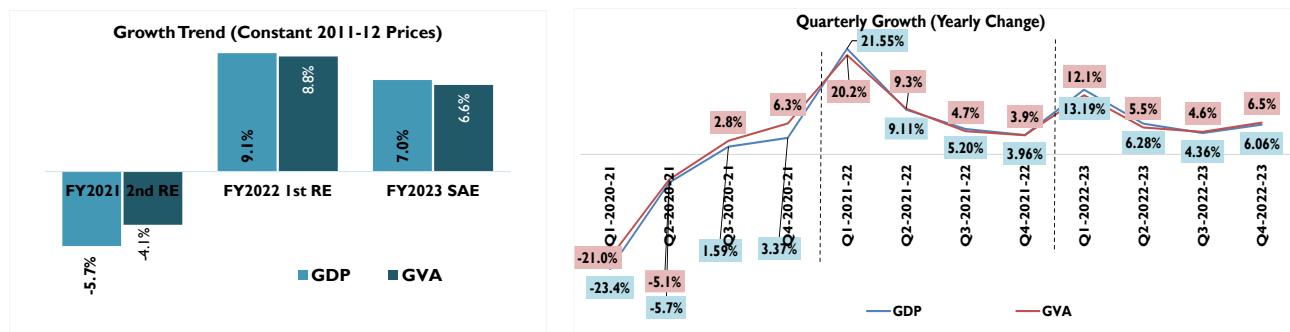

There are quite a few factors that is aiding India's economic recovery – notably its resilience to external shocks (ongoing Russia – Ukraine conflict) and rebound in private consumption. This rebound in private consumption is bringing back the focus on improvements in domestic demand, which together with revival in export demand is a precursor to higher industrial activity. Already the capacity utilization rates in Indian manufacturing sector are recovering as industries has stepped up their production volumes. As this

<sup>1</sup> As per RBI First Advance Estimates. However, IMF have revised its India GDP growth for FY 2023 downward to 6.8%

momentum sustains, the increasing capacity utilization would lead to fresh round of capacity expansion plan. The universal vaccination program by the Government has played a big part in reinstating confidence among the population, in turn helping to revive private consumption.

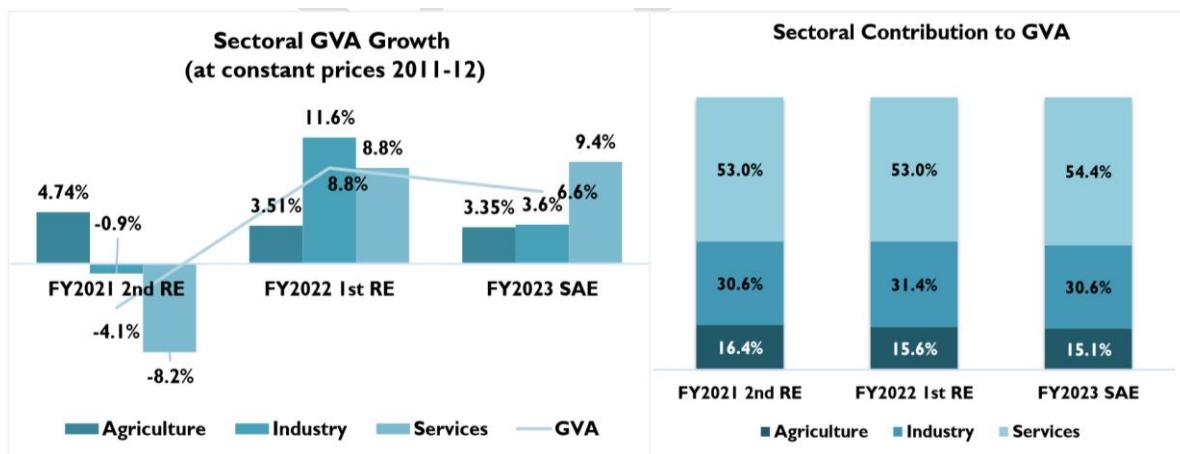

On the lending side, the financial health of major banks has witnessed an improvement which has helped in improving the credit supply. With capacity utilization improving, there would be demand for credit from corporate sector to fund the next round of expansion plans. Banking industry is well poised to address that demand. Underlining the improving credit scenario is the credit growth to micro, small and medium enterprise (MSME) sector which increased by nearly 31% in January – November 2022 period, compared to corresponding period previous year<sup>3</sup>. The extended Emergency Credit Linked Guarantee Scheme (ECLGS) by the Union Government has played a major role in improving this credit supply.

The slowdown in growth rate in FY 2023, compared to the previous fiscal on the back of slowing domestic as well as external demand owing to series of interest rate hikes globally to tackle high inflation. The year-on-year moderation in growth rate is also partly due to a fading impact of pandemic-induced base effects which had contributed towards higher growth in FY 2022. On quarterly basis, the country growth moderated in Q2 and Q3 of FY 2023 which highlights impact of slowing economy on the back of monetary tightening. During Q3 FY 2023, the country's GDP grew by 4.36% against 6.28% y-o-y increase in the corresponding quarter last fiscal. However the fourth quarter of FY 2023 saw a rebound in growth rate, indicating an optimistic scenario.

Sectoral analysis of GVA reveals growth tapered sharply in industrial sector which is estimated to have grown by just 3.6% in FY 2023 against 11.6% in FY 2022. In the industrial sector, growth across major economic activity such as mining, manufacturing, construction sector slowed registering a growth of 3.4%, 0.6% and 9.1% in FY 2023 against a growth rate of 7.1%, 11.05% and 14.8% recorded in FY 2022, respectively. Utilities sector too observed a marginal moderation in y-o-y growth to 9.2% against a decline of 3.6% in the previous years.

Source: MOSPI, RE stands for Revised Estimates, SAE stands for Second Advance Estimates

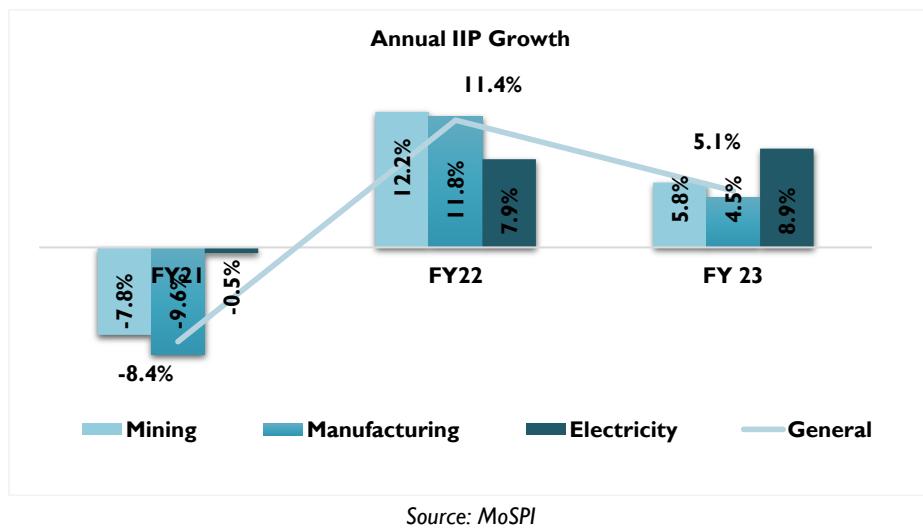

Talking about the services sectors performance, with major relaxation in covid restriction, progress on covid vaccination and living with virus attitude, business in service sector gradually returned to normalcy in FY 2022. Economic recovery was supported by the service sector as individual mobility returned to pre-pandemic level.

The trade, hotel, transport, communication, and broadcasting segment continued to strengthen and grow by 14.2% in FY 2023 against 13.8% in the previous year and financial services, real estate and professional services sector recorded 6.9% y-o-y growth against 4.7%. However, overall service sector growth was curbed by moderation in public administration and defense services sector which recorded 7.1% yearly increase against 9.7% increase in the previous year.

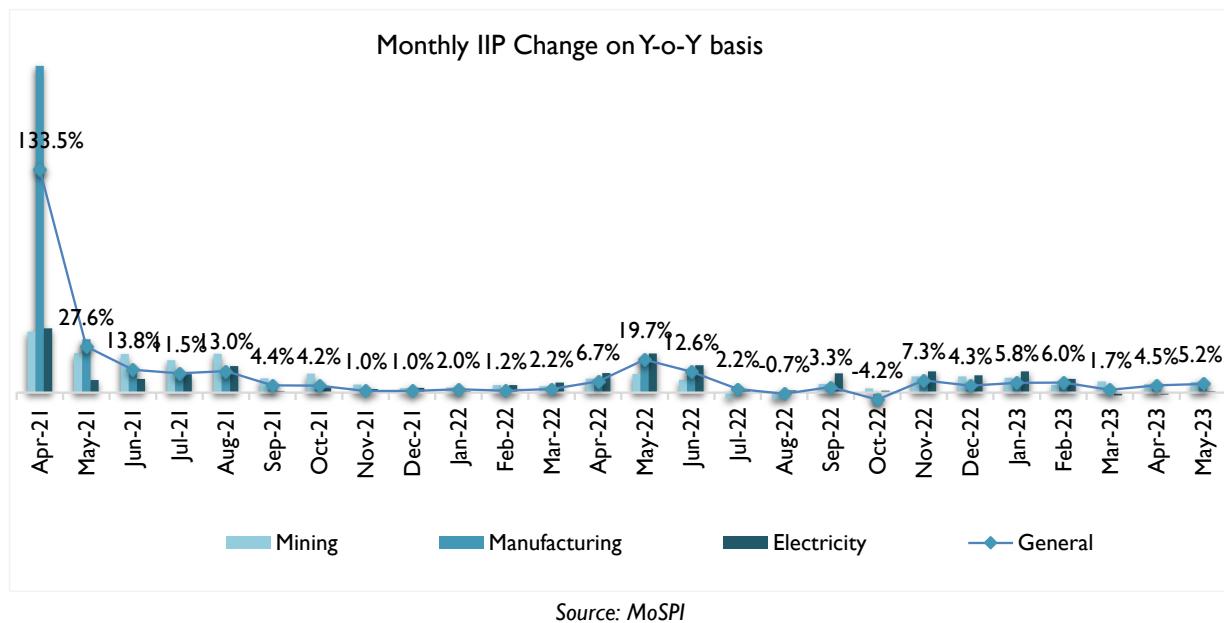

### Index of Industrial Production

After experiencing three years of deteriorating industry growth, the country's Index of Industrial Production (IIP) index registered 11.4% y-o-y growth in FY 2022 where growth was evenly spread across all sub-segments. Manufacturing index, with 77.6% weightage in overall index, registered 11.7% y-o-y growth in FY 2022 while mining sector index registered the highest growth. On use-based classification basis, infrastructure/construction goods, capital good, intermediate good and consumer durable outperformed over the other sector and registered healthy double-digit growth.

After the pre-pandemic pent up demand that triggered a strong revival in industrial activity in FY 2022, annual IIP growth rate moderated in FY 2023 to 5.1%. However, this rate was still above the pre-pandemic rate – indicating the robust revival in industrial activity.

### Monthly IIP Performance

Although the monthly IIP growth rate has come down from the high level that was recorded during the later CY 2022, the growth pattern during the current year is pointing towards a stabilization of growth. For the year FY 2023, IIP growth has settled to a stable growth rate, and this trend is continuing in the initial years of FY 2024 (April and May 2023).

### Investment & Consumption Scenario

Other major indicators such as Gross fixed capital formation (GFCF), a measure of investments, grew by 8.9% in Q4 FY 2023, in line with the growth rate that was registered during the last two quarters (Q2 and Q3 FY 2023).

Despite the festive season demand and largely a covid-free economy, Private Final Consumption Expenditure (PFCE) a realistic proxy to gauge household spending, observed a continued moderation in Q3 FY 2023 where yearly growth softened to 2.1% which was nearly 7% lower compared to Q2 FY 2023. However, for the last quarter (Q4 FY 2023), PFCE increase by 6.7%

### **Price/Inflation Scenario**

Wholesale Price Index (WPI) is moderating on the back of softening of prices. Compared to June 22, WPI in June 2023 dropped by 4.1%. This is primary on the back of softening of fuel & power prices. Monthly y-o-y change (June 2023 v/s June 2022) for manufactured products was -2.7%, and this too contributed to the moderation in WPI. Softening prices of mineral oils, chemicals & chemical products, textiles, crude petroleum & natural gas, textiles, and food products. contributed towards moderation in WPI inflation.

Retail inflation rate (as measured by Consumer Price Index) again jumped above 6% tolerance limit of the central bank in January 2023 after observing mild moderation in the previous two month. The overall CPI grew by 6.5% in January 2023 due to spike in food inflation and CPI food index grew by 5.9% during FY 2023 against 4.2% y-o-y growth in the previous year. Within food index, Cereals and product-led food inflation reached 16.1 per cent in January 2023 from 13.8 per cent in December 2022. As a part of anti-inflationary measure, the RBI has hiked the repo rate by 225 bps since May 2022 to current 6.5% (May 2023), with latest fourth round hike announced on 8 Feb 2023. The Reserve Bank of India has estimated an average inflation rate of 6.5% for FY 2023. Since then, retail inflation appears to be softening, as it grew by 6.4% and 4.3% respectively in February and March of 2023.

### **Growth Outlook**

Amidst the difficult and uncertain external economic environment, the Indian government has delivered a balanced Union Budget which focuses on achieving an inclusive and sustainable growth while adhering to the fiscal glide path. Notwithstanding the external risk, there is a sustained momentum in economic activity supported by domestic drivers. The consumer confidence survey by the Reserve bank of India points towards rising confidence of households both for the current situation as well as the future expectations (for a one-year period).

Rural demand is likely to be boosted by good prospects for agricultural output and discretionary spending is expected to support urban consumption supporting. Resilient domestic financial markets, sturdy growth in credit and the government's thrust on capital expenditure is expected to drive momentum in investment activity. Capacity utilization in the manufacturing sector has surpassed its long period average. Thus, the stance taken by the government to not only emphasize on the top-down approach to growth i.e focusing on substantial capital outlay, but also to place focus on the bottom of the pyramid by trying to unleash the potential of the primary sector in the Union Budget should support India's growth momentum in FY 2024.

### **Stainless Steel Industry**

Stainless Steel is a value-added product with high corrosion resistant properties. Higher levels of Chromium and additions of other alloy elements (Nickel, Molybdenum etc.) enhance the corrosion resistance. Compared to traditional steel, stainless-steel has higher resistance to corrosion, superior aesthetic finish and higher life span. These features have helped in increasing the popularity of stainless-steel across the world.

High recyclability, resistance to corrosion and low maintenance properties has made stainless steel a preferred metal for application in diverse sectors railway, metro project, process industries, bridges, nuclear,

airport, transportation, and kitchenware. Based on the content of alloying elements stainless steel is segregated into three: 200 series, 300 series and 400 series.

<b>Three Distinct Series of Stainless Steel &amp; their composition</b>			
	<b>200 series</b>	<b>300 series</b>	<b>400 series</b>
Manganese	5.5 - 12%	2% maximum	1% maximum
Nickel	1 - 6%	6 - 22%	0.75% maximum
Chromium	10.5 - 20%	15 - 25%	10.5% minimum
Copper	1.5 - 2.5%	None	None
Iron	Balance	Balance	Balance

Series 300 stainless steel, which is an austenitic stainless steel with chromium nickel alloy dominates the with nearly 55% of domestic SS production. Excellent corrosion resistance, high wear & tear resistance, and higher strength at high temperature are some of the attributes that has made this series popular among all SS variants. 300 series is further subdivided into multiple segments, based on the content of alloying metal.

### **Global Production and Consumption Pattern**

Global stainless-steel melt shop production decreased by 5.2% to 55.2 Mn Tonnes in 2022 compared to ~58.3 Mn Tonnes in 2021<sup>2</sup>. In 2022, China with nearly 58% share in global SS production observed moderate 2% decline in 2022 against 8.2% y-o-y increase in the previous year. Talking about India's position in the global stainless-steel market, India with average 7% share in global SS steel output (during 2016-20), remained the second largest stainless-steel producer behind China till 2020. During the first quarter of 2023, approximately 13.7 million tons of SS was produced globally, which was nearly 5% lower than first quarter of H1 2022<sup>3</sup>.

However, in the first quarter of 2023, in global SS production composition Indonesia has maintained its position as the second largest producer of stainless steel globally but its lead over India has narrowed. SS production in India increased by 6.6% in 2023, while Indonesia's increased by 2.2%. This is likely due to the fact that India has been investing heavily in its stainless-steel industry in recent years, while Indonesia's growth has been more reliant on the availability of raw materials.

Globally, Cold rolled flat products is the largest produced stainless-steel product in the world, followed by hot rolled coils, and steel wire rods & bars. According to International Stainless-Steel Forum, cold rolled flat products accounts for approximately 47% of total stainless-steel trade in the world. Hot coils, Semis-flat, Semis Long, Hot Bar/Wire rod, Cold Bar/Wire, Hot Plate & Sheet are another SS intermediary product traded globally.

Metal products – manufacturing of kitchen utensils and home ware – is the largest end use of stainless-steel, both globally as well as in India. Globally 37% of total SS consumption goes towards metal products segment while in India 12% of the stainless steel is used in construction and infrastructure, 13% in automobiles, railways and transport (ART), 30 % in capital goods and 44% in durables and household utensils and 1% in others. Globally it stood at 37.7%. Process industry & engineering, architecture, building & construction, automotive, railway & transportation, and electromechanical industries are the other major consumers of stainless-steel products.

Global consumption of stainless steel reached approximately 55.3 million tons per annum in 2022, an decrease of nearly 5.2% over previous year. This comes after a 2.2% decline in consumption from 2021, on account of Covid-19 related disruption, the Ukraine and rising energy pricing.<sup>4</sup>

### Indian Stainless-Steel Industry

Since 2000, steel production in the country has seen a phenomenal increase as the sector witnessed high investments in capacity addition as well as technology up-gradation. In 2018, India surpassed Japan to become the second largest steel producer in the world, after China. According to World Steel Association (WSA), India produced 125.3 Mn tons of crude steel in CY 2022 and accounted for 7% share in global crude steel production. According to WSA's June 2023 update, India produced approximately 67.9 Mn tons of steel during January – June 2023 period, which nearly 7.4% higher than same period previous year. Unless there are no major disruptions, Indian steel industry would end the year with approximately 136 Mn tons of crude steel.

In 2022, India's crude steel production registered a y-o-y growth of 6% against 18% increase in the previous year while it grew at a CAGR of 4% between 2018-22. Presence of such a vast primary steel manufacturing infrastructure coupled with the low-cost worker has also helped in the growth of secondary and finished

<sup>4</sup> International Stainless Steel Forum

steel products. On consumption side, India is also the second largest consumer of finished steel. The emergence of a middle-class consumer segment has altered the consumption landscape in India..

## **Production and Consumption Scenario**

The Indian stainless-steel sector, the second largest producer (in 2022) and consumer in the world, has a total manufacturing installed capacity of more than 6.5 Mn tons of stainless steel annually. The past 4 year data reveals that the country's stainless steel production in FY19 touched a level of 5.10 million tonnes. However, in the following two years, production volumes dropped to 3 million tonnes and 2.71 million tonnes respectively in FY20 and FY21, mainly hit by the Covid-19 waves. In FY22, production again picked up and was recorded at 3.5 million tonnes, recording 29% y-o-y growth compared to FY21.

Since 2011, stainless-steel production has increased at a CAGR of 7.8% per annum from ~2.16 Mn Tonnes in 2011 to 3.92 Mn Tonnes in 2019. Barring 2020 for pandemic led decline, India's stainless-steel (SS) production has increased steadily between 2014-21. In 2020, India stainless steel production observed -19.4% over 2019 owing to Covid-19 pandemic induced depressed market condition. However, the industry rebounded well in CY 2021 as India's annual domestic stainless-steel production reached approximately 4.25 Mn tons, increasing by nearly 26% over previous year production<sup>5</sup>.

SS production and consumption observed V shape recovery where volume improved gradually with phase wise unlocking of the economy on the back of government stimulus and efforts put in place by the industry stakeholder. Flat products, which include steel slabs, sheets, plates, and coils account for ~75% of total stainless-steel production in the country.

Despite being one of the largest producers as well as consumer of stainless-steel, the per capita stainless-steel consumption in India remains low. India's per capital stainless steel consumption has increased from 1.2 Kg in 2010 to 2.5 Kg in 2019, however its consumption is comparatively lower compared to world average of 6 Kg per capita, This low consumption pattern is an indication of the inherent opportunities existing in the sector.

### **SS Sheets:**

Stainless Steel (SS) sheet is a thin flat piece of stainless steel that has a wide range of applications. Depending on the grade of SS used, size, thickness and finish SS sheet finds application in sectors ranging from architecture, building & construction (ABC), automotive, railway & transport (ART), food industry, process industry, and aerospace, among others. The corrosion resistance attribute of the material, along with the ability to incorporate custom finishes has helped increase the usage of SS sheet.

Thickness (or gauge) of the material is used to differentiate SS sheet from other flat products like plates and foils. Typically, SS flat piece with thickness below 6 mm is considered as a SS sheet, while anything above that falls into the category of SS plates. SS foils, on the other hand are the thinnest of flat products and are thinner than SS sheet. The most commonly used SS grade for making both sheet and plate are 300 and 400 series, each differentiated by the type & percentage of alloy included.

- Type 300 series contains austenitic chromium-nickel alloys and finds applications in construction, transport, food industry, surgical applications, marine, and high-temperature applications.
- Type 400 series contains ferritic & martensitic chromium alloys and is widely used for making steel cutlery.
- SS Finishes / SS finishing sheets

<sup>5</sup> Worldstainless.org, 2022 year to date data at country level has not been released by the organization

- Finishing is a design element which becomes significant when the external appearance is of importance. SS finishing steel is used for decorative as well as non-decorative applications, with the type of finish imparted depending upon the end use applications. Today SS sheet is available in a variety of standard as well as specialized designs, depending upon end user customer specifications. All the various finishes are categorized into three broad segments – mill finishes, mechanically polished finishes, and special finishes.
- Apart from appearance, polished SS sheet is also important where a stain free and sterile surface is required. Usage in kitchens and sanitary application is one such example, where a sterile surface as well as low chances of bacterial contamination is important.

Notable type of finishes	
No.1 Finish	Manufactured by rolling heat treated SS sheet. An additional heat treatment follows to give it a uniform microstructure. This is the roughest of all the finishes and is rarely used in fabrication.
No.2 Matte Finish	One of the most common SS finishes used and has a non-reflective appearance with good flatness. It is the most preferred finish for fabrication operations.
No.3 Brushed Finish	Achieved by either mechanical polishing with finer abrasives or by-passing SS coil through special rolls that emulates the appearance of mechanical abrasion. It is most commonly used in food production & food service.
No.4 Finish	This has much more uniform and smoother finish. No.4 finish finds usage in commercial kitchens, elevators & escalators, hospitals & areas where a sterile & polished surface is required. It is also the preferred finish for architectural applications.
No.6 Finish <sup>6</sup>	Less reflective than No.4 finish. It sports a dull silver white finish and its usage has been declining and is rarely used today.
No.7 & No.8 Finish	Both these finishes possess a high degree of reflectivity, imparting a mirror like appearance. This finish has a high maintenance cost, and is commonly used in panels, columns, and exterior cladding in high end office buildings & hotels.

### Domestic Consumption Pattern

Annual consumption of SS sheets in India is approximately 787,700 tons in 2022. This includes SS sheets used for functional purposes as well as aesthetic purposes (decorative sheets). Consumption has been increasing by a CAGR of 13% during the last five to six years. Architecture, building & construction (ABC) segment and automotive, railways & transportation (ART) are the two major sectors that are driving the demand for SS sheets.

### Key Demand Drivers

Two of the key segments that are driving the demand for SS sheets are Architecture, Building & Construction (ABC) and Automotive, Railway & Transport (ART). In ABC, the usage is primarily on roofing and cladding (external and internal), with external cladding by SS decorative sheets. In addition, the usage in elevators & escalators too comes under this broad segment. In ART segment, the usage is primarily in the construction of bus bodies, as well as coaches (metros and railways). Although SS is used in auto components, the usage is mostly SS long products.

---

<sup>6</sup> Common Stainless Steel finish classification does not mention any No.5 finish, hence the absence of such a classification in the table

## **Demand Architecture, Building & Construction (ABC) Segment**

Changes in building design & construction techniques has led to the introduction of a wide variety of building materials. Key among this is the design element that involves exterior cladding or an outer skin for buildings meant to improves its aesthetics.

Stainless steel sheets (SS sheets) with a wide variety of finishes meets this aesthetic requirement and emerged as one of the several candidates for exterior cladding. However, the factors that tilted the balance in its favor include its superior corrosion resistance, ability to hold its form under extreme natural elements (stress, sun & rain), and flexibility to fabricate into any shape required. Moreover, the cost effectiveness of the material together with its recyclability too helped, with the later gaining prominence due to the increasing interest in green buildings.

The usage of stainless steel (SS) in construction industry is not new, and is used extensively for load bearing, railings, plumbing applications, and HVAC, among others. All these applications were mostly from a functional perspective – utilizing its corrosion resistance and other properties. Its usage as a decorative element is relatively recent, and in a country like India this application trend is still to become widespread.

### **Increasing focus on aesthetics & design elements:**

More and more customers in India are demand for buildings with improved aesthetic and design elements. This is especially true in commercial buildings that cater to ITES, and new age service segments. Two other segment which is witnessing a shift is the retail space, especially large shopping malls and hypermarkets, as well as hospitality space. Compared to these, exterior design (aesthetic appeal) is yet to become a key element in institutional building construction.

Increasing demand to incorporate aesthetic elements in commercial, retail and hospitality buildings is accompanied by a pickup in construction activity in these segments. Commercial building design (including office space, retail, and hospitality) has undergone a change during this period, as it is increasingly incorporating design elements from western markets. The glass and metal façade buildings that are synonymous with urban conglomerates in western markets is getting replicated in India.

### **Office building construction scenario in India**

Since 2015, India has been adding nearly 35.5 mn sq.ft of new office space every year (except 2019 when the annual addition was in the range of 61.2 mn sq.ft<sup>7</sup>. With IT-ITES sector accounting for nearly 80% of office space absorption every year, new addition is driven by expected demand from this sector. The dominance of IT-ITES in office building segment is a positive for SS sheet used for decorative purposes, as the focus on aesthetic element in building design is highest among this particular customer segment. Thus the 35.5 mn sq. ft of office space construction every year is providing a huge market for SS decorative steel, for usage in exterior cladding and design<sup>8</sup>. During the first half of 2023 (H1 2023), approximately 18 mn sq.ft of office space was added, which represents a decline of 25% over H1 2022.

<sup>7</sup> 2019 has been treated as an exception year, and avoided from Average calculation

<sup>8</sup> Cumulative space in top 8 cities in India: Ahmedabad, Bengaluru, Chennai, Hyderabad, Kolkata, Mumbai, NCR & Pune

## **Growth in Organized Retail Space**

Currently, retail accounts for a small portion of the Indian real estate market. While the traditional and unorganized retail segment is still the dominant one in the country, organized retail is gaining ground at brisk pace. Malls & hypermarkets, which represent the organized retail space in India, is primarily concentrated in metros and tier I cities. Although few national brands in organized retail have started venturing into smaller towns, this yet to translate into demand for large retail space like malls. This concentration in large urban markets meant, the consumption of SS sheet for decorative purposes has largely concentrated in large cities.

As per a report by CBRE<sup>9</sup>, the total organized retail sector stock in India is nearly 77 mn sq. ft, as on H1 2022<sup>10</sup>. Annual mall space addition reached a high of 8.5 mn sq. ft in 2019, a record high, increasing by nearly 73% over previous year. The year 2020 is an anomaly, as the spread of covid-19 and resultant lockdown impacted new construction. As a result, mall space addition in 2020 fell by nearly 75% in 2020. However, the scenario has improved in 2021 – despite the second wave of the pandemic – with nearly 4.5 mn sq.ft of new mall space addition.

Given this expansion in mall space / organized retail space, the demand for building materials from this segment have witnessed an increased. Exterior metal cladding has become a constant design element in mall construction in India, with most of the malls coming up having a mix of glass and steel-based exterior. As a result, the offtake of SS sheet metal as decorative component in mall space in India is increasing.

## **Growth in Hospitality Space**

Compared to office space and malls, the usage of metal for exterior cladding is relatively low in hotel construction. Given the aesthetic element, together with durability and cost saving the prospect of SS sheet metal usage picking up in hotel construction space cannot be ruled out. This sector could emerge as a demand driver in the coming years, subject to the evolution of architectural design elements.

## **Green buildings and its impact**

According to World Green Building Council, a green building is a building whose negative impact on environment – generated by the way of design, construction & operation – is limited while capable of creating positive impacts. Few of the factors that characterize green buildings include – efficient usage of water & energy, usage of renewable energy, and usage of material that is recyclable and sustainable. Any building which has these attributes built can be categorized as a green building.

Stainless steel products, due to its recycling nature, qualifies as a construction material in green building construction. Apart from its recycling attribute, its long service life (imparted by its resistance to corrosion and ability to withstand natural elements in case of external usage), and hygiene characteristics are also making it a material of choice for the green building industry.

India has risen to become the fourth largest green building market in the world, in terms of build volume. According to Indian Green Building Council, there are nearly 7,000 green certified building projects while the total area that comes under the category of green building is estimated to be nearly 8 bn sq.ft. Such a

<sup>9</sup> CBRE India Retail H1 2022

<sup>10</sup> Cumulative space across six major cities: Delhi, Mumbai, Bengaluru, Hyderabad, Pune, and Chennai

wide network of projects and large green building footprint points to an aggressive growth in green buildings in India.

The recyclability and lower carbon footprint (due to high life cycle) makes SS sheet an excellent material of choice for green building construction. Given the traction that green building has generated in India, and the future demand – the potential market for SS sheet (for exterior cladding & decorative elements) is huge. Exploitation of this market potential would depend on spread of awareness level of the environmentally friendly attribute of the material.

### **Demand from Elevators & Escalators**

In elevators, SS sheet is used as interior finishing material – serving as a decorative material. Depending on the requirement, SS sheet with suitable finish is used inside elevators. All modern elevators used in residential, commercial, institutional and infrastructure buildings today use SS sheet for interior finishing. Hence, the growth in elevators & its usage is a direct barometer of increasing demand for SS decorative sheet from elevator manufacturers. Apart from elevator, SS sheet also finds usage in escalators which is extensively used in shopping malls, metro stations as well as airports.

Over the last few years, elevator sales in India is approximately 50,000 – 55,000 per annum, while the installed elevator base in the country is nearly 250,000 units per annum. As per OTIS India, India is the second largest elevator market in the world, after China, with residential real estate market accounting for nearly 80% of annual consumption accounted by residential market. Escalators, which is yet to become mainstream, is estimated to be a 3,500 – 4,000 units per annum market. The expansion in mall space, and growth in metro stations are driving the demand for escalators, and these two factors would be instrumental in pulling up the annual volume sales from the current levels.

This strong elevator demand is expected to translate into strong demand for SS decorative sheet, which has become an integral component of elevator. This strong demand for escalator manufacturers would be complimented by the rising demand for escalator market. Although annual volume of escalators sold in India is less than 10% of elevator sales, this segment has the potential to emerge as a strong secondary demand driver in this space.

### **Demand from commercial kitchens**

Usage of SS sheet in kitchen stems from its inert & neutral attribute, making it an excellent antimicrobial material. It is this functional attribute, more than the decorative attribute, that has made SS sheet a preferred material of choice in kitchens. Moreover, its ability to hold original design & color as well as excellent anti scratch attributes too have helped SS sheet become a preferred material in kitchens (mainly commercial kitchens). In commercial kitchens, SS sheet is used in workstations, storage cabinets, exterior material for refrigerators, cooking range, and equipments like ovens & frying stations.

Commercial kitchen is directly linked to the restaurant industry, with an increase in restaurant base directly triggering fresh demand for commercial kitchen equipment. However, the popularity of hyperlocal food delivery services has created a new type of commercial kitchens – cloud kitchens. These cloud kitchens have emerged as the second demand driver in this industry, apart from the traditional restaurant business.

Apart from restaurants (and the newly emergent cloud kitchens), commercial kitchen equipment also finds application in QSR chains, bakeries, cafes, institutions, catering service providers, and industrial kitchens.

All these segments together create demand for commercial kitchen ware, which in turn lead to higher consumption of SS sheet by manufacturers of commercial kitchenware.

### **Demand from Automotive, Railways & Transport (ART) Segment**

SS sheet of varying finishes is used in the construction of metro coaches. For example, Jindal Stainless supplies SS sheet of 2J and No.4 finishes that are required for metro coaches. When the metro rail project was launched in India, coaches were imported. However, the expansion of metro rail projects to multiple cities has led global OEMs like Alstom and Bombardier to set up domestic manufacturing facilities, apart from domestic PSU BEML. Together these firms are the major consumers of SS sheets with specialized finishes.

In 2023, India had 15 operational metro rail lines. From 2014 to 2022, the metro route length in India has increased fourfold. In 2014, the total metro route length stood at 248 kilometers, and by 2022, it had expanded to an impressive 845 kilometers. The growth rate has been also impressive in the last decade. Between 2004 and 2014, the average construction speed was approximately 0.5 kilometers per month. However, the following decade, from 2014 to 2023, witnessed an exponential increase in construction speed, reaching an average of 6.0 kilometers per month.

With metro rail expected to become the pillar of urban transport infrastructure across all major cities, the demand for metro coaches is only going to increase. This planned expansion in metro network is thus a big position for SS sheet manufacturers.

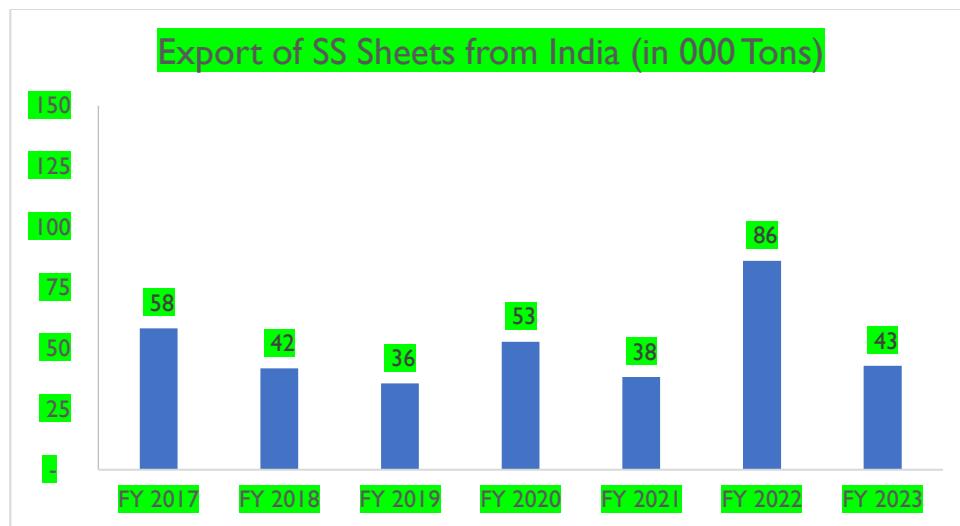

## **International Trade**

### **Export Demand**

Europe and the US form the largest export market for Indian SS sheet manufacturing industry, accounting for more than 85 - 90% of the total export volume. US alone accounts for nearly 30% of total import volumes, while in Europe the key export markets are Italy, Poland, Spain, Belgium, and Russia. Apart from stable demand from building construction and other allied structures, the presence of trade barriers against imports from China and other Asian destinations have worked to Indian SS sheet manufacturing industry.

Although India has built up its capacity in SS sheet manufacturing, it is not match to the excess capacity in markets like China, South Korea, and Japan. Further, Indian players are unable to match the price points at which SS sheet manufacturers operating out of China, South Korea and Japan sells. However, the strong sentiment prevailing against the above-mentioned markets, because of their dumping practices, most of the European countries and the US have imposed strong trade barriers. This includes high duty rates, as well as anti-dumping measures to discourage the dumping practice.

Given the lower manufacturing capacity in US and European market (because of the large-scale migration of manufacturing from West to developing markets), the anti-dumping and adverse trade measures have created a void. This gap has presented an opportunity for countries like India, who are now able to compete better in European and the US market. The domination of US and Europe in India's SS sheet export markets is a direct result of these developments.

However, the concentration of exports on a handful of markets meant any fluctuation in exports to those markets would directly impact the overall export trend. For example, the ratio is highly skewed towards US and Russia which accounted for more than 50% share in FY 2023. Change in export volume to these markets meant overall export volume has shown a degree of fluctuation. For FY 2017-20 period, annual export volume has varied between 36 – 58 thousand tons. Export volume reached 86 thousand tons per annum in FY 2022, which is the highest in the past four to five years; but declined to 43 thousand tons in FY 2023.

### **Imports to India**

Despite the presence of a large steel manufacturing infrastructure – ranked second in the world, in terms of crude steel output – a substantial volume of SS sheet is imported to India every year. During FY 2017-20 period anywhere between 85 – 90 thousand tons of SS sheet was imported to India every year. Although Covid-19 disrupted the imports, pushing it down to 59 thousand tons per annum in FY 2021, it rebounded in FY 2022 and more than doubled in FY 2023.

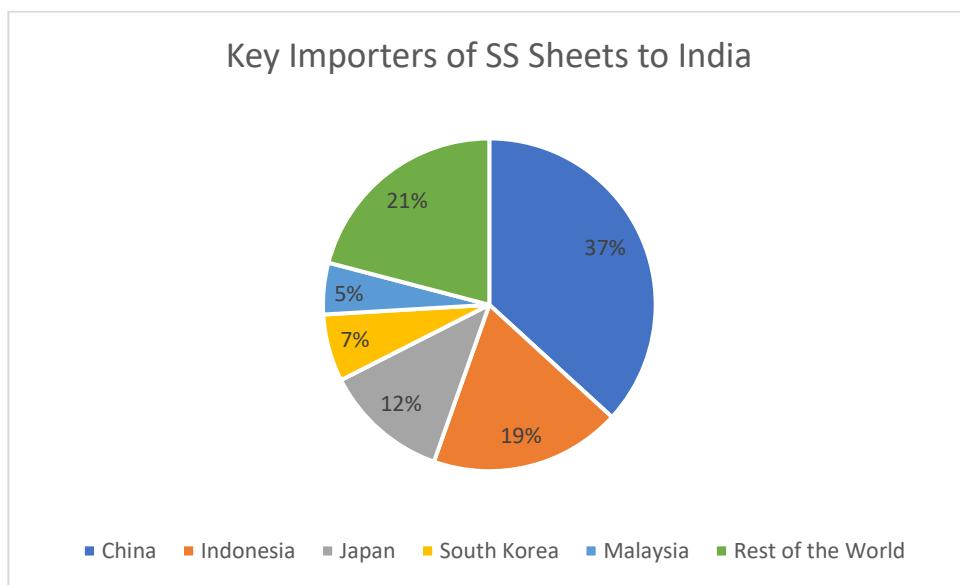

For FY 2023, 223 thousand tons of SS sheet was to be imported to India. This marks the largest volume of imports in recent history. This 100% increase in import volume underscores the strong revival in demand, aided by resumption of construction and other end consuming industries.

The more than doubling of import volume in FY 2023 meant the country incurred an import bill of INR 43.7 Bn towards the import of SS sheet during the year. Discounting the slump in FY 2021, the average import bill of SS sheet imports has stood at nearly INR 19 Bn (during FY 2018-23).

Analysis based on HS codes 721931, 721932 and 721933

Nearly 92% of SS sheets imported to India during April 2021–February 2022 came from five markets, namely Japan, South Korea, China, Indonesia, and Vietnam. Of these, Japan is the largest exporter of the commodity, accounting for nearly 31% of total import volume during April 2021–February 2022 period.

Note: Geographical break-up based on FY 23 export figures

The excessive stainless-steel capacity in markets like Japan, South Korea, China, and Indonesia together with surging demand for SS products in India has resulted in unbridled import of these products to India. Backed by favorable trade measures & agreements, these low-cost manufacturing destinations have stepped up imports to India, in the process creating material injury to domestic industry. As per Indian Stainless

Steel Development Association (ISSDA), imports today account for nearly 20% of domestic SS market. This scenario is playing across a wide range of stainless-steel products, including flat products.

## Competitive Landscape

SS sheet manufacturing in India is a fragmented industry, with a domination of small & medium sized players who make up the unorganized segment. Ease of raw material availability, production process which is not protected by any intellectual property restrictions, and low switching cost have all resulted in low entry barriers. Meanwhile, the ubiquitous usage of SS sheet (across a wide variety of sectors) meant there is a steady demand for the commodity.

These two factors (steady demand & low entry barriers) have made the industry an attractive bet for smaller players. In addition, the lack of product differentiation and fragmented customer base has ensured that smaller players would be successful in finding a market for their products.

Apart from domestic manufacturers, the industry also comprises of a large number of traders / suppliers dealing in imported SS finishing sheets. Given the large volume of SS sheet imported to India, this segment plays a considerable role in shaping the competition in this sector.

At present, product price is the predominant factor considered by customers in choosing SS sheet vendors. Presence of low-cost imports have driven down the prices, impacting the profit margins of both large and small manufacturers. The anticipated change in market, towards sheets with specialized finishes could introduce product differentiation and with it the prospect of a range of premium priced sheets. Although the threat from imports would remain, the capability to supply a wide range of specialized finishes as well as the ability to develop new products as per customer / market specification could act as entry barriers. Established players who has invested in strengthening their product portfolio as well as R&D capability stands to reap the benefit.

This differentiation is most visible in metro coach manufacturing industry. Metro coach manufacturing in India is concentrated among three to four players, who by default forms the entire customer base for SS sheet specifically designed for use in metro coaches. This consolidated industry structure in metro coach manufacturing sector leaves little negotiating room for SS sheet suppliers, limiting their pricing power. On the other hand, the volume of SS sheet procured by these coach manufacturers is very high, which cannot be met by smaller players. The same is true in terms of product quality too, where specialized finishes are demanded. Hence, SS sheet manufacturers with large capacity & a wide product portfolio (with varying finishes) has an advantage, compared to smaller players.

Notable SS Sheet Manufacturers in India	
Panchdeep Metal Corporation	Panchdeep Metal Corporation, based in Mumbai is a leading manufacturer of a variety of SS products, including sheets, rods, pipes, rounds, flats, and coils. The Company services customers in petrochemicals, cement, automobile, oil & gas, and process industry. They are also a supplier to railway industry – for manufacturing of coaches and other components.
Ratnaveer Precision Engineering Limited	Ratnaveer is a leading manufacturer of SS sheets, washers, hooks, and SS tubes & pipes. The Company's SS sheet product portfolio comprise of a wide range of finishing sheets.
Jyoti Steel India	Jyoti Steel, manufactures SS sheets, metal fasteners, duplex & super duplex steel products. The Company's SS sheet portfolio

	comprise of Square SS sheet, and SS sheets of variants 316L and 309.
Jindal Stainless Steelway Limited (JSSL)	JSSL is part of Jindal Stainless (India's leading stainless-steel manufacturer). JSSL manufactures and supplies a wide range of stainless steel flat products, including polished sheets to coil products.

### Growth Outlook

SS sheet usage has seen a significant growth in the past decade, on the back of novel application in ABC segment as well as emergence of new customer segments like metro railways.

Usage of steel in architecture & building construction was mostly confined to load bearing & structural applications. Usage of specialized products like SS sheet was relatively low. Changes in building design & construction technics have ushered in a change, paving the way for the adoption of SS sheets. While usage of SS sheet as roofing and cladding material has found a ready audience, its usage as a decorative sheet is yet to gain traction.

On the other hand, the growth in metro rail network has presented SS sheet manufacturers with a new customer segment. Given the rapid growth in metro network in the country, this new segment has turned out to be a key demand driver. These two customer segments would continue to be the major demand drivers for this product in the years to come.

### Expected growth in demand from ABC segment

One notable difference would be the increase in product penetration. As the practice of using SS sheet for decorative cladding picks up, the volume of SS sheet consumed by architecture & building construction segment would significantly increase. In addition, the demand would diversify from low value SS sheet to high value SS sheets with specialized finishes. This later development (increase in premium specialized products) would also ensure a strong growth in annual turnover. Apart from this increase in consumption volume due to increase in usage areas, the general growth in office space and retail space would support the future growth in demand.

### Expected growth in demand from ART segment

Aggressive expansion of metro rail projects coupled with expansion of existing network would create higher demand for metro coaches. This in turn would ensure higher demand for SS sheet from metro coach manufacturers. Unlike ABC segment, the bargaining power of buyers is high, due to the limited number of buyers. There are only 3 – 4 metro coach manufacturers operating in the country, and SS sheet procurement by these OEMs would be skewed towards established players. This bias is primarily due to the higher production capacity, as well as ability to manufacture a wide variety of SS sheet finishes. Hence larger players have an advantage over their smaller peers.

Thus, the overall demand for SS sheet would continue to remain strong in the coming years. However, the resultant impact on SS sheet manufactures would be different. Smaller players would be better equipped to capitalize on increased demand from ABC segment. Meanwhile the same set of players would find it challenging to cater to the expected demand from specialized customer segments like metro coach manufacturers.

On the back of the higher demand expected from ART and ABC segment, as well as from other segments like process industry & kitchen ware, the annual consumption of SS sheet is expected to reach 1,020 thousand tons in 2025, and further increasing to 1,660 thousand tons by 2030.

### **Stainless Steel (SS) washers**

A typical washer is a disk-shaped small thin plate that has a hole in the center. There are numerous uses of washers, however it mainly serves as a spacer to absorb a shock and evenly distribute load of a fastener. Washers can also prevent leakage or corrosion, relieve friction, and maintain tension. The size of the hole in the middle of a washer is typically based on the clearance value of the fastener it will be used along with.

Washers are usually metal or plastic and are made in different sizes based on their application. They are made from a variety of materials including stainless steel, carbon steel, zinc, copper, brass, plastic, rubber, fiber, and ceramic. Stainless steel (SS) washers and galvanized carbon steel washers are the most commonly used. While the former offers better strength, the superior corrosion resistance attribute of stainless steel gives it an edge.

Stainless steel washers are most used washers applied in fastener assemblies to distribute load from a bolt's top across a wider surface area. Globally, stainless steel washer is a preferred choice for the end-users of washers owing to its numerous positive properties. The notable advantage of stainless steel over other metals is its natural characteristics such as resistance from corrosion and rust, and thus, is most preferred input material for manufacturing washers. Another advantage of SS washer is that they make maintenance tasks much easier, as their load-bearing quality makes the tightening and/or loosening of components hassle-free.

Stainless steel washers are made by the stamping process that uses a die to punch a shape or a form from a flat sheet of stainless steel. Stamping is a fast and smooth process that is capable of manufacturing large number of washers and enables maximum use of metal sheets. Generally, all washer manufacturers attempt to follow standards for manufacturing published by International Organization for Standardization (ISO), in order to maintain the quality of their products and prevention of harm to the environment.

### **Type of washers**

There are mainly three types of washers based on their features and application: plain washers, lock washers, and spring washers. Within each of these types, there are more specialized forms that serve unique purposes.

#### **Plain Washers**

Plain washers are the most common type of washers. They distribute the load and protect the object to which the nut or screw is fastened. Moreover, a plain washer can also be used to correct the size difference if the hole is of a larger diameter than the fastener. Plain washers include various other specialized forms that are made for specific purposes. Few of the popular specialized types of plain washers includes Flat washers, C-washers, Fender washers, Countersunk / Finishing washers and Torque washers.

#### **Lock Washers**

Due to various reasons, fasteners carry chances of rotating or disassembling from the assembly. Lock washers secure fasteners from rotating or losing friction. Lock washers are made in different types but all of them work under same principle i.e., they exert a continuous pressure by partially deforming and secures

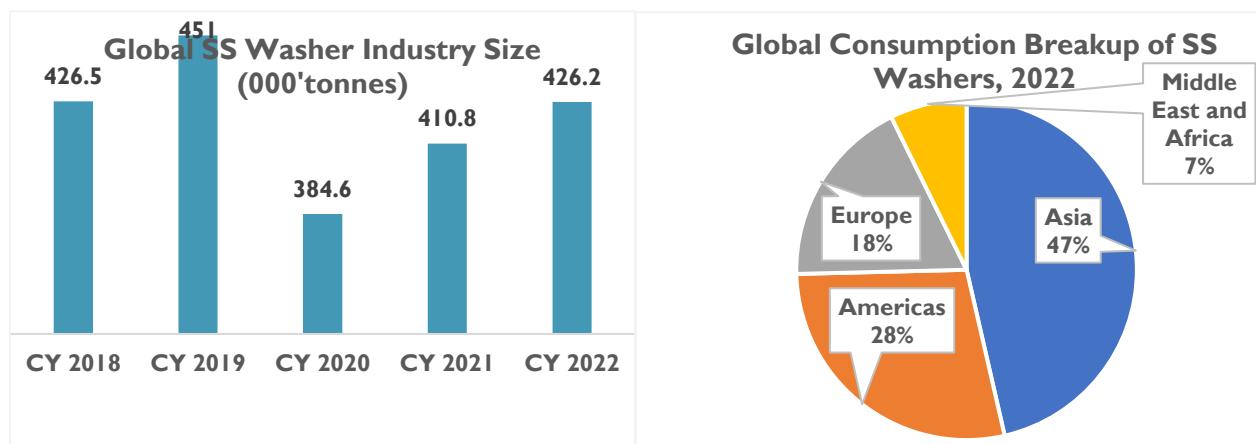

a fastener from loosening. The main types of lock washers include Split lock washers, External tooth lock washers and Internal tooth lock washers.

## Spring Washers

Spring washers are metal discs made into an irregular shape to subject the washer to compress under the pressure like a compression spring. They have axial flexibility that enables them to move with vibrations and thus prevent object from unfastening or loosening. The structure of the washers provides preload between joining surfaces. The specialized forms of spring washers includes Crescent washers, Belleville / Conical washers, Dome washers, Wave washers and Finger spring washers.

## Global Consumption Scenario

SS washer, although a low value product, but is a critical component and are widely used in multiple manufacturing industries, utility sector, infrastructure, and real estate construction, amongst other. Backed by its diversified application, the global consumption of SS washers before falling in 2020 observed a healthy growth of 5.7% in 2019. The global consumption contracted in 2020 by nearly 15% on yearly basis to 384.6 thousand tonnes on the back of Covid-19 induced disruption in economic activity. However, the market demand recovered, and global SS washer consumption registered 6.8% y-o-y growth as industries resumed operation when lockdown and Covid-19 related restriction were relaxed gradually.

in CY 2022. Asia's SS and Middle East & Africa washers consumption grew at CAGR of nearly 22% and 0.3% while consumption in other region such as Americas, Europe, contracted at CAGR of 0.8 and 0.9% respectively. Aftermath of Covid-19 pandemic observed in 2020 led to a fall in consumption demand for SS washers in the these two regions as industrial activity in major end user industries such as automobile and other manufacturing industries, infrastructure, and construction was impacted due to Covid-19 led disruption. However, recovering global GDP led by resumption in economic activity across many major sectors supported the SS washer consumption growth in 2022 across all the regions.

## Geography-wise SS washers Consumption Volume (Growth trend)

### Production Scenario

On supply side, the global production of SS washer was estimated at ~507 thousand tonnes valuing USD 3,651 Mn in 2022 with nearly 69% of production concentrated in Asia region followed by America, Europe, and Middle East & Africa region accounting for respective share of 15.6%, ~12.8% and 2.6%. In terms of consumption and production, the global SS washer industry had a production surplus of 81 thousand tonnes where Asia with China being a global manufacturing hub emerged as a production surplus region while other region remained a consumption surplus region. Below table represent region wise demand supply gap situation:

#### SS Washers Volume in '000 Tonnes in 2022

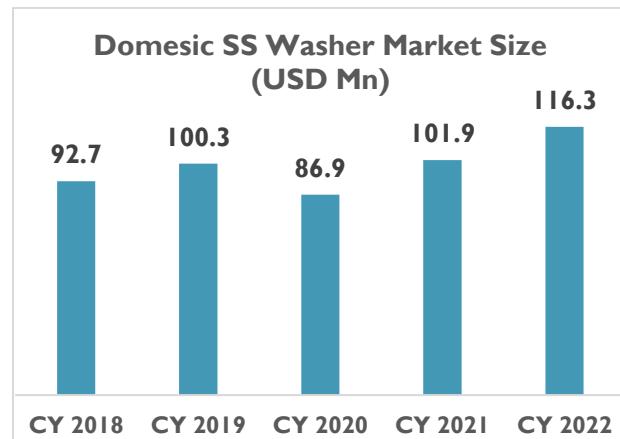

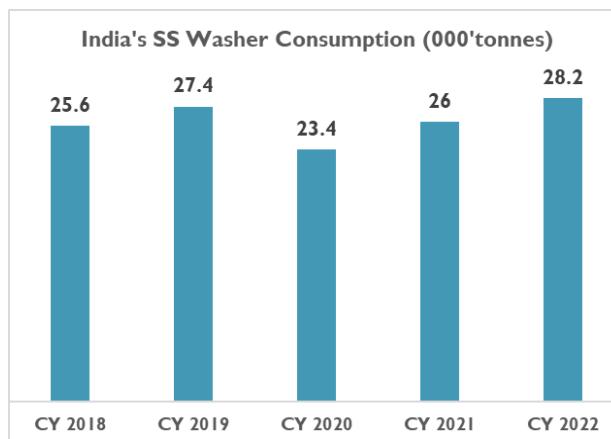

<b>Region</b>	<b>Production</b>	<b>Consumption</b>	<b>Demand Supply Gap</b>
<b>Asia</b>	349	189.2	-159.8
<b>Europe</b>	65	83.9	18.9
<b>Middle East and Africa</b>	13	30.7	17.7
<b>Americas</b>	79	121.2	4.9

### Indian Consumption Scenario

Annual SS washer consumption in India surpassed Covid-19 consumption in 2022 to 28.2 thousand tones from the record decline in 2020. Between 2018-22 India's SS washer consumption is estimated to have grown at a flat CAGR of 2.4%. Barring a record decline in 2020 due to Covid-19 pandemic induced depressed market sentiment, the domestic consumption of SS washers registered healthy yearly growth of 7% in 2019 when the domestic consumption touched 27.4 thousand tonnes.

In 2022, the country's SS washers consumption registered 8.5% y-o-y growth preceded by 11% y-o-y growth from previous year. Rising consumption in 2021 is backed by resuming demand recovery in the major end user industries. Incremental demand originating from automobile particularly EV segment, infrastructure and real estate construction, water transportation mainly driven by Jal Jeevan Mission, industrial application, and sharp push to green energy sector especially solar energy has supported the growth of SS washers industry.

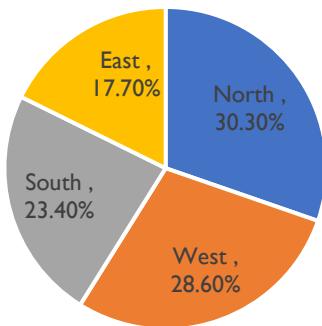

Sources: Based on inputs from a primary Survey

In value term, the domestic consumption of SS washers is estimated to have grown at 5.8% CAGR between 2018-22 to reach USD 116.3 Bn in 2022. Annually, the domestic consumption in value term estimated to have registered 13.2% decline in 2020 in line with falling demand. In 2020, the outbreak of Covid-19 in 2020 had a negative impact on the India SS Washers market owing to the lockdown and subsequent supply chain disruptions, along with delays in production processes. However, the market recovered in 2021 with the gradual resumption of manufacturing and economic activities and registered yearly growth of 11%.

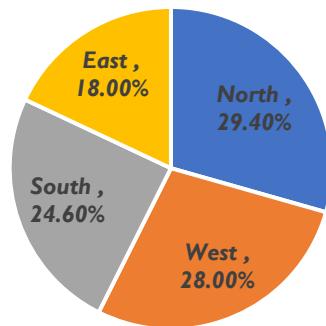

### **Regional Breakup**

Northern region closely followed by western region have garnered majority share both in terms of consumption volume and value on account of its large population and presence of industries. Gurugram and Manesar in Haryana have the largest automotive manufacturing industry of Maruti Suzuki coupled with Noida and Gurugram as the major corporate hubs in the northern region with the greatest number of office space have support the demand for SS washers.

to enhance skill development and create best infrastructure in India and push the industrial sector across the country. Furthermore, the government is focused to make India a manufacturing hub and towards this, the government is developing industrial corridors spread across the country.

In terms over industrial park penetration, Maharashtra leads the other states with having presence of 728 industrial parks followed by Karnataka, Andhra Pradesh, and Rajasthan with 539, 400 and 370 industrial parks, respectively. Growing development of industrial plant is expected to support the domestic consumption of SS washer. It will also help the industry to evolve as a leading producer and export of SS washers in the world.

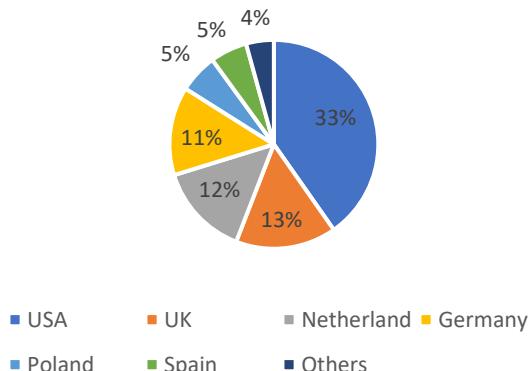

### **Major Trading Partners**

India's export market for SS washers is diversified with the country exporting SS washer to nearly 155 nations. In FY 2023, USA continued to remain India's largest export market with 33% share in the total SS washer exports. Export of SS washers to the US market has steadily grown at a CAGR of nearly 36% during FY 2018-23 to reach the value of INR 1.74 billion from the level of INR 0.37 billion in FY 2018. As a result, the share of USA in India's SS washer export has increased from 17% to 33%.

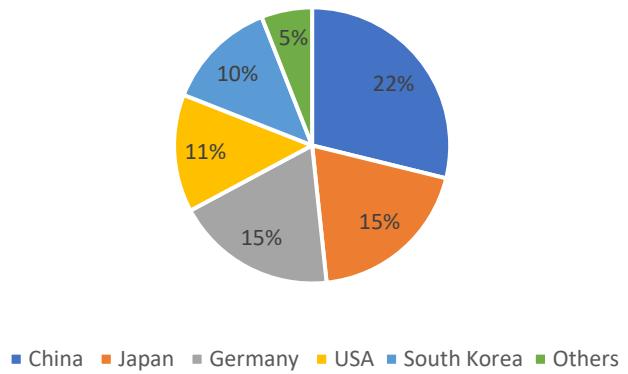

UK, Netherland, Germany, Poland and Spain were the other major export markets for SS washers in FY 2023. However, UK's share in India's SS washer exports has gradually declined from 19.5% in FY 2018

to 13% in FY 2023. Together, these top five countries accounted for nearly 82% of the total SS washers' exports in FY 2023.

For Imports, China's has emerged as the largest import source of SS washers for India followed by Japan and Germany in FY 2023. Previously, South Korea and Japan were India's largest import sources in FY 2018 (19.24% in SS washer imports to India), but gradually it has lost its share to other major markets such as China and Germany.

China's share in SS washer import to India has increased from 8.8% in FY 2018 to 22% in FY 2023. In absolute terms, its import to India has increased at a CAGR of nearly 26% during FY 2018-23 to reach INR 857 million in FY 2023. During the last three years, Japan has emerged among the top two largest import source of SS washers for India with the share of nearly 15% in total imports to India. Similarly, Germany's share in India's total SS washer imports has increased from 10.2% in FY 2018 to 15% in FY 2023, growing at a CAGR of nearly 9% to reach INR 579 million in FY 2023 from INR 299.9 million in FY 2018.

Indian Government, in a notification dated 7 September 2017, communicated the imposition of counter veiling duty (CVD) on import of stainless-steel hot rolled and cold rolled products from China, for a period of five years. This was culmination of an enquiry by the Directorate General of Anti-Dumping and Allied Duties, in response to an increase in import of low / subsidized price SS flats from China. Although the measure focuses on import of SS tubes & pipes, it can be construed as an indication of the Government to protect the domestic steel industry, against cheap imports.

The CVD investigations were initiated on 12th April 2016 by the Directorate General of Anti-Dumping and Allied Duties (DGAD) in response to a surge in subsidized imports of stainless-steel flat products. These imports were distorting the domestic market, which was under huge stress and was leading to financial stress in the industry. Extensive investigations were carried out by DGAD and the final findings were issued by the DGAD vide notification dated 4th July 2017.

Following are the details of the duty imposed:

<b>Heading</b>	<b>Description of Goods</b>	<b>Country of Origin</b>	<b>Country of Export</b>	<b>Producer</b>	<b>Exporter</b>	<b>Duty as % of Landed Value</b>
7219 or 7220	Flat-rolled products of stainless steel*	China PR	China PR	Any	Any	18.95%

\*Flat-rolled products of stainless steel, whether hot rolled or cold rolled of all grades/series; whether or not in plates, sheets, or in coil form or in any shape, of any width, of thickness 1.2 mm to 10.5 mm in case of hot rolled coils; 3 mm to 105 mm in case of hot rolled plates & sheets; and up to 6.75 mm in case of cold rolled flat products. Product scope specifically excludes razor blade grade steel.

Prior to this, the anti-dumping duty was already in place on:

- Hot-rolled austenitic stainless steel flat products; whether or not plates, sheets or coils (hot-rolled annealed and pickled or black) of rectangular shape; of grade either ASTM 304 or 304H or 304L or 304N or 304LN or EN 1.4311, EN 1.4301, EN1.4307 or X5CRNI1810 or X04Cr19Ni9, or equivalents thereof in any other standards such as UNS, DIN, JIS, BIS, EN, etc.; whether or not with number one or black finish; whether or not of quality prime or non-prime; whether or not of edge condition with mill edge or trim edge; of thickness in the range of 1.2mm to 10.5mm in Coils and 3mm to 105mm in Plates and Sheets; of all widths up to 1650 mm (width tolerance of +20mm for mill edge and +5mm for trim edge). (*Custom Notification No. 28/2015- Customs (ADD) dated 05/06/2015*).
- Cold-rolled flat products of Stainless Steel of width of 600 mm up to 1250 mm of all series not further worked than cold-rolled (cold-reduced) with a thickness of up to 4 mm (width tolerance of +30 mm for mill edged and +4 mm for trimmed edged)

The sunset review of above investigation was initiated on 8th October 2021. The Authority called for responses from all interested parties including importers and exporters. In the notification dated, 21st December 2022, additional time till 29th December 2022, had been granted to all interested parties<sup>11</sup>.

### **Key Demand Drivers**

Washers are primarily used as spacer to absorb a shock and evenly distribute load of a threaded fastener. The versatile applications of washers along with various engineering products such as nuts, bolts, and fasteners used in almost every industry has supported the demand for washers. Amongst several type of washers available, washers made from SS steel are the most widely used material in washers. These are widely used in automobile industry, residential, commercial and infrastructure construction and in several other manufacturing and utility sector. SS washers with having better corrosion and chemical resistance are commonly used in a salty environment like saltwater, chlorine, coastal area. In industrial sector, SS washer thus find diversified application specialty chemical, petrochemical, power, industry, sea water equipment, and many other engineering applications.

A brief overview and outlook of leading end user industries for SS washer is presented below to gauge the evolving demand scenario of SS washers in India.

<sup>11</sup> Directorate General of Anti-Dumping and Allied Duties have not updated the status post 29<sup>th</sup> December 2022

## **Automobile Industry**

Auto and auto component manufacturing is a key economic sector, contributing to nearly 2.3% to the nation's Gross Domestic Product (GDP), 25% to the national manufacturing GDP, and 4% to overall annual exports. The sector employs nearly 5 million people, underlining its importance to the industrial sector. Development in the automobile sector has strong backward and forward linkages. It governs the fortune of several industries in manufacturing segments including iron & steel and its allied metal product like SS washer.

The rise in automobile production and sale in India over the last couple of decades have translated into positive demand for SS washers in automobiles. Apart from the natural growth in demand due to rise in automobile production, the regulatory changes that is happening across global automobile industry too have positive implication on increasing usage of stainless steel in the sector. The industry associations are pushing for a sustainable development of domestic automobile industry and aims to evolve India a global destination of choice for design and manufacturing hub of automobile. Thus, industry stakeholders are proactively working to enhance the competitiveness of the domestic automobile industry by reducing cost of vehicles, increasing productivity, and achieving global standards of quality. The stringent norms and efficiency standards are thus forcing automobile manufacturers to increase the proportion of special stainless steel used in vehicles. The high strength to weight ratio, high durability, tolerance, and good corrosion resistance attributes have also contributed to an increasing usage of stainless steel in automobiles.

The overall domestic production surged to 30.9 Mn units in FY 2019 before plummeting for two consecutive year in FY 2020-21. The COVID-19 pandemic worsened the vehicle demand in FY 2021 as industry lost 2 months in FY 2021 because of Government enforced lockdown. During FY 2022, the overall industry production of ICE-based vehicle registered flat growth of just 0.01% on account of 3% decline in two-wheeler segment which impacted the overall production volume while domestic sales in other segments recovered.

## **Construction**

Corrosion resistance, and long lifespan have all led to wide acceptance of SS washers in construction sector application. Infrastructure development, and a surge in real estate construction (residential & commercial) have created a high demand for SS washers. In past, the boom in construction which accompanied the strong economic growth in the country have supported the rising consumption of SS washers.

However, the sector has been severely hit by the occurrence of COVID-19 pandemic which has turned the overall business sentiment pessimistic. The construction activity in India have moderated over the last few fiscals due to combination of factors such as liquidity squeeze, higher cost of capital, delay in project clearance and bottlenecks in execution. In FY 2021, the construction sector severely impacted by Covid 19 Pandemic and where Construction sector GVA contracted by 8.6% against subdued 0.98% change in the previous year. In FY 2022, as per the government advance estimate, construction sector GVA is expected to expand by 10.7% on y-o-y basis, owing to government's increased on infrastructure projects and increasing demand for residential and commercial segments post pandemic. The real estate and professional services segment are estimated to register 4% growth in FY2022

Favorable policies such as 100% FDI under automatic route in the construction industry is permitted in completed projects for operations and management of townships, malls/shopping complexes, and business constructions which would thereby boost the growth of construction sector in India. The growing

construction of malls, hotels, office spaces and residential units would generate demand for stainless steel washers thereby resulting in growth of the market in India in coming years.

Even though the new project announcement has declined sharply, the outstanding investment value in construction sector and new project announced value is substantial which is likely to have a favorable impact on the SS washer application in construction space. India residential sector has been witnessing a significant increase in demand in 2022 and is estimated to witness 5% capital value growth in 2022

### **Solar Industry**

SS washer also find significant application in solar panel mounting system, racking and installation. Solar grounding washer SPC-GW-25 made in stainless steel are preferred due to its durability. Thus, investment in solar industry towards solar panel to support solar industry expansion present promising opportunity for the SS washers industry.

### **Solar Energy Target**

Aggressive push for clean technology for sustainable development adopted by the Government to achieve the twin objective of reduction of carbon footprint as well as to reduce dependency on hydrocarbon-based power generation will continue to augment growth of the renewable energy sector. The Govt. has committed to reduce carbon emissions by 30% to 35% and increase renewables to 40% of the energy mix by 2030. Progressing with bullish approach on renewables, India has raised 450 GW of renewable energy by 2030. Moreover, a significant portion of new power installations will continue to come from renewables led by solar. Of the FY 2030 target, 280 GW of total 450 GW would come from solar power. To achieve the pledged target, around 25 GW of solar energy capacity is needed to be installed every year, till 2030.

The domestic manufacturing of solar part is likely to benefit several government initiatives that have been announced in the past such as production-linked incentive (PLI), domestic content requirement for CPSU scheme and KUSUM scheme. Additionally, recent announcement pertaining to BCD on solar cell and module will also help with augmenting domestic manufacturing thereby pushing SS washer application in solar sector.

### **Water Resource Infrastructure**

The government announce to launch The Jal Jeevan Mission (Urban) which aims at universal water supply in all 4,378 Urban Local Bodies with 28.6 Mn household tap connections, as well as liquid waste management in 500 AMRUT cities. It will be implemented over a period of 5 years, with an outlay of INR 2,870 Bn.

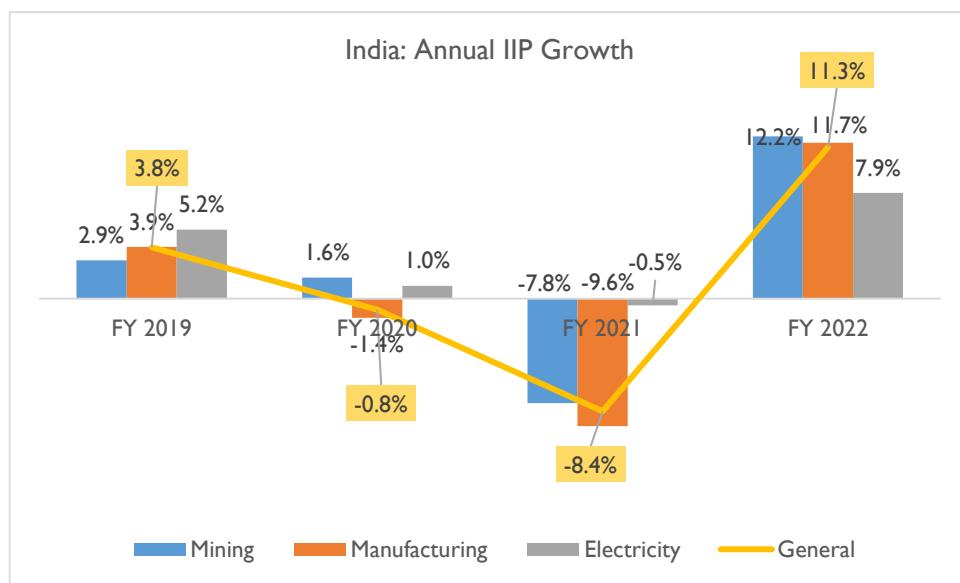

In the wake of drying conventional surface water and growing freshwater demand from various end-user segment, India is rapidly progressing towards a water scarce nation from water stressed nation. Consequently, the nation is exploring and investing in various water treatment technologies to support the nation's increasing freshwater demand for potable use. Since, SS washer possess better

chemical resistance, its usage in wastewater treatment and water desalination industry is expected to grow in the wake of substantial investment planned to secure the supply of drinking water in India. As per industry sources, the size of India desalination plant valued at USD 830 Mn in 2018 and is projected to grow at a CAGR of 9% to reach USD 1.4 Bn by 2024. Many new desalination plants have been proposed to be set up in various states in coastal region such as Chennai, Gujarat, Mumbai and Andhra Pradesh.

Besides water desalination, the government has also announced to launch The Jal Jeevan Mission (Urban) which aims at universal water supply in all 4,378 Urban Local Bodies with 28.6 Mn household tap connections, as well as liquid waste management in 500 AMRUT cities. It will be implemented over a period of 5 years, with an outlay of INR 2,870 Bn.

### Industrial Sector Growth

Rapid industrialization in Indian economy, aided by favorable government policies, robust demand scenario, and penetration of export markets have led to capacity expansion in Indian manufacturing industries including automobile, chemical, electronics, pharma, oil& gas, fertilizers and many other. The resultant increase in demand for plant and machinery have had an equally strong demand for components used in manufacturing these equipment's including SS washers.

Industrial sector performance as measured by IIP index exhibited recovery in FY 2022 and registered 11.3% y-o-y growth as the economic activity resumed operations across all sectors backed by supportive government measure to revive economic growth. Prior to FY 2022, industrial growth observed a fluctuation and registered -0.8% decline in FY 2020 and even as steeper fall in FY 2021 on the back of Covid-19 pandemic Decline in manufacturing activity was steepest. Historically, weak manufacturing sector growth have forced manufacturers to reduce production volume as well as put capacity expansion plans on hold. This generic slowdown in industrial sector is believed to have a cascading impact of various input and component that support the manufacturing and overall industry activity. The contracting industrial activity thus impacted the SS washers consumption in India which fell by nearly 15% in 2020. However, with recovering industrial sector activity in FY 2022, the SS washer in India is poised for a healthy growth in 2022.

Steady increase in outstanding investment and sharp increase in new projects value in overall manufacturing sector presents favorable opportunity for the SS washer industry in India.

### **Competitive Scenario**

Washers' industry in India is highly fragmented in nature comprising large number of small players. Washer's manufacturing companies use various metals such as steel, copper, aluminum, and rubber for manufacturing different types of washers. Among these, the most preferred washers, by domestic as well as global end-users, are stainless steel washers due to their corrosion and rust resistance properties. Generally, all washer manufacturers attempt to follow standards for manufacturing published by International Organization for Standardization (ISO), to maintain the quality of their products as per global standards and prevent any harm to the environment.

Within the washer industry, SS washers holds a distinguished position due to its numerous product attributes. These include resistance to corrosion, superior protection from abrasion & friction, and ability to retain mechanical properties at extreme temperatures. In addition, the recyclable nature of stainless steel gives it an advantage over other metal types. All these applications make SS washers ideal choice for demanding application, where other washers do not fare well.

However, the superior performance of SS washers can be attained only by ensuring high quality stainless steel as well as standardized manufacturing process. Availability of a steady supply of stainless steel is an integral factor. It is here the established players have managed to create an advantage, as well as maintain it. By means of backward integration as well as recycling of waste stainless steel produced during the manufacturing process, they have managed to create a steady supply of raw materials. This in turn have helped in creating a niche position in the washer industry.

These attributes meant SS washer is considered more as a value-added product, compared to other metal washers. The specialized product application also helps SS washer command higher price compared to other metal washers.

Apart from a mass production of generic washers, few industry players – mostly organized players – also produce customized washers for specific purposes according to the customer requirements. The Indian washer industry not only fulfills major portion of domestic washer's demand but is also one of the major exporters of different types of washers of global standards.

Globally, China has predominantly been the largest manufacturer and supplier of washers in the world. However, the aftermath of Covid-19 has brought some noticeable changes in the global-supply chains owing to the worldwide anti-China sentiment. Like other industries, this is the most opportune time for washer manufacturers in India to focus on enhancing their production capabilities and capture a significant share in global market.

The biggest challenge for the industry is the rising cost of key input materials such as stainless steel, copper, aluminum, and other metals. Few large companies have undertaken backward integration in order to reduce dependency on outside raw material suppliers and cut down input cost to a certain extent. Such a strategy gives an edge to companies to compete better in terms of price as well as helps in achieving higher profitability. The well-known washers manufacturing companies include Ratnaveer Metals, Suchi Fasteners, Navgrah Fasteners, Gujarat Washers, SBP Automotive, Special Washers (India), Gala Precision Engineering, etc. The following table includes brief information of the companies:

Name	Description
Ratnaveer Precision Engineering Limited	Ratnaveer Precision Engineering Limited is one of the leading manufacturer, exporter, and supplier of stainless-steel washers in India. It is one of the largest manufacturers of washers and enjoys economies of scale. The company has a wide product portfolio of about 2500 different sizes and types of washers, that meets the requirement of wide range of customers across segments. The company generated around 20% of the revenue from exports in FY 2022. Ratnaveer is one of the largest exporter of stainless-steel washers in India and the one of the few to have backward integration in washers manufacturing process, due to which it has a competitive edge over its competitors in terms of better pricing and raw material supplies.
Suchi Fasteners Private Limited	Suchi Fasteners is one of the well-known washers manufacturers and suppliers in India. The company maintains high quality production of bur free, smooth, and flat washers. At present, the company manufactures and exports aluminium, brass, copper, silicon, bronze, and stainless-steel washers. It specializes in countersunk type finishing cup and flanged washers as per global standards.
Navgrah Fastners Private Limited	Navgrah Fastners, manufactures stainless steel washers, sheet metal parts, stampings, solar mounting hooks, connectors, and accessories. It mainly specializes in stainless steel washers and various hooks (haken) and all fastening parts for the solar mounting systems in stainless steel with powder coating or shot blasting.
Gujarat Washers	Gujarat Washers offers a wide gamut of washers which includes industrial metal fasteners, fastener nuts, washers, etc. The company is well-known for its stainless-steel washers and was recognized as the First Manufacturer of Stainless-Steel Spring Washers in India. The company has also gained recognition as one of the prominent industrial hardware fasteners, belleville spring washers and industrial washers exporters.
SBP Automotive Private Limited	SBP Automotive is an experienced automotive washer manufacturer and supplier, catering to a variety of industries such as automotive, manufacturing, mining, engineering, etc. The company offers copper washers, aluminium washers, spring washers and steel washers which come with a wide range of materials for different applications.
Special Washers (India) Private Limited	Special Washers (India) is an ISO 9001-2008 Certified manufacturer, exporter, and supplier of industrial fasteners and sheet metal components including industrial washers, industrial screws, bolts, metal nuts, metal rivet, etc. The company offers products in various metals such as stainless steel, copper, phosphorous, and bronze.
Mitter Fasteners	Mitter Fasteners, manufactures nuts, bolts, and sheet metal components which adheres to the national and international standards such as ISO, JIS, DIN, etc. The company supplies its products to major OEMs in India and major buyers in Europe. The company has an in-house manufacturing facility for Zn plating, heat treatment, and metallurgical lab.

Gala Precision Engineering Private Limited	Gala Precision Engineering is a manufacturer, supplier, and exporter of high-end technology solutions in the fields of surface engineering, and high-performance springs. In 2014, company expanded its product range of disc springs by adding bearing series disc springs and serrated washers. In 2018, the company launched gallock wedge lock washers and started supplying them to OEMs in India and major customers in Europe, USA, etc. Today, the company is a major trade partner for gallock washers to one of the globally top 3 wind turbine manufacturers.
Autotech Industries (India) Private Limited	Based in Chennai, Autotech Industries (India) is involved in manufacturing of autotech engine components, autotech transmission components, and autotech hydraulic components. The company specializes in engine, transmission, clutches, axle, chassis, fuel system, and assemblies. It supplies and exports automotive products to major OEMs in India and other countries in the world.

### Global Growth Outlook

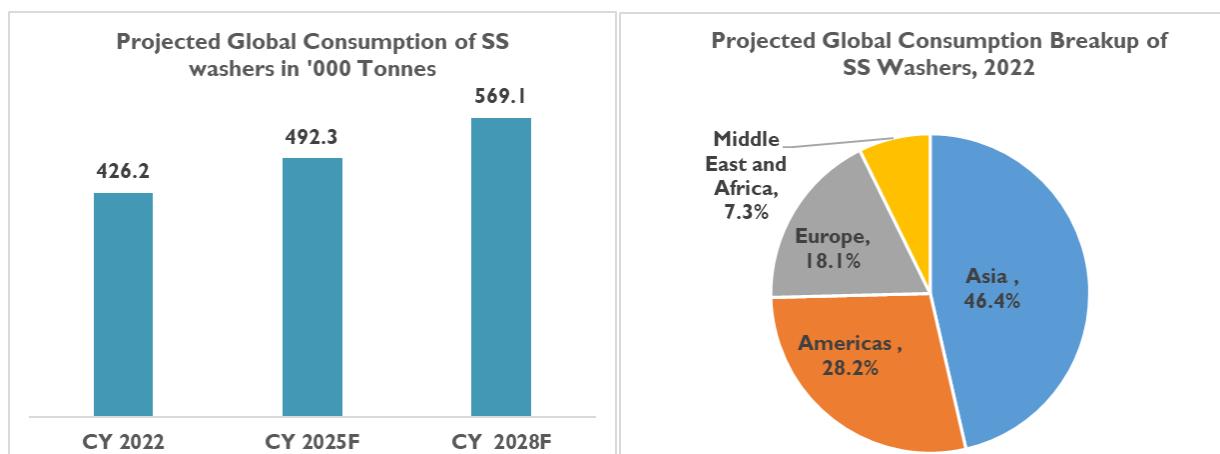

Going forwards, global SS washer consumption is slated to grow at CAGR 4.6% between 2018-25 and at 5% between 2025-28 to reach 492.3 thousand tonnes and 569.1 thousand tonnes, respectively.

Sources: Dun & Bradstreet Research

Increasing demand from construction of residential and office spaces coupled with ongoing infrastructural development projects across the world on the back of growing population and rising income are expected to drive the SS washers consumption during the forecast period. Besides above, the rising manufacturing activity particularly in emerging sector such as renewable energy, electric vehicle etc. along with other traditional end user sector such as automobile, consumer durable & electronics, oil & gas, and others to support urbanization are expected to aid the industry growth.

### Regional Outlook

Geographically, the consumption breakup is expected to remain the same in 2028 but Europe and Americas

is expected to lose marginal share to Asia and Middle East & Africa region. During the forecast period 2021-28, Asia is projected to continue growing at highest CAGR of 5.4%, followed by Middle East & Africa growing at 4.9% CAGR, Americas at 4.6% and Europe at 3.4% CAGR. In value term, the global

size of SS washers is projected to grow at CAGR of 6.3% between 2021-28 to grow from USD 2,958 Mn to 4,618 Mn.

## **Asia**

China, Japan, and India are major countries within Asia region that expected to lead the SS washer consumption owing to the presence of large number of industries. China, being the largest producer, consumer, and exporter of steel globally, retained its dominance in global SS washer industry in 2021 while Japan emerged as the second largest market for SS washer as it has the third largest automobile producing market in the world. Beside Japan, China, India, and South Korea have strong presence in automobile sector which is expected to push SS washers consumption during the forecast period.

Besides automobile, major upcoming infrastructural development projects including construction of office spaces by Hines and DNR group in Bengaluru, India, Sichuan-Tibet railway project in China, construction of 6,500 residential units per annum between 2022-26 and completion of 1,600 new hotel rooms in 2022 in Philippines and introduction of “Build! Build! Build!” programme (2017-2022) under which construction of about 102 airport projects is scheduled in Philippines would create demand for stainless steel washers during the forecast period.

## **Europe**

In Europe, SS washer consumption is estimated to grow at healthy CAGR of 3.4% by volume and 5.2% by value to 103 thousand tonnes and USD 900 Mn between 2021-28, respectively on the back of the ongoing construction of five largest office buildings and rapid infrastructural development in the region.

Additionally, Europe has strong presence in manufacturing sector and manufacturing is one of the largest economic sectors in the country generating about two-thirds of the Europe's economic output. Presence of large number of manufacturing industries is expected to aid the consumption SS washers market during forecast period too. As per our analysis, Germany and France are two major country that leads the SS washers market in the Europe region as Germany is the world's fifth largest steel exporter and exports steel to more than 200 countries. Germany also accounted for nearly 15% share in India's total import of SS washers by volume in FY 2022. While rapidly growing construction sector and expansion of commercial spaces in France has made the country an attractive consumption market for SS washers.

## **Middle East and Africa**

In Middle East & Africa, SS washer consumption is estimated to grow at healthy CAGR of 4.9% by volume and at ~7% CAGR by value to 41.5 thousand tonnes and USD 353 Mn by 2028, respectively owing to presence of countries like Morocco, United Arab Emirates and South Africa which are the major manufacturing hubs in the region coupled with Turkey and Dubai dominating the automotive sector of the region.

As per D&B report, Turkey followed by Saudi Arabia as the two major nation driving the consumption of SS washer consumption in the region. Turkey dominated the overall Middle East and Africa stainless steel washers as the automotive sector is one of the largest industrial sectors in the country and 15th largest in the world. Additionally, Turkey is the manufacturing hub and thus supports the production, export and engineering of global brands for international markets.

## Americas

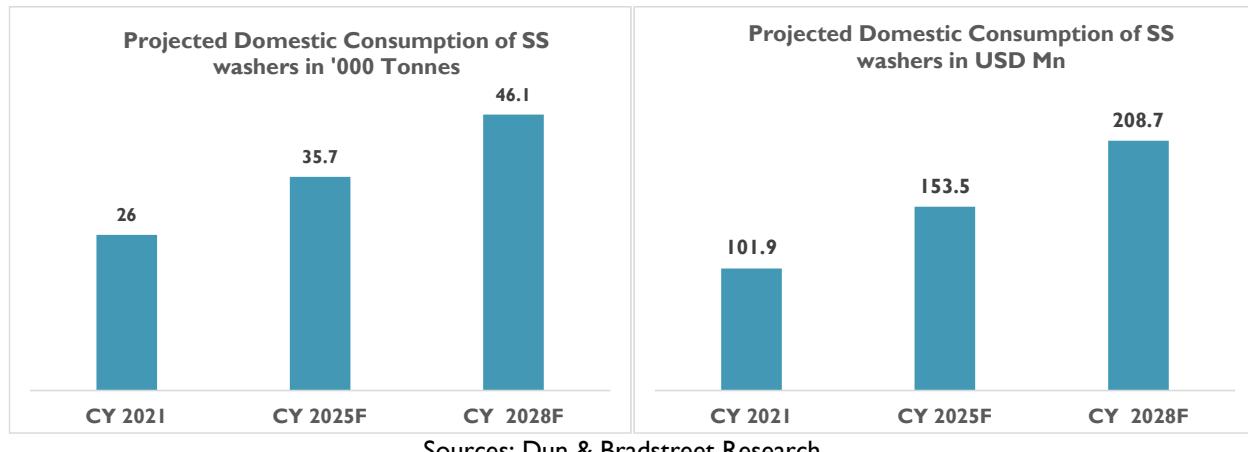

In America, SS washer consumption is estimated to grow at healthy CAGR of 4.6% by volume and at ~6.3% CAGR by value to 160 thousand tonnes and USD 1,371.5 Mn by 2028, respectively. Increasing real estate construction in both residential and commercial spaces and ongoing construction of mega infrastructure projects would augment the growth of Americas SS washers. As of March 2022, around 144.7 million square feet of office space was under construction in U.S. nationally which is expected to create demand for SS washers. Furthermore, construction of ongoing mega projects including JPMorgan Chase's new office in New York, Amazon Headquarter 2,830 Brickell office spaces, California high speed rail, Buffalo Bills stadium would have a favorable impact on SS washers demand.

Additionally, large scale presence of leading automotive OEM in USA is expected to push the regions SS washer consumption growth. With large population base and large population and largest automobile industry in Detroit city, USA retained its dominance as the largest consumption market for SS washers in Americas region in 2021. Detroit city in USA has the biggest automobile industry dominated by three large companies namely General Motors, Ford and Chrysler. Strong presence of auto manufacturing base has potential to create demand for lock and keyed washers owing to their large-scale usage in automotive applications. Canada is the other leading country for SS washer in the America region as it is major exporter of steel to the USA and Mexico.

## Indian Growth Outlook

The Union Government has formulated “National Steel Policy 2017”, which is expected to guide the growth of Indian steel industry for the next decade. As per the policy, the installed steel production capacity in India is expected to reach 300 million tons by 2030 while the production of crude steel would reach 250 million tons. These aggressive goals are on the back of the expected demand from construction as well as consumer products like automobiles.

Despite becoming one of the fastest growing economies in the world, the infrastructure sector in India is yet to develop fully. Therefore, substantial government expenditure is planned in major end user industries under National Infrastructure Pipeline and recently announced PM Gati Shakti project. The National Infrastructure Pipeline aims to improve the ease of living for its citizen. It will include projects in various sectors such as housing, safe drinking water, access to clean and affordable energy, world-class educational institutes, healthcare for all, modern railway stations, airports, bus terminals, metro and railway transportation, logistics and warehousing, irrigation projects, etc.

Thus, the aggressive public and private investment sprucing up in the infrastructure would translate into higher demand for various steel product including SS washers.

We expect domestic SS washer consumption volume to grow from about 28.2 thousand tonnes in 2022 to 35.7 thousand tonnes by 2025, growing at CAGR 8.2% between 2015-28 and later reaching 46.1 thousand tonnes by 2028, translating into 8.8% CAGR between 2025-28. In value term, the SS value consumption in India is slated to grow at average annual rate of 7.2% between 2022-28 to reach USD 208.7 Mn.

However, overall economic activity faces a major downside risk if RBI with recent hike in repo rate continue to increase repo rate amidst rising inflationary pressure. This may the fresh capital investment in the various sector and may temporarily affect the end user industries demand for SS washers.

On supply side, supportive policy announcement like Atmanirbhar Bharat, PLI, amended DMISP policy and Make in India scheme are expected to have a lasting favorable impact on domestic manufacturing and strengthening the supply side dynamics.

### **SS Sheet Metal Components**

#### **Global Consumption Pattern**

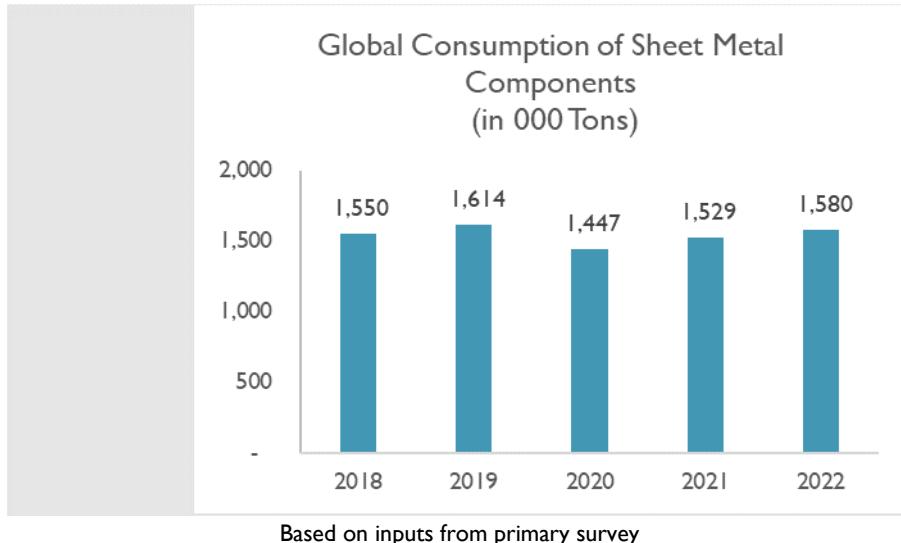

Globally, consumption of sheet metal components is approximately 1,580 thousand tons per annum in 2022, while annual production is approximately 1,750 thousand tons per annum. Consumption has picked up in 2022, growing by 3% from 2021 after a 10% decline in the previous year to the Covid-19 induced disruptions.

Although consumption volume in 2021 is well below the post covid-19 (2019 consumption) scenario, the year-on-year growth during 2020-21 indicates the strong optimism. This is based on the higher growth rate in consumption during 2020-21, as against growth registered in 2018-19.

In terms of sales value, global sales of SS metal components touched USD 13.4 Bn in 2022, the strongest growth in the past four years. Sales value has even surpassed the 2019 figure, indicating the strong rebound in demand post the Covid-19 disruptions.

Few common types of sheet metal components include:

- **Sealing Caps Core Plugs & Welch plugs:** Manufactured out of Mild Steel, Stainless Steel, and Brass material being used the Engine & Transmission blocks. These components are available in both Cylindrical and Conical type.
- **Clamps, Clips & Brackets:** These are being used in Automotive, Tractor, Earthmoving equipment, and Farm equipment as per customers' requirements
- **Push Nuts, U-clip Nuts, Self-threading Nuts:** These components are made out of medium carbon and high carbon steel with hardening & tempering and Electroplating with Hydrogen De embrittlement process.
- **Constant Pressure Hose Clamps:** These are manufactured out of high carbon steel and carbon alloy steel for the fuel and liquid rubber pipes/hoses in the Engines and other applications.

### **Region Production & Consumption Volume in 2022 (in 000 Tons)**

Region	Production Volume	Consumption Volume
Asia	1219.7	684.3
Europe	236.0	286.7
Middle East & Africa	45.0	120.6
Americas	300.9	488.8

Based on inputs from primary survey

### **Regional Production & Consumption Value in 2021 (USD Million)**

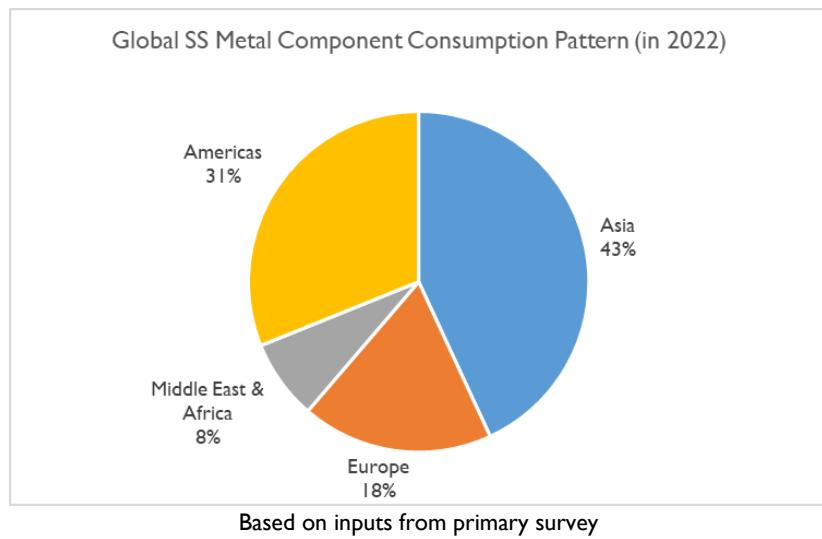

Region	Production Value	Consumption Value
Asia	USD 9,660 Million	USD 5,479 Million
Europe	USD 2,013 Million	USD 2,577 Million
Middle East & Africa	USD 375 Million	USD 1,047 Million
Americas	USD 2,543 Million	USD 4,299 Million

Based on inputs from primary survey

Asia is the leading market, both in terms of consumption and production. The shift in global manufacturing, from Europe and North America to Asian market on the back of cost differences and environmental concerns have shifted production of a wide range of products & components. The ascendency in SS metal components is a result of this development. In 2022, Asia accounted for nearly 67% of total annual production and 43% of total annual consumption.

China and Japan are the two largest consuming markets in Asia, followed by India. Strong growth in real estate construction, automobile manufacturing, and general capacity expansion in manufacturing industries have created demand for SS metal components. Both production & consumption of the product in European and American market has been declining, as bulk of manufacturing shifted to Asia.

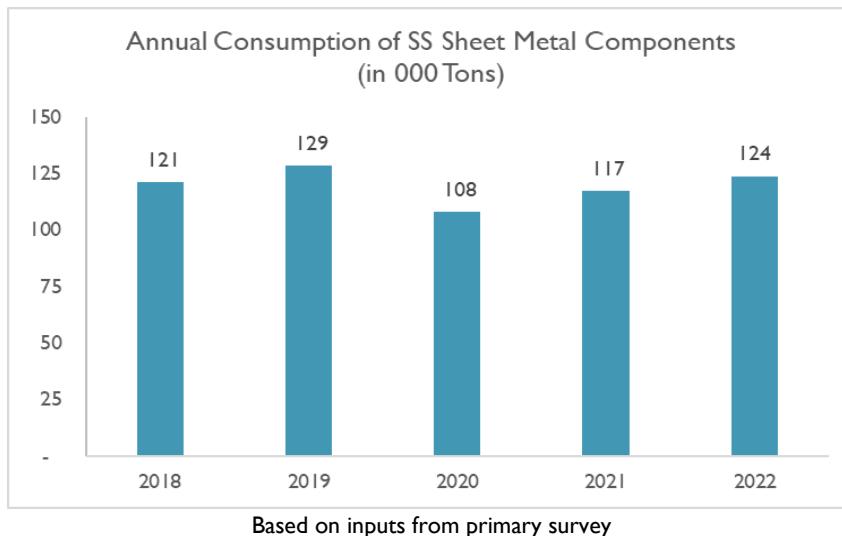

America is the second largest consumer of SS metal components, after Asia. In 2022 America (North and South) accounted for nearly 31% of total global consumption. Europe accounted for 18% of consumption while Middle East & Africa accounted for the remaining 8%.

### **Domestic Consumption Pattern**

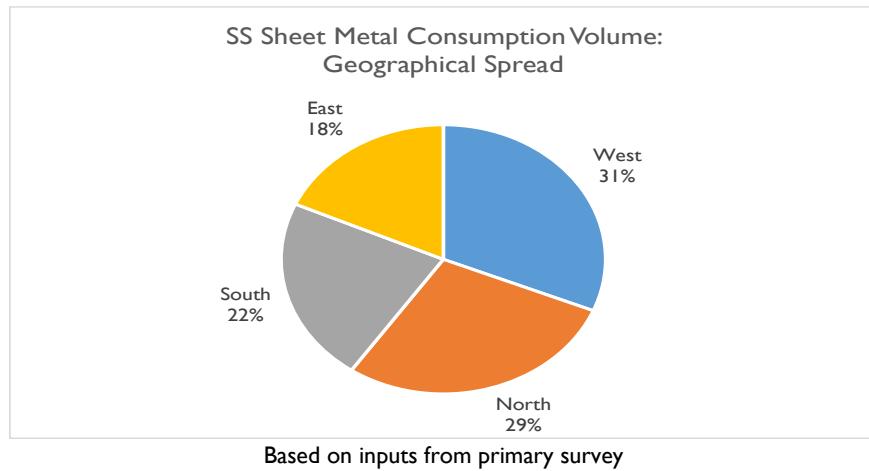

The annual volume of SS sheet metal components consumed in India is approximately 124 thousand tons in 2022, which is worth USD 787 Mn. Annual consumption volume dropped in 2020, as demand was severely impacted by the spread of Covid-19 pandemic.

Demand landscape has improved in 2022 due to increasing manufacturing units and focus of Indian government to invest more in infrastructure activities in 2022 which were halted due Covid-19 pandemic. In response the consumption volume has picked up, increasing by nearly 5.6% over previous year. Despite this growth, annual consumption volume is yet to reach the post covid-19 levels. Meanwhile, domestic production of SS sheet metal components is estimated to be 147 thousand tons in 2022, while the value of production stood at USD 900 Mn.

Demand is highest in the Western region, predominantly due to the presence of a fledging industrial sector in Maharashtra & Gujarat. In addition, a stable construction sector has also aided the western region. Backed by strong demand from these two customer segments, Western region is estimated to have accounted for

31% of total SS sheet metal component consumption in India. Northern & Southern region formed the second and third largest geographical market, accounting for approximately 28.5% and 22.2% of total consumption volume respectively. Remaining consumption was accounted by Eastern region, making it the smallest market.

### **Competitive Scenario**

Sheet metal component manufacturing as such is an extremely fragmented industry with unorganized segment having a sizable market share. The industry is characterized by low entry barriers – in terms of openly accessible not too complex manufacturing process, ease of availability of raw materials as well as labor force, lower capital investment requirement, and absence of any regulatory hurdles. These attributes make the industry an attractive proposition for smaller player to enter. On the demand side, the near universal application of sheet metal components has ensured a stable demand. Together these two factors (low entry barriers and a stable demand) have given the industry its fragmented nature.

Majority of these attributes hold true for SS sheet metal components too. The only difference is the usage of specialized input material (stainless steel), which is priced higher than other steel grades. Although this pose a challenge – compared to other metal grades used – it is not strong enough to alter the competitive nature of the industry. Hence the competitive landscape in SS sheet metal component manufacturing is almost like that prevalent in the larger sheet metal component manufacturing industry.

Despite the commoditized nature of the product, there exists few factors that could provide a manufacturer in this industry a competitive edge. Creating a strong product portfolio catering to multiple industries / applications, backward integration), and well-developed R&D capabilities to create new products. Among these, backward integration has a far-reaching impact and probably plays a larger role in improving operational efficiency and controlling cost.

Stainless steel manufacturing is a consolidated industry with large players, and they enjoy higher bargaining power vis-à-vis SS sheet metal components. Given the fragmented nature of SS sheet metal component manufacturing, they are not equipped to country moves by stainless steel industry to increase their product price or prioritize supply to other applications / consumer segments. It is here that backward integration makes a difference. Backward integration – be it by acquiring a stainless-steel melt shop or utilizing scrap manufacturing during the process as an input material – ensures SS sheet metal manufacturer have access to steady supply of quality raw materials.

Notable SS Sheet Manufacturers	
Viman Engineering Private Limited	Viman Engineering manufactures & exports a wide range of washers, and sheet metal components for application in automotive, solar, medical device manufacturing and heavy engineering industries, among others.
RAAMPS Industries	RAAMPS Industries manufactures sheet metal components for automobile, telecommunication, oil & gas, home décor, solar, and heavy engineering, among others.
Ratnaveer Precision Engineering Limited	Ratnaveer manufactures SS washers, pipes & tubes, and sheet metal components. In SS sheet metal components, the Company focuses on solar power generation sector where it is used in mounting of solar panels.

### Global Growth Outlook

Demand from Asian markets would be the key factor in driving the global demand for SS sheet metal components forward. By 2028, the total volume of SS sheet metal components consumed in Asian market is expected to reach 924 thousand tons per annum. This converts into a compounded growth rate of 4% during 2022-28 period.

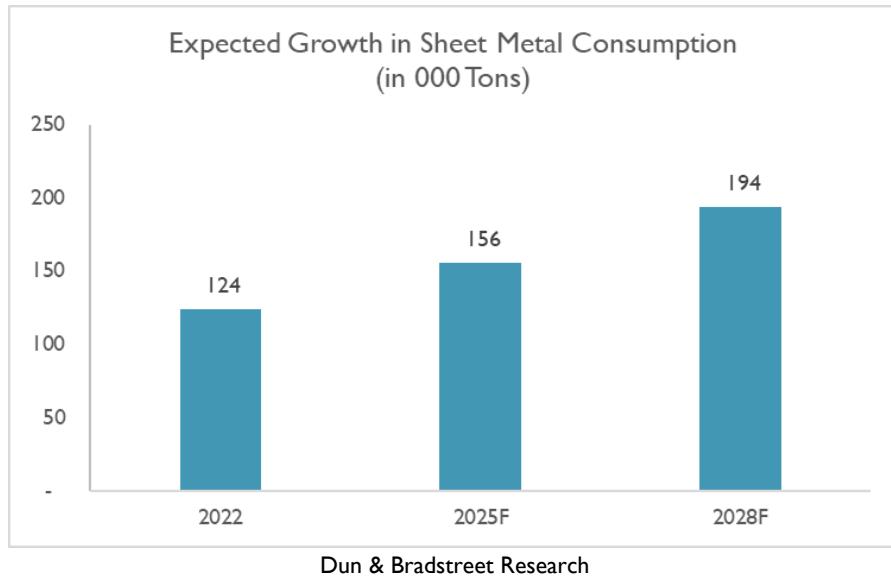

On the back of this strong demand in Asia, the global consumption of SS sheet metal components is expected to reach 2,044 thousand tons per annum by 2028. Consumption in Asian market is expected to account for nearly 45% of total global consumption in 2028.

In value terms, the total value of SS sheet metal components consumed in Asia is expected to reach USD 8.2 Bn per annum in 2028, increasing by a CAGR of 6.9% between 2022-28. On the back of this strong growth in Asian market, the global sales of SS sheet metal components is expected to grow by a CAGR of 6% during 2022-28 to reach USD 18.7 Bn. Among other markets, Middle East & Africa is expected to grow the fastest, by a CAGR of 5.7% during 2022-28 period while consumption growth of SS sheet metal components in Europe and Africa would be 3.3% and 3.6% respectively.

### India Growth Outlook

Indian economy has rebounded strongly, after two years of slow growth one of which is on account of Covid-19 induced disruptions. Demand for consumer products, ranging from consumer durables to big ticket purchases like automobiles & residential units has witnessed a strong recovery. This overall improvement in demand scenario has helped in the revival of industrial growth.

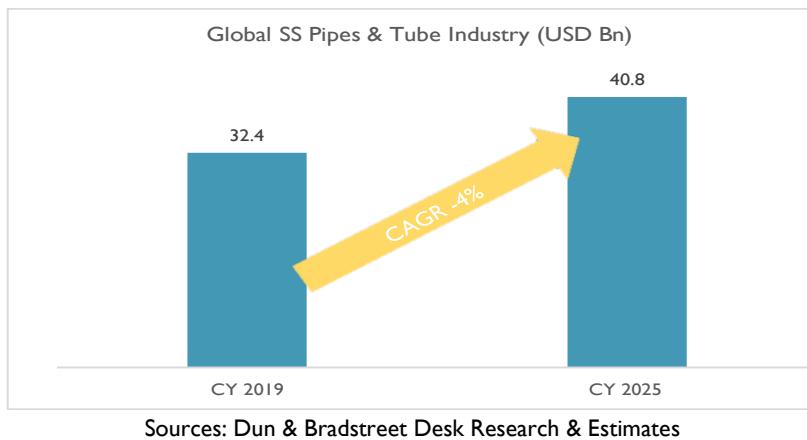

SS sheet metal components, which has a near universal application across manufacturing sector has benefitted by this revival in industrial activity. Barring any exception event (similar to the scale of Covid-19 pandemic), Indian economy is widely expected to return to a long-term growth path. This would help SS sheet metal component industry to put the recent dip in production (in 2020 and 2021) behind it. Going ahead, the annual consumption volume of SS sheet metal components is expected to touch 156 thousand tons in 2025, and further to 194 thousand tons in 2028. This would help increase the annual sales turnover in the sector – which currently stands at USD 787 Mn – to USD 1,019 Mn in 2025 and further to USD 1,336 Mn in 2028.

## **Stainless Steel Pipes and Tubes**

### **Global Scenario**

Globally, the SS pipes and Tube industry was valued at nearly USD 32.7 Bn in 2021<sup>12</sup> contributing ~23% share in global pipe & tube industry. In coming years too, the SS pipe & tube is expected to observe stable growth of ~4% through 2025 with market size estimated to cross USD 40 Bn.

### **Demand Landscape**

The oil & gas industry is among the major consumer segments for steel pipes and tubes used for transportation of gas & liquid as well as for upstream, midstream, and downstream processing of crude oil. With global economies gradually recovering from the pandemic impact, the demand for oil & gas is expected to resume quickly. Spreading Covid-19 cases at the start of 2022 once again shed some uncertainty over the economic recovery but this time the surge in infection caused muted impact on oil demand.

Moreover, mobility indicator continued to remain strong lending the positive outlook for the Oil demand in 2022.

According to the International Energy Agency (IEA), from 97 Mn barrels per day (BPD) in 2018, the oil demand is expected to increase by 5.5 mb/d in 2021 and by 3.3 mb/d in 2022 while it is estimated to return to the pre-pandemic level at around 99.7mb/d in 2022 projected to reach 103 mbd by 2030. However, the current Russia-Ukraine conflict could change the demand-supply dynamics between various countries in the coming years.

As a result, new pipelines projects are being commissioned, pipelines capacities are being expanded and increasing offshore activities such as deep and ultra-deep-water production and development are having a positive impact on the steel pipe segment.

Developed nations are taking measures to cut down on carbon emissions. High efficiency generation of seamless steel pipes are being increasingly being used in industrial boiler applications which include ultra-supercritical pressure boilers, pressurized fluidized bed boilers and high-efficiency industrial waste incineration boilers among others primarily to control carbon dioxide emissions. Seamless pipes are preferred in such segments owing to their higher strength, durability, and corrosion resistance properties.

Asia Pacific seamless steel pipes market is expected to show robust growth owing to the increasing demand for oil and gas, adoption of advanced technologies, rising industrialization and infrastructural growth including water management, among others. South Korea, China, India, and Japan are some of the key countries contributing to the high demand for seamless pipes in the Asia Pacific. Being the highest steel producer, China occupies a large share in the seamless steel pipe production due to easy availability of raw materials which makes it easy for manufacturers to avail the same at lower costs for their end use as well for import purpose.

### **Indian Steel Pipe and Tube Industry**

Since 2000, steel production in the country has seen a phenomenal increase as the sector witnessed high investments in capacity addition as well as technology up-gradation. In 2018, India surpassed Japan to become the second largest steel producer in the world, after China. According to World Steel Association (WSA), India produced 125.3 Mn tons of crude steel in CY 2022 and accounted for 6.2% share in global crude steel production. In 2022, India's crude steel production registered an y-o-y growth of 6.3% at a CAGR of 3.9% between 2017-22.

On consumption side, India is also the second largest consumer of finished steel. The emergence of a middle-class consumer segment has altered the consumption landscape in India, and with it the industrial production. The country's overall finished steel consumption in India is estimated to have been growing at 7% per annum since 2016 till 2019 to reach 102.6 Mn Tonnes but in 2020, it dropped by 14% against 6% y-o-y growth in 2019. Compared to 2020 finished steel consumption in India increased by 6.9% to 113.2 Mn tons in 2022, up from 106 Mn tons in 2021.

#### **Steel Pipe and Tube Segment**

Steel pipes & tube segment constitute ~8% share of the total steel consumption. Subdued industrial activity, and economic uncertainty have dampened the demand scenario, leading to lower consumption. However, economic recovery in 2021 points towards rising consumption of finished steel, consequently driving the steel production. During 10M FY 2022, the country's finished steel production was 21.06% higher than previous year output and it stood at 93.3 Mn tonnes while its consumption was ~15% higher and stood at 86.83 Mn tonnes.

Presence of such a vast primary steel manufacturing infrastructure has also helped in the growth of secondary and finished steel products. In pipe & tube segment, India has emerged as one of the major producers of steel pipes after Europe and China. The country has a well-developed steel manufacturing industry capable of manufacturing crude steel to value added steel products including pipes & tubes. Availability of raw material, cheap labor, and ability to produce steel as low cost have supported India's progress in steel pipe and tube industry.

As per industry sources, the country's current manufacturing capacity of steel pipes and tubes stand at around 21.5 Mn tonnes which is further split into welded, seamless, and casted pipes with respective capacity of 16.3 Mn Tonnes, 1.5 Mn Tonnes and 3.7 Mn Tonnes. Within welded pipes segment, ERW capacity is estimated at 9.5 Mn tonnes and SAW pipes at 6.80 Mn Tonnes.

Annual production of steel tubes & pipes in India is estimated to reach 6.22 Mn Tonnes in FY 2022 while apparent consumption<sup>13</sup> is estimated at 5.55 Mn Tonnes, but it continued to remain lower compared to the pre-pandemic level (FY 2020). Rising output is backed by resuming demand recovery in the major end user industry demand. The country's 10M FY 2022 steel pipes & tubes output was up by 8% while its consumption was up by 4% on y-o-y basis to reach 5.18 Mn Tonnes and 4.63 Mn Tonnes, respectively.

In value terms, the size of the Indian steel pipes & tube industry is estimated at nearly INR 550-600 Bn. With nearly 10 Kg per capita consumption (PCC), steel pipes & tubes consumption in India is less than half of the global average (21-22Kg PCC) and about one fifth of the Chinese (55-60Kg PCC) which indicates huge opportunity for growing penetration of steel pipes & tubes in the Indian market.

In terms of market segmentation, steel pipes & tube industry is equally split between ERW and SAW & Seamless pipes (S&S pipes) while by volume the ratio stands at 70:30, respectively. ERW pipes find prominence because of their diverse applications as well as implementation of advanced technology such as the Direct Forming Technology (DFT) which allows for customized sizes and cost savings on raw material.

## **Demand Landscape**

Stainless steel pipes and tubes are one of the important products in the steel industry and it find wide application in oil & gas, capital goods, power and several other. In the industrial sector, it is used in the manufacturer of the heat exchanger, condensers, and similar industrial equipment that are used in chemical plants, fertilizer plants, pharmaceuticals, sugar, dairy & dairy products, water desalination and automotive industry amongst other. Additionally, steel pipes & tubes also find application in construction. Oil & gas and chemical & petrochemical industry – are the two largest consumers of steel pipes and tubes – is driving the demand across the world. Thus, demand for steel pipes & tubes is linked to the demand scenario and capex plans prevalent in its end-user industries.

## **Demand from Oil & Gas sector**

Oil & Gas sector is one of the largest end user industries for steel pipes and tubes including SS pipes and tubes with pipelines being the major mode of transport for petroleum, oil, and lubricants. Therefore, oil & gas industry has a close linkage that dictate steel pipes and tube demand in the country. Stainless steel offer

<sup>13</sup> Apparent Demand is derived demand from Production + Import – Exports, a proxy indicator to represent the consumption trend of a product.

good resistance to high-pressure and high-temperature and so is widely used in refineries, pipelines, storage capacity, gas terminals, and retail outlets.

India is currently the 3rd largest energy and oil consumer in the world after China and US. The Indian Oil & Gas (O&G) industry is distinguished in the global context as it contributes to 4.6% of the global oil demand with consumption of 4.8 barrel per day in 2021. As per IEA recent published report (under stated policy scenario), India's oil consumption is projected to rise by 50% by 2030 comparison to global demand growing by 7%. India's oil consumption is expected to grow by 4.8 million barrels per day (mbd) in 2019 to 7.2 mbd in 2030 and 9.2 mbd in 2050. India will continue to remain the third largest consumer of oil in 2030.

The wide network of oil & gas pipeline infrastructure has been a major factor in driving the demand for steel pipes & tubes. With Indian economy registering one of the highest growth rate in the world – a pattern that is expected to continue in the future – energy demand in the country would only increase. Aggressive expansion of oil & gas pipelines to meet this demand is set to continue, which in turn would keep the consumption of steel pipes & tubes by the industry stable.

### **Demand from Pharmaceutical Industry**

Indian pharmaceutical industry is ranked as the third largest in the world, in terms of volumes of drugs manufactured and thirteenth largest, in terms of value. The Country is also the world's largest supplier of cost-effective generic drugs, and accounts for one fifth of the global trade in generic drugs. India has achieved an enviable position in global generic drug market on the back of its strength in organic chemical synthesis and process engineering.

On the domestic front, the favorable demand created by increasing older population, and rise in incidences of lifestyle diseases would continue to facilitate domestic revenue growth. However, the lifestyle disease segment is largely addressed by patented drugs by innovator pharmaceutical companies, who are primarily multinational players. The presence of Indian generic pharmaceutical companies in this segment is low.

On the back of the above favorable factors, the compounded annual growth rate in the pharmaceutical industry is expected to be higher than the growth rate recorded in the last decade. During the time FY 2021-30, the annual turnover in Indian pharmaceutical industry is expected to grow by a CAGR of 10%, to reach INR 7,840 Billion.

This aggressive growth in sales can be supported only by an aggressive expansion in manufacturing capacity. Consequently, pharmaceutical industry is expected to witness strong growth in both greenfield and brownfield capacity expansion projects. The relaxation in foreign investment norms would address the credit availability issues that generally hobble capacity expansion projects. Subsequently the demand for capital goods, including steel pipes & tubes used in pharmaceutical manufacturing plants would increase, and serve as a strong demand driver for the domestic steel pipes & tubes industry.

### **Demand from chemical & petrochemical industry**

Steel pipes and tubes form the backbone of fluid and gas transport system in process industries. The type and grade of steel pipes & tubes used depends on the environment where it is installed as well as the nature of products that are transported. In chemical & petrochemical plants, pipes and tubes are exposed to toxic environment leading to corrosion. The anti-corrosive property of SS pipes & tubes is the preferred fluid &

gas transport system in these plants. Hence, the growth in chemical & petrochemical manufacturing capacity in the country has directly contributed to higher demand for SS pipes & tubes.

Annual production of basic chemicals – organic, inorganic, alkali chemicals, dyes & pigments, and pesticides – is estimated to be 12.7 Mn Tonnes in FY 2022 . Alkali chemicals – consisting of soda ash, caustic soda, and liquid chlorine – accounted for 71% of production volume in FY 2022, followed by inorganic chemicals, and organic chemicals. On the other hand, annual production of major basic petrochemicals is estimated to 19.4 Mn Tonnes in FY 2022 while the total production of basic major chemicals and basic major petrochemicals reached 32.1 Mn Tonnes.

#### **Demand from capital goods industry (manufacturing of heat exchanges, condensers & similar equipments)**

Capital goods like heat exchanges and condensers are integral part of process industries, ranging from manufacturing of food & beverage products, chemicals, pharmaceuticals, petrochemicals, plastic products, rubber products, and paper & paper products.

Pipes & tubes made of SS is considered the most ideal material for heat exchangers, because of the anti-corrosion nature. SS heat exchangers provide good resistance to corrosion and it also helps in minimizing the deposits of limestone and other residues. SS High Precision and Heat Exchanger Tubes are widely used in process industries, ranging from chemicals, petrochemicals, fertilizer, sugar, and dairy & dairy. Additionally, SS pipes and tubes also find applications in water desalination plants & other water treatment plants, as well as power plants. The corrosion resistance, and high resistance to chemicals are the two key reasons for this preference for stainless steel over other materials.

Rapid industrialization in Indian economy, aided by favorable government policies, robust demand scenario, and penetration of export markets have led to capacity expansion in Indian manufacturing industries, ranging from textiles, chemicals to fertilizers. The resultant increase in demand for process plant equipment & other industrial machineries have had an equally strong demand for stainless steel used to manufacture these equipment's. The demand for process plant equipment and other industrial equipment's of similar kind is linked to the industrial scenario prevalent in the country.

#### **Demand from Automobile Industry**

In automobile manufacturing, SS pipes & tubes are used in the production of components ranging from exhaust systems, transmission systems, oil & fuel flow systems, and coolant circulation systems, to name a few. Thus the rise in automobile production and sale in India over the last couple of decades have translated into positive demand for SS pipes & tubes.

Annual production of automobiles reached a high of 26.3 million units in FY 2019, before dropping to 21.5 million units and 18.6 million units in the subsequent years. Improvement in demand in FY 2022, as the impact of Covid-19 pandemic wore off, has resulted in an improvement in production volumes. Annual production has improved to 26 million units in FY 2023, registering a strong recovery from the steep drop that happened in the previous year. Such large production volume has created strong demand for all types of auto components as well as related input materials. SS pipes & tubes too have benefitted by the presence of such a strong automobile manufacturing infrastructure.

#### **Demand from architecture, building & construction (ABC) segment**

Superior aesthetics, corrosion resistance, and long lifespan have all led to wide acceptance of SS tubes for architecture, building & construction application. Infrastructure development, and a surge in real estate

construction (residential & commercial) have created a high demand for stainless steel, along with other building & construction materials. In past, the boom in construction which accompanied the strong economic growth in the country have resulted in higher consumption of stainless steel.

However, the sector has been severely hit by the occurrence of COVID-19 pandemic which has turned the overall business sentiment pessimistic. The construction activity in India have moderated over the last few fiscals due to combination of factors such as liquidity squeeze, higher cost of capital, delay in project clearance and bottlenecks in execution. In FY 2021, the construction sector GVA contracted by 8.6% against subdued 0.98% change in the previous year. During FY 2022, surge in the Delta variant during the second wave of pandemic starting from end of February and strengthening till May 2021 was a drag on the overall economic recovery. On sequential Q-o-Q basis, India's GDP fell by 17% in Q1 FY 2022 as compared to the previous quarter output (Q1 FY 2022 change over Q4 FY 2021). However, it registered healthiest ever quarterly growth in Q1 FY 2022 while much of this sharp surge in GDP growth was attributed to the low base-effect (as country observed a contraction of nearly 24% in GDP during Q1 FY 2021).

The country rebounded well from the Covid slump in subsequent quarters. With supportive government measure, India managed to registered growth for five consecutive quarter starting from Q3 FY 2021. For FY 2022, the country's GDP grew by 9.1% while construction sector GVA grew by 14.8% on y-o-y basis. Such a strong growth in building construction is expected to revive the demand for SS tubes & pipes. Furthermore, the construction GVA continued its strong growth in FY 2023, when it registered a growth of 10% over previous year.

### **Impact of Covid-19 on Steel Pipes & Tubes**

The onset of Covid-19 in 2020 disrupted the capital expansion plans in the manufacturing sector. The tepid demand scenario forced the India Inc to defer its capacity expansion plans. This trend was observed across all major sectors in the manufacturing space. Such a steep decline in capital expenditure pattern across the manufacturing industry proved detrimental to the steel pipe industry. As the demand for steel pipe & tube is tied to industrial construction, the dip in capital investments translated into lower demand in FY 2021.

Capital expenditure pattern in India was already on the wane in FY 2020, as the economic growth slowed down, on account of unfavorable economic factors. The scenario worsened in FY 2021 as the impact of Covid-19 added on to the already pessimistic mood in Indian corporate sector.

In FY 2022, the business operation gradually returned to normalcy with gradual relaxation in restriction announced to curb second wave. Furthermore, the government continuing effort to scale up vaccination, strengthen healthcare infrastructure, living with virus attitude and other economic measure to restore the economy back on the growth trajectory supported the growing consumption volume of steel pipes & tubes during YTD FY 2022. During 10M FY 2022, the country's consumption of steel pipes & tubes registered 4% y-o-y growth.

### **Competitive Landscape**

Compared to carbon steel pipes, SS pipes & tube manufacturing sector is consolidated in nature, with few major players accounting for majority market share. Capital intensive nature of the industry coupled with challenging operating environment has erected steep entry barriers in SS pipes & tube sector, handing incumbents a definite advantage. It is estimated that the capex required to set up a SS pipe & tube manufacturing facility is ~15 times that required to set up a carbon steel pipe manufacturing facility of similar capacity. Such a high capital requirement translates into higher upfront investment, which dampens the interest of smaller players.

SS pipes & tubes are used in harsh environment as well as for specialized application in mature sectors like oil & gas, petroleum refining, chemical, pharmaceutical, and other similar process industries. Compared to carbon steel pipes, the volume requirement is higher while breaking into large consumer segment is challenging and time consuming. Since, SS tubes form an integral part of any new expansion project in the above-mentioned consumer industries, products are subject to rigorous testing for technical competence post which price comes in.

### **Major Players**

Ratnamani Metals & Tubes Limited, Jindal SAW, Maharashtra Seamless Limited, Man Industries and Welspun Corp are few of the major players in Indian steel pipe & tube segment. All these companies have a wide product portfolio, offering SAW, ERW, Seamless and Stainless-Steel Pipes & Tubes. Among these Ratnamani and Jindal SAW have an established SS pipes & tubes business, placing them as market leaders in this segment. Other notable players include Skoda Tubes, Maxim Tubes Company Private Limited and Shubhalaxmi Metals & Tubes Private Limited.

### **Growth Outlook**

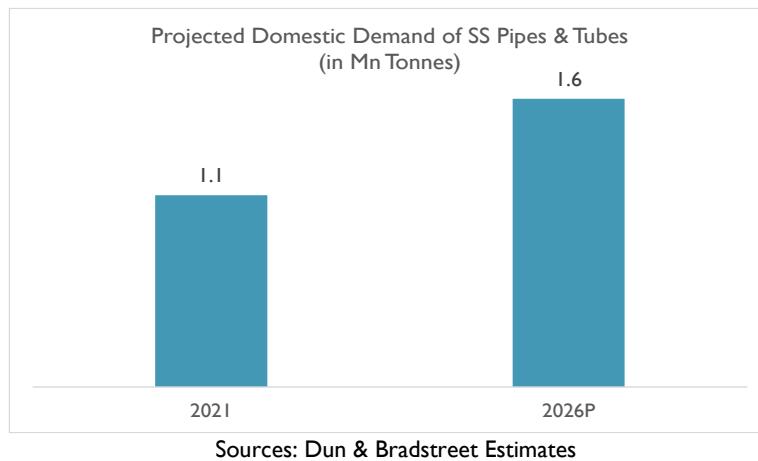

From demand perspective, India's growth scenario for steel pipes and tube including SS pipes and tubes remains intact on the back of substantial government expenditure planned in major end user industries under National Infrastructure Pipeline and recently announced PM gati Shakti project. The various initiatives for

<sup>14</sup> Announced the Entry into SS seamless pipe segment in FY 2021.

<sup>15</sup> Announced the Entry into DI pipe segment in FY 2021. Greenfield facility coming up at Anjar, Gujarat to be commissioned by April 2022.

infrastructure development under the PM Gati Shakti will propel the demand of steel in various sectors thereby enhancing steel usage and growth of the SS pipes & Tubes. We expect domestic SS pipes & tube industry to grow from about 1.1 Mn tonnes currently to 1.6 Mn Tonnes by 2026, growing at CAGR 8.5%.

This coupled with supportive policy reform through scheme like Atmanirbhar Bharat, PLI, amended DMISP policy and Make in India will give push to domestic manufacturing and strengthen the supply side dynamics. However, domestic SS face a major downside risk from rising imports, mainly from low-cost destination like China which is creating material harm to the domestic industry. Given the higher input cost and other overheads, domestic manufacturers find it difficult to compete with Chinese imports based on price. Only government level initiatives, to create a level playing field would help in nullifying this challenge. In addition to above, the high probability of RBI moving away from maintaining accommodative monetary policy amidst rising inflationary pressure may further intense the fresh capital investment in the sector.

### **Overview**

Ratnaveer Precision Engineering Limited is a stainless steel (“SS”) product manufacturer focused on producing finished sheets, washers, solar roofing hooks, pipes and tubes. Stainless steel is a value-added product with high corrosion resistant properties. Higher levels of chromium and additions of other alloy elements enhance the corrosion resistance. Compared to traditional steel, stainless-steel has higher resistance to corrosion, superior aesthetic finish and higher life span. These features have helped in increasing the popularity of stainless-steel across the world.

Globally, cold rolled flat products are the largest produced stainless-steel product in the world, followed by hot rolled coils, and steel wire rods & bars. According to International Stainless-Steel Forum, cold rolled flat products accounts for approximately 47% of total stainless-steel trade in the world. Hot coils, Semis-flat, Semis Long, Hot Bar/Wire rod, Cold Bar/Wire, Hot Plate & Sheet are another SS intermediary product traded globally. (*Source: D&B Report*)

We operate out of four manufacturing units, out of which two (Unit-I and Unit-II) are located at GIDC, Savli, Vadodara, Gujarat, one (Unit-III) is located at Waghodia, Vadodara, Gujarat and the other one (Unit-IV) is located at GIDC, Vatva, Ahmedabad, Gujarat. Our manufacturing units are strategically located with availability of transportation, which facilitates convenient transportation of our products.

Our corporate office is located at Office No. 703 & 704, Ocean Building 7th Floor, Vikram Sarabhai Campus, Genda Circle Vadivadi, Vadodara – 390 023, Gujarat.

We manufacture SS finishing sheets, SS washers and SS solar mounting hooks at our Unit I and SS pipes & tubes at our Unit II. Unit III and Unit IV are dedicated for the backward integration process. Unit III is the melting unit where we melt steel scrap and turn it into steel ingots and Unit IV is the rolling unit where flat ingots are further processed to turn them into SS sheets which are the raw material for SS washers. Our Units are supported by infrastructure for storage of raw materials, manufacturing of our products, storage

of finished goods, together with a quality control and R&D laboratory. Our revenue from operations breakup is as under:

We are one of the few companies who has a backward integration model (*Source: D&B Report*). This backward integration model is one of our major strengths and has helped us in maximising the returns on our investments. While our two units (Unit I and II) are dedicated for manufacturing the products which are offered to our customers, the other two units (Unit III and IV) are dedicated towards processing the byproducts generated in manufacturing our products and converting it back into the raw material for our products.

Our products find application across various industries including automotive, solar power, wind energy, power plants, oil & gas, pharmaceuticals, sanitary & plumbing, instrumentation, electro mechanics, architecture, building & construction, electrical appliances, transportation, kitchen appliances, chimney liners, etc. Our products are used in both commercial and residential sector and are sold within India and overseas.

We are focused at consistently expanding our product portfolio by developing new designs. We constantly engage with our customers through marketing via personal interactions with them. Our sales team works closely with our customers to obtain their insights and feedback about the upcoming trends in the industry which enables us to develop and improve our products to fulfil the requirements of the market.

Our Company is promoted and managed by our Managing Director and Promoter, Vijay Ramanlal Sanghavi who has been instrumental in the growth of our Company. Sanghavi has played a key role in setting up the manufacturing units, facilitating technology upgradation in the production process, diversification of business into SS finishing sheets, tubes and pipes and spearheading our venture of setting foot in new markets.

We intend to expand our portfolio of SS washers by adding circlips into the product line. We currently offer over 2500 SKUs of SS washers to our customers including inner ring washers, spring washers, nord lock washers, retaining rings, internal tooth washers and external tooth washers of different sizes and specifications. Having a wide range of products not only enables us to meet the trends and ever changing demands of our customers but also gives our Company an edge to efficiently compete with our competitors. Our product portfolio also includes diversified variety of stainless steel pipes in various specifications and sizes having wide applications in varied industries. We have taken the land located at E-78, GIDC Industrial Estate, Savli, Dist. Vadodara, Gujarat which is adjoining to our Unit I, on a 99-year lease from GIDC, for this expansion. We have undertaken R&D activity for developing circlips, have developed the required tools and identified prospective customers. For further information, see “*Objects of the Offer*” on page 118.

### **Strengths**

- **Synergistic Business Model focused on Backward Integration**

We have developed a synergistic system of backward integration whereby we process the waste being generated in manufacturing of our products for converting back into the raw material which is utilized again in manufacturing. Thus, the raw material required is also being generated in-house, while the waste being produced in the manufacturing process is being completely utilized, ensuring economies of scale and minimal wastage. The bifurcation (in %) of raw material generated through backward integration and raw material procured from external resources are as follows:

Sr. No.	Particulars	Fiscals		
		2023	2022	2021
1.	<b>Raw material generated through backward integration (%)</b>	11.03	10.05	7.85
2.	<b>Raw material procured from external resources (%)</b>	88.97	89.95	92.15

The pictorial representation for flow of raw materials/products at different stage of production/units is as follows:

We manufacture SS Finishing Sheets, SS Washers and SS Solar roofing hooks at Unit I. The scrap generated primarily in the manufacturing process of SS Washers and SS Solar roofing hooks is sent to Unit III where this scrap and the scrap purchased from third parties is organized, categorized and melted in heating furnaces and cooled naturally to form the SS ingots. These ingots are sent for job work for conversion into flat ingots. The flat ingots are then brought to our Unit IV where the flat ingots are converted into SS sheets and sent back to Unit I for utilization as raw material in our manufacturing process.

This Backward integration helps us in achieving efficiency in the production process and gaining competitive advantage, reducing in product costs, control over supply of raw materials and reduce our dependency on third parties for our operations.

- Consistent financial performance**

Our Company has grown from a single product to multi-product manufacturing company. We have demonstrated consistent growth in terms of revenues and profitability. Our revenue from operations has

grown from INR 821.23 Million in Fiscal 2011 to INR 4,797.48 Million in Fiscal 2023 registering a CAGR of 14.54% in last 13 years. Similarly, our profit after tax has grown from INR 15.42 Million in Fiscal 2011 to INR 250.44 Million in Fiscal 2023, registering a CAGR of 23.92% in last 13 years. The recognition of our product quality has enabled us to penetrate the SS products market and cater to new customers in addition to the Company's existing customer network. Increased acceptance of newer product categories due to improved designs and efficient pricing has further established the Company's reputation.

- **Wide product portfolio and multiple designs**

We had started our business activities with manufacturing of SS washers and have since branched out to manufacturing SS finishing sheets, SS solar roofing hooks, SS tubes and pipes which has enabled us to diversify our product portfolio manifold. Our portfolio comprises of over 2,500 SKUs of SS washers. Having a wide range of products not only enables us to meet the trends and ever changing demands of our customers but also gives our Company an edge to efficiently compete with our competitors. Our product portfolio also includes diversified variety of stainless steel pipes in various specifications and sizes having wide applications in varied industries. Our constant efforts are focused towards identifying the customer requirements and introducing high quality products which are in demand.

- **R&D set up for new product development**

We have an in-house R&D facility at Unit I wherein we develop tools and molds for our products. To enhance our product offerings, we have leveraged our manufacturing ability to evolve by virtue of investing in the Research and Development activities. We are focused on undertaking dedicated R&D in our existing products and development of new products and designs in areas where there is significant growth potential and would cater to needs of our customers. We connect with our customers from time to time and understand their requirements on the basis of which we develop new and advanced product designs more suitable to our customers.

- **Customer Diversification**

We sell our products both in the domestic as well as international markets. In the domestic market, we sell our products to the manufacturers as well as traders/ stockists and end customers whereas in the international market we supply our products through traders/stockists in the International market. We have been exporting since incorporation and as on March 31, 2023, some of the countries we are exporting to including but not limited to Germany, UK, Spain, Netherland, etc.

Revenue contribution from our top 10 customers is ₹1,471.99 Million, ₹1,906.95 Million and ₹2380.62 Million contributing 35.60%, 35.35%, 38.84%, and 49.62%, for Fiscals 2021, 2022 and 2023, respectively. Our diversified customer base signifies our non-dependence on any single customer and thereby hedges our business operations from potential customer specific risk, sector specific risks, including but not limited to policy announcements, change in global markets and international relations etc.

- **Experienced Promoter**

Vijay Ramanlal Sanghavi, our Promoter and Managing Director has over two decades of experience in the steel and stainless steel industry. He has been instrumental in achieving various milestones including setting-up of a dedicated unit in the year 2018 for manufacturing SS Tubes & Pipes (Unit II) and increasing our operating revenue from about ₹ 1,595 Million in Fiscal 2013 to about ₹ 4,269 Million in Fiscal 2022. Our Company has received recognitions from reputed organisations from around the world including Engineering Export Promotion Council, Marsh & McLennan and Dun & Bradstreet under his tutelage.

- **Synergy of young and experienced management team with a committed employee base**

We have a strong management team with considerable industry experience. Our key business functions like production, finance, sales and HR play an important role in efficient day-to-day operations of the Company. We endeavour to maintain a balance of experienced and young professionals in the team. Our Board of Directors includes a combination of management executives and independent members who bring in significant business expertise including in the areas of administration and management, manufacturing, finance, compliance and audit. Our well-defined organization structure has helped in establishing cordial relationships with our employee base across our offices.

- **Effective quality control checks**

We have developed quality control processes for inspecting the raw materials as well as the final products. The raw materials undergo a quality check and for this purpose we have even implemented internal procedures for procurement of the raw material as the quality of the final product is dependent on them. Our Units have dedicated personnel responsible for monitoring the parameters of equipment, strength of materials, reporting any irregularities in the manufacturing process and making adjustments accordingly. These multi-level quality checks ensure that we consistently provide good quality products which further enhances our brand value.

#### *Strategies*

- **Diverse, longstanding and growing global customer base**

We have a diverse base of customers present in Indian and European geographies, as of March 31, 2023, as a result of our marketing efforts. Our global customer base helps us limit our dependency on a specific customer, industry or geography thereby reducing financial and concentration risk. Our service offerings have led to consistent customer retention rates. Our long-standing relationship with our customers is evidenced by our customer retention rate. Our growth strategy in these markets will be to create strong local presence and connect and expertise with required development capabilities to exploit growth potential offered by these markets. Our strong focus will remain on acquiring new customers, retaining existing customers and offering good quality products.

- **Continue to add to product portfolio by introducing new designs**

Our Company's strategy is focused towards introducing new product designs to cater to the requirements of our customers as well as garnering the attention of more customers. This helps in strengthening the relationship with the existing customer network through a wide range of products while also onboarding new customers from untapped geographies. Identifying and developing new products and designs is a continuous exercise that our management team engages into as that there is an immense demand in the global markets for unique designs, good quality and competitively priced products. We currently offer over 2500 SKUs of SS washers to our customers including inner ring washers, spring washers, nord lock washers, retaining rings, internal tooth washers and external tooth washers of different sizes and specifications. We intend to extend our product portfolio by adding circlips in our washer segment.

- **Technology integration and plant automation for cost efficiency and improved productivity**

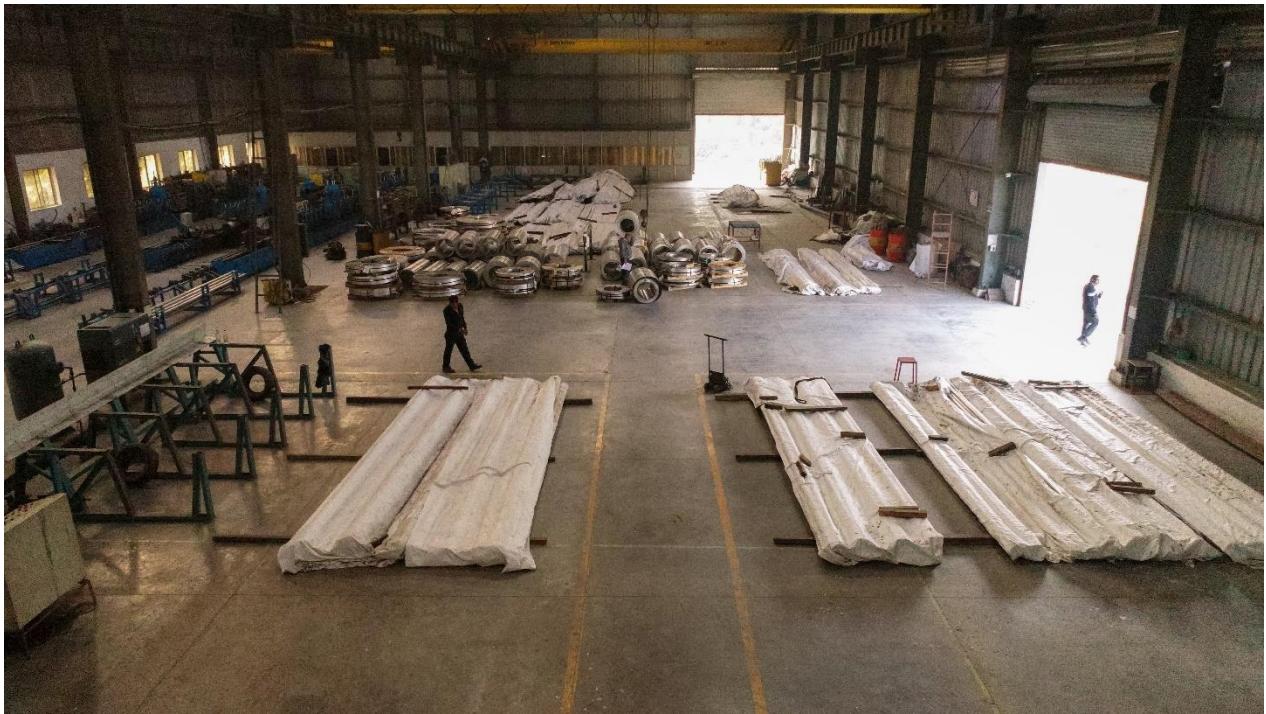

We have invested in the technology for manufacturing and processing and strive to continuously upgrade to the technology which ensures production of cost efficient and high-quality products. We have also

adopted dedicated software for efficient and easy maintenance of the records, process automations, thus saving on man-hours and reducing the scope of human errors. Investments in technology proves to be more cost and time effective and aids in improving production output. Through investment in technology infrastructure, we have been able to increase our operational efficiencies and achieve economies of scale. We also believe that such initiatives will drive cost efficiencies, improve customer service, reduce manual workload and integrate our business functions thereby improving our business processes.

## **Our Products**

### **A. SS Finishing Sheets**

SS sheet is a thin flat piece of stainless steel that has a wide range of applications. Depending on the grade of SS used, size, thickness and finish SS sheet finds application in sectors ranging from architecture, building & construction (ABC), automotive, railway & transport (ART), food industry,

process industry, and aerospace, among others. The corrosion resistance attribute of the material, along with the ability to incorporate custom finishes has helped increase the usage of SS sheet.

Thickness (or guage) of the material is used to differentiate SS sheet from other flat products like plates and foils. Typically, SS flat piece with thickness below 6 mm is considered as a SS sheet, while anything above that falls into the category of SS plates. SS foils, on the other hand are the thinnest of flat products and are thinner than SS sheet. The most commonly used SS grade for making both sheet and plate are 300 and 400 series, each differentiated by the type & percentage of alloy included.

Finishing is a design element which becomes significant when the external appearance is of importance. SS finishing steel is used for decorative as well as non-decorative applications, with the type of finish imparted depending upon the end use applications. Today SS sheet is available in a variety of standard as well as specialized designs, depending upon end user customer specifications. All the various finishes are categorized into three broad segments – mill finishes, mechanically polished finishes, and special finishes.

Stainless steel sheets (SS sheets) with a wide variety of finishes meets the aesthetic requirements and emerged as one of the several candidates for exterior cladding. However, the factors that tilted the balance in its favor include its superior corrosion resistance, ability to hold its form under extreme natural elements (stress, sun & rain), and flexibility to fabricate into any shape required. Moreover, the cost effectiveness of the material together with its recyclability too helped, with the later gaining prominence due to the increasing interest in green buildings.

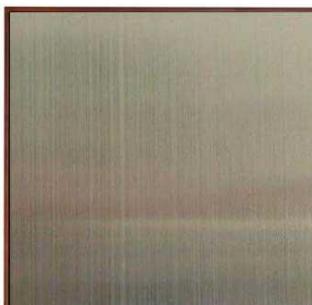

Apart from appearance, polished SS sheet is also important where a stain free and sterile surface is required. Usage in kitchens and sanitary application is one such example, where a sterile surface as well as low chances of bacterial contamination is important.

Our product range of SS finishing sheets consists of the following types of finishes:

Type of Finish	Description
Satin Surface SS Sheet	This finish has short symmetrical grains, metallic shine and warmth of cold steel. This has wide usage in cookware, furniture, elevator, architectural decoration, revolving door, exterior decoration, etc.
Hairline SS Sheet	This sheet has clear and long directional grains with delicate and unique surface area. These sheets are used in elevator, architectural decoration, revolving door, home appliances, automotive sector, exterior decoration, etc.
Scotch Bright SS Sheet	These are classified not by a specific grit size or grade, but as a range of products including coarse, medium, fine very fine and super fine. This finish has smooth and exquisite grains which look shorter than hairline finish but longer than satin surface sheets.
Mirror Surface SS Sheet	This is a highly ornamental reflective mirror like finish with no apparent polishing lines. This finish possesses a high degree of reflectivity, imparting a mirror like appearance. This has a high maintenance cost, and is commonly used in panels, columns, and exterior cladding in high end office buildings & hotels

## B. SS Washers

A typical washer is a disk-shaped small thin plate with a hole. There are numerous uses of washers, however it mainly serves as a spacer to absorb a shock and evenly distribute load of a fastener. Washers can also prevent leakage or corrosion, relieve friction, and maintain tension. The size of the hole in the middle of a washer is typically based on the clearance value of the fastener it will be used along with.

Washers are usually metal or plastic and are made in different sizes based on their application. They are made from a variety of materials including stainless steel, carbon steel, zinc, copper, brass, plastic, rubber, fiber, and ceramic. Stainless steel (SS) washers and galvanized carbon steel washers are the most commonly used. While the former offers better strength, the superior corrosion resistance attribute of stainless steel gives it an edge.

Stainless steel washers are most used washers applied in fastener assemblies to distribute load from a bolt's top across a wider surface area. Globally, stainless steel washer is a preferred choice for the end-users of washers owing to its numerous positive properties. The notable advantage of stainless steel over other metals is its natural characteristics such as resistance from corrosion and rust, and thus, is most preferred input material for manufacturing washers. Another advantage of SS washer is that they make maintenance tasks easier as their load-bearing quality makes the tightening and/or loosening of components hassle-free. (*Source: D&B report*)

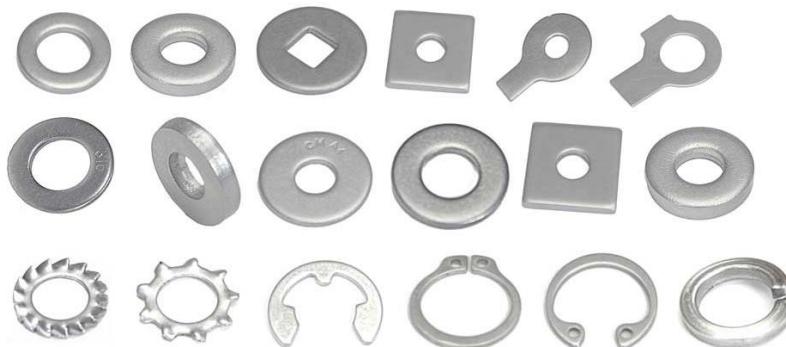

Stainless steel washers are made by the stamping process that uses a die to punch a shape or a form from a flat sheet of stainless steel. Stamping is a fast and smooth process that is capable of manufacturing large number of washers and enables maximum use of metal sheets. Generally, all washer manufacturers attempt to follow standards for manufacturing published by International

Organization for Standardization (ISO), in order to maintain the quality of their products and prevention of harm to the environment.

There are mainly three types of washers based on their features and application: plain washers, lock washers and spring washers. Within each of these types, there are more specialized forms that serve unique purposes.

Our portfolio includes the following SS washers in various specifications:

- inner ring washers
- spring washers
- nord lock washers
- retaining rings
- internal tooth washers
- external tooth washers

### C. SS Solar roofing hooks

Solar power is the largest component in Renewal Energy Sector (RES) capacity in India, accounting for nearly 47.5% of total RES installed capacity as on 1st January 2022. Capacity addition in solar power segment has happened at a brisk pace increasing from just under 1 GW as on 1st April 2012 to nearly 50 GW as on 1st January 2022. (*Source: D&B report*)

Solar roofing hooks are used for solid fastening of photovoltaic systems on pitched roofs. Roofing hooks serve as a foundation for photovoltaic mounting systems for tiled roofs and are to be mounted directly on the roof battens and rafters.

Solar installations have been rapidly increasing around the world. India has generated a significant amount of growth as well. Solar is the way of the future and a major sustainable energy source. Solar panels perform best when exposed to direct sunlight for the longest period and are positioned at a specific tilt angle with the face facing south. In this situation, solar roofing hooks come into play.

Solar roofing hooks are critical for the efficient working of a solar power system in both utility and rooftop applications. While the most balance of system components, including inverters, DC cables, junction boxes, transformers, etc. are easily available from equipment manufacturers, the property and excellence of the solar roofing hooks has a prominent position in the functioning of the solar power system.

These frameworks allow panels to rest comfortably, avoid damage, and, most significantly, place them at a perfect tilt angle to maximize solar energy harvesting. Solar roofing hooks, ground solar mounting

structures, carports and sun tracker solutions have all experienced significant advancements in terms of weight, material, versatility and ease of installation. Many technological advancements have resulted in lower costs, faster and better installation, increased durability and increased productivity.

Material plays a significant role in the total solution because any solar system is designed to last 20 to 25 years. The topography and environment of the installation area determine the material's strength. As a result, there is an increasing demand in the industry for very durable, rust-free, corrosion-resistant materials. This has resulted in the development of revolutionary products such as rust-resistant steel, which has become quite popular in the solar panel market due to its low cost and increased endurance.

#### D. SS Tubes & Pipes

Stainless steel pipes and tubes are one of the important products in the steel industry and it find wide application in oil & gas, capital goods, power and several other. In the industrial sector, it is used in the manufacturer of the heat exchanger, condensers, and similar industrial equipment that are used in chemical plants, fertilizer plants, pharmaceuticals, sugar, dairy & dairy products, water desalination and automotive industry amongst other. Additionally, steel pipes & tubes also find application in construction. Oil & gas and chemical & petrochemical industry – are the two largest consumers of steel pipes and tubes – is driving the demand across the world. Thus, demand for steel pipes & tubes is linked to the demand scenario and capex plans prevalent in its end-user industries. (Source: D&B report)

Stainless steel tubes are usually cylindrical, hollow items that are utilized as equipment components or as a medium for fluids to travel through. The usage of stainless steel in the construction of tubes is due

to the favorable qualities of stainless steel, which is the most commonly used material in tubing production.

Stainless steel tubes may also be square. Stainless steel square tubing is a hollow pipe-like piece of hardware with four equal-length sides constructed from a number of steel alloys. Although these tubes, like their cylindrical counterparts, can be utilized for gas and fluid transfer, square tubing is most commonly used in structural and support design schemes. It is used in the construction, architectural, building, material handling, mounting, metal working and framing sectors for a wide range of goods such as shelving, support beams, racks, grids, stepladders, partitions and rails. While other materials may be utilized, stainless steel is particularly well suited to these applications.

### **Stainless Steel Pipes**

Outer Diameter	: 1/8" NB to 8" NB (10.3 mm to 219.1 mm)
Wall Thickness	: SCH 5S, 10S, 20S, 40S & 80S

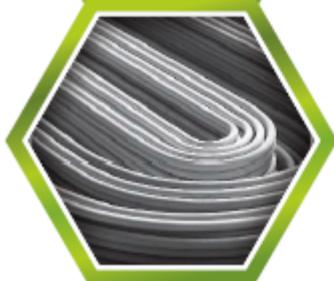

### **Stainless Steel Tubes**

Outer Diameter	: 6.35 mm to 101.6 mm
Wall Thickness	: 0.5 mm to 6.0 mm

### **Stainless Steel Square & Rectangle Sections**

Size	: 12x12 mm to 80x80 mm & 30x20 mm to 120x60 mm
Wall Thickness	: 0.5 mm to 6.0 mm

### **Stainless Steel 'U' Tubes**

Outer Diameter	: 12.7 mm to 50.8 mm OD
Wall Thickness	: Upto 3.38 mm
Centre Line Radius	: 22.2 mm to 1220 mm
Leg length	: 10 Meter

Pipes are classified according to their nominal and schedule diameter. Pipe is normally manufactured in accordance with the Nominal Pipe Size (NPS) standard, with a schedule number specified (wall thickness) and nominal diameter (pipe size). The schedule number on different sizes of pipe may be the same, but the true wall thickness will differ.

Tubes are usually manufactured by wall thickness and outside diameter, but they can also be ordered by outside diameter and inside diameter or inside diameter and wall thickness. A gauge number specifies the thickness of a tube.

Tubes can be square, rectangular, or cylindrical in shape, whereas pipe is always round. The circular form of the pipe distributes the pressure load evenly. Pipes are used for larger purposes and come in sizes ranging from 12 inches to several feet. Tubing is typically utilized in applications that demand smaller sizes.

Stainless steel tubes and pipes are used in various products and infrastructures, from factory machinery to automotive mufflers. Stainless steel tube fulfills the same role in numerous applications. The goal is to convey or regulate the transportation of a gas or a liquid. Because it can reliably sustain hot gasses and corrosive liquids without degrading, stainless steel tubes and pipes adapt themselves to gasses and liquids.

Stainless steel tubes and pipes can be left outside for long periods of time without rusting or disintegrating. Many industries and products employ stainless steel tubes and pipes due to its ability to resist degradation. Stainless steel tube is utilized in wet industries with concrete floors, various hunting and outdoor equipment like tents and weapons, automobile manufacturing and kitchenware with stainless steel sanitary tubing.

## **Our Units**

We carry our manufacturing operations from our Units. These units are located at:

Sr. No.	Units	Details of Lessor/Licensor	Address	Term
1.	Unit I and registered office (Lease)	Gujarat Industrial Development Corporation (GIDC)	Plot no. E-77, G.I.D.C., Savli (Manjusar), Baroda - 391 775, Gujarat, India.	Period of 99 years beginning on January 31, 2002
2.	Unit II (Sublease)	M/s. Ratnaveer Industries	Plot no. E-120, G.I.D.C., Savli (Manjusar), Baroda - 391 775, Gujarat, India.	Period of 07 years beginning on January 01, 2023
3.	Unit III (Leave and License)	Mr. Prabhulal Badrilal Kabra	Plot no. 548/549, G.I.D.C., Waghodia, Baroda – 390019, Gujarat, India	Period of 1 year from February 1, 2023 till January 30, 2024
4.	Unit IV (Leave and License)	Mr. Prabhulal Badrilal Kabra	Plot no. 1901, Phase IV, G.I.D.C. Vatva, Ahmedabad – 382440, Gujarat, India	Period of 1 year from May 8, 2023 till May 6, 2024

We manufacture finishing sheets, washers and solar mounting hooks at Unit I and SS pipes & tubes at Unit II. Unit III and Unit IV are dedicated for the backward integration process. Unit III is the melting unit where we melt the scrap steel and turn it into steel ingots. Unit IV is the rolling unit where flat ingots are further processed to turn them into sheets which are the raw material for washers. Our Units are supported by infrastructure for storage of raw materials, manufacturing of our products, storage of finished goods, together with a quality control.

We source raw materials from our suppliers based on quality specifications and cost effectiveness. SS coil, sheet and scrap is acquired locally as well as from foreign suppliers from Indonesia, Switzerland, Hong Kong and Singapore.

The power requirements are met through the local power grids maintained by state power grid. We maintain power back-ups through DG Sets to ensure unhindered production in case of power cuts by the local electricity providers.

Water is procured from the third-party water suppliers. To minimize the wastage of water as well as to reduce the water procurement cost, we process the water in effluent treatment plant for recycling and reuse it in the manufacturing process.

### **Capacity and Capacity Utilization**

The following table sets forth certain information relating to capacity utilization of our Units calculated on the basis of total installed production capacity and actual production as of/ for the periods indicated below:

<b>Fiscal</b>	<b>Units</b>	<b>Finishing Sheets</b>	<b>Washers &amp; Solar hook</b>	<b>(Units In MT)</b> <b>Tubes &amp; Pipes</b>
2020-21	<i>Capacity</i>	16,500	4,800	2,000
	<i>Production</i>	15,919	2,408	1,385
	<i>Utilization</i>	96.48%	50.17%	69.25%
2021-22	<i>Capacity</i>	18,500	5,500	2,000
	<i>Production</i>	14,906	3,707	1,134
	<i>Utilization</i>	80.57%	67.40%	56.70%
2022-23	<i>Capacity</i>	18,600	6,000	2,000
	<i>Production</i>	15,830	2,091	1,109
	<i>Utilization</i>	85.11%	34.85%	55.45%

*As certified by Upendra Nath Mahto, Independent Chartered Engineer vide his certificate dated July 13, 2023*

The information relating to the installed production capacity of our Units, as included above and elsewhere in this Red Herring Prospectus are based on various assumptions and estimates that have been considered by the chartered engineer for calculation of our capacity. These assumptions and estimates include the standard capacity calculation practice of the Stainless-Steel Washers, Sheet Metal Products, Stainless Tube & Pipe and Stainless Steel Finish Line industry after examining the calculations and explanations provided by us. The assumptions and estimates taken into account include the following: (i) Number of working days: 25 per month; and (ii) 3 Shifts per day is considered on 24 hours working of the plant per day.

Actual production levels and utilization rates may vary from the capacity information of our Units included in this Red Herring Prospectus and undue reliance should not be placed on such information. See “Risk Factor No. 6 – *Information relating to the installed production capacity and capacity utilization of our Units included in this Red Herring Prospectus are based on various assumptions and estimates and future production and capacity may vary.*” On page 37 of this Red Herring Prospectus.

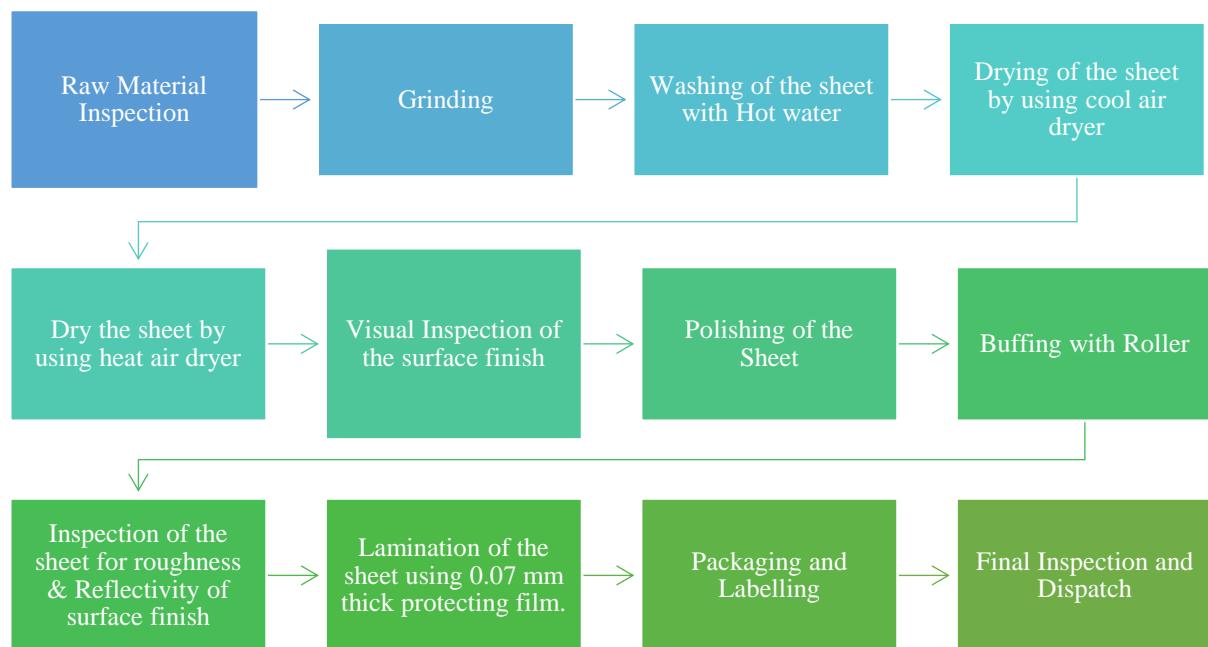

### **Procurement of Raw Materials**

We primarily need stainless steel coils, sheets and wire to manufacture our products. In addition to SS coils, sheets and wire, we also acquire SS scrap to process scrap into SS ingots under the backward integration process. Our reliance on external sources for raw material is reduced due to the backward integration process of the stainless steel scrap which is the by product of our manufacturing processes. In Fiscals 2021, 2022 and 2023, the cost of raw materials and components consumed amounts to ₹ 3,224.55 million, ₹ 3,735.22 million, and ₹ 4,189.58 million representing 89.65%, 87.49% and 87.32% respectively, of our revenue from operations. Raw materials are primarily transported to our Units and from one unit to another unit by road.

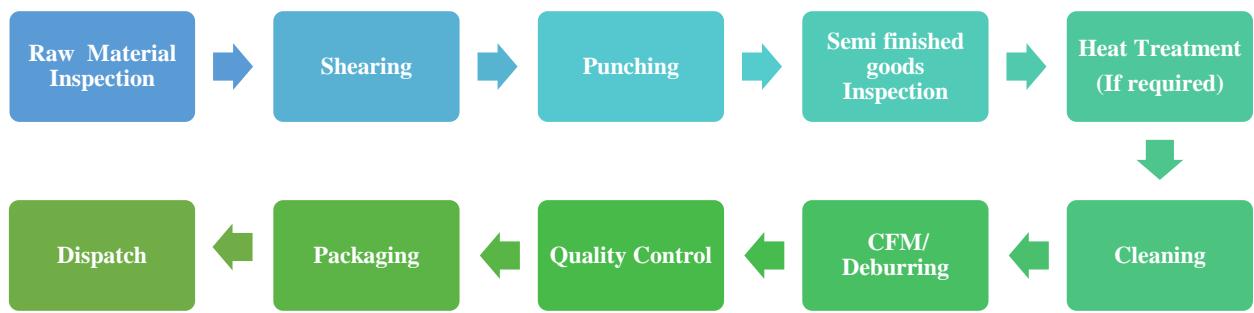

### **Key Business processes:**

Our key products are SS Finishing Sheets, SS Washers and SS Tubes and Pipes. The manufacturing process of all these products are different, however, sourcing of raw materials to manufacture all these products includes a combination of raw material sourced inhouse, domestically and from our foreign suppliers. Below is the manufacturing process of our key products:

#### ***SS Finishing Sheets (Satin Surface, Hairline Surface, Scotch Bright and Mirror Surface)***

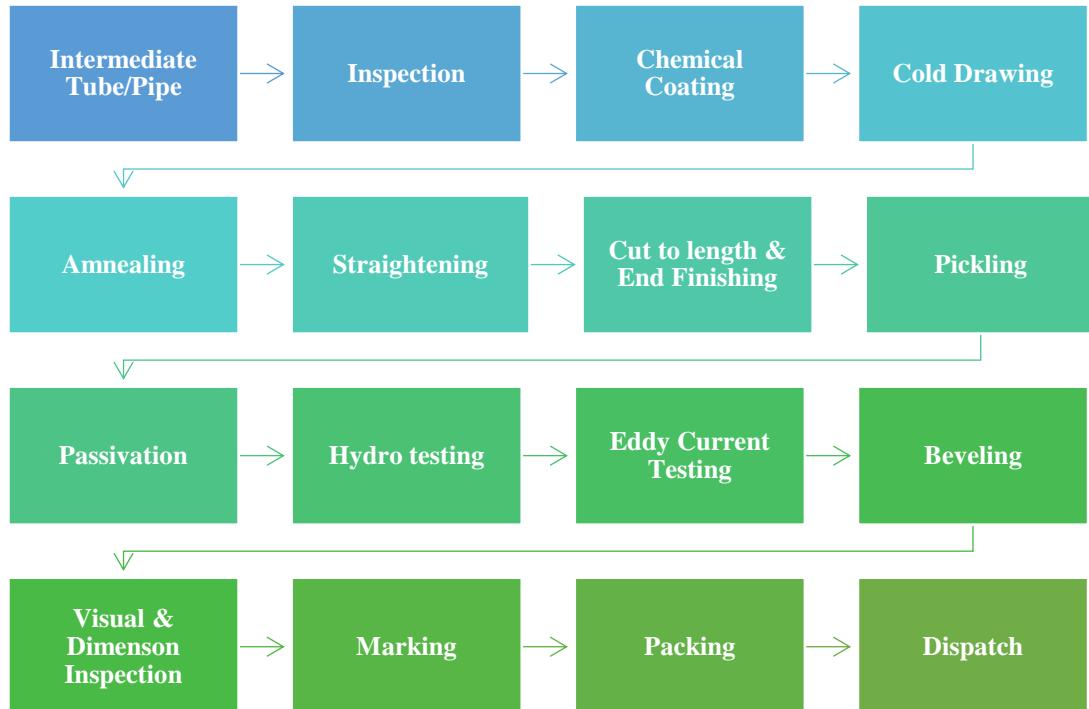

#### ***SS Washers (Carbon Steel Washer, Retaining Ring/Circlip, Tooth Lock Washer, Belleville Washer /Disc Washer etc.)***

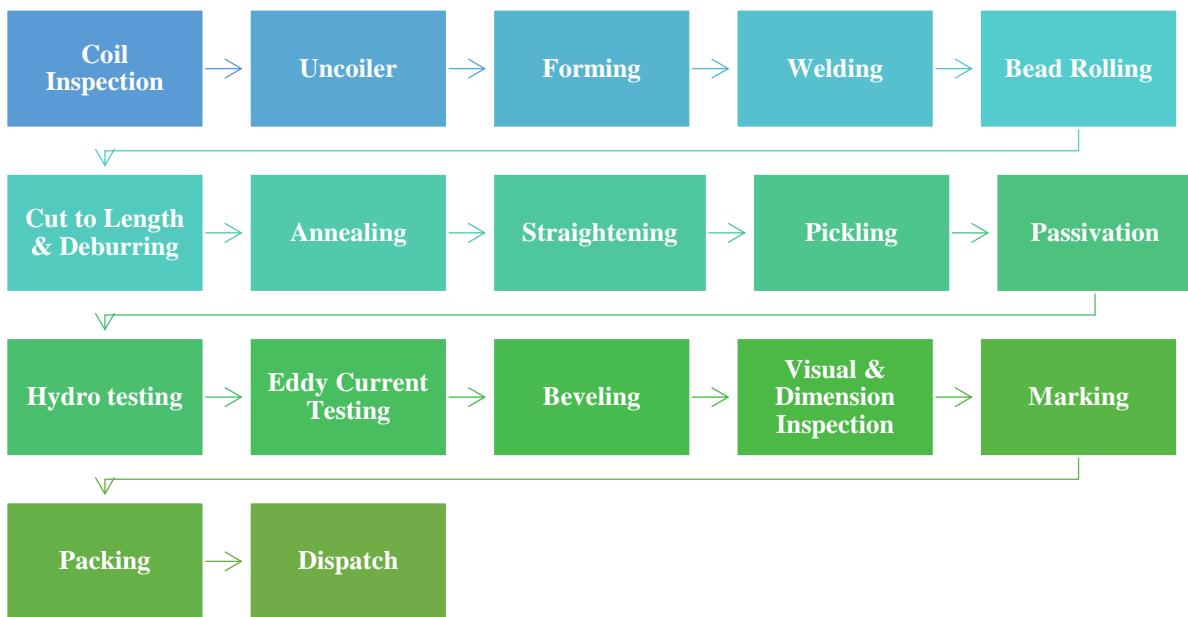

### **SS Tubes & Pipes**

#### Cold Drawn Tubes & Pipes

#### Welded Tubes & Pipes

## Inventory Management

The quantity of our finished products is determined based on a combination of confirmed and expected orders based on past trends. We manage our inventory based on various parameters for maintaining minimum and maximum stock levels of raw materials and finished products. Further, stock is taken physically at defined intervals and our existing stock is reviewed at regular intervals for quality purposes. Certain quantities of stainless steel are procured to meet the shortfall after in-house sourcing of the raw material under the process of backward integration. Our finished products are stored on-site at our manufacturing Units. Our SS washers and SS solar mounting hooks are packed in cartons of various sizes which are further packed in crates and containers. The SS finishing sheets and SS tubes & pipes are packed in plastic to protect them from scratches and then stacked together in bundles.

## Customer Network and Sales

We are a B2B manufacturers of SS finishing sheets, SS washers, SS solar mounting hooks and SS tubes & pipes selling our products across Northern and Western regions of India and various regions of Europe including Germany, Spain, Netherland and in United Kingdom. We supply our products to our customers on purchase order basis.

## Logistics

We use various modes of transportation including roadways and waterways for sourcing of our raw materials as well as transportation of finished goods. We outsource the delivery of our products to third-party logistics providers and rely on freight forwarders and C&F agents to deliver our products to our customers. We do not have long-term contractual relationships with the logistics providers or freight forwarders.

## Utilities

Our operations require use of power and water. The power requirement for our Units is sourced from the state power grids. Since our manufacturing processes requires uninterrupted supply of power we have also installed back-up diesel generators at our Units I and II. We require reasonable quantum of water for our production activities. Also see “Our Units” on page 202 of this RHP.

### **Brand building & Marketing**

We have a long-standing in the market which helps us to get repeat orders from our existing customers and also get an opportunity to serve new customers. With the quality of our products that we offer and maintain, we have been able to uphold relations with our customers on long term basis and we strive to maintain these relations through our evolving products to meet the requirements of our customers. We maintain a dedicated marketing team, which coordinates with the customers to understand their requirements and design the products as per their needs.

### **Technical Collaborations**

Our Company does not have any technical collaborations as on the date of this Red Herring Prospectus.

### **Information technology**

An appropriate information technology infrastructure is important to support the growth of our business. Our IT infrastructure enables us to track orders from customers, procurement of raw materials, sale of finished goods and inventory management.

### **Competition**

We operate in an industry which is highly competitive and fragmented and we compete with a range of organized and unorganized players, both at the national and regional level. Further, while we have an expanding portfolio of products, our competitors may have the advantage of focusing on concentrated products. Further, we compete against established players also, which may have greater access to financial, technical and marketing resources and expertise available to them than us in the products and services in which we compete against them.

SS sheet manufacturing in India is a fragmented industry, with a domination of small & medium sized players who make up the unorganized segment. Ease of raw material availability, production process which is not protected by any intellectual property restrictions, and low switching cost have all resulted in low entry barriers. Meanwhile, the ubiquitous usage of SS sheet (across a wide variety of sectors) meant there is a steady demand for the commodity. (*Source: D&B Report*)

Washers’ industry in India is highly fragmented in nature comprising large number of small players. Washer’s manufacturing companies use various metals such as steel, copper, aluminum, and rubber for manufacturing different types of washers. Among these, the most preferred washers, by domestic as well as global end-users, are stainless steel washers due to their corrosion and rust resistance properties. Generally, all washer manufacturers attempt to follow standards for manufacturing published by International Organization for Standardization (ISO), to maintain the quality of their products as per global standards and prevent any harm to the environment. (*Source: D&B Report*)

The principal elements of competition in our industry are quality, price, and range of the products offered. Our twenty years of presence in the market coupled with the high quality and vast range of products as well as our product development capabilities, helps us in having a competitive edge in the market. For

further information on the competition we face in the markets in which we operate, please see the chapter titled “*Industry Overview*” beginning on page 144 of this Red Herring Prospectus.

## **Quality Control**

We place significant emphasis on quality control. Our quality management system with respect to our Units has been certified to conform to ISO 9001:2015, ISO 14001:2015 and ISO 14001:2018 requirements, subject to periodic audits conducted by the ISO.

We inspect the raw materials that we receive as well as the final products that are dispatched. We have implemented internal procedures to ensure quality control at various stages of production, from procurement and processing of raw material to inventory storage. All of our units have personnel responsible for monitoring the parameters of equipment, stability of materials, reporting any irregularities in the production process and making adjustments accordingly.

## **Health and Safety**

Our activities are subject to pollution control laws and various regulations which govern, among other matters, the storage and handling of raw materials and finished goods. For further information, please refer to the chapter titled “*Key Industry Regulations and Policies*” beginning on page 210 of this RHP. We continue to ensure compliance with applicable health and safety regulations and other requirements in our operations.

We have complied, and will continue to comply, with all material applicable laws, rules and regulations. We have obtained, or are in the process of obtaining or renewing, all material consents and licenses from the relevant governmental agencies that are necessary for us to carry on our business. For further information, please see the chapter titled “*Government and Other Approvals*” beginning on page 350 of this RHP.

## **Insurance**

We have purchased insurance in order to mitigate the risk of losses from potentially harmful events, including: (i) insurance policy covering fire, damage to buildings, plant and machinery, stocks (raw materials and finished goods); (ii) motor insurance policies covering the vehicles and (iii) policy covering goods in transit. These insurance policies are renewed periodically to ensure that the coverage is adequate. Our insurance covers all of our Units.

## **Employees**

As of June 30, 2023, we had an employee base of 151 employees. The following table sets forth a breakdown of our employees by function:

<b>Function</b>	<b>No. of Employees</b>
Management	2
Accounts	12
Human Resource	4
Production	120
Store & Purchase	4
Sales & Marketing	9

<b>Total</b>	<b>151</b>
--------------	------------

In addition, for production we have a contract with third- party manpower firms and independent contractors for the supply of contract labours. The number of contract labourers varies from time to time based on the nature and extent of work contracted to third- party manpower firms and independent contractors.

### **Intellectual Property**

Our Company uses the mark “**RATNAVEER**” which it has applied for registration under the Trademark Act, 1999 under class 6. As on the date of this RHP, we do not have any trademarks registered or under the process of registration at the registry of trademarks (except as disclosed above).

We have registered the domain name <http://www.ratnaveer.com>.

### **Material Properties**

For details relating to our material properties, please refer to the “Our Units” on page 202 of this RHP.

## **KEY INDUSTRY REGULATIONS AND POLICIES**

*The following description is a summary of the relevant regulations and policies as prescribed by the GoI and other regulatory bodies that are applicable to our business. The information detailed below has been obtained from various legislations, including rules and regulations promulgated by regulatory bodies, and the bye laws of the respective local authorities that are available in the public domain. The regulations set out below may not be exhaustive and are merely intended to provide general information to the shareholders and neither designed, nor intended to substitute for professional legal advice. For details of government approvals obtained by us, see the section titled “Government and Other Approvals” on page 350 of this Red Herring Prospectus.*

### **I. Laws relating to Employment**

#### ***Factories Act, 1948***

The Factories Act, 1948, as amended (the “Factories Act”), defines a “factory” to cover any premises which employs 10 or more workers on any day of the preceding 12 months and in which a manufacturing process is carried on with the aid of power or any premises where at least 20 workers are employed, and where a manufacturing process is carried on without the aid of power. Each state government has enacted rules in respect of the prior submission of plans and their approval for the establishment of factories and registration/licensing thereof. The Factories Act provides for imposition of fines and imprisonment of the manager and occupier of the factory in case of any contravention of the provisions of the Factories Act.

#### ***Industrial Disputes Act, 1947, as amended (the “ID Act”)***

The ID Act provides for statutory mechanism of settlement of all industrial disputes, a term which primarily refers to a dispute or difference between employers and workmen concerning employment or the terms of employment or with the conditions of labour of any person. The Industrial Dispute (Central) Rules, 1957 *inter-alia* specify procedural guidelines for lock-outs, closures, layoffs and retrenchment.

#### ***Industrial Employment (Standing Orders) Act, 1946***

In order to strengthen the bargaining powers of the workers this act is enacted, it requires the employers to formally define the working conditions to the employee. As per this act, an employer is required to submit five copies of standing orders required by him for adoption of his industrial establishment. An employer failing to submit the draft standing orders as required by this act shall be liable to pay fine as per section 13 of this act.

#### ***Employees’ Compensation Act, 1923***

The Employees’ Compensation Act, 1923 (“ECA”) has been enacted with the objective to provide for the payment of compensation to workmen by employers for injuries by accident arising out of and in the course of employment, and for occupational diseases resulting in death or disablement. The ECA makes every employer liable to pay compensation in accordance with the ECA if a personal injury/disablement/ loss of life is caused to a workman (including those employed through a contractor) by accident arising out of and in the course of his employment. In case the employer fails to pay compensation due under the ECA within one month from the date it falls due, the commissioner appointed under the ECA may direct the employer to pay the compensation amount along with interest and may also impose a penalty.

***Contract Labour (Regulation and Abolition) Act, 1970, as amended (the “CLRA Act”)***

The CLRA Act requires the principal employer of an establishment in which twenty or more workmen are employed or were employed on any day of the preceding twelve months as contract labour, to make an application to the concerned officer for registration of the establishment. In the absence of registration, contract labour cannot be employed in the establishment. Likewise, every contractor who employs or who employed on any day of the preceding twelve months twenty or more workmen, is required to obtain a license and not to undertake or execute any work through contract labour except under and in accordance with the license issued. The CLRA Act imposes certain obligations on the contractor in relation to establishment of canteens, rest rooms, drinking water, washing facilities, first aid, other facilities and payment of wages. However, in the event the contractor fails to provide these amenities, the principal employer is under an obligation to provide these facilities within a prescribed time period. Penalties, including both fines and imprisonment, may be levied for contravention of the provisions of the CLRA Act.

***Employees State Insurance Act, 1948, as amended (the “ESIC Act”)***

The ESI Act, provides for certain benefits to employees in case of sickness, maternity and employment injury. All employees in establishments covered by the ESI Act are required to be insured, with an obligation imposed on the employer to make certain contributions in relation thereto. In addition, the employer is also required to register itself under the ESI Act and maintain prescribed records and registers.

***Employees (Provident Fund and Miscellaneous Provisions) Act, 1952, as amended (the “EPF Act”)***

The EPF Act applies to factories employing over 20 employees and such other establishments and industrial undertakings as notified by the GoI from time to time. It requires all such establishments to be registered with the state provident fund commissioner and requires such employers and their employees to contribute in equal proportion to the employees' provident fund the prescribed percentage of basic wages and dearness and other allowances payable to employees. The EPF Act also requires the employer to maintain registers and submit a monthly return to the State provident fund commissioner.

***Payment of Bonus Act, 1965, as amended (the “PoB Act”)***

The PoB Act provides for payment of minimum bonus to factory employees and every other establishment in which 20 or more persons are employed and requires maintenance of certain books and registers and filing of monthly returns showing computation of allocable surplus, set on and set off of allocable surplus and bonus due.

***Payment of Gratuity Act, 1972, as amended (the “Gratuity Act”)***

The Gratuity Act establishes a scheme for the payment of gratuity to employees engaged in every factory, mine, oil field, plantation, port and railway company, every shop or establishment in which ten or more persons are employed or were employed on any day of the preceding twelve months and in such other establishments in which ten or more employees are employed or were employed on any day of the preceding twelve months, as notified by the Central Government from time to time. Penalties are prescribed for non-compliance with statutory provisions.

Under the Gratuity Act, an employee who has been in continuous service for a period of five years will be eligible for gratuity upon his retirement, resignation, superannuation, death or disablement due to accident or disease. However, the entitlement to gratuity in the event of death or disablement will

not be contingent upon an employee having completed five years of continuous service. The maximum amount of gratuity payable may not exceed Rs. 1 million.

#### ***Equal Remuneration Act, 1979:***

The Equal Remuneration Act 1979 provides for payment of equal remuneration to men and women workers and for prevention discrimination, on the ground of sex, against female employees in the matters of employment and for matters connected therewith. This act was enacted with the aim of state to provide Equal Pay for Equal Work as envisaged under Article 39 of the Constitution.

#### ***Maternity Benefit Act, 1961***

The Maternity Benefit Act, 1961 provides for leave and right to payment of maternity benefits to women employees in case of confinement or miscarriage etc. This Act is applicable to every establishment which is a factory, mine or plantation including any such establishment belonging to government and to every establishment of equestrian, acrobatic and other performances, to every shop or establishment within the meaning of any law for the time being in force in relation to shops and establishments in a state, in which ten or more persons are employed, or were employed, on any day of the preceding twelve months; provided that the state government may, with the approval of the Central Government, after giving at least two months' notice shall apply any of the provisions of this act to establishments or class of establishments, industrial, commercial, agricultural or otherwise.

#### ***The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013***

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (“SHWW Act”) provides for the protection of women at work place and prevention of sexual harassment at work place. The SHWW Act also provides for a redressal mechanism to manage complaints in this regard. Sexual harassment includes one or more of the following acts or behavior namely, physical contact and advances or a demand or request for sexual favors or making sexually colored remarks, showing pornography or any other unwelcome physical, verbal or non-verbal conduct of sexual nature. The SHWW Act makes it mandatory for every employer of a workplace to constitute an Internal Complaints Committee which shall always be presided upon by a woman. It also provides for the manner and time period within which a complaint shall be made to the Internal Complaints Committee i.e. a written complaint is to be made within a period of 3 (three) months from the date of the last incident. If the establishment has less than 10 (ten) employees, then the complaints from employees of such establishments as also complaints made against the employer himself shall be received by the Local Complaints Committee.

## **II. Tax Laws**

#### ***Income Tax Act, 1961***

Income Tax Act, 1961 is applicable to every domestic or foreign company whose income is taxable under the provisions of this Act or rules made under it depending upon its "Residential Status" and "Type of Income" involved. Under section 139(1) every Company is required to file its income tax return for every previous year by October 31 of the assessment year. Other compliances like those relating to tax deduction at source, fringe benefit tax, advance tax, and minimum alternative tax and the like are also required to be complied with by every company.

#### ***Goods and Service Tax (GST)***

Goods and Services Tax (GST) is levied on supply of goods or services or both jointly by the Central and State Governments. GST provides for imposition of tax on the supply of goods or services and will be levied by Centre on intra-state supply of goods or services and by the States including Union territories with legislature/ Union Territories without legislature respectively. A destination-based consumption tax GST would be a dual GST with the center and states simultaneously levying tax with a common base. The GST law is enforced by various acts viz. Central Goods and Services Act, 2017 (CGST), State Goods and Services Tax Act, 2017 (SGST), Union Territory Goods and Services Tax Act, 2017 (UTGST), Integrated Goods and Services Tax Act, 2017 (IGST) and Goods and Services

Tax (Compensation to States) Act, 2017 and various rules made thereunder. It replaces following indirect taxes and duties at the central and state levels:

Central Excise Duty, Duties of Excise (Medicinal and Toilet Preparations), additional duties on excise— goods of special importance, textiles and textile products, commonly known as CVD – special additional duty of customs, service tax, central and state surcharges and cesses relating to supply of goods and services, state VAT, Central Sales Tax, Luxury Tax, Entry Tax (all forms), Entertainment and Amusement Tax (except when levied by local bodies), taxes on advertisements, purchase tax, taxes on lotteries, betting and gambling.

It is applicable on all goods except for alcohol for human consumption and five petroleum products. Taxpayers with an aggregate turnover of Rs. 20 Lakh would be exempt from tax.

Export and supplies to SEZ shall be treated as zero-rate supplies. Import of goods and services would be treated as inter-state supplies. Every person liable to take registration under these is required to shall do so within a period of 30 days from the date on which he became liable to registration. The Central/State authority shall issue the registration certificate upon receipt of application. The Certificate shall contain fifteen-digit registration number known as Goods and Services Tax Identification Number. In case a person has multiple business verticals in location in a state, a separate application will be made for registration of each and every location. The registered assesses are then required to pay GST as per the rules applicable thereon and file the appropriate return as applicable thereon.

### **III. Foreign Exchange Laws**

#### ***Foreign Exchange Management Act, 1999 (“FEMA”)***

Foreign investment in India is primarily governed by the provisions of FEMA and the rules and regulations promulgated there under. FEMA aims at amending the law relating to foreign exchange with facilitation of external trade and payments for promoting orderly developments and maintenance of foreign exchange market in India. It applies to all branches, offices and agencies outside India owned or controlled by a person resident in India and also to any contravention there under committed outside India by any person to whom this Act applies. Every exporter of goods is required to a) furnish to the Reserve Bank or to such other authority a declaration in such form and in such manner as may be specified, containing true and correct material particulars, including the amount representing the full export value or, if the full export value of the goods is not ascertainable at the time of export, the value which the exporter, having regard to the prevailing market conditions, expects to receive on the sale of the goods in a market outside India; b) furnish to the Reserve Bank such other information as may be required by the Reserve Bank for the purpose of ensuring the realization of the export proceeds by such exporter. The Reserve Bank may, for the purpose of ensuring that the full export value of the goods or such reduced value of the goods as the Reserve Bank determines, having regard to the prevailing market conditions, is received without any delay, direct any exporter to comply with such requirements as it deems fit. Every exporter of services shall furnish to the Reserve Bank or to such other authorities a declaration in such form and in such manner as may be specified, containing the true and correct material particulars in relation to payment for such services.

#### ***FEMA Rules***

The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 by Notification No. FEMA. 395/2019-RB dated October 17, 2019 (“FEMA Rules”) to prohibit, restrict, or regulate transfer

by or issue security to a person resident outside India. As laid down by the FEMA Rules, no prior consents and approvals are required from the RBI for Foreign Direct Investment (“FDI”) under the “automatic route” within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the RBI. At present, the FDI Policy does not prescribe any cap on the foreign investments in the sector in which the Company operates. Therefore, foreign investment up to 100% is permitted in the Company under the automatic route.

#### ***The Foreign Trade (Development and Regulation) Act, 1992 (“Foreign Trade Act”)***

The Foreign Trade Act includes provisions which govern and facilitate the imports and exports to and from India. Imports and exports are permitted by persons who hold an “Importer-exporter code number” (“IEC”). Such imports and exports must be carried out in accordance with the laws and the export and import policy issued by the Central Government, from time to time. In the event of any contravention of the laws relating to central excise or customs or foreign exchange or any other economic offence under any other law for the time being in force as may be specified by the Central Government by notification in the Official Gazette or if an export or import has been carried out in a manner gravely prejudicial to the trade relations of India with any foreign country or to the interests of other persons engaged in imports or exports or has brought disrepute to the credit or the goods of the country, these instances may result in the suspension and cancellation of the IEC number.

#### ***Customs Act, 1962 (“Customs Act”)***

The Customs Act, as amended, regulates import of goods into and export of goods from India by providing for levy and collection of customs duties on goods in accordance with the Customs Tariff Act, 1975. Any company intending to import or export goods is first required to get registered under the Customs Act and obtain an Importer Exporter Code under FTDR. Customs duties are administrated by Central Board of Indirect Tax and Customs under the Ministry of Finance, GoI.

### **IV. Environmental laws and regulations**

#### ***Environment Protection Act, 1986 (“Environment Act”)***

The Environment Act is an umbrella legislation designed to provide a framework for the Central Government to coordinate the activities of various state and central authorities established under previous environmental laws. The Environment Act specifies that no person carrying on any industry, operation or process shall discharge or emit or permit to be discharged or emitted any environment pollutants in excess of such standards as may be prescribed. The Environment Act empowers the Central Government to make rules for various purposes viz., to prescribe:

- (i) the standards of quality of air, water or soil for various areas;
- (ii) the maximum allowable limits of concentration of various environmental pollutants for different areas;
- (iii) the procedures and safeguards for the prevention of accidents which may cause environmental pollution and remedial measures for such accidents.

#### ***Water (Prevention and Control of Pollution) Act, 1974 (“Water Act”)***

The Water Act prohibits the use of any stream or well for the disposal of polluting matter, in violation of the standards set down by the State Pollution Control Board (“State PCB”). The Water Act also provides that the consent of the State PCB must be obtained prior to establishing any industry,

operation or process or any treatment and disposal system, opening of any new outlets or making any new discharges, which are likely to discharge sewage or effluent.

***Air (Prevention and Control of Pollution) Act, 1981 (“Air Act”)***

The Air Act requires any individual, industry or institution responsible for emitting smoke or gases by way of use as fuel or chemical reactions, apply in a prescribed form and obtain consent from the PCB prior to commencing any activity. The PCB is required to grant, or refuse, consent within four months of receipt of the application. The consent may contain conditions relating to specifications of pollution control equipment to be installed. Within a period of four months after the receipt of the application for consent the PCB shall, by order in writing and for reasons to be recorded in the order, grant the consent applied for subject to such conditions and for such period as may be specified in the order, or refuse consent.

***Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (“Hazardous Waste Rules”)***

The Hazardous Waste Rules define the term ‘hazardous waste’ to include any waste which by reason of physical, chemical, biological, reactive, toxic, flammable, explosive or corrosive characteristics cause danger or is likely to cause danger to health or environment, whether alone or in contact with other wastes or substances including waste specified in the schedules to the Hazardous Waste Rules. In terms of the Hazardous Waste Rules, occupiers, being persons who have control over the affairs of a factory or premises or any person in possession of hazardous or other waste, have been, inter alia, made responsible for safe and environmentally sound management of hazardous and other wastes generated in their establishments and are required to obtain license/ authorisation from the respective State PCB for handling, generation, collection, storage, packaging, transportation, usage, treatment, processing, recycling, recovery, pre-processing, co-processing, utilising, selling, transferring or disposing hazardous or other waste.

## **OUR GROUP COMPANIES**

In accordance with the SEBI ICDR Regulations, for the purpose of identification of Group Companies, our Company has considered companies with which there were related party transactions, during the period for which financial information is disclosed in the Red Herring Prospectus, as covered under the applicable accounting standards, and also other companies as considered material by the Board as per the materiality policy adopted by the Board pursuant to its resolution dated May 12, 2022 (the “Group Companies Materiality Policy”).

In terms of the Group Companies Materiality Policy apart from the companies with which there have been related party transactions during the period for which financial information has been disclosed under this Red Herring Prospectus, a company is considered to be a material Group Company as under:

- (i) company in which the investment in the form of equity or voting power, debt or debt instruments by our Company exceeds 5% of the net worth of our Company as per the last audited financial statements for the preceding financial year; and
- (ii) where the Company has entered into one or more transactions with such company in the last audited financial year, cumulatively exceeding 5% of the total revenues of our Company as per the last audited financial statements for the last audited financial year.

Accordingly, based on the parameters outlined above, our Company does not have any Group Company.

## **DIVIDEND POLICY**

Under the Companies Act, our Company can pay dividends upon a recommendation by our Board of Directors and approval by a majority of the shareholders at the Annual General Meeting. The shareholders of our Company have the right to decrease but not to increase the amount of dividend recommended by the Board of Directors. The dividends may be paid out of profits of our Company in the year in which the dividend is declared or out of the undistributed profits or reserves of previous fiscal years or out of both. The Articles of Association of our Company also gives the discretion to our Board of Directors to declare and pay interim dividends.

The declaration and payment of dividend will be recommended by our Board of Directors and approved by the shareholders of our Company at their discretion and will depend on a number of factors, including the results of operations, earnings, capital requirements and surplus, general financial conditions, contractual restrictions, applicable Indian legal restrictions and other factors considered relevant by our Board of Directors.

Our Company has not declared any dividends in the last three fiscals and till the date of filing of this Red Herring Prospectus.

For further details, please refer to section titled “*Financial Information*” beginning on page 249 of this Red Herring Prospectus.

Indian rupee is the functional and presentation currency.

**2.3 Rounding of amounts**

All amounts disclosed in the Restated financial statements and notes have been rounded off to the nearest millions as per the requirement of Schedule III, unless otherwise stated.

**3 Significant Accounting Policies****3.1 Revenue Recognition**

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services. The Company is generally the principal as it typically controls the goods or services before transferring them to the customer.

**3.1.1 Sale of Goods**

Revenue is generated primarily from sale of S. S. Products. Revenue is recognised at the point in time when the performance obligation is satisfied and control of the goods is transferred to the customer in accordance with the terms of customer contracts. In case of domestic customers, generally revenue recognition take place when goods are dispatched and in case of export customers when goods are shipped onboard based on bill of landing as per the terms of contract. Revenue is measured based on the transaction price, which is the consideration, adjusted for trade discounts, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

A contract liability is the obligation to transfer goods to the customer for which the Company has received consideration from the customer. Contract liabilities are recognised as revenue when the Company performs under the contract.

**3.1.2 Sale of Services**

Revenue is recognized from rendering of services when the performance obligation is satisfied and the services are rendered in accordance with the terms of customer contracts. Revenue is measured based on the transaction price, which is the consideration, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

A contract liability is the obligation to render services to the customer for which the Company has received consideration from the customer. Contract liabilities are recognised as revenue when the Company performs under the contract.

**3.1.3 Export Incentive**

Export incentives are accounted on accrual basis at the time of export of goods, if the entitlement can be estimated with reasonable accuracy and conditions precedent to claim are fulfilled.

**RATNAVEER PRECISION ENGINEERING LIMITED**

( Formerly Known As RATNAVEER METALS LIMITED )

**Notes forming part of the Restated Financial Information**

**3.1.4 Other Income**

**a Interest Income**

Interest income is recognized using effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through expected life of the financial asset to the gross carrying amount of the financial asset. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

**b Dividend income**

Dividend are recognised in the Statement of Profit and Loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

**c Gain or loss on derecognition of Financial Assets**

Gain or Loss on derecognition of financial asset is determined as the difference between the sale price (net of selling costs) and carrying value of financial asset.

**d All other Incomes are recognised and accounted for on accrual basis**

**RATNAVEER PRECISION ENGINEERING LIMITED**

( Formerly Known As RATNAVEER METALS LIMITED )

Notes forming part of the Restated Financial Information

**3.2 Property, Plant and Equipment**

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

The cost comprises the purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably.

All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

For transition to Ind AS, the carrying value of Property Plant and Equipment under previous GAAP as on 1st April, 2020 is regarded as its cost. The carrying value was original cost less accumulated depreciation and cumulative impairment.

Property, Plant and Equipment not ready for the intended use on the date of the Balance Sheet are disclosed as "Capital work-in-progress".

Gains or losses arising from derecognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset at the time of disposal and are recognized in the statement of profit and loss when the asset is derecognized.

Depreciation on Tangible Assets is calculated on written down value method basis using the ratio arrived as per the useful life prescribed under Schedule II to the Companies Act, 2013.

<b>Block of Assets</b>	<b>Useful Life (Years)</b>
Buildings	30 - 60
Plant & Machinery	15
Furniture and Fixtures	10
Office Equipment's	5
Vehicles	8-10
Office Equipment's	5

In respect of Property, Plant and Equipment purchased during the year, depreciation is provided on a pro-rata basis from the date on which such asset is ready to use.

The residual value, useful live and method of depreciation of Property, Plant and Equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

**Intangible Assets**

Expenditure on research is recognized as an expense when it is incurred. Expenditure on development which does not meet the criteria for recognition as an intangible asset is recognized as an expense when it is incurred. Costs incurred on individual development projects are recognised as intangible assets from the date when it meets the criteria of the Intangible Assets.

Intangible Assets are amortized over a period of five years as per straight line method.

	Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.
	Regular way purchase and sale of financial assets are accounted for at trade date.
<b>3.3.2 Subsequent Measurement</b>	
<b>a Non-derivative financial instruments</b>	
<b>i Financial assets measured at amortized cost</b>	A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
<b>ii Financial assets measured at fair value through other comprehensive income (FVOCI)</b>	A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
<b>iii Financial assets measured at fair value through profit or loss (FVTPL)</b>	A Financial Asset which is not classified in any of the above categories are measured at FVTPL. Financial assets are reclassified subsequent to their recognition, if the Company changes its business model for managing those financial assets. Changes in business model are made and applied prospectively from the reclassification date which is the first day of immediately next reporting period following the changes in business model in accordance with principles laid down under Ind AS 109 – Financial Instruments.
<b>iv Financial liabilities</b>	Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.  Interest bearing bank loans, overdrafts and issued debt are initially measured at fair value and are subsequently measured at amortised cost using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in the statement of profit and loss.
<b>b Equity instruments</b>	An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Incremental costs directly attributable to the issuance of equity instruments are recognized as a deduction from equity instrument net of any tax effects.

Notes forming part of the Restated Financial Information

**c Derivative financial instruments and hedge accounting**

In the ordinary course of business, the Company uses certain derivative financial instruments to reduce business risks which arise from its exposure to foreign exchange and interest rate fluctuations. The instruments are confined principally to forward foreign exchange contracts, cross currency swaps, interest rate swaps and collars. The instruments are employed as hedges of transactions included in the Restated financial statements or for highly probable forecast transactions/firm contractual commitments. These derivatives contracts do not generally extend beyond six months. Except for certain currency swaps and interest rate derivatives.

Derivatives are initially accounted for and measured at fair value on the date the derivative contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period through profit and Loss Statement.

**Effective Interest rate method**

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts future cash receipts or payments through the expected life of the financial instrument, or where appropriate, a shorter period.

**3.3.3 De-recognition**

The company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability is derecognized when obligation specified in the contract is discharged or cancelled or expires.

**3.3.4 Off-setting**

Financial assets and liabilities are offset and the net amount is presented in the balance sheet when the company currently has a legally enforceable right to offset the recognized amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

**3.4 Fair Value Measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefit by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Restated financial statements are categorized within the fair value hierarchy. The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

Level 1 – inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 – inputs are other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived prices)

Level 3 – inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumption that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

<b>3.5 Income Tax</b>	
<p>The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.</p>	
<b>3.5.1 Current Tax</b>	
<p>The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, wherever appropriate, on the basis of amounts expected to be paid to the tax authorities.</p>	
<p>Current tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognized in Other Comprehensive Income or directly in equity. In this case, the tax is also recognised in Other Comprehensive Income or directly in equity, respectively.</p>	
<p>Current tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.</p>	
<p>Current tax assets and current tax liabilities are offset, where company has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.</p>	
<b>3.5.2 Deferred Tax</b>	
<p>Deferred tax is recognized in profit or loss, except when it relates to items that are recognized in other comprehensive income or directly in equity, in which case, the deferred tax is also recognized in other comprehensive income or directly in equity, respectively.</p>	
<p>Deferred tax liabilities are recognized for all taxable temporary differences, except to the extent that the deferred tax liability arises from initial recognition of goodwill; or initial recognition of an asset or liability in a transaction which is not a business combination and at the time of transaction, affects neither accounting profit nor taxable profit or loss.</p>	
<p>Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax losses and carry forward of unused tax credits to the extent that it is probable that taxable profit will be available against which those temporary differences, losses and tax credit can be utilized, except when deferred tax asset on deductible temporary differences arise from the initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit or loss.</p>	
<p>Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the tax rules and tax laws that have been enacted or substantively enacted by the end of the reporting period.</p>	
<p>Deferred tax assets and deferred tax liabilities are offset, where company has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.</p>	
<p>Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.</p>	

<b>RATNAVEER PRECISION ENGINEERING LIMITED</b> ( Formerly Known As RATNAVEER METALS LIMITED ) <u>Notes forming part of the Restated Financial Information</u>	
<b>3.6 Impairment</b>	
<b>3.6.1 Financial assets</b>	
The Company recognizes loss allowances for expected credit losses on financial assets measured at amortized cost.	
At each reporting date, the Company assesses whether financial assets carried at amortized cost is credit impaired. A financial asset is 'credit -impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.	
Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses. The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. Under the simplified approach, the Company is not required to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime expected credit losses together with appropriate management estimates for credit loss at each reporting date, right from its initial recognition.	
The Company uses a provision matrix to determine impairment loss allowance on the group of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed	
The company assesses at each reporting date whether there is an indication that an asset may be impaired. Such indication include, though are not limited to, significant or sustained decline in revenues or earnings and material	
<b>3.6.3 Non financial assets</b>	
The company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists the company estimates the asset's recoverable amount.	
An asset's recoverable amount is the higher of an assets net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.	
Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. The impairment loss is recognized in the statement of profit and loss.	
In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.	
In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.	
<b>3.7 Borrowing Costs</b>	
Borrowing cost includes interest and other costs that company has incurred in connection with the borrowing of funds.	
Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset.	
All other borrowing costs are charged to the Statement of Profit and Loss for the period for which they are incurred.	
Investment income earned on temporary investment of specific borrowing pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.	

<b>RATNAVEER PRECISION ENGINEERING LIMITED</b> <b>( Formerly Known As RATNAVEER METALS LIMITED )</b> <b>Notes forming part of the Restated Financial Information</b>	
<b>3.8 Employee Benefits</b>	
	Short term employee benefits for salary and wages including accumulated leave that are expected to be settled wholly within 12 months after the end of the reporting period in which employees render the related service are recognized as an expense in the statement of profit and loss.
	The company measures the expected cost of absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date. As per Company's policy, no leave is expected to be carried forward beyond 12 months from the reporting date.
	Retirement benefit in the form of provident fund is a defined contribution scheme. The company has no obligation, other than the contribution payable to the provident fund. The company recognizes contribution payable to the provident fund scheme as an expenditure, when an employee renders the related service.
	The company operates one defined benefit plan for its employees, viz., gratuity plan. The costs of providing benefits under the plan are determined on the basis of actuarial valuation at each year-end. Actuarial valuation is carried out using the projected unit credit method made at the end of each reporting date. Re-measurement of the net defined benefit liability (asset) comprise of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability (asset) and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability / (asset)). Re-measurement are recognized in other comprehensive income and will not be reclassified to profit or loss in a subsequent period.
<b>3.9 Provisions</b>	A provision is recognized when the company has a present obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.
	If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.
	Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.
<b>3.10 Contingent Liability</b>	A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the Restated financial statements.
<b>3.11 Contingent Asset</b>	A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company. Contingent assets are neither recognised nor disclosed in the Restated financial statements.

<b>RATNAVEER PRECISION ENGINEERING LIMITED</b> ( Formerly Known As RATNAVEER METALS LIMITED ) <u>Notes forming part of the Restated Financial Information</u>	
<b>3.12 Foreign Currency</b>	
<b>a Initial recognition</b>	Foreign currency transactions are recorded in the functional currency, by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction.
<b>b Conversion</b>	Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction.
<b>c Exchange difference</b>	All exchange differences are recognized as income or as expenses in the year in which they arise.
<b>3.13 Cash and cash equivalent</b>	Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank (including demand deposits) and in hand and short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.
<b>3.14 Earnings per share</b>	Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.  For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.
<b>3.15 Inventories</b>	Items of inventory are valued at cost or net realizable value, whichever is lower. Cost for raw materials, traded goods and stores and spares is determined on FIFO basis. Cost includes all charges in bringing the goods to their present location and condition. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.
<b>3.16 Lease</b>	<p><b>(i) As a lessee</b> The Company assesses whether a contract, is, or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:</p> <ul style="list-style-type: none"> <li>- the contract involves the use of an identified asset;</li> <li>- the Company has substantially all of the economic benefits from use of the asset throughout the period of the lease.</li> </ul> <p>Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.</p> <p><b>(ii) As a lessor</b> Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.</p>

**3.17 Segment Reporting**

An operating segment is component of the company that engages in the business activity from which the company earns revenues and incurs expenses, for which discrete financial information is available and whose operating results are regularly reviewed by the chief operating decision maker, in deciding about resources to be allocated to the segment and assess its performance. The company's chief operating decision maker is the managing Director.

Assets and liabilities that are directly attributable or allocable to segments are disclosed under each reportable segment. All other assets and liabilities are disclosed as un-allocable.

Revenue and expenses directly attributable to segments are reported under each reportable segment. All other expenses which are not attributable or allocable to segments have been disclosed as un-allocable expenses.

The company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the Restated financial statements of the company as a whole.

**3.18 Cash Flow Statement**

Cash flows are reported using indirect method whereby profit for the period is adjusted for the effects of the transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts and payments and items of income or expenses associated with investing and financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

**3.19 Events after reporting date**

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the Restated financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

**Notes forming part of the Restated Financial Information****4 Use of Estimates**

The preparation of the Restated financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions.

These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the Restated financial statements and reported amounts of revenues and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the Restated financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial

Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these Restated financial statements are:

- Useful lives of Property, plant and equipment
- Valuation of financial instruments
- Provisions and contingencies
- Income tax and deferred tax
- Measurement of defined employee benefit obligations
- Export Incentive
- Provision for Loss Allowance using Expected Credit Loss Model in respect of Trade Receivables

**4.1 Recent Accounting Developments**

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from April 1st, 2022, as below:

**Ind AS 16 – Proceeds before intended use**

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any impact in its recognition of its property, plant and equipment

**Ind AS 103 – Reference to Conceptual Framework**

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

**Ind AS 109 – Annual Improvements to Ind AS (2021)**

The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The Company does not expect the amendment to have any significant impact in its financial statements.

**37 Capital Management**

The Company's capital management is intended to create value for shareholders by facilitating the achievement of long-term and short-term goals of the Company.

The Company determines the amount of capital required on the basis of annual business plan coupled with long-term and short-term strategic investment and expansion plans. The funding needs are met through equity, cash generated from operations, long-term and short-term bank borrowings.

The Company monitors the capital structure on the basis of net debt to equity ratio and maturity profile of the overall debt portfolio of the Company.

Net debt includes interest bearing borrowings including lease obligations less cash and cash equivalents, other bank balances.

The table below summarises the capital, net debt and net debt to equity ratio of the Company.

**38.2 Defined Benefit Plan - Gratuity**

**Information about the characteristics of defined benefit plan**

The benefit is governed by the Payment of Gratuity Act, 1972. The Key features are as under:

Features of the defined benefit plan	Remarks
Benefit offered	15 / 26 × Salary × Past Service Years
Salary definition	Last drawn qualifying salary
Benefit ceiling	Benefit ceiling of Rs. 20,00,000 was applied
Vesting conditions	5 Years of service No vesting condition apply in case of Death and disability
Retirement age	58 years

**38.3 The company is responsible for the governance of the plan.**

**38.4 Risk to the Plan**

Gratuity is a defined benefit plan and entity is exposed to the Following Risks:

**A Interest rate risk:**

A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

**B Salary Risk:**

The present value of the defined benefit plan liability is calculated by reference to the future salaries of member. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

**C Investment Risk:**

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

**D Asset Liability Matching Risk:**

The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of rule 101 of income tax rule, 1962 i this generally reduces ALM risk.

**E Mortality risk:**

Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

**F Concentration Risk:**

Plan is having a concentration risk as all the assets are invested with the insurance company

**Notes forming part of the Restated Financial Information****C Credit Risk**

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Credit risk encompasses both, the direct risk of default and the risk of deterioration of credit worthiness.

Credit risk arises primarily from financial assets such as trade receivables, cash and cash equivalent and other financial assets.

In respect of trade receivables, credit risk is being managed by the company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the company grants credit terms in the normal course of business. The Company ensures that sales of products are made to customers with appropriate creditworthiness. All trade receivables are also reviewed and assessed for default on a regular basis.

Credit risk arising from cash and cash equivalent and other financial assets is limited due to sound receivable management of the Company.

The maximum exposure to the credit risk at the reporting date from trade receivables after the provision of Allowance for Credit Loss is as under :

### **41 Fair Value Measurement of Financial Asset and Financial Liabilities**

The Fair value of current financial assets and current financial liabilities measured at amortised cost, are considered to be the same as their carrying amount as they are of short term nature. Hence fair value hierarchy is not given for the same.

The carrying amount of non - current financial assets and non - current financial liabilities measured at amortised cost are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

#### **Fair Value Hierarchy**

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy. The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

Level 1 – inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 – inputs are other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived prices)

Level 3 – inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumption that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

**Note: 43 - First time adoption of Ind AS**

These are the Company's first financial statements prepared in accordance with Ind AS

The Company has adopted Indian Accounting Standards (Ind AS) with effect from April 01, 2021, with a transition date of April 01, 2020. Set out below are the Ind AS 101 optional exemptions availed as applicable and mandatory exceptions applied in the transition from previous GAAP to Ind AS.

**A Optional Exemptions availed**

**(a) Deemed Cost - Previous GAAP carrying amount**

The company has elected to continue with the carrying value for all of Property, Plant and Equipment and Intangible Assets as recognised in its Indian GAAP financial as deemed cost at the transition date.

**B Applicable Mandatory Exceptions**

**(a) Estimates**

Estimates in accordance with Ind AS at the transition date will be consistent with estimates made for the same date in accordance with IGAAP (after adjustments to reflect any difference in Accounting Policies) unless there is objective evidence that those estimates were in error.

**(b) Derecognition of financial assets and financial liabilities**

The Company has elected to apply the derecognition principles of Ind AS 109 prospectively.

**(c) Classification and measurement of financial instrument**

As required under Ind AS 101 the Company has assessed the classification and measurement of financial assets on the basis of the facts and circumstances that exist at the date of transition to Ind AS except where practicable, measurement of financial assets accounted at amortised cost has been done retrospectively.

**C Transition to Ind AS - Reconciliations**

Ind AS 101 requires an entity to reconcile equity, total comprehensive income and cash flows for prior periods. The following tables represent the reconciliations from IGAAP to Ind AS:

- i) Reconciliation of Balance sheet as at March 31, 2021 and April 01, 2020;
- ii) Reconciliation of Total Comprehensive Income for the year ended March 31, 2021;
- iv) Adjustments to Statement of Cash Flows

The presentation requirements under Previous GAAP differs from Ind AS, and hence, Previous GAAP information has been regrouped for ease of reconciliation with Ind AS. The re-grouped Previous GAAP information is derived from the Financial Statements of the Company prepared in accordance with Previous GAAP.

**iv) Adjustments to Statement of Cash Flows**

On account of transition to Ind AS, there is no material adjustment to the Statement of Cash Flows for the year ended March 31, 2021

**A Equity Compound Instrument**

In accordance with IND AS 109 "Financial Instruments", Financial instruments are reclassified as Financial Liability and measured as per the Amortized Cost method.

Interest bearing financial liabilities are measured at Amortized Cost using effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in the statement of profit and loss.

**B Remeasurement of defined benefit liabilities**

Under previous GAAP, actuarial gains and losses were recognised in profit or loss. Under IND AS, the actuarial gains and losses form part of remeasurement of the net defined benefit liability/asset which is recognised in other comprehensive income.

**C Revenue Recognition**

In accordance with IND AS 115 "Revenue from contract with customer", revenue is recognised in a year in which all the performance obligation is satisfied.

**D Deferred Tax**

Under previous GAAP, deferred tax accounting was done using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Under IND AS, accounting of deferred taxes is done using the Balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base.

**E Other Comprehensive Income**

Under previous GAAP, there was no concept of other comprehensive income. Under IND AS specified items of income, expense, gains or losses are required to be presented in other comprehensive income.

**F Prior Period Expense**

In accordance with IND AS, prior period expenses / incomes are recognised in a year in which it relates.

**61 Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023.MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023,**

**(i) Ind AS 1 – Disclosure of material accounting policies:**

The amendments related to shifting of disclosure of erstwhile "significant accounting policies" to "material accounting policies" in the notes to the financial statements requiring companies to reframe their accounting policies to make them more " entity specific. This amendment aligns with the "material" concept already required under international Financial Reporting Standards (IFRS). The Company does not expect this amendment to have any significant impact in its financial statement.

**(ii) Ind AS 8 – Definition of accounting estimates:**

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a "change in accounting estimates" has been replaced with a definition of "accounting estimates." Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty." Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Company does not expect this amendment to have any significant impact in its financial statements.

**(iii) Ind AS – Income Taxes**

The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12. At the date of transition to Ind Ass, a first-time adopter shall recognize a deferred tax asset to the extent that it is probable that taxable profit will be available temporary difference can be utilized. Similarly, a deferred tax liability for all deductible and taxable temporary differences associates with:

**(a) right-of-use assets and lease liabilities**

**(b) decommissioning, restoration and similar liabilities and the corresponding amounts recognized as part of the cost of the related**

Therefore. If a company has not yet recognised deferred tax on right-of-use assets and lease liabilities or has recognised deferred tax on net basis, the same need to recognize on gross basis based on the carrying amounts of right-of-use assets and lease liabilities

**(iv) Ind AS 103 – Common control Business Combination**

The amendments modify the disclosure requirement for business combination under common control in the first financial statement following the business combination. It requires to disclose the date on which the transferee obtains control of the transferor is

### **OVERVIEW**

Ratnaveer Precision Engineering Limited is a stainless steel (“SS”) product manufacturer focused on producing finished sheets, washers, solar roofing hooks, pipes and tubes. Stainless steel is a value-added

product with high corrosion resistant properties. Higher levels of chromium and additions of other alloy elements enhance the corrosion resistance. Compared to traditional steel, stainless-steel has higher resistance to corrosion, superior aesthetic finish and higher life span. These features have helped in increasing the popularity of stainless steel across the world.

Globally, cold rolled flat products is the largest produced stainless-steel product in the world, followed by hotrolled coils, and steel wire rods & bars According to International Stainless-Steel Forum, cold rolled flat products accounts for approximately 47% of total stainless-steel trade in the world. Hot coils, Semis-flat, Semis Long, Hot Bar/Wire rod, Cold Bar/Wire, Hot Plate & Sheet are another SS intermediary product traded globally. (*Source: D&B Report*)

## SIGNIFICANT DEVELOPMENTS SUBSEQUENT TO THE LAST FINANCIAL YEAR

In the opinion of the Board of Directors of our Company, there have not arisen, since the date of March 31, 2023 as disclosed in this Red Herring Prospectus, any significant developments or any circumstance that materially or adversely affect or are likely to affect the profitability of our Company or the value of its assets or its ability to pay its material liabilities within the next twelve months except disclosed in this Red Herring Prospectus:

## FACTORS AFFECTING OUR RESULTS OF OPERATIONS

Our business is subjected to various risks and uncertainties, including those discussed in the section titled “*Risk Factors*” beginning on page 32 of this Red Herring Prospectus. Our results of operations and financial conditions are affected by numerous factors including the following:

### Raw material: availability & price

With raw material cost being the single largest operating cost, change in price of steel (finished steel as well as stainless steel) will have a direct impact on the production cost of SS sheet metal components. 2021 witnessed an upward movement of SS prices in India, as well as globally. Several factors ranging from supply disruptions due to restrictions in freight movement, surcharge on raw materials (like nickel), and higher overall demand have resulted in this price hike. This has in turn increased the raw material procurement cost of SS sheet metal component manufacture.

### Delay in construction projects

Demand for SS pipes is largely dependent on development projects undertaken by government entities or agencies. A major economic downturn for example Covid-19 Pandemic like crisis have potential to disrupt

industry demand/delay for various projects. Delay in new projects announcement, clearances, required approval, project implementation and funding issue in industrial and infrastructure projects pose potential risk to pipes demand. On overall basis, SS steel pipes and tube sector have also been impacted by this development in the last two year. Accordingly, capex in overall steel pipes and tubes industry have also observed moderation during FY 2020 and FY 2022. Number of outstanding and new projects announced has gradually reduced over the past three year

### **Threat of imports**

Increasing import from is cited as major threat to stainless steel product manufacturer including SS based pipes & Tubes. Revocation of CVD on imports of certain hot rolled and cold rolled stainless steel flat products originating or exported from China and revocation of the provisional CVD on import of flat products of stainless steel, originating or exported from Indonesia. Surge in cheaper import is severely hurting the supply dynamics of domestic SS industry with underutilized domestic capacity, which is dwindling the revenue, declining profitability, significant unemployment, bringing fresh investment at halt, turning many companies out of business, and converting many manufacturers into trader.

### **Other factors effecting our result of operations are:**

- Employee and sales promotion expenses;
- Entering new markets and growing our network of dealers;
- Changes in laws and regulations applicable to our Industry;
- Company's inability to successfully implement its growth and expansion plans;

#### Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Credit risk encompasses both, the direct risk of default and the risk of deterioration of credit worthiness. Credit risk arises primarily from financial assets such as trade receivables, cash and cash equivalent and other financial assets.

In respect of trade receivables, credit risk is being managed by the company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the company grants credit terms in the normal course of business. The Company ensures that sales of products are made to customers with appropriate creditworthiness. All trade receivables are also reviewed and assessed for default on a regular basis.

The maximum exposure to the credit risk at the reporting date from trade receivables after the provision of Allowance for Credit Loss is as under :

Particulars	March 31, 2023	March 31,	March 31, 2021
		2022	
Trade Receivable	633.72	402.89	332.50

#### General

Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits and vice versa. This assumption depends on the yields on the corporate/government bonds and hence the evaluation of liability is exposed to fluctuations in the yields as at the valuation date.

An analysis of reasons for the changes in significant items of income and expenditure is given hereunder:

**1. Unusual or infrequent events or transactions**

As on date, there have been no unusual or infrequent events or transactions including unusual trends on account of business activity, unusual items of income, change of accounting policies and discretionary reduction of expenses.

**2. Significant economic changes that materially affected or are likely to affect income from continuing operations.**

Apart from the risks as disclosed under Section “Risk Factors” beginning on page 32, there are no significant economic changes that may materially affect or likely to affect income from continuing operations.

**3. Known trends or uncertainties that have had or are expected to have a material adverse impact on sales, revenue or income from continuing operations.**

Apart from the risks as disclosed under Section “Risk Factors” beginning on page 32, in our opinion there are no other known trends or uncertainties that have had or are expected to have a material adverse impact on revenue or income from continuing operations.

**4. Future changes in relationship between costs and revenues**

Our Company’s future costs and revenues will be determined by demand/supply situation, both of the end products as well as the raw materials, government policies and budget constraints of our customer(s).

**5. Increases in net sales or revenue and Introduction of new products or services or increased sales prices**

Increases in revenues are by and large linked to increases in volume of business and also dependent on the price realization on our products.

**6. Status of any publicly announced New Products or Business Segment**

Except as disclosed elsewhere in the Red Herring Prospectus, we have not announced and do not expect to announce in the near future any new products or business segments.

**7. Total Turnover of Each Major Industry Segment in Which the Issuer Operates**

Our business is primarily into manufacturing Stainless-Steel Washers, Sheet Metal Products, Stainless Tube & Pipe and Stainless Steel Finish Line segment is a single reportable segment. Details of the industry turnover and other relevant information is disclosed in the section “Industry Overview” beginning on page 144.

**8. Seasonality of business**

Our Company’s business is not seasonal in nature.

**9. Any Major Dependence on a single or few suppliers or customers**

The % of contribution of our Company’s customer vis-à-vis the revenue from operations respectively as of for the Fiscal 2023, 2022 and 2021 is as follows:

## SECTION VI – LEGAL AND OTHER INFORMATION

### OUTSTANDING LITIGATIONS AND MATERIAL DEVELOPMENTS

*Except as disclosed in this section, there is no (i) outstanding criminal proceeding; (ii) outstanding action taken by regulatory or statutory authorities; (iii) outstanding claims related to direct and indirect taxes, in a consolidated manner; and (iv) other pending litigation as determined to be material pursuant to the Materiality Policy in each case involving our Company, our Directors and our Promoter (“Relevant Parties”). As on the date of this Red Herring Prospectus, our Company does not have any group company.*

*In relation to (iv) above, our Board, at its meeting held on May 12, 2022 has determined Material Litigation as:*

- (i) *if the aggregate amount involved in such individual litigation, to the extent quantifiable, exceeds 5% of the Company’s profit after tax for the most recently completed fiscal year, as per the last Restated Financial Statements (i.e. financial year 2022-23); or*
- (ii) *tax proceedings which individually involve an amount greater than the materiality threshold as defined in (i) above, to be disclosed individually;*
- (iii) *where the monetary impact is not quantifiable or the amount involved may not exceed the materiality threshold set out under (i) above, but where an adverse outcome in any litigation would materially and adversely affect our Company’s business, prospects, operations, financial position or reputation, irrespective of the amount involved in such litigation.*

*The profit after tax of our Company for Fiscal 2023 was ₹ 250.44 million while the total income of our Company for Financial Year 2022-23 was ₹ 4,811.45 million. Accordingly, all such outstanding litigation proceedings where the aggregate monetary claim made by or against the Relevant Parties, in any such outstanding litigation or arbitration proceeding is equal to or in excess of ₹ 12.52 million have been disclosed in this Red Herring Prospectus.*

*Further, there are no disciplinary actions (including penalties) imposed by SEBI or a recognized stock exchange against our Promoter in the last five Fiscals immediately preceding the date of this Red Herring Prospectus, including any outstanding action.*

*It is clarified that for the purposes of above, pre-litigation notices (other than those issued by governmental, statutory or regulatory authorities) received by our Company, or our Directors shall not be considered as litigation until such time that any of our Company, or our Directors, as the case may be, is made a party to proceedings initiated before any court, tribunal or governmental authority or any judicial authority, or is notified by any governmental, statutory or regulatory authority of any such proceeding that may be commenced. Provided that pre-litigation notices received by our Company after filing of the Red Herring Prospectus have been disclosed in this Chapter.*

*Except as stated in this section, there are no outstanding material dues to creditors of our Company. In terms of the Materiality Policy, our Board, at its meeting held on May 12, 2022 has determined ‘Material Dues’ as outstanding dues to creditors (excluding banks and financial institutions from whom the Company has availed of financial facilities) if the amount due to any one of them (‘Material Creditor’) exceeds 10% of the trade payables of the Company as per the last Restated Financial Statements for Financial Year 2022-2023. The trade payables of our Company, as per the last Restated Financial Statements (i.e Financial Year 2022-2023) is INR 374.33 million and accordingly, any outstanding dues exceeding INR 37.43 million have been considered as material outstanding dues for the purposes of disclosure in this section. Details of Material Dues to creditors as required under the SEBI ICDR Regulations have been*

*disclosed on our website at [www.ratnaveer.com](http://www.ratnaveer.com). Further, for outstanding dues to any party which is a micro, small or a medium enterprise (“MSME”), the disclosure will be based on information available with our Company regarding status of the creditor as defined under section 2 of the Micro, Small and Medium Enterprises Development Act, 2006, as amended, as has been relied upon by the Statutory Auditors.*

*Except as disclosed herein, our Company, its Directors and Promoter are not Wilful Defaulters and there have been no violations of securities laws in the past or pending against them.*

*All terms defined in a particular litigation disclosure pertain to that litigation only.*

The delivery of this Red Herring Prospectus, shall not, under any circumstances, create any implication that there has been no change in our affairs from the date hereof or that the information contained herein is correct as of any time subsequent to this date.

No action has been or will be taken to permit a public offering in any jurisdiction where action would be required for that purpose, except that the Red Herring Prospectus was filed with SEBI for its observations. Accordingly, the Equity Shares offered in the Offer may not be offered or sold in any jurisdiction outside India, except in accordance with the legal requirements applicable in such jurisdiction.

Invitations to subscribe to or purchase the Equity Shares in the Offer will be made only pursuant to this Red Herring Prospectus if the recipient is in India or the preliminary offering memorandum for the Offer, which comprises this Red Herring Prospectus and the preliminary international wrap for the Offer, if the recipient is outside India. No person outside India is eligible to Bid for Equity Shares in the Offer unless that person has received the preliminary offering memorandum for the Offer, which contains the selling restrictions for the Offer outside India.

The Equity Shares offered in the Offer have not been and will not be registered, listed or otherwise qualified in any jurisdiction except India and may not be offered or sold in any jurisdiction outside India except in compliance with the applicable laws of such jurisdiction. In particular, the Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act of 1933, amended (U.S. Securities Act) or the securities laws of any state of the United States and may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration

requirements of the U.S. Securities Act and in accordance with any applicable U.S. state securities laws. The Equity Shares offered in the Offer are being offered and sold only outside the United States in ‘offshore transactions’ as defined in and in reliance on Regulation S under the U.S. Securities Act.

Bidders are advised to ensure that any Bid from them does not exceed investment limits or the maximum number of Equity Shares that can be held by them under applicable law. Further, each Bidder where required must agree in the Allotment Advice that such Bidder will not sell or transfer any Equity Shares or any economic interest therein, including any off-shore derivative instruments, such as participatory notes, issued against the Equity Shares or any similar security, other than in accordance with applicable laws.

Each purchaser of the Equity Shares in the Offer who does not receive a copy of the preliminary offering memorandum for the Offer shall be deemed to:

- Represent and warrant to our Company, the Promoter Selling Shareholder and members of the Syndicate that it is in India.
- Represent and warrant to our Company, the Promoter Selling Shareholder and members of the Syndicate that its Bid did not exceed investment limits or the maximum number of Equity Shares that can be held by it under applicable law.
- Acknowledge that the Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act or the laws of any state of the United States and are being offered and sold to it in reliance on Regulation S.
- Represent and warrant to our Company, the Promoter Selling Shareholder and the members of the Syndicate that it was outside the United States (as defined in Regulation S) at the time the offer of the Equity Shares was made to it and it was outside the United States (as defined in Regulation S) when its buy order for the Equity Shares was originated.
- Represent and warrant to our Company, the Promoter Selling Shareholder and the members of the Syndicate that it did not purchase the Equity Shares offered in the Issue as result of any “directed selling efforts” (as defined in Regulation S).
- Represent and warrant to our Company, the Promoter Selling Shareholder and the members of the Syndicate that it bought the Equity Shares for investment purposes and not with a view to the distribution thereof. If in the future it decides to offer, resell, pledge or otherwise transfer any of the Equity Shares purchased in the Offer, it agrees that it will not offer, sell, pledge or otherwise transfer any such Equity Shares except in a transaction complying with Rule 903 or Rule 904 of Regulation S or pursuant to any other available exemption from registration requirements under the U.S. Securities Act and in accordance with all applicable securities laws of the states of the United States and any other jurisdiction, including India.
- Agree to indemnify and hold our Company, the Promoter Selling Shareholder and the members of the Syndicate harmless from any and all costs, claims, liabilities and expenses (including legal fees and expenses) arising out of or in connection with any breach of these representations, warranties or agreements. It agrees that the indemnity set forth in this paragraph shall survive the resale of the Equity Shares purchased in the Offer.
- Represent and warrant to our Company, the Promoter Selling Shareholder and the members of the Syndicate that if it acquired any of the Equity Shares offered in the Offer as fiduciary or agent for one or more investor account(s), it has sole investment discretion with respect to each such account and that it has full power to make the foregoing representations, warranties, acknowledgements and agreements on behalf of each such account.
- Represent and warrant to our Company, the Promoter Selling Shareholder and the members of the Syndicate that if it acquired any of the Equity Shares offered in the Offer for one or more managed account(s), that it was authorized in writing by each such managed account to subscribe to the Equity Shares offered in the Offer for each managed account and to make (and it hereby makes) the

representations, warranties, acknowledgements and agreements herein for and on behalf of each such account, reading the reference to “it” to include such accounts.

- Acknowledge that our Company, the Promoter Selling Shareholder the members of the Syndicate and others will rely upon the truth and accuracy of the foregoing representations, warranties, acknowledgements and agreements.
- References above to ‘it’ in the case of individuals means “he” or ‘she”, as the case may be.

### **Listing**

The Equity Shares of our Company are proposed to be listed on BSE and NSE. Applications have been made to BSE and NSE for permission to deal in and for an official quotation of the Equity Shares. NSE will be the Designated Stock Exchange, with which the Basis of Allotment will be finalized for the Offer.

If the permissions to deal in, and for an official quotation of, the Equity Shares are not granted by any of the Stock Exchanges mentioned above, our Company will forthwith repay, without interest, all monies received from the Bidders in pursuance of the Red Herring Prospectus and Promoter Selling Shareholder will be liable to reimburse our Company for such repayment of monies, on his behalf, with respect to the Offered Shares. If such money is not repaid within the prescribed time, then our Company, the Promoter Selling Shareholder and every officer in default shall be liable to repay the money, with interest, as prescribed under applicable law. Any expense incurred by our Company on behalf of the Promoter Selling Shareholder with regard to interest on such refunds will be reimbursed by the Promoter Selling Shareholder in proportion to the Offered Shares. For the avoidance of doubt, subject to applicable law, the Promoter Selling Shareholder shall not be responsible to pay interest for any delay, except to the extent that such delay has been caused by any act or omission solely attributable to the Promoter Selling Shareholder and to the extent of the Offered Shares.

Our Company shall ensure that all steps for the completion of the necessary formalities for listing and commencement of trading at the Stock Exchanges are taken within six Working Days from the Bid/ Offer Closing Date. Further, the Promoter Selling Shareholder confirm that they shall provide reasonable assistance to our Company, and the Book Running Lead Manager, with respect to the Offered Shares, for the completion of the necessary formalities for listing and commencement of trading at the Stock Exchanges within six Working Days from the Bid/ Offer Closing Date, to the extent of the Offered Shares.

If our Company does not Allot Equity Shares pursuant to the Offer within six Working Days from the Bid/ Offer Closing Date or within such timeline as prescribed by SEBI, it shall repay, without interest, all monies received from Bidders, failing which interest shall be due to be paid to the Bidders at the rate of 15% per annum for the delayed period.

Except for listing fees which shall be solely borne by our Company, all Offer expenses will be shared, upon successful completion of the Offer, between our Company and the Promoter Selling Shareholder on a pro-rata basis, in proportion to the (i) Equity Shares issued and allotted by our Company in the Fresh Issue and (ii) Equity Shares sold by the Promoter Selling Shareholder in the Offer for Sale. However, in the event that the Offer is withdrawn by our Company or not completed for any reason whatsoever, all the Offer related expenses will be solely borne by our Company. Upon successful completion of the Offer, any payments by our Company in relation to the Offer expenses on behalf of the Promoter Selling Shareholder shall be reimbursed by the Promoter Selling Shareholder to our Company inclusive of taxes.

## **Mechanism for Redressal of Investor Grievances**

SEBI, by way of its Master Circular no. SEBI/HO/MIRSD/POD-1/P/CIR/2023/70 dated May 17, 2023 (to the extent applicable) has identified the need to put in place measures, in order to manage and handle investor issues arising out of the UPI Mechanism, inter alia, in relation to delay in receipt of mandates by Bidders for blocking of funds due to systemic issues faced by Designated Intermediaries/SCSBs and failure to unblock funds in cases of partial allotment/non allotment within prescribed timelines and procedures. Per the Master Circular no. SEBI/HO/MIRSD/POD-1/P/CIR/2023/70 dated May 17, 2023 (to the extent applicable), SEBI has prescribed certain mechanisms to ensure proper management of investor issues arising out of the UPI Mechanism, including: (i) identification of a nodal officer by SCSBs for the UPI Mechanism; (ii) delivery of SMS alerts by SCSBs for blocking and unblocking of UPI Mandate Requests; (iii) hosting of a web portal by the Sponsor Banks containing statistical details of mandate blocks/unblocks; (iv) limiting the facility of reinitiating UPI Bids to Syndicate Members to once per Bid; and (v) mandating SCSBs to ensure that the unblock process for non-allotted/partially allotted applications is completed by the closing hours of 1 Working Day to the finalization of the Basis of Allotment.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Master Circular no. SEBI/HO/MIRSD/POD-1/P/CIR/2023/70 dated May 17, 2023 (to the extent applicable) and SEBI Master Circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023 (to the extent applicable).

In terms of SEBI Master Circular no. SEBI/HO/MIRSD/POD-1/P/CIR/2023/70 dated May 17, 2023 (to the extent applicable) and SEBI Master Circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023 (to the extent applicable) and subject to applicable laws, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within 3 months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% p.a. for any delay beyond this period of 15 days. Further, the investors shall be compensated by the SCSBs in accordance with SEBI Master Circular no. SEBI/HO/MIRSD/POD-1/P/CIR/2023/70 dated May 17, 2023 (to the extent applicable), in the events of delayed unblock for cancelled/withdrawn/deleted applications, blocking of multiple amounts for the same UPI application, blocking of more amount than the application amount, delayed unblocking of amounts for non-allotted/partially allotted applications, for the stipulated period. Further, in terms of SEBI Master Circular no. SEBI/HO/MIRSD/POD1/P/CIR/2023/70 dated May 17, 2023 (to the extent applicable), the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLM, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

The Registrar Agreement provides for the retention of records with the Registrar to the Offer for a minimum period of 8 years from the date of listing and commencement of trading of the Equity Shares on the Stock Exchanges, subject to agreement with our Company for storage of such records for longer period, in order to enable the investors to approach the Registrar to the Offer for redressal of their grievances.

All grievances, other than by Anchor Investors, may be addressed to the Registrar to the Offer, with a copy to the relevant Designated Intermediary, where the Bid cum Application Form was submitted, quoting the full name of the sole or First Bidder, Bid cum Application Form number, Bidder's DP ID, Client ID, PAN, address of the Bidder, number of Equity Shares applied for, date of Bid cum Application Form, name and address of the relevant Designated Intermediary, where the Bid was submitted and ASBA Account number (for Bidders other than UPI Bidders bidding through the UPI mechanism) in which the amount equivalent to the Bid Amount was blocked or UPI ID in case of UPI Bidders applying through the UPI mechanism in which

the amount equivalent to the Bid Amount is blocked. Further, the Bidder shall enclose the Acknowledgement Slip or provide the acknowledgement number received from the Designated Intermediaries in addition to the documents/information mentioned hereinabove.

All grievances of the Anchor Investors may be addressed to the Registrar to the Offer, giving full details such as the name of the sole or First Bidder, Bid cum Application Form number, Bidders' DP ID, Client ID, PAN, date of the Bid cum Application Form, address of the Bidder, number of the Equity Shares applied for, Bid Amount paid on submission of the Bid cum Application Form and the name and address of the BRLM with whom the Bid cum Application Form was submitted by the Anchor Investor.

All grievances relating to Bids submitted with the Registered Brokers, may be addressed to the Stock Exchanges, with a copy to the Registrar to the Offer. Further, Bidders shall also enclose a copy of the Acknowledgment Slip received from the Designated Intermediaries in addition to the information mentioned hereinabove.

For helpline details of the BRLM pursuant to SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, see "General Information" on page 87.

### **Disposal of Investor Grievances by our Company**

For further details, see “*Main Provisions of Articles of Association*” beginning on page 407 of this Red Herring Prospectus.

#### **Mode of Payment of Dividend**

Our Company shall pay dividends, if declared, to the Shareholders in accordance with the provisions of the Companies Act, 2013, the Memorandum of Association and the Articles of Association and provisions of the SEBI Listing Regulations and any other guidelines or directions which may be issued by the Government in this regard. Dividends, if any, declared by our Company after the date of Allotment (pursuant to the transfer of Equity Shares from the Offer for Sale), will be payable to the Bidders who have been Allotted Equity Shares in the Offer, for the entire year, in accordance with applicable laws. For further details, in relation to dividends, see “*Dividend Policy*” and “*Main Provisions of Articles of Association*” beginning on pages 248 and 407 respectively of this Red Herring Prospectus.

#### **Face Value, Offer Price and Price Band**

The face value of each Equity Share is ₹ 10/- and the Offer Price at the lower end of the Price Band is ₹ [●] per Equity Share and at the higher end of the Price Band is ₹ [●] per Equity Share. The Anchor Investor Offer Price is ₹ [●] per Equity Share.

The Offer Price, Price Band and the minimum Bid Lot, will be decided by our Company and the Promoter Selling Shareholder, in consultation with the Book Running Lead Manager, and advertised in all editions of Business Standard, an English national daily newspaper, all editions of Business Standard, a Hindi national daily newspaper and Ahmedabad edition of Ahmedabad Express, a Gujarati daily newspaper (Gujarati being the regional language of Gujarat, where our Registered Office is located), each with wide circulation, at least two Working Days prior to the Bid/ Offer Opening Date and shall be made available to the Stock Exchanges for the purpose of uploading the same on their websites. The Price Band, along with the relevant financial ratios

calculated at the Floor Price and at the Cap Price, shall be pre-filled in the Bid cum Application Forms available on the respective websites of the Stock Exchanges.

At any given point of time, there shall be only one denomination of Equity Shares, unless otherwise permitted by law.

### **Compliance with disclosure and accounting norms**

Our Company shall comply with all applicable disclosure and accounting norms as specified by SEBI from time to time.

### **Rights of the Equity Shareholders**

Subject to applicable laws, rules, regulations and guidelines and our Articles of Association, our Shareholders shall have the following rights:

- Right to receive dividends, if declared;
- Right to attend general meetings and exercise voting rights, unless prohibited by law;
- Right to vote on a poll either in person or by proxy and e-voting, in accordance with the provisions of the Companies Act, 2013;
- Right to receive offers for rights shares and be allotted bonus shares, if announced;
- Right to receive surplus on liquidation, subject to any statutory and preferential claim being satisfied;
- Right of free transferability of the Equity Shares, subject to applicable laws; and
- Such other rights, as may be available to a shareholder of a listed public company under the Companies Act, 2013, the SEBI Listing Regulations and our Memorandum of Association and Articles of Association and other applicable laws.

For a detailed description of the main provisions of the Articles of Association of our Company relating to voting rights, dividend, etc., see "*Main Provisions of Articles of Association*" beginning on page 407 of this Red Herring Prospectus.

### **Allotment only in dematerialised form**

Pursuant to Section 29 of the Companies Act, 2013 and the SEBI ICDR Regulations, the Equity Shares shall be allotted only in dematerialised form and trading of the Equity Shares shall also only be in dematerialised form. In this context, two agreements have been signed amongst our Company, the respective Depositories and the Registrar to the Offer:

- Tripartite agreement dated February 21, 2019 amongst our Company, NSDL and the Registrar to the Offer.
- Tripartite agreement dated January 23, 2019 amongst our Company, CDSL and the Registrar to the Offer.

### **Market Lot and Trading Lot**

Since trading of the Equity Shares is in dematerialised form, the tradable lot is one Equity Share. Allotment in this Offer will be only in electronic form in multiples of [●] Equity Share subject to a minimum Allotment of [●] Equity Shares for Retail Individual Bidders and Minimum NIB Application Size for Non-Institutional Bidders.

### **Joint holders**

Where two or more persons are registered as the holders of the Equity Shares, they will be deemed to hold such Equity Shares as joint holders with benefits of survivorship.

## **Jurisdiction**

The courts of Mumbai, Maharashtra, India will have exclusive jurisdiction in relation to this Offer.

## **Period of operation of subscription list**

See “Bid/ Offer Programme” on page 372.

## **Nomination facility to investors**

In accordance with Section 72 of the Companies Act, 2013, and the rules framed thereunder, the sole Bidder, or the first Bidder along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest to the exclusion of all other persons, unless the nomination is varied or cancelled in the prescribed manner. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale/ transfer/ alienation of Equity Share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only in the prescribed form available on request at our Registered Office or to the Registrar and Transfer Agent of our Company.

Further, a nomination may be cancelled or varied by nominating any other person in place of the present nominee, by the holder of the Equity Shares who has made the nomination, by giving a notice of such cancellation or variation to our Company in the prescribed form.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by our Board, elect either:

- a) to register himself or herself as the holder of the Equity Shares; or
- b) to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may, at any time, give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, the Board may thereafter withhold payment of all dividends, interests, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Offer will be made only in dematerialised mode, there is no need to make a separate nomination with our Company. Nominations registered with respective Depository Participant of the Bidder would prevail. If the Bidder wants to change the nomination, they are requested to inform their respective Depository Participant.

## **Withdrawal of the Offer**

The Offer shall be withdrawn in the event that 90% of the Fresh Issue portion is not subscribed.

Our Company and the Promoter Selling Shareholder, in consultation with the Book Running Lead Manager, reserve the right not to proceed with the Fresh Issue and the Promoter Selling Shareholder reserves the right not to proceed with the Offer for Sale, in whole or in part thereof, to the extent of his portion of the Offered Shares, after the Bid/ Offer Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre- Offer advertisements were published, within two days of the Bid/ Offer Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Offer. The Book Running Lead Manager, through the Registrar to the Offer, shall notify

the SCSBs and the Sponsor Banks (in case of RIBs using the UPI Mechanism), to unblock the bank accounts of the ASBA Bidders and the Escrow Collection Bank to release the Bid Amounts to the Anchor Investors, within one Working Day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchanges on which the Equity Shares are proposed to be listed.

Notwithstanding the foregoing, this Offer is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment; and (ii) filing of the Prospectus with the RoC. If Allotment is not made within the prescribed time period under applicable law, the entire subscription amount received will be refunded/unblocked within the time prescribed under applicable law.

If our Company or the Promoter Selling Shareholder, in consultation with the Book Running Lead Manager withdraw the Offer after the Bid/ Offer Closing Date and thereafter determine that they will proceed with public offering of the Equity Shares, our Company shall file a fresh draft red herring prospectus with SEBI and the Stock Exchanges.

SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023, which for the avoidance of doubt, shall be deemed to be incorporated in the deemed agreement of the Company with the SCSBs, to the extent applicable,

*issued by SEBI, and any other applicable law in case of delays in resolving investor grievances in relation to blocking/ unblocking of funds.*

**The above timetable is indicative and does not constitute any obligation or liability on our Company, the Promoter Selling Shareholder or the Book Running Lead Manager.**

Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchanges are taken within six Working Days from the Bid/ Offer Closing Date or such period as may be prescribed, with reasonable support and co-operation of the Promoter Selling Shareholder, as may be required in respect of his portion of the Offered Shares, the timetable may change due to various factors, any delay in receiving the final listing and trading approval from the Stock Exchanges. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchanges and in accordance with the applicable laws. The Promoter Selling Shareholder confirms that he shall extend such reasonable support and co-operation in relation to his portion of the Offered Shares for completion of the necessary formalities for listing and commencement of trading of the Equity Shares at the Stock Exchanges within six Working Days from the Bid/ Offer Closing Date or such other period as may be prescribed by SEBI.

**In terms of the UPI Circulars, in relation to the Offer, the Book Running Lead Manager will be required to submit reports of compliance with timelines and activities prescribed by SEBI in connection with the allotment and listing procedure within six Working Days from the Bid/ Offer Closing Date, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.**

SEBI is in the process of streamlining and reducing the post issue timeline for IPOs. Any circulars or notifications from SEBI after the date of this Red Herring Prospectus may result in changes to the abovementioned timelines. Further, the offer procedure is subject to change basis any revised SEBI circulars to this effect.

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding four Working Days from the Bid/ Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹ 100/- per day or 15% of the application amount, whichever is higher, for the entire duration of delay exceeding four Working Days from the Bid/ Offer Closing Date in terms of the UPI Circulars by the intermediary responsible for causing such delay in unblocking. The BRLM shall, in its sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. For details, please see “Offer Procedure” beginning on page 381 of this RHP.

#### **Submission of Bids (other than Bids from Anchor Investors):**

<b>Bid/ Offer Period (except the Bid/ Offer Closing Date)</b>	
Submission and Revision in Bids	Only between 10:00 a.m. and 5:00 p.m. Indian Standard Time (“IST”)
<b>Bid/ Offer Closing Date*</b>	
Submission and Revision in Bids	Only between 10:00 a.m. and 3:00 p.m. IST

\* UPI mandate end time and date shall be at 5.00pm on Bid/Offer Closing Date

#### **On the Bid/ Offer Closing Date, the Bids shall be uploaded until:**

- (i) 4:00 p.m. IST in case of Bids by QIBs and Non-Institutional Bidders, and
- (ii) until 5:00 p.m. IST or such extended time as permitted by the Stock Exchanges, in case of Bids by retail Individual Investors.

On Bid/ Offer Closing Date, extension of time may be granted by Stock Exchanges only for uploading Bids received by Retail Individual Bidders after taking into account the total number of Bids received and as reported by the Book Running Lead Manager to the Stock Exchanges.

The Registrar to the Offer shall submit the details of cancelled/withdrawn/deleted applications to the SCSBs on daily basis from the Bid/ Offer Opening Date till the Bid/Offer Closing Date by obtaining the same from the Stock Exchanges. The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the BRLM and the Registrar to the Offer on a daily basis, as per the format prescribed in March 2021 Circular and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022.

**It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.**

Due to limitation of time available for uploading the Bids on the Bid/ Offer Closing Date, Bidders were advised to submit their Bids one day prior to the Bid/ Offer Closing Date no later than 1.00 p.m. (Indian Standard Time). Any time mentioned in this Red Herring Prospectus is IST. Bidders are cautioned that, in the event a large number of Bids are received on the Bid/ Offer Closing Date, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under this Offer. Bids and any revision in Bids will be accepted only during Working Days. Bidders may please note that as per letter no. List/smd/sm/2006 dated July 3, 2006 and letter no. NSE/IPO/25101- 6 dated July 6, 2006 issued by BSE and NSE respectively, Bids and any revision in Bids shall not be accepted on Saturdays and public holidays as declared by the Stock Exchanges. Bids by ASBA Bidders shall be uploaded by the relevant Designated Intermediary in the electronic system to be provided by the Stock Exchanges. The Designated Intermediaries shall modify select fields uploaded in the Stock Exchange platform during the Bid/ Offer Period till 5.00 pm on the Bid/ Offer Closing Date after which the Stock Exchange(s) send the bid information to the Registrar to the Offer for further processing.

In case of discrepancy in data entered in the electronic book vis-à-vis data contained in the Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges shall be taken as the final data for the purpose of Allotment.

To avoid duplication, the facility of re-initiation provided to Syndicate Members shall preferably be allowed only once per Bid/batch and as deemed fit by the Stock Exchanges, after closure of the time for uploading Bids.

Investors may please note that as per letter no. List/SMD/SM/2006 dated July 3, 2006 and letter no. NSE/IPO/25101-6 dated July 6, 2006 issued by BSE and NSE respectively, Bids and any revision in Bids shall not be accepted on Saturdays and public holidays as declared by the Stock Exchanges. Bids by ASBA Bidders shall be uploaded by the relevant Designated Intermediary in the electronic system to be provided by the Stock Exchanges.

Our Company in consultation with the Promoter Selling Shareholder and the Book Running Lead Manager, reserves the right to revise the Price Band during the Bid/ Offer Period. The revision in the Price Band shall not exceed 20% on either side, i.e., the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly. The Floor Price shall not be less than the face value of the Equity Shares. In all circumstances, the Cap Price shall be less than or equal to 120% of the Floor Price and shall at all times be at least 105% of the Floor Price.

In case of revision in the Price Band, the Bid/ Offer Period shall be extended for at least three additional Working Days after such revision, subject to the Bid/ Offer Period not exceeding 10 Working Days. In cases of force majeure, banking strike or similar circumstances, our Company and the Promoter Selling Shareholder in consultation with the BRLM may, for reasons to be recorded in writing, extend the Bid/ Offer Period for a minimum of three Working Days, subject to the Bid/ Offer Period not exceeding 10 Working Days. Any revision in Price Band, and the revised Bid/ Offer Period, if applicable, shall be widely disseminated by notification to the Stock Exchanges, by issuing a press release and also by indicating the change on the website of the Book Running

Lead Manager and at the terminals of the Syndicate Members and by intimation to the Designated Intermediaries. In case of revision of price band, the Bid lot shall remain the same.

### **Minimum Subscription**

If our Company does not receive the minimum subscription in the Offer as specified under Rule 19(2)(b) of the SCRR or the minimum subscription of 90% of the Fresh Issue on the Bid/ Offer Closing Date; or subscription level falls below aforesaid minimum subscription after the Bid/ Offer Closing Date due to withdrawal of Bids or technical rejections or any other reason; or in case of devolvement of Underwriting, aforesaid minimum subscription is not received within 60 days from the date of Bid/ Offer Closing Date or if the listing or trading permission is not obtained from the Stock Exchanges for the Equity Shares in the Offer, our Company shall forthwith refund the entire subscription amount received in accordance with applicable laws including the SEBI master circular bearing no. SEBI/HO/CFD/ PoD-2/P /CIR/2023/00094 dated June 21, 2023. If there is a delay beyond four days after our Company and the Promoter Selling Shareholder, to the extent applicable shall pay interest at the rate of 15% per annum. Promoter Selling Shareholder shall be liable to refund money raised in the Offer, only to the extent of his position of Offered Shares, together with any interest on such amount as per applicable laws. No liability to make any payment of interest shall accrue to the Promoter Selling Shareholder unless any delay in making any of the payments hereunder or any delay in obtaining listing or trading approvals in relation to the Offer is solely attributable to such Promoter Selling Shareholder. All refunds made, interest borne, and expenses incurred (with regard to payment of refunds) by the Company on behalf of the Promoter Selling Shareholder will be adjusted or reimbursed by such Promoter Selling Shareholder to our Company as agreed among our Company and the Promoter Selling Shareholder in writing, in accordance with applicable laws.

The requirement for minimum subscription is not applicable for the Offer for Sale. In the event of achieving aforesaid minimum subscription, however, there is under-subscription in achieving the total Offer size, the Equity Shares will be Allotted in the following order:

- (i) such number of Equity Shares will first be Allotted by our Company such that 90% of the Fresh Issue portion is subscribed;
- (ii) upon (i), all the Equity Shares held by the Promoter Selling Shareholder and offered for sale in the Offer for Sale will be Allotted; and
- (iii) once Equity Shares have been Allotted as per (i) and (ii) above, such number of Equity Shares will be Allotted by our Company towards the balance 10% of the Fresh Issue portion;

Further, in terms of Regulation 49(1) of the SEBI ICDR Regulations, our Company shall ensure that the number of Bidders to whom the Equity Shares will be Allotted will be not less than 1,000 failing which the entire application money shall be unblocked in the respective ASBA Accounts of the Bidders.

Subject to valid Bids being received at or above the Offer Price, under-subscription, if any, in any category except the QIB Portion would be allowed to be met with spill-over from other categories or a combination of categories at the discretion of our Company and the Promoter Selling Shareholder in consultation with the BRLM and the Designated Stock Exchange, on a proportionate basis. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill-over from other categories or a combination of categories.

### **Arrangements for disposal of odd lots**

Since our Equity Shares will be traded in dematerialised form only and the market lot for our Equity Shares will be one Equity Share, no arrangements for disposal of odd lots are required.

### **Restrictions, if any on transfer and transmission of Equity Shares**

Except for the lock- in of the pre- Offer Equity Share Capital of our Company, lock- in of the Promoter's contribution and the Anchor Investor lock- in as provided in "*Capital Structure*" beginning on page 96 and except as provided under the Articles of Association, there are no restrictions on transfer of the Equity Shares. Further,

there are no restrictions on transmission of the Equity Shares of our Company and on their consolidation or splitting, except as provided in the Articles of Association. For details, see “*Main Provisions of Articles of Association*” beginning on page 407 of this Red Herring Prospectus.

## **New Financial Instruments**

The Offer is an issue of Equity Shares, and no new financial instruments are issued by our Company through this Offer.

## **Allotment only in Dematerialized Form**

Pursuant to Section 29 of the Companies Act, 2013, the Equity Shares in the Offer shall be Allotted only in dematerialized form. Further, as per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialized form on the Stock Exchanges.

<sup>^</sup> SEBI vide its circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, has mandated that ASBA applications in Public Issues shall be processed only after the application monies are blocked in the bank accounts of the investors. Accordingly, Stock Exchanges shall, for all categories of investors viz. QIBs, Non-Institutional Bidder and RIBs and also for all modes through which the applications are processed, accept the ASBA applications in their electronic book building platform only with a mandatory confirmation on the application monies blocked

(1) Our Company and the Promoter Selling Shareholder, in consultation with the Book Running Lead Manager, may allocate up to 60% of the QIB Category to Anchor Investors at the Anchor Investor Offer Price, on a discretionary basis, subject to there being (i) a maximum of two Anchor Investors, where allocation in the Anchor Investor Portion is up to ₹ 100 million, (ii) minimum of two and maximum of 15 Anchor Investors, where the allocation under the Anchor Investor Portion is more than ₹ 100 million but up to ₹ 2,500 million under the Anchor Investor Portion, subject to a minimum Allotment of ₹ 50 million per Anchor Investor, and (iii) in case of allocation above ₹ 2,500 million under the Anchor Investor Portion, a minimum of five such investors and a maximum of 15 Anchor Investors for allocation up to ₹ 2,500 million, and an additional 10 Anchor Investors for every additional ₹ 2,500 million or part thereof will be permitted, subject to minimum allotment of ₹ 50 million per Anchor Investor. An Anchor Investor will make a minimum Bid of such number of Equity Shares, that the Bid Amount is at least ₹ 100 million. One-third of the Anchor Investor Portion will be reserved for domestic Mutual Funds, subject to valid Bids being received at or above the price at which allocation is made to Anchor Investors. In the event of under-subscription or non-Allotment in the Anchor Investor Portion, the balance Equity Shares in the Anchor Investor Portion shall be added to the Net QIB Portion.

(2) Subject to valid Bids being received at or above the Offer Price. This is an Offer in terms of Rule 19(2)(b) of the SCRR read with Regulation 45 of the SEBI ICDR Regulations. This Offer is being made through the Book Building Process in compliance with Regulation 6(1) of the SEBI ICDR Regulations, wherein not more than 50% of the Offer shall be available for allocation on a proportionate basis to Qualified Institutional Buyers. Such number of Equity Shares representing 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only. The remainder of the QIB Portion shall be available for allocation on a proportionate basis to QIBs, including Mutual Funds, subject to valid Bids being received from them at or above the Offer Price. However, if the aggregate demand from Mutual Funds is less than 5% of the QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining QIB Portion for proportionate allocation to all QIBs. Further, (a) not less than 15% of the Offer shall be available for allocation to Non-Institutional Bidders (out of which (i) one third shall be reserved for applicants with application size of more than ₹0.2 million and up to ₹1 million, and (ii) two-thirds shall be reserved for applicants with application size of more than ₹1 million provided that the unsubscribed portion in either of such sub-categories may be allocated to applicants in the other sub-category of Non-Institutional Bidders) and (b) not less than 35% of the Offer shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received from them at or above the Offer. Subject to valid Bids being received at or above the Offer Price, under-subscription, if any, in the Non-Institutional Portion or the Retail Portion would be allowed to be met with spill-over from other categories or a combination of categories at the discretion of our Company, in consultation with the Promoter Selling Shareholder and the BRLM and the Designated Stock Exchange, on a proportionate basis. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill-over from other categories or a combination of categories.

(3) In case of joint Bids, the Bid cum Application Form should contain only the name of the first Bidder whose name should also appear as the first holder of the beneficiary account held in joint names. The signature of only such first Bidder would be required in the Bid cum Application Form and such first Bidder would be deemed to have signed on behalf of the joint holders. Our Company reserves the right to reject, in its absolute discretion, all or any multiple Bids, except as otherwise permitted, in any or all categories.

(4) Full Bid Amount shall be payable by the Anchor Investors at the time of submission of the Anchor Investor Application Forms provided that any difference between the Anchor Investor Allocation Price and the Anchor Investor Offer Price shall be payable by the Anchor Investor Pay-In Date as indicated in the CAN. Anchor Investors are not permitted to use the ASBA process.

(5) Bids by FPIs with certain structures as described under "Offer Procedure – Bids by FPIs" on page 388 and having the same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares Allocated and Allotted to such successful Bidders (with same PAN) may be proportionately distributed.

Bidders will be required to confirm and will be deemed to have represented to our Company, the Promoter Selling Shareholder, the Underwriters, their respective directors, officers, agents, affiliates and representatives that they are eligible under applicable law, rules, regulations, guidelines and approvals to acquire the Equity Shares.

Subject to valid Bids being received at or above the Offer Price, undersubscription, if any, in any category except the QIB Portion, would be met with spill-over from the other categories or a combination of categories at the discretion of our Company and the Promoter Selling Shareholder, in consultation with the Book Running Lead Manager and the Designated Stock Exchange, on a proportionate basis. For further details, please see the chapter titled "Terms of the Offer" beginning on page 369 of this Red Herring Prospectus.

## OFFER PROCEDURE

All Bidders should read the General Information Document for Investing in Public Offers prepared and issued in accordance with the circular no. SEBI/HO/CFD/DIL1/CIR/P/2020/37 dated March 17, 2020 and the UPI Circulars (the “General Information Document”) which highlights the key rules, processes and procedures applicable to public issues in general in accordance with the provisions of the Companies Act, the SCRA, the SCRR and the SEBI ICDR Regulations. The General Information Document is available on the websites of the Stock Exchanges and the BRLM. Please refer to the relevant provisions of the General Information Document which are applicable to the Offer.

*Bidders may refer to the General Information Document for information in relation to (i) category of investors eligible to participate in the Offer; (ii) maximum and minimum Bid size; (iii) price discovery and allocation; (iv) payment instructions for ASBA Bidders; (v) issuance of Confirmation of Allocation Note (“CAN”) and Allotment in the Offer; (vi) general instructions (limited to instructions for completing the Bid cum Application Form); (vii) designated date; (viii) disposal of applications and electronic registration of bids; (ix) submission of Bid cum Application Form; (x) other instructions (limited to joint bids in cases of individual, multiple bids and instances when an application would be rejected on technical grounds); (xi) applicable provisions of Companies Act relating to punishment for fictitious applications; (xii) mode of making refunds; and (xiii) interest in case of delay in Allotment or refund.*

*SEBI through the UPI Circulars has proposed to introduce an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. UPI has been introduced in a phased manner as a payment mechanism in addition to ASBA for applications by Retail Individual Bidders through intermediaries from January 1, 2019. The UPI Mechanism for Retail Individual Bidders applying through Designated Intermediaries, in phase I, was effective along with the prior process and existing timeline of T+6 days (“UPI Phase I”), until June 30, 2019. Subsequently, for applications by Retail Individual Bidders through Designated Intermediaries, the process of physical movement of forms from Designated Intermediaries to SCSBs for blocking of funds has been discontinued and RIBs submitting their ASBA Forms through Designated Intermediaries (other than SCSBs) can only use UPI Mechanism with existing timeline of T+6 days until further notice pursuant to SEBI circular (SEBI/HO/CFD/DIL2/CIR/P/2020/50) dated March 30, 2020 (“UPI Phase II”). The final reduced timeline will be made effective using the UPI Mechanism for applications by Retail Individual Bidders (“UPI Phase III”), as may be prescribed by SEBI. Subsequently, however, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II until further notice. The final reduced timeline of T+3 days will be made effective using the UPI Mechanism for applications by RIBs (“UPI Phase III”), as may be prescribed by SEBI. Subsequently, pursuant to press release bearing number 12/2023, the revised timeline of T+3 days shall be made applicable in two phases i.e. (i) voluntary for all public issues opening on or after September 1, 2023; and (ii) mandatory on or after December 1, 2023 (“T+3 Press Release”).*

*The Offer will be undertaken pursuant to the processes and procedures under UPI Phase II, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI pursuant to the T+3 Press Release. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances, including the reduction of time period for unblocking of application monies from 15 days to four days. This circular is effective for initial public offers opening on or after May 1, 2021, except as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and the provisions of this circular, as amended, are deemed to form part of this Red Herring Prospectus. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022,*

*all individual bidders in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹500,000 shall use the UPI Mechanism and shall also provide their UPI ID in the Bid cum Application Form submitted with Syndicate Members, Registered Brokers, Collecting Depository Participants and Registrar has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. Pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings shall be processed only after application monies are blocked in the bank accounts of investors (all categories).*

*In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding four Working Days from the Bid/Offer Closing Date, in accordance with the SEBI master circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023, the Bidder shall be compensated at a uniform rate of ₹100 per day for the entire duration of delay exceeding four Working Days from the Bid/Offer Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLMs shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. Further, SEBI vide its master circular no. SEBI/HO/CFD/PoD-2/P/CIR/2023/00094 dated June 21, 2023, has reduced the timelines for refund of Application money to four days.*

*In terms of Regulation 23(5) and Regulation 52 of SEBI ICDR Regulations, the timelines and processes mentioned in SEBI Circular. No. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 shall continue to form part of the agreements being signed between the intermediaries involved in the public issuance process and lead manager shall continue to coordinate with intermediaries involved in the said process.*

*Further, our Company, the Promoter Selling Shareholder and the BRLM are not liable for any amendment, modification or change in the applicable law which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or as specified in the Red Herring Prospectus and the Prospectus.*

*The BRLM shall be the nodal entity for any issues arising out of public issuance process.*

*Our Company, the Promoter Selling Shareholder and the BRLM are not liable for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in this Offer.*

## **Book Building Procedure**

The Offer is being made in terms of Rule 19(2)(b) of the SCRR through the Book Building Process in accordance with Regulation 6(1) of the SEBI ICDR Regulations wherein not more than 50% of the Offer shall be available for allocation to QIBs on a proportionate basis, provided that our Company and the Promoter Selling Shareholder in consultation with the BRLM may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which one-third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from them at or above the Anchor Investor Allocation Price. Further, in the event of under-subscription, or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not less than 15% of the Offer shall be available for allocation to Non-Institutional Bidders and not less than 35% of the Offer shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price. The Equity Shares available for allocation to Non-Institutional Bidders under the Non-

Institutional Portion, shall be subject to the following: (i) one third of the portion available to Non-Institutional Bidders shall be reserved for Bidders with an application size of more than ₹0.20 million and up to ₹1.00 million, and (ii) two-third of the portion available to Non-Institutional Bidders shall be reserved for Bidders with application size of more than ₹1.00 million, provided that the unsubscribed portion in either of the aforementioned sub-categories may be allocated to Bidders in the other subcategory of Non-Institutional Bidders.

Under-subscription, if any, in any category except in the QIB Portion, would be allowed to be met with spill over from any other category or combination of categories on proportionate basis, at the discretion of our Company and the Promoter Selling Shareholder in consultation with the BRLM and the Designated Stock Exchange subject to applicable laws. Under-subscription, if any, in the QIB Portion, would not be allowed to be met with spill-over from any other category or a combination of categories.

The Equity Shares, on Allotment, shall be traded only in the dematerialized segment of the Stock Exchanges.

**Investors must ensure that their PAN is linked with Aadhaar and are in compliance with Central Board of Direct Taxes notification dated February 13, 2020 and press releases dated June 25, 2021 and September 17, 2021.**

**Bidders should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialized form. The Bid cum Application Forms which do not have the details of the Bidders' depository account, including the DP ID and the Client ID and the PAN and UPI ID (for UPI Bidders Bidding through the UPI Mechanism), shall be treated as incomplete and will be rejected. Bidders will not have the option of being Allotted Equity Shares in physical form. However, they may get the Equity Shares dematerialized subsequent to Allotment of the Equity Shares in the IPO.**

#### **Phased implementation of UPI for Bids by RIBs as per the UPI Circulars**

SEBI has issued UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles by introducing an alternate payment mechanism using UPI. Pursuant to the UPI Circulars, UPI has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIBs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced and implemented the UPI payment mechanism in three phases in the following manner:

- (a) **Phase I:** This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended until June 30, 2019. Under this phase, an RIB also had the option to submit the ASBA Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing would continue to be six Working Days.
- (b) **Phase II:** This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 has decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Under this phase, submission of the physical ASBA Form by an RIB through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and is replaced by the UPI payment mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. Subsequently, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice.

- (c) **Phase III:** The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing would be reduced to be three Working Days.

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circulars include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints, the relevant SCSB as well as the post-Offer BRLM will be required to compensate the concerned investor.

The Offer will be made under UPI Phase II of the UPI Circular, unless UPI Phase III of the UPI Circular becomes effective and applicable on or prior to the Bid/ Offer Opening Date. All SCSBs offering facility of making application in public issues shall also provide facility to make application using UPI.

Our Company will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/or payment instructions of the UPI Bidders using the UPI.

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the BRLM.

#### ***Electronic registration of Bids***

- a) The Designated Intermediary may register the Bids using the online facilities of the Stock Exchanges. The Designated Intermediaries can also set up facilities for off-line electronic registration of Bids, subject to the condition that they may subsequently upload the off-line data file into the online facilities for the Book Building process on a regular basis before the closure of the Offer.
- b) On the Bid / Offer Closing Date, the Designated Intermediaries may upload the Bids till such time as may be permitted by the Stock Exchanges and as disclosed in the Red Herring Prospectus.
- c) Only Bids that are uploaded on the Stock Exchanges' platform are considered for allocation / Allotment. The Designated Intermediaries are given till 5:00 pm on the Bid / Offer Closing Date to modify select fields uploaded in the Stock Exchanges' platform during the Bid / Offer Period after which the Stock Exchange(s) send the bid information to the Registrar to the Offer for further processing.

#### **Bid cum Application Form**

Copies of the Bid cum Application Form (other than for Anchor Investors) and the Abridged Prospectus will be available with the Designated Intermediaries at relevant Bidding Centers and at our Registered and Corporate Office. An electronic copy of the ASBA Form will also be available for download on the websites of NSE ([www.nseindia.com](http://www.nseindia.com)) and BSE ([www.bseindia.com](http://www.bseindia.com)) at least one day prior to the Bid / Offer Opening Date.

Copies of the Anchor Investor Application Form will be available at the offices of the BRLM.

All Bidders (other than Anchor Investors) must compulsorily use the ASBA process to participate in the Offer.

Anchor Investors are not permitted to participate in this Offer through the ASBA process.

Bidders (other than Anchor Investors and UPI Bidders Bidding using the UPI Mechanism) must provide bank account details and authorisation by the ASBA account holder to block funds in their respective ASBA accounts in the relevant space provided in the Bid cum Application Form and the Bid cum Application Form that does not contain such details are liable to be rejected.

Retail Individual Bidders submitting their Bid cum Application Form to any Designated Intermediary (other than SCSBs) shall be required to Bid using the UPI Mechanism and must provide the UPI ID in the relevant space provided in the Bid cum Application Form. Bids submitted by Retail Individual Bidders with any Designated Intermediary (other than SCSBs) without mentioning the UPI ID are liable to be rejected. UPI Bidders Bidding using the UPI Mechanism may also apply through the SCSBs and mobile applications using the UPI handles as provided on the website of SEBI.

Further, ASBA Bidders shall ensure that the Bids are submitted at the Bidding Centres only on ASBA Forms bearing the stamp of a Designated Intermediary (except in case of electronic ASBA Forms) and ASBA Forms not bearing such specified stamp maybe liable for rejection. Bidders using the ASBA process to participate in the Offer must ensure that the ASBA Account has sufficient credit balance such that an amount equivalent to the full Bid Amount can be blocked therein. In order to ensure timely information to investors SCSBs are required to send SMS alerts to investors intimating them about the Bid Amounts blocked / unblocked.

Since the Offer is made under Phase II, ASBA Bidders may submit the ASBA Form in the manner below:

- i. RIBs (other than the RIBs using UPI Mechanism) may submit their ASBA Forms with SCSBs (physically or online, as applicable), or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.
- ii. UPI Bidders using the UPI Mechanism, may submit their ASBA Forms with the Syndicate, Sub-Syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.
- iii. QIBs and NIBs not using the UPI Mechanism may submit their ASBA Forms with SCSBs, Syndicate, Sub-Syndicate members, Registered Brokers, RTAs or CDPs.

ASBA Bidders are also required to ensure that the ASBA Account has sufficient credit balance as an amount equivalent to the full Bid Amount which can be blocked by the SCSB or the Sponsor Bank(s), as applicable, at the time of submitting the Bid. In order to ensure timely information to investors, SCSBs are required to send SMS alerts to investors intimating them about Bid Amounts blocked / unblocked.

For all IPOs opening on or after September 1, 2022, as specified in SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, all the ASBA applications in Public Issues shall be processed only after the application monies are blocked in the investor's bank accounts. Stock Exchanges shall accept the ASBA applications in their electronic book building platform only with a mandatory confirmation on the application monies blocked. The circular shall be applicable for all categories of investors viz. Retail, QIB and NIB and also for all modes through which the applications are processed.

Non-Institutional Bidders bidding through UPI Mechanism must provide the UPI ID in the relevant space provided in the Bid cum Application Form. UPI Bidders Bidding using the UPI Mechanism.

The prescribed colour of the Bid cum Application Forms for various categories is as follows:

Non-Residents including FPIs, Eligible NRIs applying on a repatriation basis, FVCIs and registered bilateral and multilateral institutions	Blue
Anchor Investors**	White

\*Excluding electronic Bid cum Application Forms

*Notes:*

(1) Electronic Bid cum Application forms will also be available for download on the website of NSE ([www.nseindia.com](http://www.nseindia.com)) and BSE ([www.bseindia.com](http://www.bseindia.com)).

(2) Bid cum Application Forms for Anchor Investors will be made available at the offices of the BRLM.

\*\*Anchor Investors Application forms will be made available only at the Office of the BRLM

In case of ASBA Forms, the relevant Designated Intermediaries shall upload the relevant Bid details in the electronic bidding system of the Stock Exchanges. Designated Intermediaries (other than SCSBs) shall submit / deliver the ASBA Forms (except Bid cum Application Forms submitted by UPI Bidders Bidding using the UPI Mechanism) to the respective SCSB, where the Bidder has a bank account and shall not submit it to any non SCSB bank or any Escrow Collection Bank(s). For UPI Bidders using the UPI Mechanism, the Stock Exchanges shall share the Bid details (including UPI ID) with the Sponsor Bank(s) on a continuous basis to enable the Sponsor Bank(s) to initiate a UPI Mandate Request to such UPI Bidders for blocking of funds. The Sponsor Bank(s) shall initiate request for blocking of funds through NPCI to RIBs, who shall accept the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. The NPCI shall maintain an audit trail for every Bid entered in the Stock Exchanges bidding platform, and the liability to compensate RIBs (Bidding through UPI Mechanism) in case of failed transactions shall be with the concerned entity (i.e., the Sponsor Bank(s), NPCI or the issuer bank) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions / investor complaints to the Sponsor Bank(s) and the issuer bank. The Sponsor Bank(s) and the Banker to the Offer shall provide the audit trail to the BRLM for analysing the same and fixing liability. For ensuring timely information to investors, SCSBs shall send SMS alerts as specified in SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021.

For all pending UPI Mandate Requests, the Sponsor Bank shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 5:00 pm on the Bid/Issue Closing Date (“Cut-Off Time”). Accordingly, UPI Bidders should accept UPI Mandate Requests for blocking off funds prior to the Cut-Off Time and all pending UPI Mandate Requests at the Cut-Off Time shall lapse.

The Sponsor Bank(s) will undertake a reconciliation of Bid responses received from Stock Exchanges and sent to NPCI and will also ensure that all the responses received from NPCI are sent to the Stock Exchanges platform with detailed error code and description, if any. Further, the Sponsor Bank(s) will undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and share reports with the BRLM in the format and within the timelines as specified under the UPI Circulars. Sponsor Bank(s) and issuer banks shall download UPI settlement files and raw data files from the NPCI portal after every settlement cycle and do a three way reconciliation with Banks UPI switch data, CBS data and UPI raw data. NPCI is to coordinate with issuer banks and Sponsor Bank(s) on a continuous basis.

The Sponsor Bank(s) shall host a web portal for intermediaries (closed user group) from the date of Bid / Offer Opening Date till the date of listing of the Equity Shares with details of statistics of mandate blocks / unblocks, performance of apps and UPI handles, down-time / network latency (if any) across intermediaries and any such processes having an impact / bearing on the Offer Bidding process.

Participation by Promoter, Promoter Group, the BRLM, associates and affiliates of the BRLM and the Syndicate Members and the persons related to Promoter, Promoter Group, BRLM and the Syndicate Members and Bids by Anchor Investors The BRLM and the Syndicate Members shall not be allowed to purchase the Equity Shares in any manner, except towards fulfilling their underwriting obligations. However, the respective associates and affiliates of the BRLM and the Syndicate Members may purchase Equity Shares in the Offer, either in the QIB Portion or in the Non- Institutional Category as may be applicable to such Bidders, and such subscription may be on their own account or on behalf of their clients. All categories of investors, including respective associates or affiliates of the BRLM and Syndicate Members, shall be treated equally for the purpose of allocation to be made on a proportionate basis.

Except for Mutual Funds, AIFs or FPIs other than individuals, corporate bodies and family offices sponsored by entities which are associates of the BRLM or insurance companies promoted by entities which are associates of the BRLM, no BRLM or their respective associates can apply in the Offer under the Anchor Investor Portion.

Further, an Anchor Investor shall be deemed to be an “associate of the Book Running Lead Manager” if: (i) either of them controls, directly or indirectly through its subsidiary or holding company, not less than 15% of the voting rights in the other; or (ii) either of them, directly or indirectly, by itself or in combination with other persons, exercises control over the other; or (iii) there is a common director, excluding nominee director, amongst the Anchor Investors and the BRLM.

Further, the Promoter and members of the Promoter Group shall not participate by applying for Equity Shares in the Offer, except in accordance with the applicable law. Furthermore, persons related to the Promoter and the Promoter Group shall not apply in the Offer under the Anchor Investor Portion. It is clarified that a qualified institutional buyer who has rights under a shareholders’ agreement or voting agreement entered into with any of the Promoter or members of the Promoter Group of our Company, veto rights or a right to appoint any nominee director on our Board, shall be deemed to be a person related to the Promoter or Promoter Group of our Company.

### **Bids by Mutual Funds**

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged with the Bid cum Application Form. Failing this, the Company in consultation with BRLM reserves the right to reject any Bid without assigning any reason thereof. Bids made by asset management companies or custodians of Mutual Funds shall specifically state names of the concerned schemes for which such Bids are made.

In case of a Mutual Fund, a separate Bid may be made in respect of each scheme of a Mutual Fund registered with the SEBI and such Bids in respect of more than one scheme of a Mutual Fund will not be treated as multiple Bids, provided that such Bids clearly indicate the scheme for which the Bid is submitted.

No Mutual Fund scheme shall invest more than 10% of its net asset value in equity shares or equity related instruments of any single company provided that the limit of 10% shall not be applicable for investments in case of index funds or sector or industry specific scheme. No Mutual Fund under all its schemes should own more than 10% of any company’s paid-up share capital carrying voting rights.

### **Bids by Eligible NRIs**

Eligible NRIs may obtain copies of Bid cum Application Form from the offices of the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRIs Bidding on a repatriation basis should authorise their SCSBs or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident External Accounts (“**NRE Account**”), or Foreign Currency Non-Resident Accounts (“**FCNR Account**”), and Eligible NRIs bidding on a non-repatriation basis should authorise their SCSBs or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident Ordinary (“**NRO**”) accounts for the full Bid amount, at the time of submission of the Bid cum Application Form.

Participation of Eligible NRIs in the Offer shall be subject to the FEMA regulations. NRIs applying in the Offer through the UPI Mechanism are advised to enquire with the relevant bank, whether their account is UPI linked, prior to submitting a Bid cum Application Form.

In accordance with the FEMA Rules, the total holding by any individual NRI, on a repatriation basis, shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

Eligible NRIs will be permitted to apply in the Offer through Channel I or Channel II (as specified in the SEBI UPI Circulars). Further, subject to applicable law, Eligible NRIs may use Channel IV (as specified in the SEBI UPI Circulars) to apply in the Offer, provided the UPI facility is enabled for their NRE / NRO accounts.

Eligible NRIs Bidding on a repatriation basis are advised to use the Bid cum Application Form meant for Non Residents (blue in colour). Eligible NRIs Bidding on non-repatriation basis are advised to use the Bid cum Application Form for residents (white in colour). By way of Press Note 1 (2021 Series) dated March 19, 2021, issued by the DPIIT, it has been clarified that an investment made by an Indian entity which is owned and controlled by NRIs on a non-repatriation basis, shall not be considered for calculation of indirect foreign investment.

For details of restrictions on investment by NRIs, see “Restrictions on Foreign Ownership of Indian Securities” on page 405.

### **Bids by HUFs**

Bids by Hindu Undivided Families or HUFs, should be made in the individual name of the Karta. The Bidder should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form / Application Form as follows: “Name of sole or First Bidder: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta”. Bids by HUFs will be considered at par with Bids from individuals.

### **Bids by FPIs**

In terms of applicable FEMA Rules and the SEBI FPI Regulations, investments by FPIs in the Equity Shares is subject to certain limits, i.e., the individual holding of an FPI (including its investor group (which means multiple entities registered as foreign portfolio investors and directly or indirectly, having common ownership of more than 50% or common control)) shall be below 10% of our post-Offer Equity Share capital on a fully diluted basis. In case the total holding of an FPI or investor group increase beyond 10% of the total paid-up Equity Share capital of our Company, on a fully diluted basis, the total investment made by the FPI or investor group will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements. Further, the total holdings of all FPIs put together can

be up to the sectoral cap applicable to the sector in which our Company operates (i.e., up to 100%). In terms of the FEMA Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company in consultation with BRLM, reserve the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Offer are advised to use the Bid cum Application Form for Non-Residents (blue in colour).

To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Offer to ensure there is no breach of the investment limit, within the timelines for issue procedure, as prescribed by SEBI from time to time. Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI is permitted to issue, subscribe to, or otherwise deal in offshore derivative instruments, directly or indirectly, only if it complies with the following conditions:

- (a) such offshore derivative instruments are issued only by persons registered as Category I FPIs;
- (b) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs;
- (c) such offshore derivative instruments are issued after compliance with the ‘know your client’ norms as specified by SEBI; and
- (d) such other conditions as may be specified by SEBI from time to time.

An FPI is required to ensure that the transfer of an offshore derivative instruments issued by or on behalf of it, is subject to (a) the transfer being made to persons which fulfil the criteria provided under Regulation 21(1) of the SEBI FPI Regulations (as mentioned above from points (a) to (d)); and (b) prior consent of the FPI is obtained for such transfer, except in cases, where the persons to whom the offshore derivative instruments are to be transferred, are pre-approved by the FPI.

Further, Bids received from FPIs bearing the same PAN shall be treated as multiple Bids and are liable to be rejected, except for Bids from FPIs that utilize the multiple investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Investors and Designated Depository Participants which were issued in November 2019 to facilitate implementation of SEBI FPI Regulations (such structure “**MIM Structure**”) provided such Bids have been made with different beneficiary account numbers, Client IDs and DP IDs. Accordingly, it should be noted that multiple Bids received from FPIs, who do not utilize the MIM Structure, and bear the same PAN, are liable to be rejected. Bids by FPIs shall not be treated as multiple Bids, in the following cases:

- FPIs dematerialize the MIM Structure;
- FPIs which utilise the multi investment manager structure;
- Offshore derivative instruments which have obtained separate FPI registration for ODI and proprietary derivative investments;
- Sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration;
- FPI registrations granted at investment strategy level / sub fund level where a collective investment scheme or fund has multiple investment strategies / sub-funds with identifiable differences and managed by a single investment manager.
- Multiple branches in different jurisdictions of foreign bank registered as FPIs;
- Government and Government related investors registered as Category 1 FPIs; and
- Entities registered as collective investment scheme having multiple share classes.

The Bids belonging to any of the above mentioned seven structures and having same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares allotted in the Bid may be proportionately distributed to the applicant FPIs (with same PAN).

In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs making multiple Bids utilize any of the above-mentioned structures and indicate the name of their respective investment managers in such confirmation. In the absence of such compliance from the relevant FPIs with the operational guidelines for FPIs and designated Collecting Depository Participants issued to facilitate implementation of SEBI FPI Regulations, such multiple Bids shall be rejected.

Participation of FPIs in the Offer shall be subject to the FEMA Rules.

**There is no reservation for Eligible NRI Bidders, AIFs and FPIs. All Bidders will be treated on the same basis with other categories for the purpose of allocation.**

**Bids by SEBI registered Alternative Investment Funds, Venture Capital Funds and Foreign Venture Capital Investors**

The Securities and Exchange Board of India (Alternative Investment Funds) Regulations, 2012, as amended (the “SEBI AIF Regulations”) prescribe, amongst others, the investment restrictions on AIFs. Post the repeal of the Securities and Exchange Board of India (Venture Capital Funds) Regulations, 1996, venture capital funds which have not re-registered as AIFs under the SEBI AIF Regulations shall continue to be regulated by the Securities and Exchange Board of India (Venture Capital Funds) Regulations, 1996 until the existing fund or scheme managed by the fund is wound up and such fund shall not launch any new scheme after the notification of the SEBI AIF Regulations. The Securities and Exchange Board of India (Foreign Venture Capital Investors) Regulations, 2000, as amended (“SEBI FVCI Regulations”) prescribe the investment restrictions on FVCIs.

The Category I and II AIFs cannot invest more than 25% of their investible funds in one investee company. A Category III AIF cannot invest more than 10% of its investible funds in one investee company. A VCF registered as a Category I AIF, cannot invest more than one-third of its investible funds, in the aggregate, in certain specified instruments, including by way of subscription to an initial public offering of a venture capital undertaking. An FVCI can invest only up to 33.33% of its investible funds, in the aggregate, in certain specified instruments, which includes subscription to an initial public offering of a venture capital undertaking or an investee company (as defined under the SEBI AIF Regulations) whose shares are proposed to be listed.

Participation of AIFs, VCFs and FVCIs shall be subject to the FEMA Rules.

**All non-resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.**

Our Company, the Promoter Selling Shareholder or the BRLM will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

**Bids by limited liability partnerships**

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company and the Promoter Selling Shareholder, in consultation with BRLM, reserves the right to reject any Bid without assigning any reason thereof.

### **Bids by banking companies**

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee is required to be attached to the Bid cum Application Form, failing which our Company and the Promoter Selling Shareholder in consultation with BRLM, reserve the right to reject any Bid without assigning any reason thereof, subject to applicable law.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949 (the "Banking Regulation Act"), and Master Direction – Reserve Bank of India (Financial Services provided by Banks) Directions, 2016 is 10% of the paid-up share capital of the investee company or 10% of the bank's own paid-up share capital and reserves, as per the last audited balance sheet or a subsequent balance sheet, whichever is less. Further, the aggregate investment in subsidiaries and other entities engaged in financial and nonfinancial services cannot exceed 20% of the bank's paid-up share capital and reserves. A banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid-up share capital of such investee company if: (a) the investee company is engaged in non-financial activities in which banking companies are permitted to engage under the Banking Regulation Act or the additional acquisition is through restructuring of debt / corporate debt restructuring / strategic debt restructuring, or to protect the bank's interest on loans / investments made to a company, provided that the bank is required to submit a time-bound action plan for disposal of such shares (in this sub-clause (b)) within a specified period to the RBI. A banking company would require a prior approval of the RBI to make investment in excess of 30% of the paid-up share capital of the investee company, investment in a subsidiary and a financial services company that is not a subsidiary (with certain exceptions prescribed), and investment in a non-financial services company in excess of 10% of such investee company's paid-up share capital as stated in the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended.

### **Bids by SCSBs**

SCSBs participating in the Offer are required to comply with the terms of the circulars dated September 13, 2012 and January 2, 2013 issued by SEBI. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such Bids.

### **Bids by insurance companies**

In case of Bids made by insurance companies registered with the IRDAI, a certified copy of certificate of registration issued by IRDAI must be attached to the Bid cum Application Form. Failing this, the Company and the Promoter Selling Shareholder in consultation with BRLM, reserves the right to reject any Bid without assigning any reason thereof. The exposure norms for insurers are prescribed under Regulation 9 of the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016 ("IRDA Investment Regulations"), and are based on investments in the equity shares of a company, the entire group of the investee company and the industry sector in which the investee company operates. Bidders are advised to refer to the IRDA Investment Regulations for specific investment limits applicable to them and shall comply with all applicable regulations, guidelines and circulars issued by IRDAI from time to time.

### **Bids by Systemically Important Non-Banking Financial Companies**

#### **Names of entities responsible for finalising the basis of allotment in a fair and proper manner**

The authorised employees of the Designated Stock Exchange, along with the BRLM and the Registrar, shall ensure that the basis of allotment is finalised in a fair and proper manner in accordance with the procedure specified in SEBI ICDR Regulations.

## **Method of allotment as may be prescribed by SEBI from time to time**

Our Company will not make any Allotment in excess of the Equity Shares offered through the Offer through the offer document except in case of oversubscription for the purpose of rounding off to make Allotment, in consultation with the Designated Stock Exchange. Further, upon oversubscription, an Allotment of not more than 1% of the net offer to public may be made for the purpose of making Allotment in minimum lots.

The allotment of Equity Shares to Bidders other than to the Retail Individual Bidders, Non-Institutional Bidders and Anchor Investors shall be on a proportionate basis within the respective investor categories and the number of securities allotted shall be rounded off to the nearest integer, subject to minimum allotment being equal to the minimum application size as determined and disclosed.

The allotment of Equity Shares to each Retail Individual Bidder shall not be less than the minimum Bid Lot, subject to the availability of Equity Shares in Retail Individual Bidder category, and the remaining available Equity Shares, if any, shall be allotted on a proportionate basis.

The allotment to each Non-Institutional Bidder shall not be less than the minimum application size, subject to the availability of Equity Shares in the Non-Institutional Portion, and the remaining Equity Shares, if any, shall be allotted on a proportionate basis in accordance with the conditions specified in this regard mentioned in SEBI ICDR Regulations.

## **Payment into Escrow Account(s) for Anchor Investors**

Our Company and the Promoter Selling Shareholder, in consultation with the BRLM, in their absolute discretion, will decide the list of Anchor Investors to whom the Allotment Advice will be sent, pursuant to which the details of the Equity Shares allocated to them in their respective names will be notified to such Anchor Investors. Anchor Investors are not permitted to Bid in the Offer through the ASBA process. Instead, Anchor Investors should transfer the Bid Amount (through direct credit, RTGS, NACH or NEFT) to the Escrow Accounts. The payment instruments for payment into the Escrow

Accounts should be drawn in favour of:

1. In case of resident Anchor Investors and Underwriters: "RATNAVEER PRECISION ENGINEERING LIMITED IPO ANCHOR INVESTOR R"

(ii) In case of non-resident Anchor Investors investing on non- repatriation basis: "RATNAVEER PRECISION ENGINEERING LIMITED IPO ANCHOR INVESTOR NR"

Anchor Investors should note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between our Company, the Promoter Selling Shareholder, the Syndicate, the Banker to the Offer and the Registrar to the Offer to facilitate collections from Anchor Investors.

## **Allotment Advertisement**

Our Company, the BRLM and the Registrar shall publish an allotment advertisement before commencement of trading, disclosing the date of commencement of trading in all editions of Business Standard, an English national daily newspaper, all editions of Business Standard, a Hindi national daily newspaper and Ahmedabad edition of Ahmedabad Express, a Gujarati newspaper (Gujarati being the regional language of Gujarat, where our Registered Office is located),

## **Depository Arrangements**

The Allotment of the Equity Shares in the Offer shall be only in a 401ecognize401ize401 form, (i.e., not in the form of physical certificates but be fungible and be represented by the statement issued through the electronic mode). In this context, tripartite agreements had been signed amongst our Company, the respective Depositories and the Registrar to the Offer:

- Tripartite agreement dated February 21, 2019 amongst our Company, NSDL and the Registrar to the Offer.
- Tripartite agreement dated January 23, 2019 amongst our Company, CDSL and the Registrar to the Offer.

### **Undertakings by our Company**

Our Company undertakes the following:

- (i) that the complaints received in respect of the Offer shall be attended to by our Company expeditiously and satisfactorily;
- (ii) that if the Allotment is not made within the prescribed time period under applicable law, the entire subscription amount received will be refunded / unblocked within the time prescribed under applicable law, failing which interest will be due to be paid to the Bidders at the rate prescribed under applicable law for the delayed period;
- (iii) that all steps will be taken for completion of the necessary formalities for listing and commencement of trading at all the Stock Exchanges where the Equity Shares are proposed to be listed within six Working Days of the Bid / Offer Closing Date or such other time as may be prescribed;
- (iv) that funds required for making refunds to unsuccessful applicants as per the mode(s) disclosed shall be made available to the Registrar to the Offer by our Company;
- (v) where refunds (to the extent applicable) are made through electronic transfer of funds, a suitable communication shall be sent to the applicant within the time prescribed under applicable law, giving details of the bank where refunds shall be credited along with amount and expected date of electronic credit of refund;
- (vi) that if our Company does not proceed with the Offer after the Bid / Offer Closing Date but prior to Allotment, the reason thereof shall be given as a public notice within two days of the Bid / Offer Closing Date. The public notice shall be issued in the same newspapers where the pre-Offer advertisements were published. The Stock Exchanges on which the Equity Shares are proposed to be listed shall also be informed promptly;
- (vii) that if our Company and the Promoter Selling Shareholder in consultation with the BRLM, withdraw the Offer after the Bid / Offer Closing Date, our Company shall be required to file a fresh draft offer document with SEBI, in the event our Company and/or the Promoter Selling Shareholder subsequently decide to proceed with the Offer thereafter;
- (viii) that adequate arrangements shall be made to collect all Bid cum Application Forms submitted by Bidders and Anchor Investor Application Form from Anchor Investors; and
- (ix) that except for any allotment of Equity Shares pursuant to the Pre-IPO Placement, no further issue of Equity Shares shall be made until the Equity Shares issued or offered through the Red Herring

Prospectus are listed or until the Bid monies are refunded / unblocked in the ASBA Accounts on account of non-listing, under-subscription, etc.

### **Undertakings by the Promoter Selling Shareholder**

The Promoter Selling Shareholder undertakes the following in respect of himself as the Promoter Selling Shareholder, and the Offered Shares:

- i. that the Offered Shares are eligible for being offered in the Offer for Sale in terms of Regulation 8 of the SEBI ICDR Regulations and are in 403ecognize403ize403 form;
- ii. that they are the legal and beneficial owner of, and have clear and marketable title to the Offered Shares;
- iii. that they shall not offer any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise to the Bidder for making a Bid in the Offer, and shall not make any payment, direct or indirect, in the nature of discounts, commission, allowance or otherwise to any person who makes a Bid in the Offer;
- iv. that the Equity Shares being sold by them pursuant to the Offer are free and clear of any pre-emptive rights, liens, mortgages, charges, pledges or any other encumbrances and shall be in dematerialized form at the time of transfer and shall be transferred to the eligible investors within the time specified under applicable law;
- v. that he shall provide all reasonable co-operation as requested by our Company in relation to the completion of Allotment and dispatch of the Allotment Advice and CAN, if required, and refund orders to the extent of the Offered Shares;
- vi. that he shall deposit his Equity Shares offered for sale in the Offer in an escrow demat in accordance with the share escrow agreement to be executed between the parties to such share escrow agreement;
- vii. that he shall not have recourse to the proceeds of the Offer for Sale which shall be held in escrow in its favour, until final listing and trading approvals have been received from the Stock Exchanges; and
- viii. that he will provide such reasonable support and extend such reasonable cooperation as may be required by our Company and the BRLM in redressal of such investor grievances that pertain to the Offered Shares.

### **Utilisation of Offer Proceeds**

Our Board certifies that:

- all monies received out of the Offer shall be credited / transferred to a separate bank account other than the bank account referred to in sub-section (3) of Section 40 of the Companies Act;

- details of all monies utilized out of the Fresh Issue shall be disclosed, and continue to be disclosed till the time any part of the Offer proceeds remains unutilized, under an appropriate head in the balance sheet of our Company indicating the purpose for which such monies have been utilized; and
- details of all unutilized monies out of the Fresh Issue, if any shall be disclosed under an appropriate separate head in the balance sheet indicating the form in which such unutilized monies have been invested.

### **Impersonation**

Attention of the Bidders is specifically drawn to the provisions of sub-section (1) of Section 38 of the Companies Act, 2013 which is reproduced below: “*Any person who – (a) makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or (b) makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or (c) otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name, shall be liable for action under Section 447.*” The liability prescribed under Section 447 of the Companies Act, 2013 for fraud involving an amount of at least ₹1.00 million or one per cent of the turnover of the company, whichever is lower, includes imprisonment for a term which shall not be less than six months extending up to 10 years and fine of an amount not less than the amount involved in the fraud, extending up to three times such amount (provided that where the fraud involves public interest, such term shall not be less than three years.) Further, where the fraud involves an amount less than ₹1.00 million or one per cent of the turnover of the company, whichever is lower, and does not involve public interest, any person guilty of such fraud shall be punishable with imprisonment for a term which may extend to five years or with fine which may extend to ₹5.00 million or with both.

## **RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES**

Foreign investment in Indian securities is regulated through the FDI Policy of the Government of India and FEMA and the circulars and notifications issued thereunder. While the FDI Policy prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Government has from time to time made policy pronouncements on foreign direct investment (“FDI”) through press notes and press releases.

The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (“DPIIT”), formerly known as Department of Industrial Policy and Promotion issued the Consolidated FDI Policy Circular of 2020 (“FDI Policy”) by way of circular bearing number DPIIT file number 5(2)/2020-FDI Policy dated October 15, 2020, which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The FDI Policy will be valid until the DPIIT issues an updated circular. Up to 100% foreign investment under the automatic route is currently permitted in the “Manufacturing” sector. For details, see “*Key Industry Regulations and Policies*” on page 210.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“Restricted Investors”), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Each Bidder should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the bidder shall intimate our Company and the Registrar in writing about such approval along with a copy thereof within the Offer Period.

As per the existing policy of the Government, OCBs could not participate in this Offer.

The Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act or any other applicable law of the United States and, unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and in accordance with any applicable U.S. state securities laws. Accordingly, the Equity Shares may be offered and sold outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where such offers and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

For further details, see “*Offer Procedure*” beginning on page 381 of this Red Herring Prospectus.

The above information is given for the benefit of the Bidders. Our Company and the Book Running Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares Bid for did not exceed the applicable limits under laws or regulations.

**Renewal of Certificate**

18. If a certificate be worn out, defaced, destroyed, or lost or if there is no further space on the back thereof for endorsement of transfer, it shall, if requested, be replaced by a new certificatewithout any fee, provided however that such new certificate shall not be given except upon delivery of the worn out or defaced or used up certificate, for the purpose of cancellation, orupon proof of destruction or loss, on such terms as to evidence, advertisement and indemnity and the payment of out of pocket expenses as the Board may require in the case of the certificate having been destroyed or lost. Any renewed certificate shall be marked as such in accordance with the provisions of the act in force.
19. For every certificate issued under the last preceding Article, no fee shall be charged by the Company.

**Splitting and consolidation of Share Certificate**

20. The shares of the Company will be split up/consolidated in the following circumstances:
- (i) At the request of the member/s for split up of shares in marketable lot.
  - (ii) At the request of the member/s for consolidation of fraction shares into marketable lot.

**Directors may issue new Certificate(s)**

21. Where any share under the powers in that behalf herein contained are sold by the Directorsand the certificate thereof has not been delivered up to the Company by the former holder of the said shares, the Directors may issue a new certificate for such shares distinguishing it insuch manner as they think fit from the certificate not so delivered up.

**Person by whom installments are payable**

22. If, by the conditions of allotment of any share, the whole or part of the amount or issue price thereof shall be payable by instalments, every such instalment, shall, when due, be paid to the Company by the person who for the time being and from time to time shall be the registered holder of the share or his legal representative or representatives, if any.

**LIEN**

**Company's lien on shares**

23. The Company shall have first and paramount lien upon all shares other than fully paid-upshares

registered in the name of any member, either or jointly with any other person, and upon the proceeds or sale thereof for all moneys called or payable at a fixed time in respect of such shares and such lien shall extend to all dividends from time to time declared in respect of such shares. But the Directors, at any time, may declare any share to be exempt, wholly or partially from the provisions of this Article. Unless otherwise agreed, the registration of transfer of shares shall operate as a waiver of the Company's lien, if any, on such shares.

#### **As to enforcing lien by sale**

24. For the purpose of enforcing such lien, the Board of Directors may sell the shares subject thereto in such manner as it thinks fit, but no sale shall be made until the expiration of 14 days after a notice in writing stating and demanding payment of such amount in respect of which the lien exists has been given to the registered holders of the shares for the time being or to the person entitled to the shares by reason of the death of insolvency of the register holder.

#### **Authority to transfer**

25. a. To give effect to such sale, the Board of Directors may recognize any person to transfer the shares sold to the purchaser thereof and the purchaser shall be registered as the holder of the shares comprised in any such transfer.  
5. The purchaser shall not be bound to see the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings relating to the sale.

#### **Application of proceeds of sale**

26. The net proceeds of any such sale shall be applied in or towards satisfaction of the said moneys due from the member and the balance, if any, shall be paid to him or the person, if any, entitled by transmission to the shares on the date of sale.

### **CALLS ON SHARES**

#### **Calls**

27. Subject to the provisions of Section 49 of the Act, the Board of Directors may, from time to time, make such calls as it thinks fit upon the members in respect of all moneys unpaid on the shares held by them respectively and not by the conditions of allotment thereof made payable at fixed times, and the member shall pay the amount of every call so made on him to the person and at the time and place appointed by the Board of Directors.

#### **When call deemed to have been made**

28. A call shall be deemed to have been made at the time when the resolution of the Directors recognize such call was passed. The Board of Directors making a call may by resolution determine that the call shall be deemed to be made on a date subsequent to the date of the resolution, and in the absence of such a provision, a call shall be deemed to have been made on the same date as that of the resolution of the Board of Directors making such calls.

#### **Length of Notice of call**

29. Not less than thirty day's notice of any call shall be given specifying the time and place of payment provided that before the time for payment of such call, the Directors may, by notice in writing to the members, extend the time for payment thereof.

#### **Sum payable in fixed instalments to be deemed calls**

30. If by the terms of issue of any share or otherwise, any amount is made payable at any fixed times, or by instalments at fixed time, whether on account of the share or by way of premium, every such amount or instalment shall be payable as if it were a call duly made by the Directors, on which due notice had been given, and all the provisions herein contained in respect of calls shall relate and apply to such amount or instalment accordingly.

#### **When interest on call or instalment payable**

31. If the sum payable in respect of any call or, instalment be not paid on or before the day appointed for payment thereof, the holder for the time being of the share in respect of which the call shall have been made or the instalment shall fall due, shall pay interest for the same at the rate of 12 percent per annum, from the day appointed for the payment thereof to the time of the actual payment or at such lower rate as the Directors may determine. The Board of Directors shall also be at liberty to waive payment of that interest wholly or in part.

#### **Sums payable at fixed times to be treated as calls**

32. The provisions of these Articles as to payment of interest shall apply in the case of non-payment of any such sum which by the terms of issue of a share, become payable at a fixed time, whether on account of the amount of the share or by way of premium, as if the same had become payable by virtue of a call duly made and notified.

#### **Payment of call in advance**

33. The Board of Directors, may, if it thinks fit, receive from any member willing to advance all or any part of the moneys uncalled and unpaid upon any shares held by him and upon all or any part of the moneys so advance may (until the same would, but for such advance become presently payable) pay interest at such rate as the Board of Directors may decide but shall not in respect of such advances confer a right to the dividend or participate in profits.

#### **Partial payment not to preclude forfeiture**

34. Neither a judgement nor a decree in favour of the Company for calls or other moneys due in respect of any share nor any part payment or satisfaction thereunder, nor the receipt by the Company of a portion of any money which shall from, time to time, be due from any member in respect of any share, either by way of principal or interest nor any indulgence granted by the Company in respect of the payment of any such money shall preclude the Company from thereafter proceeding to enforce a forfeiture of such shares as herein after provided.

### **FORFEITURE OF SHARES**

#### **If call or instalment not paid, notice may be given**

35. If a member fails to pay any call or instalment of a call on the day appointed for the payment not paid thereof, the Board of Directors may during such time as any part of such call or instalment remains unpaid serve a notice on him requiring payment of so much of the call or instalment as is unpaid, together with any interest, which may have accrued. The Board may accept in the name and for the benefit of the Company and upon such terms and conditions as may be agreed upon, the surrender of any share liable to forfeiture and so far as the law permits of any other share.

#### **Evidence action by Company against shareholders**

36. On the trial or hearing of any action or suit brought by the Company against any shareholder or his representative to recover any debt or money claimed to be due to the Company in respect of his share, it shall be sufficient to prove that the name of the defendant is or was, when the claim arose, on the Register of shareholders of the Company as a holder, or one of the holders of the number of shares in respect of which such claim is made, and that the amount claimed is not entered as paid in the books of the Company and it shall not be necessary to prove the appointment of the Directors who made any call nor that a quorum of Directors was present at the Board at which any call was made nor that the meeting at which any call was made was duly convened or constituted nor any other matter whatsoever; but the proof of the matters aforesaid shall be conclusive evidence of the debt.

#### **Form of Notice**

37. The notice shall name a further day (not earlier than the expiration of fourteen days from the date of service of the notice), on or before which the payment required by the notice is to be made, and shall state that, in the event of non-payment on or before the day appointed, the shares in respect of which the call was made will be liable to be forfeited.

#### **If notice not complied with, shares may be forfeited**

38. If the requirements of any such notice as, aforementioned are not complied with, any share in respect of which the notice has been given may at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect. Such forfeiture shall include all dividends declared in respect of the forfeited shares and not actually paid before the forfeiture.

#### **Notice after forfeiture**

39. When any share shall have been so forfeited, notice of the resolution shall be given to the member in whose name it stood immediately prior to the forfeiture and an entry of the forfeiture shall not be in any manner invalidated by any omission or neglect to give such notice or to make such entry as aforesaid.

#### **Boards' right to dispose of forfeited shares or cancellation of forfeiture**

40. A forfeited or surrendered share may be sold or otherwise disposed off on such terms and in such manner as the Board may think fit, and at any time before such a sale or disposal, the forfeiture may be cancelled on such terms as the Board may think fit.

#### **Liability after forfeiture**

41. A person whose shares have been forfeited shall cease to be a member in respect of the forfeited

shares but shall, notwithstanding such forfeiture, remain liable to pay and shall forthwith pay the Company all moneys, which at the date of forfeiture is payable by him to the Company in respect of the share, whether such claim be barred by limitation on the date of the forfeiture or not, but his liability shall cease if and when the Company received payment in full of all such moneys due in respect of the shares.

#### **Effect of forfeiture**

42. The forfeiture of a share shall involve in the extinction of all interest in and also of all claims and demands against the Company in respect of the shares and all other rights incidental to the share, except only such of these rights as by these Articles are expressly saved.

#### **Evidence of forfeiture**

43. A duly verified declaration in writing that the declarant is a Director of the Company and that a share in the Company has been duly forfeited on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share, and that declaration and the receipt of the Company for the consideration, if any, given for the shares on the sale or disposal thereof, shall constitute a good title to the share and the person to whom the share is sold or disposed of shall be registered as the holder of the share and shall not be bound to see to the application of the purchase money (if any) nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the share.

#### **Non-payment of sums payable at fixed times**

44. The provisions of these regulations as to forfeiture shall apply in the case of non-payment of any sum which by terms of issue of a share, becomes payable at a fixed time, whether, on account of the amount of the share or by way of premium or otherwise as if the same had been payable by virtue of a call duly made and notified.

#### **Validity of such sales**

45. Upon any sale after forfeiture or for enforcing a lien in purported exercise of the powers herein before given, the Directors may cause the purchaser's name to be entered in the register in respect of the shares sold and may issue fresh certificate in the name of such a purchaser. The purchaser shall not be bound to see to the regularity of the proceedings, nor to the application of the purchase money and after his name has been entered in the register in respect of such shares, the validity of the sale shall not be impeached by any person and the remedy of any person aggrieved by the sale shall be in damages only and against the Company exclusively.

### **TRANSFER AND TRANSMISSION OF SHARES**

#### **Transfer**

- a. The instrument of transfer of any share in the Company shall be executed both by the transferor and the transferee and the transferor shall be deemed to remain holder of the shares until the name of the transferee is entered in the register of members in respect thereof.
- b. The Board shall not register any transfer of shares unless a proper instrument of transfer duly stamped and executed by the transferor and the transferee has been delivered to the Company along with the certificate and such other evidence as the Company may require to prove the title of the transferor or his right to transfer the shares.

Provided that where it is proved to the satisfaction of the Board that an instrument of transfer signed by the transferor and the transferee has been lost, the Company may, if the Board thinks fit, on an application on such terms in writing made by the transferee and bearing the stamp required for an instrument of transfer, register the transfer on such terms as to indemnity as the Board may think fit.

- c. An application for the registration of the transfer of any share or shares may be made either by the transferor or the transferee, provided that where such application is made by the transferor, no registration shall, in the case of partly paid shares, be effected unless the Company gives notice of the application to the transferee. The Company shall, unless objection is made by the transferee within two weeks from the date of receipt of the notice, enter in the register the name of the transferee in the same manner and subject to the same conditions as if the application for registration was made by the transferee.
- d. For the purpose of Sub-clause ©, notice to the transferee shall be deemed to have been duly given if despatched by prepaid registered post to the transferee at the address given in the instrument

of transfer and shall be delivered in the ordinary course of post.

- e. Nothing in Sub-clause (d) shall prejudice any power of the Board to register as a shareholder any person to whom the right to any share has been transmitted by operation of law.

#### **Form of transfer**

47. Shares in the Company shall be transferred by an instrument in writing in such common form as specified in Section 56 of the Companies Act.

#### **Board's right to refuse to register**

48. a. The Board, may, at its absolute discretion and without assigning any reason, decline to register

6. The transfer of any share, whether fully paid or not, to a person of whom it do not approve or
7. Any transfer or transmission of shares on which the Company has a lien
  - a. Provided that registration of any transfer shall not be refused on the ground of the transferor being either alone or jointly with any other person or persons indebted to the Company on any account whatsoever except a lien on the shares.
  - b. If the Board refuses to register any transfer or transmission of right, it shall, within fifteen days from the date of which the instrument or transfer of the intimation of such transmission was delivered to the Company, send notice of the refusal to the transferee and the transferor or to the person giving intimation of such transmission as the case may be.
  - c. In case of such refusal by the Board, the decision of the Board shall be subject to the right of appeal conferred by Section 58.
  - d. The provisions of this clause shall apply to transfers of stock also.

#### **Further right of Board of Directors to refuse to register**

49. a. The Board may, at its discretion, decline to recognize or accept instrument of transfer of shares unless the instrument of transfer is in respect of only one class of shares.

- b. No fee shall be charged by the Company for registration of transfers or for effecting transmission on shares on the death of any member or for registering any letters of probate, letters of administration and similar other documents.

- c. Notwithstanding anything contained in Sub-articles (b) and (c) of Article 46, the Board may not accept applications for sub-division or consolidation of shares into denominations of less than hundred (100) except when such a sub-division or consolidation is required to be made to comply with a statutory order or an order of a competent Court of Law or a request from a member to convert his holding of odd lots, subject however, to verification by the Company.

- d. The Directors may not accept applications for transfer of less than 100 equity shares of the Company, provided however, that these restrictions shall not apply to:

- i. Transfer of equity shares made in pursuance of a statutory order or an order of competent court of law.
- ii. Transfer of the entire equity shares by an existing equity shareholder of the Company holding less than hundred (100) equity shares by a single transfer to joint names.
- iii. Transfer of more than hundred (100) equity shares in favour of the same transferee under one or more transfer deeds, one or more of them relating to transfer of less than hundred (100) equity shares.
- iv. Transfer of equity shares held by a member which are less than hundred (100) but which have been allotted to him by the Company as a result of Bonus and/or Rights shares or any shares resulting from Conversion of Debentures.
- v. The Board of Directors may not accept applications for sub-division or consolidation of shares into denominations of less than hundred (100) except when such sub-division or consolidation is required to be made to comply with a statutory order of a Court of Law or a request from a member to convert his holding of odd lots of shares

into transferable/marketable lots, subject, however, to verification by the Company. Provided that where a member is holding shares in lots higher than the transferable limit of trading and transfers in lots of transferable unit, the residual shares shall be permitted to stand in the name of such transferor notwithstanding that the residual holding shall be below hundred (100).

#### **Rights to shares on death of a member for transmission**

8. a. In the event of death of any one or more of several joint holders, the survivor, or survivors, alone shall be entitled to 415ecognize415ed as having title to the share. In the event of death of any sole holder or of the death of last surviving holder, the executors or administrators of such holder or other person legally entitled to the shares shall be entitled to be recognised by the Company as having title to the shares of the deceased.

Provided that on production of such evidence as to title and on such indemnity or other terms as the Board may deem sufficient, any person may be recognised as having title to the shares as heir or legal representative of the deceased shareholder.

Provided further that if the deceased shareholder was a member of a Hindu Joint Family, the Board, on being satisfied to that effect and on being satisfied that the shares standing in his name in fact belonged to the joint family, may recognise the survivors of Kartathereof as having titles to the shares registered in the name of such member.

Provided further that in any case, it shall be lawful for the Board in its absolute discretion, to dispense with the production of probate or letters of administration or other legal representation upon such evidence and such terms as to indemnity or otherwise as the Board may deem just.

#### **Rights and liabilities of person**

50. 1. Any person becoming entitled to a share in consequence of the death or insolvency of a member may, upon such evidence being produced as may from time to time be required by the Board and subject as herein, after provided elect either
- a. to be registered himself as a holder of the share or
  - b. to make such transfer of the share as the deceased or insolvent member could have made. The Board, shall, in either case, have the same right to decline or suspend registration as it would have had, if the deceased or insolvent member had transferred the share before his death or insolvency.

#### **Notice by such a person of his election**

51. a. If the person so becoming entitled shall elect to be registered as holder of the shares himself, he shall deliver or send to the Company a notice in writing signed by him stating that he so elects.
- b. If the person aforesaid shall elect to transfer the share, he shall testify his election by executing a transfer of the share.
- c. All the limitations, restrictions and provisions of these regulations relating to the right to transfer and the registration of transfers of shares shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the member had not occurred and the notice of transfer had been signed by that member.

#### **No transfer to infant, etc.**

52. No transfer shall be made to an infant or a person of unsound mind.

#### **Endorsement of transfer and issue of certificate**

53. Every endorsement upon the certificate of any share in favour of any transferee shall be signed by the Secretary or by some person for the time being du415ecognize415ed by the Board in that behalf.

#### **Custody of transfer**

54. The instrument of transfer shall, after registration, remain in the custody of the Company. The Board may cause to be destroyed all transfer deeds lying with the Company for a period of ten years or more.

#### **Register of members**

55. a. The Company shall keep a book to be called the Register of Members, and therein shall be entered the particulars of every transfer or transmission of any share and all other particulars of shares required by the Act to be entered in such Register.

#### **Closure of Register of members**

- b. The Board may, after giving not less than seven days previous notice by advertisement in some

newspapers circulating in the district in which the Registered Office of the Company is situated, close the Register of Members or the Register of Debenture Holders for any period or periods not exceeding in the aggregate forty-five days in each year but not exceeding thirty days at any one time.

#### **When instruments of transfer to be retained**

- c. All instruments of transfer which shall be registered shall be retained by the Company but any instrument of transfer which the Directors may decline to register shall be returned to the person depositing the same.

#### **Company's right to register transfer by apparent legal owner**

56. The Company shall incur no liability or responsibility whatever in consequence of their registering or giving effect to any transfer of shares made or purporting to be made by any apparent legal owner thereof (as shown or appearing in the Register of Members) to the prejudice of persons having or claiming any equitable right, title or interest to or in the same shares notwithstanding that the Company may have had notice of such equitable right or title or interest prohibiting registration of such transfer and may have entered such notice referred thereto in any book of the Company and the Company shall not be bound by or required to regard or attend to or give effect to any notice which may be given to it of any equitable right, title or interest or be under any liability whatsoever for refusing or neglecting so to do, though it may have been entered or referred to in the books of the Company; but the Company shall nevertheless be at liberty to have regard and to attend to any such notice and give effect thereto, if the Board shall so think fit.

### **ALTERATION OF CAPITAL**

#### **Alteration and consolidation, sub-division and cancellation of shares**

57. a. The Company may, from time to time, in accordance with the provisions of the Act, alter by Ordinary Resolution, the conditions of the Memorandum of Association as follows:
1. increase its share capital by such amount as it thinks expedient by issuing new shares;
  2. consolidate and divide all or any of its share capital into shares of larger amount than its existing shares;
  3. convert all or any of its fully paid-up shares into stock, and reconvert that stock into fully paid-up shares of the denomination;
  4. sub-divide its shares, or any of them, into shares of smaller amount than is fixed by the Memorandum, so however, that in the sub-division the proportion between the amount paid and the amount, if any, unpaid, on each reduced share shall be the same as it was in the case of the shares from which the reduced share is derived.
  10. a. Cancel shares which, at the date of passing of the resolution in that behalf, have not been taken or agreed to be taken by any person, and diminish the amount of its share capital by the amount of the shares so cancelled. The resolution whereby any share is sub-divided may determine that, as between the holder of the shares resulting from such sub-division, one or more such shares shall have some preference or special advantage as regards dividend, capital or otherwise over or as compared with the others.
  5. Classify and reclassify its share capital from the shares on one class into shares of other class or classes and to attach thereto respectively such preferential, deferred, qualified or other special rights, privileges, conditions or restrictions and to vary, modify or abrogate any such rights, privileges, conditions or restrictions in such manner as may for the time being be permitted under legislative provisions for the time being in force in that behalf.

#### **Reduction of capital, etc. by Company**

58. The Company may, by Special Resolution, reduce in any manner with and subject to any incidence and consent as required by law:
- a. its share capital;
  - b. any capital redemption reserve account; or
  - c. any share premium account.

### **Set-off of moneys due to shareholders**

61. Any money due from the Company to a shareholder may, without the consent of such shareholder, be applied by the Company in or towards payment of any money due from him, either alone or jointly with any other person, to the Company in respect of calls.

## **CONVERSION OF SHARES INTO STOCK**

### **Conversion of shares**

62. The Company may, by Ordinary Resolution, convert all or any fully paid share(s) of any denomination into stock and vice versa.

### **Transfer of stock**

63. The holders of stock may transfer the same or any part thereof in the same manner as, and subject to the same regulations, under which, the shares from which the stock arose might before the conversion have been transferred, or as near thereto as circumstances admit; provided that the Board may, from time to time, fix the minimum amount of stock transferable, so, however, that such minimum shall not exceed the nominal amount of the shares from which the stock arose.

### **Right of stockholders**

64. The holders of the stock shall, according to the amount of the stock held by them, have the same rights, privileges and advantages as regards dividends, voting at meetings of the Company and other matters, as if they held the shares from which the stock arose, but no such privilege or advantage (except participation in the dividends and profits of the Company and its assets on winding up) shall be conferred by an amount of stock which would not, if existing in shares, have conferred that privilege or advantage.

### **Applicability of regulations to stock and stockholders**

65. Such of the regulations contained in these presents, other than those relating to share warrants as are applicable to paid-up shares shall apply to stock and the words shares and shareholder in these presents shall include stock and stockholder respectively.
